# NOTIFICATION FOR WASTES RESTRICTED FROM LAND DISPOSAL — (Initial Waste Generator Only) —

I am supplying this notice and certification to Clayton Chemical Co in accordance with the requirements of regulations at 40 CFR 268.7 I have determined that the material described below is a restricted waste as defined in 40 Part CFR 268. I have indicated below the type of material which is covered by this notification. I have also indicated below the appropriate management required to comply with the prohibitions on land disposal for this material

	od Bolon tilo appropri	ate management rec	dange to comply with	tio profibitions of t		
GENERATOR'S NAME   Mor	ey Corp. 7   MANIFEST	NO. LIL 62		D. NUMBER II LLI		
PROHIBITIONS AND RESTRICTIONS	Complete a column fo	r each waste number t	reed to identify the war	ste, as applicable, by c	ompleting blocks and o	checking (🗸) boxes.
1. U.S. EPA Waste Number:	D001					
2. Subcategory:	Ign. Liq. High TOC					
3- Treatability Group: • Wastewater • Non-Wastewater						
4. This waste is subject to a treatment standard under 40 CFR 268.41(a):  • Waste Requires Treatment  • Waste Does Not Require Treatment	00	0	0		0	0
5. This waste is subject to a treatment standard under 40 CFR 268.42(a): (include Technology Codes)	SUBSINCIN RORGS			·		
6. This waste is subject to a treatment standard under 40 CFR 268.42(a) for wastes containing ≥1,000 ppm Appendix in HOCs for which specific treatment standards do not apply: (INCIN)	0					
7. This waste is subject to a treatment standard under 40 CFR 268,43(a):  • Waste Requires Treatment  • Waste Does Not Require Treatment	0	0	<u> </u>			0
8. This waste is subject to a prohibition under 40 CFR 268.32(a) or RCRA Sec. 3004(d): (California List prohibitions)						
9. This waste is a Lab Pack subject to the alternative treatment standard under 40 CFR 268.42(a): (INCIN)  Appendix IV (organometallic lab pack)  Appendix V (organic lab pack)						
10. This waste is hazardous debris subject to the alternative treatment standard under 40 CFR 268.45(a):						
11.(Reserved)						
12. This waste is subject to an exemption from treatment under:  a national capacity variance  a Case-by-case extension  (reserved)	00	0		00	0 0	000
The exemption expires esc					•

Environmental Waste Resources P.O. Box 160 Coal City, IL 60416 (815) 634-2211 TWX 910 642 2955

Date: February 11,1994	
Reference · Manifest Number:	IL 4865168
_	

Reference Manifest Date:

Attached you will find the original copy of your Illinois Environmental Protection Agency Manifest in reference to waste material that you shipped to EWR.

2-9-94

Environmental Waste Resources certifies that materials received from the enclosed manifest have entered our treatment process for secondary fuel.

Thank you for allowing us to help you dispose of your waste material within all applicable regulatory and permit requirements.

E.W.R., Inc

Marketing Department

Mary A. Gade, Director

2200 Churchill Road, Springfield, IL 62794-9276

217/782-5563

Dear Environmental Coordinator:

The enclosed manifest copy was sent to us in error. For hasardous waste shipments, the Illinois Environmental Protection Agency (IEPA) should be sent only the part 5 (green) copy by the company generating the waste, and the part 2 (yellow) copy from the facility accepting the waste. Please familiarize yourself with the below listed distribution information to avoid future problems.

DISTRIBUTION - After the generator and transporter have completed their respective items and have signed the manifest, the generator should pull the bottom two copies prior to releasing the manifested load to the transporter. The generator must keep the part 6 (blue) copy and forward part 5 (green) to the Illinois Environmental Protection Agency within two working days of the load being shipped.

When the designated facility receives the manifested waste, the owner or operator, or authorized representative must sign and date the manifest to certify receipt of the waste described on the manifest. Upon receipt, the transporter shall be given part 4 (gold) of the manifest for their records. Within thirty days of receipt of the waste, the facility must send the part 2 (yellow) copy to the IEPA and the original part 1 (white) copy to the generator. The remaining part 3 (pink) copy must be retained by the facility. All copies must be retained for a minimum of three years by all parties.

For nonhazardous waste shipments, no copies of the manifest shall be sent to the IEPA. Instead an Annual Report must be submitted.

If you have any questions, contact the Bureau of Land's Environmental Information Support Sub-Unit at the above number.

Sincerely,

Michael Walver, Manager

Environmental Information Support Unit

Bureau of Land

This Agency is authorized to require, pursuant to Illinois Revised Statute, 1989, Chapter 111 1/2, Section 1004 and 1021, that this information be authorized to the Agency. Failure to provide this information may result in a rive penalty against the owner or operator not to exceed \$25,000 per day of violation. Failaffication of this information may result in a fine up to \$50,000 per day of violation and imprisonment up to 5 years. This form has been approved by the Forms Management Center.

The Illinois Uniform Manifest must be used for all shipments of special waste (hazardous and nonhazardous) stored, disposed of, treated or reclaimed in Illinois; and for all shipments originating in Illinois and destined for states that do not print and supply the form. PIMW (Potentially Infectious Medical Waste) requires a different manifest. For shipments not originating in Illinois, if the generator's state requires copies of the manifest, a photocopy of part 1 should be used.

INSTRUCTIONS TO GENERATORS (Please type)

(1) Enter generator's USEPA twelve digit identification number and the unique five digit document number assigned to this Manifest (eg. 00001) by the generator.

(2) Enter total number of pages comprising this Manifest.

- (3) Enter generator's name and mailing address. If location of waste generation is different from mailing address, enter location to the right of mailing address.
- (4) Enter telephone number where an authorized agent of the generator, who has knowledge of the waste, may be reached in the event of an emergency.

(B) Enter the generator's Illinois EPA ten digit identification number.

- (5,6,C,D) For the first transporter who will transport the waste, enter the company name, US EPA ID number, Illinois EPA four digit Special Waste Hauling (SWH) permit number, and telephone number where an authorized agent of the transporter may be reached in the event of an emergency.
- (7,8,E,F) If applicable, enter the information requested for the second transporter who will transport the waste. If more than two transporters are used, use a second manifest and in Section 15 of the second manifest enter "Continuation of Manifest Number xxxxxxx" (from Section A).

(9,10,G,H) For the facility designated to receive the waste, enter company name, address, US EPA ID number, Illinois EPA ten digit facility code number, and telephone number where an authorized agent of the receiving facility may be reached.

- (11) Enter the US DOT Proper Shipping Name, Hazard Class, and ID number (NA/UN number) for each waste as identified in 49 CFR 171 through 177. For wastes not regulated as Hazardous Materials by DOT, enter a description of the waste and the generic name of the waste, plus the phrase "not hazardous by DOT." If more than four waste streams are in a shipment, complete a second manifest.
- (12) Enter the number of containers for each waste and the appropriate abbreviations for the type of container:

TP

CMMetal boxes or roll-offs DM Metal drums CW DW Wooden boxes Wooden drums CF DF Fiberboard or plastic boxes Fiberboard or plastic drums Burlap, cloth, paper or plastic bags BA CY Cylinders DT Dump trucks TC Tank cars TT Tank trucks

Enter the total quantity (gallons or cubic yards) of each waste; round to nearest whole number, do not use decimals or fractions.

(14) Enter G if quantity is in gallons or Y if quantity is in cubic yards. No other unit is to be used. To track weight if desired, enter pounds, tons or kilograms in Section J.

Tanks portable

(I) Enter the EPA 4 digit Hazardous Waste Number: if waste is a mixture of listed and characteristic wastes, the listed waste must be entered - other numbers should be listed in Section J. For nonhazardous special wastes, enter Class A. Enter the Illinois EPA six digit waste stream permit (authorization) number for the waste stream (these numbers are specific for each waste stream and companies, and are obtained from the receiving facility) (leave blank for waste going out of Illinois).

(J,K) If needed, enter additional description or information/instructions for the material listed in item 11.

- (15) If needed, indicate special transportation, treatment, storage, or disposal information, or Bill of Lading information. For international shipments, generators must enter the point of departure (City and State) for shipments destined for treatment, storage, or disposal outside the jurisdiction of the United States in this space.
- (16) The generator must read, sign (by hand), and date the certification statement. If a mode other than highway is used, the word "highway" should be lined out and the appropriate mode (rail, water, or air) inserted in the space below. If another mode in addition to highway is used, enter the appropriate additional mode.

GENERATOR: RETAIN COPY 6 AND MAIL COPY 5 TO IEPA WITHIN 2 DAYS OF THE SHIPMENT

INSTRUCTIONS TO TRANSPORTER: (17,18) The person accepting the waste on behalf of the transporter must acknowledge acceptance of the waste described on the Manifest by signing and entering the date of receipt. UPON DELIVERY OF WASTE TO FACILITY, retain copy 4 and leave remaining copies with the facility owner/operator.

INSTRUCTIONS TO OWNERS AND OPERATORS OF TREATMENT, STORAGE, OR DISPOSAL FACILITIES:

- (19) The authorized representative of the designated (or alternate) facility's owner or operator must note in Item 19 any significant discrepancy (as defined in 35 Ill. Adm. Code 725.172) between the waste described on the Manifest and the waste actually recieved at the facility. Reference the discrepancy by line A, B, C, or D.
- (20) Print or type name of the person accepting the waste on behalf of the owner or operator of the facility. That person must acknowledge acceptance of the waste by signing and entering the date of receipt.

  Retain copy 3, send copy 1 to the generator, and send copy 2 to Illinois EPA (within 30 days of the delivery).

Public reporting burden for this collection of information is estimated to average: 37 minutes for generators, 15 minutes for transporters, and 10 minutes for treatment, storage and disposal facilities. This includes time for reviewing instructions, gathering data, and completing and reviewing the form.

Send comments regarding the burden estimate, including suggestions for reducing this burden, to: Chief, Information Policy Branch, PM-223, U.S. Environmental Protection Agency, 401 M Street SW., Washington, DC 20480; and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503.

-- (Initial Waste Generator Only) --

I am supplying this notice and certification to Clayton Chemical Co in accordance with the requirements of regulations at 40 CFR 268.7 I have determined that the material described below is a restricted waste as defined in 40 Part CFR 268. I have indicated below the type of material which is covered by this notification. I have also indicated below the appropriate management required to comply with the prohibitions on land disposal for this material.

to filinois Revised Statute, 1986, Chepter 111 1/2, Section 1004 and 1021, that this information be submitted to the Agency. Failure to provide nel the owner or operator not to exceed \$25,000 per day of violation. Failification of this information may result in a fine up to \$50,000 are. This form has been approved by the Forms Management Center.

The Illinois Uniform Manifest must be used for all shipments of special waste (hazardous and nonhazardous) stored, disposed of, treated or reclaimed in Illinois; and for all shipments originating in Illinois and destined for states that do not print and supply the form. PIMW (Potentially Infectious Medical Waste) requires a different manifest. For shipments not originating in Illinois, if the generator's state requires copies of the manifest, a photocopy of part 1 should be used.

INSTRUCTIONS TO GENERATORS (Please type)

(1) Enter generator's USEPA twelve digit identification number and the unique five digit document number assigned to this Manifest (eg. 00001) by the generator.

(2) Enter total number of pages comprising this Manifest.

- (3) Enter generator's name and mailing address. If location of waste generation is different from mailing address, enter location to the right of mailing address.
- (4) Enter telephone number where an authorized agent of the generator, who has knowledge of the waste, may be reached in the event of an emergency.

(B) Enter the generator's Illinois EPA ten digit identification number.

- (5,6,C,D) For the first transporter who will transport the waste, enter the company name, US EPA ID number, Illinois EPA four digit Special Waste Hauling (SWH) permit number, and telephone number where an authorized agent of the transporter may be reached in the event of an emergency.
- (7,8,E,F) If applicable, enter the information requested for the second transporter who will transport the waste. If more than two transporters are used, use a second manifest and in Section 15 of the second manifest enter "Continuation of Manifest Number xxxxxxx" (from Section A).

(9.10,G,H) For the facility designated to receive the waste, enter company name, address, US EPA ID number, Illinois EPA ten digit facility code number, and telephone number where an authorized agent of the receiving facility may be reached.

- (11) Enter the US DOT Proper Shipping Name, Hazard Class, and ID number (NA/UN number) for each waste as identified in 49 CFR 171 through 177. For wastes not regulated as Hazardous Materials by DOT, enter a description of the waste and the generic name of the waste, plus the phrase "not hazardous by DOT." If more than four waste streams are in a shipment, complete a second manifest.
- (12) Enter the number of containers for each waste and the appropriate abbreviations for the type of container:

TP

DM CM Metal boxes or roll-offs Metal drums CW Wooden boxes DW Wooden drums CF DF Fiberboard or plastic boxes Fiberboard or plastic drums Burlap, cloth, paper or plastic bags CY Cylinders BA DT Dump trucks TC Tank cars TT Tank trucks

Enter the total quantity (gallons or cubic yards) of each waste; round to nearest whole number, do not use decimals or fractions.

[14] Enter G if quantity is in gallons or Y if quantity is in cubic yards. No other unit is to be used. To track weight if desired, enter pounds, tons or kilograms in Section J.

Tanks portable

- (I) Enter the EPA 4 digit Hazardous Waste Number: if waste is a mixture of listed and characteristic wastes, the listed waste must be entered other numbers should be listed in Section J. For nonhazardous special wastes, enter Class A. Enter the Illinois EPA six digit waste stream permit (authorization) number for the waste stream (these numbers are specific for each waste stream and companies, and are obtained from the receiving facility) (leave blank for waste going out of Illinois).
- (J,K) If needed, enter additional description or information/instructions for the material listed in item 11.
- (15) If needed, indicate special transportation, treatment, storage, or disposal information, or Bill of Lading information. For international shipments, generators must enter the point of departure (City and State) for shipments destined for treatment, storage, or disposal outside the jurisdiction of the United States in this space.
- (16) The generator must read, sign (by hand), and date the certification statement. If a mode other than highway is used, the word "highway" should be lined out and the appropriate mode (rail, water, or air) inserted in the space below. If another mode in addition to highway is used, enter the appropriate additional mode.

GENERATOR: RETAIN COPY 6 AND MAIL COPY 5 TO IEPA WITHIN 2 DAYS OF THE SHIPMENT

INSTRUCTIONS TO TRANSPORTER: (17,18) The person accepting the waste on behalf of the transporter must acknowledge acceptance of the waste described on the Manifest by signing and entering the date of receipt. UPON DELIVERY OF WASTE TO FACILITY, retain copy 4 and leave remaining copies with the facility owner/operator.

INSTRUCTIONS TO OWNERS AND OPERATORS OF TREATMENT, STORAGE, OR DISPOSAL FACILITIES:

- (19) The authorized representative of the designated (or alternate) facility's owner or operator must note in Item 19 any significant discrepancy (as defined in 35 Ill. Adm. Code 725.172) between the waste described on the Manifest and the waste actually recieved at the facility. Reference the discrepancy by line A, B, C, or D.
- (20) Print or type name of the person accepting the waste on behalf of the owner or operator of the facility. That person must acknowledge acceptance of the waste by signing and entering the date of receipt.

  Retain copy 3, send copy 1 to the generator, and send copy 2 to Illinois EPA (within 30 days of the delivery).

Public reporting burden for this collection of information is estimated to average: 37 minutes for generators, 15 minutes for transporters, and 10 minutes for treatment, storage and disposal facilities. This includes time for reviewing instructions, gathering data, and completing and reviewing the form.

Send comments regarding the burden estimate, including suggestions for reducing this burden, to: Chief, Information Policy Branch, PM-223, U.S. Environmental Protection Agency, 401 M Street SW., Washington, DC 20480; and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503.

The Illinois Uniform Manifest must be used for all shipments of special waste (hazardous and nonhazardous) stored, disposed of, treated or reclaimed in Illinois; and for all shipments originating in Illinois and destined for states that do not print and supply the form. PIMW (Potentially Infectious Medical Waste) requires a different manifest. For shipments not originating in Illinois, if the generator's state requires copies of the manifest, a photocopy of part 1 should be used.

#### INSTRUCTIONS TO GENERATORS (Please type)

(1) Enter generator's USEPA twelve digit identification number and the unique five digit document number assigned to this Manifest (eg. 00001) by the generator.

(2) Enter total number of pages comprising this Manifest.

- (3) Enter generator's name and mailing address. If location of waste generation is different from mailing address, enter location to the right of mailing address.
- (4) Enter telephone number where an authorized agent of the generator, who has knowledge of the waste, may be reached in the event of an emergency.

(B) Enter the generator's Illinois EPA ten digit identification number.

- (5,6,C,D) For the first transporter who will transport the waste, enter the company name, US EPA ID number, Illinois EPA four digit Special Waste Hauling (SWH) permit number, and telephone number where an authorized agent of the transporter may be reached in the event of an emergency.
- (7,8,E,F) If applicable, enter the information requested for the second transporter who will transport the waste. If more than two transporters are used, use a second manifest and in Section 15 of the second manifest enter "Continuation of Manifest Number xxxxxxx" (from Section A).

(9,10,G,H) For the facility designated to receive the waste, enter company name, address, US EPA ID number, Illinois EPA ten digit facility code number, and telephone number where an authorized agent of the receiving facility may be reached.

(11) Enter the US DOT Proper Shipping Name, Hazard Class, and ID number (NA/UN number) for each waste as identified in 49 CFR 171 through 177. For wastes not regulated as Hazardous Materials by DOT, enter a description of the waste and the generic name of the waste, plus the phrase "not hazardous by DOT." If more than four waste streams are in a shipment, complete a second manifest.

(12) Enter the number of containers for each waste and the appropriate abbreviations for the type of containers

CM Metal drums Metal boxes or roll-offs DM CW Wooden boxes DW Wooden drums CF Fiberboard or plastic boxes DF Fiberboard or plastic drums BA Burlap, cloth, paper or plastic bags CY Cylinders DT Dump trucks TC Tank cars TT Tank trucks

TP - Tanks portable

- Enter the total quantity (gallons or cubic yards) of each waste; round to nearest whole number, do not use decimals or fractions.

  (14) Enter G if quantity is in gallons or Y if quantity is in cubic yards. No other unit is to be used. To track weight if desired, enter pounds, tons or kilograms in Section J.
- (I) Enter the EPA 4 digit Hazardous Waste Number: if waste is a mixture of listed and characteristic wastes, the listed waste must be entered other numbers should be listed in Section J. For nonhazardous special wastes, enter Class A. Enter the Illinois EPA six digit waste stream permit (authorization) number for the waste stream (these numbers are specific for each waste stream and companies, and are obtained from the receiving facility) (leave blank for waste going out of Illinois).

(J,K) If needed, enter additional description or information/instructions for the material listed in item 11.

- (15) If needed, indicate special transportation, treatment, storage, or disposal information, or Bill of Lading information. For international shipments, generators must enter the point of departure (City and State) for shipments destined for treatment, storage, or disposal outside the jurisdiction of the United States in this space.
- (16) The generator must read, sign (by hand), and date the certification statement. If a mode other than highway is used, the word "highway" should be lined out and the appropriate mode (rail, water, or air) inserted in the space below. If another mode in addition to highway is used, enter the appropriate additional mode.

GENERATOR: RETAIN COPY 6 AND MAIL COPY 5 TO IEPA WITHIN 2 DAYS OF THE SHIPMENT

INSTRUCTIONS TO TRANSPORTER: (17,18) The person accepting the waste on behalf of the transporter must acknowledge acceptance of the waste described on the Manifest by signing and entering the date of receipt. UPON DELIVERY OF WASTE TO FACILITY, retain copy 4 and leave remaining copies with the facility owner/operator.

INSTRUCTIONS TO OWNERS AND OPERATORS OF TREATMENT, STORAGE, OR DISPOSAL FACILITIES:

(19) The authorized representative of the designated (or alternate) facility's owner or operator must note in Item 19 any significant discrepancy (as defined in 35 III. Adm. Code 725.172) between the waste described on the Manifest and the waste actually recieved at the facility. Reference the discrepancy by line A, B, C, or D.

(20) Print or type name of the person accepting the waste on behalf of the owner or operator of the facility. That person must acknowledge acceptance of the waste by signing and entering the date of receipt.

Retain copy 3, send copy 1 to the generator, and send copy 2 to Illinois EPA (within 30 days of the delivery).

Public reporting burden for this collection of information is estimated to average: 37 minutes for generators, 15 minutes for transporters, and 10 minutes for treatment, storage and disposal facilities. This includes time for reviewing instructions, gathering data, and completing and reviewing the form.

Send comments regarding the burden estimate, including suggestions for reducing this burden, to: Chief, Information Policy Branch, PM-223, U.S. Environmental Protection Agency, 401 M Street SW., Washington, DC 20480; and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503.

-- (Initial Waste Generator Only) --

I am supplying this notice and certification to Clayton Chemical Co in accordance with the requirements of regulations at 40 CFR 268.71 have determined that the material described below is a restricted waste as defined in 40 Part CFR 268. I have indicated below the type of material which is covered by this notification. I have also indicated below the appropriate management required to comply with the prohibitions on land disposal for this material.

# NOTIFICATION FOR WASTES RESTRICTED FROM LAND DISPOSAL — (Initial Waste Generator Only) —

I am supplying this notice and certification to Clayton Chemical Co in accordance with the requirements of regulations at 40 CFR 268.7 I have determined that the material described below is a restricted waste as defined in 40 Part CFR 268. I have indicated below the type of material which is covered by this notification. I have also indicated below the appropriate management required to comply with the prohibitions on land disposal for this material.

GENERATOR'S NAME Morey Corp. J GEN. EPA I.D. NUMBER LL ID 10 12 15 4 1 5 12 16 161

## NOTIFICATION FOR WASTES RESTRICTED FROM LAND DISPOSAL — (Initial Waste Generator Only) —

I am supplying this notice and certification to Clayton Chemical Co in accordance with the requirements of regulations at 40 CFR 268.7 I have determined that the material described below is a restricted waste as defined in 40 Part CFR 268. I have indicated below the type of material which is covered by this notification. I have also indicated below the appropriate management required to comply with the prohibitions on land disposal for this material.

The Illinois Uniform Manifest must be used for all shipments of hazardous waste stored, disposed of, treated, or reclaimed in Illinois; and for all shipments originating in Illihois and destined for states that do not print and supply the form. For shipments not originating in Illinois, if the ... generator's state requires copies of the manifest, a photocopy of part I should be used.

INSTRUCTIONS TO GENERATORS (Please type)

Enter generator's USEPA twelve digit identification number and the unique five digit document number assigned to this Manifest ic g. (00001) by the generator.

Enter total number of pages comprising this Manifest. (2)

- Enter generator's name and mailing address. If location of waste generation is different from mailing address, enter location to the right (3)of mailing address.
- Enter telephone number where an authorized agent of the generator, who has knowledge of the waste, may be reached in the event of an (4) emergency.

Enter the generator's Illinois EPA ten digit identification number.

- For the first transporter who will transport the waste, enter the company name, US EPA 1D number, Illinois EPA four digit Special (5.6,C.D) Waste Hauling (SWH) permit number, and telephone number where an authorized agent of the transporter may be reached in the event of an emergency.
- If applicable, enter the information requested for the second transporter who will transport the waste. If more than two (7,8,E,F) transporters are used, use a second manifest and in Section 15 of the second manifest enter "Continuation of Manifest Number xxxxxxxx" from Section A).

(9,10,G,H) For the facility designated to receive the waste, enter company name, address, US EPA ID number, Illinois EPA ten digit facility ende number, and telephone number where an authorized agent of the receiving facility may be reached.

Enter the US DOT Proper Shipping Name, Hazard Class, and ID number (NA/UN number) for each waste as identified in 49 CFR 171 through 177. For wastes not regulated as Hazardous Materials by DOT, enter a description of the waste and the generic name of the waste, plus the phrase "not hazardous by DOT." If more than four waste streams are in a shipment, complete a second manifest.

Enter the number of containers for each waste and the appropriate abbreviation for the type of container: (12)

CM = Metal Boxes or roll-offs DM =Metal drums CW =Wooden boxes DW = Wooden drums

CF = Fiberboard or plastic boxes DF Fiberboard or plastic drums

BA = Burlap, cloth, paper, or plastic bags CY = Cylinders Dump trucks TT = Tank trucks Tank cars TP Tanks portable TC

- Enter the total quantity (gallons or cubic yards) of each waste; round to nearest whole number, do not use decimals or fractions. (13)
- (14)Enter 1 if quantity is in gallons or 2 if quantity is in cubic yards. No other unit is to be used. To track weight if desired, enter pounds, tons, or kilograms in Section J.
- Enter the EPA 4 digit Hazardous Waste Number: if waste is a mixture of listed and characteristic wastes, the listed waste must be entered - - other numbers should be listed in Section J. Enter the Illinois EPA six digit waste stream permit (authorization) number for the waste stream (these numbers are specific for each waste stream and companies) (leave blank for waste going out of Illinois).

If needed, enter additional description or information/instructions for the material listed in item 11. (J,K)

- (15) If needed, indicate special transportation, treatment, storage, or disposal information, or Bill of Lading information. For international shipments, generators must enter the point of departure (City and State) for shipments destined for treatment, storage, or disposal outside the jurisdiction of the United States in this space.
- The generator must read, sign (by hand), and date the certification statement. If a mode other than highway is used, the word "highway" should be lined out and the appropriate mode (rail, water, or air) inserted in the space below. If another mode in addition to highway is used, enter the appropriate additional mode.

GENERATOR: RETAIN COPY 6 AND MAIL COPY 5 TO IEPA WITHIN 2 DAYS OF THE SHIPMENT.

INSTRUCTIONS TO TRANSPORTER: (17,18)The person accepting the waste on behalf of the transporter must acknowledge acceptance of the waste described on the Manifest by signing and entering the date of receipt. UPON DELIVERY OF WASTE TO FACILITY, retain copy 4 and leave remaining copies with the facility owner/operator.

INSTRUCTIONS TO OWNERS AND OPERATORS OF TREATMENT, STORAGE, OR DISPOSAL FACILITIES:

The authorized representative of the designated (or alternate) facility's owner or operator must note in Item 19 any significant discrepancy (as defined in 35 Ill. Adm. Code 725.172) between the waste described on the Manifest and the waste actually received at the facility. Reference the discrepancy by line A, B, C, or D.

Print or type name of the person accepting the waste on behalf of the owner or operator of the facility. That person must acknowledge acceptance of the waste by signing and entering the date of receipt.

Retain copy 3, send copy 1 to the generator, and send copy 2 to Illinois EPA (within 30 days of the delivery).

collection of information is estimated to average: 37 minutes for generators, 15 minutes for transporters, and 10 minutes for treatment, storage and disposal facilities. This includes time for reviewing instructions, gathering data, and completing and reviewing the

Public reporting burden for this Send comments regarding the burden estimate, including suggestions for reducing this burden, to; Chief, Information Policy Branch, PM-223, U.S. Environmental Protection Agency, 401 M. 1	This Agency is authorized to require, pursuant to Illinois Revised Statutes,	Chapter 171% Section 21, that this inform	ation to glibmitted to the A	gency. Failure t	provide the inf	ormeties stay result	in a civil penalty against the o	ADDOC!

The Illinois Uniform Manifest must be used for all shipments of hazardous wastostored, disposed of, treated, or reclaimed in Illinois; and for all shipments originating in Illinois and destined for states that do not print and supply the form. For shipments not originating in Illinois, if the generator's state requires copies of the manifest, a photocopy of part I should be used.

INSTRUCTIONS TO GENERATORS (Please type)

(1) Enter generator's USFPN twelve digit identification number and the unique five digit document number assigned to this Manifest (e.g. 00001) by the generator.

(2) . Enter total number of pages comprising this Manifest.

(3) Enter generator's name and mailing address. If location of waste generation is different from mailing address, enter location to the right of mailing address.

(4) Enter telephone number where an authorized agent of the generator, who has knowledge of the waste, may be reached in the event of an emergency =

(B) I neer the generator's Illinois EPA ten digit identification number.

(5.6.C.D) For the first transporter who will transport the waste, enter the company name, US EPA ID number, Illinois EPA four digit Special Waste Hauling (5.WH) permit number, and telephone number where an authorized agent of the transporter may be reached in the event of an emergency

(7,8,8,8) If applicable error the information requested for the second transporter who will transport the waste. If more than two transporters are used, use a second manifest and in Section 15 of the second manifest enter "Continuation of Manifest Number xxxxxxx" tree Section A).

(9.19 (6.4) For the facility designated to receive the waste, enter company name, address, US EPA ID number, Illinois EPA ten digit facility code number, and telephone number where an authorized agent of the receiving facility may be reached.

(11) Enter the US DOT Proper Shipping Name, Hazard Class, and ID number (NA UN number) for each waste as identified in 40 CFR 171 through 177 For wastes not regulated as Hazardous Materials by DOT, enter a description of the waste and the generic name of the waste, plus the phrase "not hazardous by DOT," If more than four waste streams are in a shipment, complete a second marries.

(12) I later the number of combiners for each waste and the appropriate abbreviation for the tyre of container:

CM : Metal Boxes or roll offs DM = Metal drums
CW = Wooden boxes DW = Wooden drut

CW = Wooden boxes DW = Wooden drums
CF = Fiberboard or plastic boxes DF = Fiberboard or plastic drums

RA = Burlap, cloth, paper, or plastic bags

CY = Cylinders

TT = Tank trucks

TO = Tank cars

TP = Tanks portable

(i3) Enter the total quantity (gallons or cubic yards) of each waste; round to nearest whole number, do not use decimals or fractions.

[14] Enter I if quantity is in gollons or 2 if quantity is in cubic yards. No other unit is to be used. To track weight if desired, enter pounds, tons, or kilograms in Section J

(i) Finer the EPA 4 digit Hazardons Waste Number: it waste is a maxture of listed and characteristic wastes, the listed waste must be entered -- other numbers bound be listed in Section 2. Enter the Wineis FPA six digit waste stream permit (authorization) number for the waste stream (these numbers are specific for each waste stream and companies) (leave blank for waste going out of Illinois).

(1) K) If needed, enter additional association or information instructions for the material fisted in item 11.

((a) If needed, indicate special transportation, treatment, storage, or dispose linformation, or Bill of Lading information. For international shipments, generators must enter the point of departure (City and State) for shipments destined for treatment, storage, or disposal outside the jurisdiction of the United States in this space.

(16) The generator must and, sign (by hand), and date the certification statement. If a mode other than highway is used, the word "highway" should be lined out and the appropriate mode (rail, water, or air) inserted in the space below. If another mode in addition to highway is used, enter the appropriate additional mode.

GENERATOR: RETAIN COPY 6 AND MAIL COPY 5 TO IEPA WITHIN 2 DAYS OF THE SHIPMENT.

INSTRUCTIONS TO TRANSPORTER: (17.18) The person accepting the waste on behalf of the transporter must acknowledge acceptance of the waste described on the Manifest by signing and entering the date of receipt. UPON DELIVERY OF WASTE TO FACILITY, retain copy 4 and leave remaining copies with the facility on per operator.

INSTRUCTIONS TO OWNERS AND OPERATORS OF TREATMENT, STORAGE, OR DISPOSAL FACILITIES:

(19) The authorized representative of the designated (or alternate) facility's owner or operator must note in Item 19 any significant description (as defined in 35 III. Adm. Code 725.172) between the waste described on the Manifest and the waste actually received at the facility. Reference the discrepancy by line A, b, C, or D.

(20) Print or type name of the person accepting the waste on behalf of the owner or operator of the facility. That person must acknowledge acceptance of the waste by signing and entering the date of receipt.

Retain copy 3, send copy 1 to the generator, and send copy 2 to Illinois EPA (within 30 days of the delivery).

Public reporting burden for this collection of information is estimated to average 37 minutes for generators, 15 minutes for transporters, and 10 minutes for treatment, storage and disposal facilities. This includes time for reviewing instructions, gathering data, and completing and reviewing the form.

Send comments regarding the burden estimate, including suggestions for reducing this burden, to; Chief, Information Policy Branch, PM-223, U.S. Environmental Protection Agency, 401 M Street SW., Washington, DC 20480; and to the Office of Information and Regulatory Affairs. Office of Management and Budget, Washington, DC 20503.

This Agency is authorized to require, pursuant to Illinois Revised Statutes, Chapter 111% Section 21, that this information be submitted to the Agency. Failure to provide the information may result in a civil penalty against the owner or operator of not to exceed \$25,000 per day of violation. Falsification of this information may result in a fine up to \$50,000 per day of violation and imprisonment up to 5 years. This form has been approved by the Forms Management Center,

The Illinois Uniform Manifest must be used for all shipments of hazardous waste stored, disposed of, treated, or reclaimed in Illinois; and for all shipments originating in Illinois and destined for states that do not print and supply the form. For shipments not originating in Illinois, if the generator's state requires copies of the manifest, a photocopy of part I should be used.

#### INSTRUCTIONS TO GENERATORS (Please type)

(1) Enter generator's USEPA twelve digit identification number and the unique five digit document number assigned to this Manifest (e.g. 00001) by the generator.

(2) Enter total number of pages comprising this Manifest.

- (3) Enter generator's name and mailing address. If location of waste generation is different from mailing address, enter location to the right of mailing address.
- (4) Enter telephone number where an authorized agent of the generator, who has knowledge of the waste, may be reached in the event of an emergency.

(B) Enter the generator's Illinois EPA ten digit identification number.

- (5,6,C,D) For the first transporter who will transport the waste, enter the company name, US EPA 1D number, Illinois EPA four digit Special Waste Hauling (SWH) permit number, and telephone number where an authorized agent of the transporter may be reached in the event of an emergency.
- (7,8,E,F) If applicable, enter the information requested for the second transporter who will transport the waste. If more than two transporters are used, use a second manifest and in Section 15 of the second manifest enter "Continuation of Manifest Number xxxxxxx" from Section A).
- (9,10,G,H) For the facility designated to receive the waste, enter company name, address, US EPA 1D number, Illinois EPA ten digit facility code number, and telephone number where an authorized agent of the receiving facility may be reached.
- (11) Enter the US DOT Proper Shipping Name, Hazard Class, and 1D number (NA/UN number) for each waste as identified in 49 CFR 171 through 177. For wastes not regulated as Hazardous Materials by DOT, enter a description of the waste and the generic name of the waste, plus the phrase "not hazardous by DOT," If more than four waste streams are in a shipment, complete a second manifest.

(12) Enter the number of containers for each waste and the appropriate abbreviation for the type of container:

CM = Metal Boxes or roll-offs
CW = Wooden boxes

DM = Metal drums
DW = Wooden drums

CF = Fiberboard or plastic boxes DF = Fiberboard or plastic drums

BA = Burlap, cloth, paper, or plastic bags

CY = Cylinders

DT = Dump trucks

TC = Tank cars

TP = Tanks portable

- [13] Enter the total quantity (gallons or cubic yards) of each waste; round to nearest whole number, do not use decimals or fractions.
- (14) Finter 1 if quantity is in gallons or 2 if quantity is in cubic yards. No other unit is to be used. To track weight if desired, enter pounds, tons, or kilograms in Section J.
- (1) Enter the EPA 4 digit Hazardous Waste Number: if waste is a mixture of listed and characteristic wastes, the listed waste must be entered -- other numbers should be listed in Section J. Enter the Illinois EPA six digit waste stream permit (authorization) number for the waste stream (these numbers are specific for each waste stream and companies) (leave blank for waste going out of Illinois).

(J,K)—If needed, enter additional description or information instructions for the material listed in item 11.

- (15) It needed, indicate special transportation, treatment, storage, or disposal information, or Bill of Lading information. For international shipments, generators must enter the point of departure (City and State) for shipments destined for treatment, storage, or disposal outside the jurisdiction of the United States in this space.
- (16) The generator must read, sign (by hand), and date the certification statement. If a mode other than highway is used, the word "highway" should be lined out and the appropriate mode (rail, water, or air) inserted in the space below. If another mode in addition to highway is used, enter the appropriate additional mode.

GENERATOR: RETAIN COPY 6 AND MAIL COPY 5 TO IEPA WITHIN 2 DAYS OF THE SHIPMENT.

INSTRUCTIONS TO TRANSPORTER: (17,18) The person accepting the waste on behalf of the transporter must acknowledge acceptance of the waste described on the Manifest by signing and entering the date of receipt. UPON DELIVERY OF WASTE TO FACILITY, retain copy 4 and leave remaining copies with the facility owner, operator.

#### INSTRUCTIONS TO OWNERS AND OPERATORS OF TREATMENT, STORAGE, OR DISPOSAL FACILITIES:

- The authorized representative of the designated (or alternate) facility's owner or operator must note in Item 19 any significant discrepancy (as defined in 35 Ill. Adm. Code 725.172) between the waste described on the Manifest and the waste actually received at the facility. Reference the discrepancy by line A, B, C, or D.
- (20) Print or type name of the person accepting the waste on behalf of the owner or operator of the facility. That person must acknowledge acceptance of the waste by signing and entering the date of receipt.

Retain copy 3, send copy 1 to the generator, and send copy 2 to Illinois EPA (within 30 days of the delivery).

Public reporting burden for this collection of information is estimated to average 37 minutes for generators, 15 minutes for transporters, and 10 minutes for treatment, storage and disposal facilities. This includes time for reviewing instructions, gathering data, and completing and reviewing the form.

-----

Send comments regarding the burden estimate, including suggestions for reducing this burden, to; Chief, Information Policy Branch, PM-223, U.S. Environmental Protection Agency, 401 M Street SW., Washington, DC 20480; and to the Office of Information and Regulatory Affairs. Office of Management and Budget, Washington, DC 20503.

MOREY CORP. 2659 WISCONSIN AVE. DOWNERS GROVE, IL 60515 ATTN:PHIL MEYER GEORGE 365-1100

Re: Waste Acceptability at Michigan Recovery Systems, Inc.

EPA Identification number: MID 060 975 844

Dear Sir/Madame:

This letter acknowledges that Michigan Recovery Systems, Inc. has the appropriate permits, and the acceptability of the waste described below for treatment/storage at our Romulus, Michigan facility.

1. General Description:

**BLACO - TRON TMS PLUS** 

2. EPA/MDNR Waste Codes:

007L

Secondary Codes:

3. Generator EPA identification #:

ILD 025 415 266

4. Approval Number:

071857 D

This approval is based upon information supplied to us by your company. As the Generator, you are responsible for the accuracy of the characterization information. If there are any errors or changes to this information, please notify us immediately.

Although your waste has been technically approved, you or your agent (listed below) must contact Michigan Recovery Systems, Inc. to arrange the scheduling of your waste shipment. ALL WASTE SHIPMENTS MUST BE SCHEDULED PRIOR TO SHIPPING.

If you have any questions, please do not hesitate to contact us.

Patrick M. Sullivan General Manager

SECTION IV		EALTH INFORMATION			

EYE CONTACT PRODUCT IS PRESUMED TO BE MODERATELY IRRITATING TO THE EYES. EXPOSURE MAY CAUSE CORNEAL INJURY. PRODUCT VAPORS AND/OR MISTS MAY ALSO BE IRRITATING TO THE EYES.

SKIN CONTACT
BASED ON THE PRESENCE OF COMPONENT 8 PRODUCT IS PRESUMED TO BE MODERATELY IRRITATING TO THE SKIN, PROLONGED CONTACT MAY CAUSE DAMAGE
TO THE SKIN, BASED ON THE PRESENCE OF COMPONENTS 8, 9 AND 11 ABSORPTION THROUGH THE SKIN MAY RESULT IN SYMPTOMS OF EXPOSURE AS THOSE
DESCRIBED FOR INHALATION AND INGESTION, PROLONGED OR REPEATED CONTACT MAY RESULT IN DEFATTING AND DRYING OF THE SKIN WHICH MAY RESULT IN DERMATITIS.

EXPOSURE MAY PRODUCE IRRITATION TO THE MOSE, THROAT, RESPIRATORY TRACT, AND OTHER MUCOUS MEMBRANES. EXPOSURE TO HIGE CONCENTRATIONS OF VAPOR MAY PRODUCE CENTRAL NERVOUS SYSTEM DEFRESSION. REPORTS HAVE ASSOCIATED REPEATED AND PROLONGED OCCUPATIONAL OVEREXPOSURE TO SOLVENTS WITH PERMANENT BRAIN AND NERVOUS SYSTEM DAMAGE. INTENTIONAL MISUSE BY DELIBERATELY CONCENTRATING AND INHALING THE CONTENTS MAY BE HARMFUL OR FATAL.

MODERATELY TOXIC. BASED ON THE PRESENCE OF COMPONENT 8 INGESTION MAY CAUSE RED BLOOD CELL HEMOLYSIS LEADING TO KIDNEY AND LIVER DAMAGE. SMALL AMOUNTS OF THE LIQUID ASPIRATED INTO THE LUNGS DURING INGESTION OR FROM VOMITING MAY RESULT IN SEVERE LUNG DAMAGE. INGESTION MAY CAUSE CENTRAL MERVOUS SYSTEM DEPRESSION.

SIGHS AND SYMPTOMS
SYMPTOMS OF EYE IRRITATION INCLUDE PAIN, TEARING, REDDENING AND SWELLING. SYMPTOMS OF SKIN IRRITATION INCLUDE REDDENING, SWELLING,
RASH AND REDNESS. SYMPTOMS OF RESPIRATORY IRRITATION INCLUDE RUNNY NOSE, SORE THROAT, COUGHING, CHEST DISCOMPORT, SHORTNESS OF
BREATH AND REDUCED LUNG FUNCTION. SYMPTOMS OF GASTROINTESTIONAL IRRITATION INCLUDE SORE THROAT, ABDOMINAL PAIN, NAUSEA, VOLITING AND
DIARRHEA. CENTRAL NERVOUS SYSTEM DEFRESSION MAY BE EVIDENCED BY HEADACHE, DIZZINESS, NAUSEA AND SYMPTOMS OF INTOXICATION; IN EXTREME
CASES, UNCONSCIOUSNESS AND DEATH MAY OCCUR. SYMPTOMS OF CHRONIC OVEREXPOSURE INCLUDE LOSS OF MEMORY, LOSS OF INTELLECTUAL ABILITY
AND LOSS OF COORDINATION.

AGGRAVATED MEDICAL CONDITIONS
PREEXISTING SKIN, EYE AND RESPIRATORY DISORDERS MAY BE AGGRAVATED BY EXPOSURE TO THIS PRODUCT. IMPAIRED CENTRAL HERVOUS SYSTEM FUNCTIONS FROM PREEXISTING DISORDERS MAY BE AGGRAVATED BY EXPOSURE TO THIS PRODUCT.

OTHER HEALTH EFFECTS
BASED ON THE PRESENCE OF COMPONENTS 8, 9 AND 11 CHRONIC OVEREXPOSURE MAY CAUSE INJURY TO THE KIDNEYS AND LIVER. BASED ON THE PRESENCE OF COMPONENTS 8 AND 9 CHRONIC OVEREXPOSURE MAY CAUSE DAMAGE TO THE LUNGS. BASED ON THE PRESENCE OF COMPONENTS 8 AND 9 CHRONIC OVEREXPOSURE MAY CAUSE DAMAGE TO THE LUNGS. BASED ON THE PRESENCE OF COMPONENT 6 CHRONIC OVEREXPOSURE TO TIC2 DUST MAY CAUSE SLIGHT. LUNGS INFORMATION OF THE LUNGS. BASED ON THE PRESENCE OF COMPONENT 3 CHRONIC OVEREXPOSURE TO TALC DUST MAY CAUSE SCARRING OF THE LUNGS. BASED ON THE PRESENCE OF COMPONENT 3 CHRONIC OVEREXPOSURE TO PRODUCT DUST MAY PRODUCE A BENIGN PNEUMOCONIOSIS TERMED 'SIDEROSIS'.

*** MATERIAL SAFETY DATA SHEET ***

SECTION V

EMERGENCY AND FIRST AID PROCEDURES

EYE CONTACT
IMMEDIATELY FLUSH EYES WITH COPIOUS AMOUNTS OF WATER FOR AT LEAST 15 MINUTES HOLDING EYELIDS OPEN. SEEK PROMPT MEDICAL ATTENTION.

SKIN CONTACT
REMOVE CONTAMINATED CLOTHING AND SHOES, WIPE EXCESS FROM SKIN AND FLUSH WITH WATER USING SOAP IF AVAILABLE. SEEK MEDICAL ATTENTION
IF IRRITATION OCCURS, DO NOT REUSE CLOTHING UNTIL THOROUGHLY DECONTAMINATED.

REMOVE VICTIM TO FRESH AIR AND TREAT SYMPTOMATICALLY. PROVIDE OXYGEN IF BREATHING IS DIFFICULT. GIVE ARTIFICIAL RESPIRATION IF THE VICTIM IS NOT BREATHING. SEEK PROMPT MEDICAL ATTENTION.

DO NOT INDUCE VONITING. IF VOMITING SPONTANEOUSLY OCCURS, KEEP THE VICTIM'S HEAD BELOW THE HIPS TO PREVENT ASPIRATION INTO THE LUNGS. SINCE ASPIRATION INTO THE LUNGS CAN CAUSE VERY SERIOUS, PERMANENT DAMAGE, THE DECISION OF WHETHER TO INDUCE VOMITING OR NOT SHOULD BE MADE BY A PHYSICIAN. DANGER FROM LUNG ASPIRATION MUST BE WEIGHED AGAINST TOXICITY WHEN CONSIDERING EMPTYING THE STOMACH. CONSULT A PHYSICIAN, HOSPITAL OR POISON CONTROL CENTER AND/OR TRANSPORT TO AN EMERGENCY FACILITY IMMEDIATELY.

>> COMPONENTS 1 AND 2 MAY CAUSE SEVERE, PERMANENT DAMAGE IF ASPIRATED AND VOMITING SHOULD NOT BE INDUCED

SECTION VI

FIRE AND EXPLOSION HAZARDS

flammability classification - OSHA : FLAMMABLE LIQUID - CLASS IB - DOT : FLAMMABLE LIQUID

flash point : 68 degrees F, (Theoretical)

EXTINGUISHING MEDIA USE WATER FOG, FOAM, DRY CHEMICAL OR CARBON DIOXIDE.

SPECIAL FIRE FIGHTING PROCEDURES AND PRECAUTIONS
WARNING. FLAMMABLE. CLEAR FIRE AREA OF UNPROTECTED PERSONNEL. DO NOT ENTER CONFINED FIRE SPACE WITHOUT HELMET, FACE SHIELD, BUNKER
COAT, GLOVES, RUBBER BOOTS, AND A POSITIVE PRESSURE NIOSH-APPROVED SELF-CONTAINED BREATHING APPARATUS.

UNUSUAL FIRE AND EXPLOSION HAZARDS
CONTAINERS EXPOSED TO INTENSE HEAT FROM FIRES SHOULD BE COOLED WITH WATER TO PREVENT VAPOR PRESSURE BUILDUP WHICH COULD RESULT IN CONTAINER RUPTURE. CONTAINER AREAS EXPOSED TO DIRECT FLAME CONTACT SHOULD BE COOLED WITH LARGE QUANTITIES OF WATER AS NEEDED TO PREVENT WEAKERING OF CONTAINER STRUCTURE.

SECTION VII

REACTIVITY

STABILITY : STABLE

HAZARDOUS POLYMERIZATION : WILL NOT OCCUR

: · ·

CONDITIONS AND MATERIALS TO AVOID AVOID OXIDIZING MATERIALS. BASED ON THE PRESENCE OF COMPONENT 8 AVOID STRONG ALKALIES.

BAZARDOUS DECOMPOSITION PRODUCTS
CARBON DIOXIDE, CARBON MONOXIDE AND UNIDENTIFIED ORGANIC COMPOUNDS MAY BE FORMED DURING COMBUSTION.

EMPLOYEE PROTECTION

RESPIRATORY PROTECTION
USE VENTILATION AS REQUIRED TO CONTROL VAPOR CONCENTRATIONS - AT LEAST 10 AIR CHANGES FER HOUR ARE RECOMMENDED FOR GOOD GENERAL ROOM VENTILATION. IF EXPOSURE EXCEEDS THE PEL/ILV, USE THE APPROPRIATE NICSH-APPROVED RESPIRATOR.

PROTECTIVE CLOTHING
WEAR SAFETY GLASSES, GOGGLES, OR A SPLASH SHIELD TO PREVENT EYE CONTACT. CONTACT LENSES SHOULD NOT BE WORN. WEAR APPROPRIATE GLOVES
AND PROTECTIVE CLOTHING TO PREVENT CONTACT WITH SKIN AND CLOTHING.

ADDITIONAL PROTECTIVE MEASURES EYE WASH FOUNTAINS AND SAFETY SHOWERS SHOULD BE AVAILABLE FOR USE IN AN EMERGENCY.

ENVIRONMENTAL PROTECTION

SPILL OR LEAK PROCEDURES
LARGE SPILLS >> EVACUATE THE HAZARD AREA OF UNPROTECTED PERSONNEL. WEAR APPROPRIATE RESPIRATOR AND PROTECTIVE CLOTHING. SHUT OFF
SOURCE OF LEAK ONLY IF SAFE TO DO SO. DIKE AND CONTAIN. IF VAPOR CLOUD FORMS, WATER FOG MAY BE USED TO SUPPRESS; CONTAIN RUN-OFF.
REMOVE WITH VACUUM TRUCKS OR PUMP TO STORAGE/SALVAGE VESSELS. SOAK UP RESIDUE WITH AN ABSORBENT SUCH AS CLAY, SAND OR OTHER SUITABLE
MATERIAL; PLACE IN NON-LEAKING CONTAINERS FOR PROPER DISPOSAL. FLUSH AREA WITH WATER TO REMOVE TRACE RESIDUE; DISPOSE OF FLUSH
SOLUTIONS AS ABOVE. SMALL SPILLS >> TAKE UP WITH AN ABSORBENT MATERIAL AND PLACE IN NON-LEAKING CONTAINERS; SEAL TIGHTLY FOR PROPER DISPOSAL.

WASTE DISPOSAL OBSERVE ALL FEDERAL, STATE, AND LOCAL REGULATIONS REGARDING PROPER DISPOSAL.

ADDITIONAL PRECAUTIONS

KEEP LIQUID AND VAPOR AWAY FROM HEAT, SPARKS, AND FLAME. EXTINGUISH PILOT LIGHTS, CIGARETTES AND TURN OFF OTHER POSSIBLE SOURCES OF IGNITION PRIOR TO USE AND UNTIL VAPORS ARE GONE, SURFACES THAT ARE SUFFICIENTLY HOT MAY IGNITE PRODUCT IN THE ABSENCE OF SPARKS OR FLAME. VAPORS MAY ACCUMILATE AND TRAVEL TO IGNITION SOURCES DISTANT FROM HANDLING SITE, KEEP CONTAINERS CLOSED WHEN NOT IN USE. USE WITH ADEQUATE VENTILATION. CONTAINERS, EVEN IF EMPTY, CAN CONTAIN EXPLOSIVE VAPORS. DO NOT CUT, DRILL, GRIND, OR WELD NEAR CONTAINERS.

CONTAINERS CAN CONTAIN HAZARDOUS PRODUCT RESIDUES EVEN WHEN EMPTY. WASH WITH SOAP AND WATER BEFORE EATING, DRINKING, SMOKING, OR USING TOILET FACILITIES.

THE INFORMATION CONTAINED HEREIN IS BASED ON THE DATA AVAILABLE TO US AND IS BELIEVED TO BE CORRECT. BOWEVER, WE MAKE NO WARRANTY, EXPRESSED OR IMPLIED, REGARDING THE ACCURACY OF THIS DATA OR THE RESULTS TO BE OBTAINED FROM THE USE THEREOF. WE ASSUME NO RESPONSIBILITY FOR INJURY FROM THE USE OF THE PRODUCT DESCRIBED HEREIN.

PRODUCT IS PRESUMED TO BE MODERATELY IRRITATING TO THE EYES. PRODUCT VAPORS AND/OR MISTS MAY ALSO BE IRRITATING TO THE EYES.

SKIN CONTACT
BASED ON THE FRESENCE OF COMPONENTS 3 AND 6 PRODUCT IS PRESUMED TO BE MODERATELY IRRITATING TO THE SKIN. PROLONGED CONTACT MAY CAUSE
DAMAGE TO THE SKIN, PROLONGED OR REPEATED CONTACT MAY RESULT IN DEFATTING AND DRYING OF THE SKIN WHICH MAY RESULT IN DERMATITIS.
BASED ON THE PRESENCE OF COMPONENTS 3 AND 6 CONTACT MAY RESULT IN A PRONOUNCED PHOTOSENSITIZATION EFFECT.

INHALATION
EXPOSURE MAY PRODUCE IRRITATION TO THE MOSE, THROAT, RESPIRATORY TRACT, AND OTHER MUCOUS MEMBRANES. EXPOSURE TO HIGH CONCENTRATIONS
OF VAPOR MAY PRODUCE CENTRAL NERVOUS SYSTEM DEPRESSION. REPORTS HAVE ASSOCIATED REPEATED AND PROLONGED OCCUPATIONAL OVEREXPOSURE TO
SOLVENTS WITH PERMANENT BRAIN AND NERVOUS SYSTEM DAMAGE. INTENTIONAL MISUSE BY DELIBERATELY CONCENTRATING AND INHALING THE CONTENTS
MAY BE HARMFUL OR FATAL.

INGESTION INGESTION
SLIGHTLY TOXIC. SMALL AMOUNTS OF THE LIQUID ASPIRATED INTO THE LUNGS DURING INGESTION OR FROM VOMITING MAY RESULT IN SEVERE LUNG DAMAGE. INGESTION MAY CAUSE CENTRAL NERVOUS SYSTEM DEFRESSION.

SIGNS AND SIMPTURES
SYMPTOMS OF EYE IRRITATION INCLUDE PAIN, TEARING, REDDENING AND SWELLING. SYMPTOMS OF SKIN IRRITATION INCLUDE REDDENING, SWELLING,
RASH AND REDNESS. SYMPTOMS OF RESPIRATORY IRRITATION INCLUDE RUNNY HOSE, SORE THROAT, COUGHING, CHEST DISCOMPORT, SHORTNESS OF
BREATH AND REDUCED LUNG FUNCTION. SYMPTOMS OF GASTROINTESTIONAL IRRITATION INCLUDE SORE THROAT, ABDOMINAL PAIN, MAUSEA, VOMITING AND
DIARRHEA. CENTRAL HERVOUS SYSTEM DEFRESSION MAY BE EVIDENCED BY HEADACHE, DIZZINESS, NAUSEA AND SYMPTOMS OF INTOXICATION; IN EXTREME
CASES, UNCONSCIOUSNESS AND DEATH MAY OCCUR. SYMPTOMS OF CHRONIC OVEREXPOSURE INCLUDE LOSS OF MEMORY, LOSS OF INTELLECTUAL ABILITY
AND LOSS OF COORDINATION.

AGGRAVATED MEDICAL CONDITIONS
PREEXISTING SKIN, EYE AND RESPIRATORY DISORDERS MAY BE AGGRAVATED BY EXPOSURE TO THIS PRODUCT. IMPAIRED CENTRAL NERVOUS SYSTEM FUNCTIONS FROM PREEXISTING DISORDERS MAY BE AGGRAVATED BY EXPOSURE TO THIS PRODUCT.

BASED ON THE PRESENCE OF COMPONENT 9 CHRONIC OVEREXPOSURE MAY CAUSE DAMAGE TO THE KIDNEYS. BASED ON THE PRESENCE OF COMPONENT 5 CHRONIC OVEREXPOSURE TO T102 DUST MAY CAUSE SLIGHT LUNG FIBROSIS. BASED ON THE PRESENCE OF COMPONENT 2 CHRONIC OVEREXPOSURE TO PRODUCT DUST MAY PRODUCE A BENIGN PNEUMOCONIOSIS TERMED 'SIDEROSIS'.

EMERGENCY AND FIRST AID PROCEDURES SECTION V

EYE CONTACT
IMMEDIATELY FLUSH EYES WITH COPIOUS AMOUNTS OF WATER FOR AT LEAST 15 MINUTES HOLDING EYELIDS OPEN. SEEK PROMPT MEDICAL ATTENTION.

SKIN CONTACT
REMOVE CONTAMINATED CLOTHING AND SHOES, WIPE EXCESS FROM SKIN AND FLUSH WITH WATER USING SOAP IF AVAILABLE. SEEK MEDICAL ATTENTION IF IRRITATION OCCURS. DO NOT REUSE CLOTHING UNTIL THOROUGHLY DECONTAMINATED.

REMOVE VICTIM TO FRESH AIR AND TREAT SYMPTOMATICALLY. PROVIDE OXYGEN IF BREATHING IS DIFFICULT. GIVE ARTIFICIAL RESPIRATION IF THE VICTIM IS NOT BREATHING. SEEK PROMPT MEDICAL ATTENTION.

INGESTION
DO NOT INDUCE VOMITING. IF VOMITING SPONTANEOUSLY OCCURS, KEEP THE VICTIM'S HEAD BELOW THE HIPS TO PREVENT ASPIRATION INTO THE
LUNGS. SINCE ASPIRATION INTO THE LUNGS CAN CAUSE VERY SERIOUS, PERMANENT DAMAGE, THE DECISION OF WHETHER TO INDUCE VOMITING OR NOT
SHOULD BE MADE BY A PHYSICIAN. DANGER FROM LUNG ASPIRATION MUST BE WEIGHED AGAINST TOXICITY WHEN CONSIDERING EMPTYING THE STOMACH.
CONSULT A PHYSICIAN, HOSPITAL OR POISON CONTROL CENTER AND/OR TRANSPORT TO AN EMERGENCY FACILITY IMMEDIATELY.

>> COMPONENTS 1, 3, 4, 6, 7, 8 AND 9 MAY CAUSE SEVERE, PERMANENT DAMAGE IF ASPIRATED AND VOMITING SHOULD NOT BE INDUCED.

SECTION VI

FIRE AND EXPLOSION HAZARDS

flammability classification - OSEA : FLAMMABLE LIQUID - CLASS IB - DOT : FLAMMABLE LIQUID

flash point : 50 degrees F. (Theoretical)

EXTINGUISHING MEDIA USE WATER FOG, FOAM, DRY CHEMICAL OR CARBON DIOXIDE.

SPECIAL FIRE FIGHTING PROCEDURES AND PRECAUTIONS WARNING. FLAMMABLE, CLEAR FIRE AREA OF UNPROTECTED PERSONNEL. DO NOT ENTER CONFINED FIRE SPACE WITHOUT HELMET, FACE SHIELD, BUNKER COAT, GLOVES, RUBBER BOOTS, AND A POSITIVE PRESSURE NIOSH-APPROVED SELF-CONTAINED BREATHING APPARATUS.

UNUSUAL FIRE AND EXPLOSION HAZARDS
CONTAINERS EXPOSED TO INTENSE HEAT FROM FIRES SHOULD BE COOLED WITH WATER TO PREVENT VAPOR PRESSURE BUILDUP WHICH COULD RESULT IN
CONTAINER RUPTURE. CONTAINER AREAS EXPOSED TO DIRECT FLAME CONTACT SHOULD BE COOLED WITH LARGE QUANTITIES OF WATER AS NEEDED TO
PREVENT WEAKENING OF CONTAINER SITUCTURE.

ADDITIONAL PRECAUTIONS

KEEP LIQUID AND VAPOR AMAY FROM HEAT, SPARKS, AND FLAME. EXTINGUISH PILOT LIGHTS, CIGARETTES AND TURN OFF OTHER POSSIBLE SOURCES OF IGNITION FRIOR TO USE AND UNTIL VAPORS ARE GONE. SURFACES THAT ARE SUFFICIENTLY BOT MAY IGNITE PRODUCT IN THE ABSENCE OF SPARKS OF FLAME. VAPORS MAY ACCUMULATE AND TRAVEL TO IGNITION SOURCES DISTANT FROM HANDLING SITE. KEEP CONTAINERS CLOSED WHEN NOT IN USE. USE WITH ADEQUATE VENTILATION. CONTAINERS, EVEN IF EMPTY, CAN CONTAIN EXPLOSIVE VAPORS. DO NOT CUT, DRILL, GRIND, OR WELD MEAR CONTAINERS.

CAN CONTAIN HAZARDOUS PRODUCT RESIDUES EVEN WHEN EMPTY, WASH WITH SOAP AND WATER BEFORE EATING, DRINKING, SMOKING, OR USING TOILET PACILITIES.

THE INFORMATION CONTAINED HEREIN IS BASED ON THE DATA AVAILABLE TO US AND IS BELIEVED TO BE CORRECT. HOWEVER, WE MAKE NO WARRANTY, EXPRESSED OR IMPLIED, REGARDING THE ACCURACY OF THIS DATA OR THE RESULTS TO BE OBTAINED FROM THE USE THEREOF. WE ASSUME NO RESPONSIBILITY FOR INJURY FROM THE USE OF THE PRODUCT DESCRIBED HEREIN.

May 12, 2001

Ms. Amy Yindrick, Esq Foley & Lardner 330 North Wabash Ave Suite 3000 Chicago, IL 60611

Re: Lockformer Subpoena

Dear Amy:

I have enclosed copies of the following information in response to the Lockformer Subpoena:

The NFR letter received from the State of Illinois EPA

Focused Site Investigation and Remedial Action Completion Report, Prepared by Pioneer Environmental, Inc., dated November 8, 2000.

Focused Site Investigation and Remedial Action Completion Report (addendum), Prepared by Pioneer Environmental, Inc., dated January 23, 2001.

A list of chemicals kept by The Morey Corporation.

A material data safety sheet for the one product we have identified which contains chemicals listed in the subpoena.

A purchase history for the product reflecting all purchases since 1992.

The product we have identified is "Slide Epoxease Areosol". The product is used in our manufacturing process to enable us to dislodge hardened plastics from molds.

I appreciate your assistance in this matter. After you and your environmental specialists have had an opportunity to review the enclosed, please call me to discuss at (630) 754-2130.

Sincerely,

Michael L. Legel Chief Financial Officer

# PHASE II SUBSURFACE INVESTIGATION(S)

#### - SITE LOCATION:

Morey Corporation 2659 Wisconsin Ave. Downers Grove, Illinois

#### PREPARED BY:

ENvironmental Management And Resource Consultants, Inc. (ENMARC) 229 E. Custer Street Lemont, Illinois 60439

#### PHASE II SUBSURFACE INVESTIGATION(S)

Morey Corporation 2659 Wisconsin Ave. Downers Grove, Illinois

#### I. INTRODUCTION

On May 9th, 2000, a Phase I Environmental Site Assessment of the above referenced Property was completed on behalf of the potential purchaser, Cable/Comm Technologies. The results of the Phase I ESA indicated two areas of potential environmental concern: (1) the clay potting compound mixing area inside of the building which contain evidence of spilled materials and structural degradation of the underlying concrete floor; and (2) an area exterior to the building in which a drain leading from the chemical and waste storage area exits through the wall. There was evidence of stressed vegetation within this area, indicating that chemical spills have impacted the these surface soils by means of migration through the storage room drain. Figure 1 provides a map identifying the locations of these potential concerns.

Additionally, on May 18th, ENMARC had been requested to mobilize to the site to collect samples from this exterior area (@ the end of the drainage piping), following the removal of approximately 1.5 cubic yards by the Morey Corporation. The Morey Corporation had experienced a release of a flux thinner (containing the hazardous compounds: isopropanol and methanol) that had migrated through the drain located in the chemical storage room and into the environment at this location. An approximate 3' x 3' x 4' deep excavation had been manually dug and the soils placed into containers. ENMARC collected samples from the sidewalls and bottom of the excavation and subjected them to field screening analysis using a Photoionization Detection (PID) meter. Field screening analysis of the sidewall samples collected from 2-3' depth intervals resulted in no PID readings. However, the bottom sample collected and subjected to field screening indicated a PID reading @ 8.7 ppm.

Subsequently, ENMARC collected an additional sample off the bottom of the small excavation area (@ 4') for submittal to an environmental testing laboratory for analytical documentation of the levels of contaminants that may be present. The bottom sample was collected pursuant to EPA Method 5035 (refer to Section II for details of sampling method), labeled and placed into an iced cooler pending transport to an environmental testing laboratory. The sample was submitted under chain-of-custody to the laboratory and analyzed for VOC's (Volatile Organic Compounds), SVOC's (Semi-Volatile Organic Compounds) and isopropanol and methanol compounds using EPA SW-846 test methods. Results of the analysis indicated levels of several contaminants above the current Tier 1 standards adopted under 35 Illinois Administrative Code (IAC) Part 742, Tiered Approach to Corrective Action Objectives (TACO). These contaminants include: tetrachloroethene, trichloroethene and vinyl chloride.

As a result, an extended subsurface investigation was completed on June 2nd, 2000. The intent of the follow-up subsurface investigation completed was to attempt to delineate the extent of the impact plume of contaminants discovered at the site.

#### II. EXTENDED PHASE II FIELD ACTIVITIES

On June 2, 2000, ENMARC mobilized the necessary equipment and personnel to the subject Property to install borings by means of Geoprobe methods to determine the extent of the impact previously discovered at the site, and to complete one boring within the potting compound mixing area. A total of seven borings were completed.

Figure 2 and Figure 3 provides illustrations of the location of the borings completed as part of the extended Phase II subsurface investigation completed. The samples were collected and analyzed in accordance with EPA protocol:

#### (1)Sample Collection

The borings were continuous sampled through their entire length for purposes of classifying the soils beneath the site, in addition to collecting samples at 2 foot depth intervals for field screening analysis and potential laboratory analytical documentation of the absence/presence of dry cleaning compounds. The samples collected from each depth interval were split into three portions. Pursuant to EPA Method 5035, approximately 5 ± g (weighed in the field) aliquots of the initial portion were placed into each of three pre-preserved 40 ml VOA bottles (one was preserved with methanol and two with a sodium bisulfate/deionized water solution) supplied by the laboratory. An additional portion was place into a 4 ounce glass jar with teflon lid for dry weight determinations, and the remaining portion was placed into a heavy duty plastic bag and sealed for purposes of "headspace" field screening analysis. The laboratory samples (VOA bottles and 4 ounce glass jars) were placed into an iced cooler pending submittal to an environmental testing laboratory for analytical confirmation of the levels of suspect constituents.

All sampling equipment was decontaminated between sample locations utilizing a detergent wash, i.e., tri-sodium phosphate; tap water rinse and a final distilled water rinse and allowed to air dry. A new, clean pair of nitrile gloves was utilized for each sampling interval.

#### (2) Field Screening:

The samples collected and placed into the heavy duty plastic bags were subjected to a heated environment for approximately ten minutes to enhance the volatilization of any organic contaminants prior to headspace screening with a properly calibrated Photoionization Detection (PID) meter, HNu Model HW-101. The probe of the PID meter was subsequently inserted through the plastic bag and into the "headspace" of the glass container and the maximum reading recorded. The PID meter was utilized to assess, in the field, the presence of potential impact. Boring logs, including the field screening analysis results were recorded in the field for each boring logation. Attachment 1contains copies of the boring logs completed for the project.

#### (3) Sample Submittal to the Laboratory

The samples collected were labeled with the following information: Client, Site Name, Date, Sample Identification # and samplers initials. The samples were placed into an "iced" cooler for preservation purposes during transport to the laboratory. A laboratory chain-of-custody sheet was completed and submitted with the samples relinquished to the laboratory for analysis. Due to the lack of the presence of semi-volatiles and other compounds analyzed in the initial sample collected on 5/18/2000, all samples were subjected to analysis for VOC's only using EPA Method 8260.

#### III. SITE GEOLOGY

Pursuant to geologic reference sources, specifically the 1984 Berg Circular entitled, "Potential for Contamination of Shallow Aquifers from Land Burial of Municipal Wastes", the site may be located within one of the following Berg Geologic Zones:

Zone Ax: Alluvium, a mixture of gravel, sand, silt and clay along streams, variable in

composition and thickness;

Zone C2: Sand and gravel within 20-50 feet of land surface, overlain and underlain

by relatively impermeable till, other fine-grained material, and/or bedrock;

Zone E: uniform, relatively impermeable silty or clayey till at least 50 feet thick; no

evidence of interbedded sand and gravel.

Visual inspection of the samples collected of the soils beneath the site indicates that the native soils consist of silty clay materials within the shallow subsurface environment, up through a depth of approximately 12 feet below grade near the source (where the drain pipe exits the building). Within this area in which the source is located, the elevation is approximately 4 -5 feet higher than the remaining topography, particularly that at and north of the loading dock area. At approximately 11' feet below grade at the source location, a stiff, grey silty clay layer is encountered which appears to be the confining layer absent of impact above TACO Tier 1 standards. This confining layer is subsequently encountered at shallower depths across the site in the direction of the loading dock. Additionally, the initial strata immediately encountered at the site consists of nonnative clayey fill materials. Without the completion of borings to greater depths, the type of Berg soils that underlay the site cannot be defined.

#### IV. SOIL SAMPLE ANALYSIS

Samples from the depth interval indicating the highest levels of potential impact (based upon visual and/or field screening analysis) from each boring location were submitted to an environmental testing laboratory for purposes of analysis for Volatile Organic Compounds (VOC's, EPA Method 8260), which were initially detected in the first sample collected and analyzed from the site.

Laboratory analysis of the samples collected did result in levels of several (VOC) compounds that had initially been detected at several of the borings installed. A table summarizing the results of the analysis completed in comparison to TACO Tier 1 standards is incorporated as Attachment 2, along with copies of the laboratory analysis reports for each of the samples submitted for analysis.

Based upon review of the analysis results, the highest impact is located at the bottom of the concrete stoop located immediately adjacent to the unloading dock area. It appears that releases of contaminants from the drainage pipe would follow the topography of the ground surface and flow towards the bottom of the concrete steps towards the unloading dock. Materials appear to have accumulated at this location and infiltrated into the ground.

#### V. CONCLUSIONS AND RECOMMENDATIONS

In general, the levels detected at the site were compared to the TACO Tier 1 standards which comprise the initial Tier of cleanup objectives developed under TACO by the Illinois EPA. TACO Tier 1 evaluations are used as the first basis of comparison in establishing impact and corresponding remediation. Tier 1 standards are based upon three types of exposure; ingestion, inhalation and the migration path to groundwater ingestion routes of exposure, and is additionally based upon property use, i.e., residential versus commercial/industrial. TACO uses a series of ASTM equations which models the transport of contaminants through the subsurface. Tier 1 standards are calculated from these equations using conservative, generic calculation parameters. It appears that the primary route of exposure that the contaminant levels at this site exceed, under a Tier 1 evaluation, is the migration to groundwater ingestion exposure route. There are, however, several locations at which the inhalation exposure routes are additionally exceeded. A summary identifying these exceedences is incorporated into the following table:

SAMPLE I.D./DEPTH	PAR	AMETERS ABOVE TACO TIE	R 1
	TETRACHLOROETHENE	TRICHLOROETHENE	VINYL CHLORIDE
S-1 @ 4'	14.9	0.618	0.116
B2 @ 8-10'	66.7	5.96	ND
B4 @ 6-8'	220.8	0.496	ND
B5 @ 4'	4.03	0.250	ND
B6 @ 4'	97.7	0.129	ND

. IEPA TACO TIER I CL		RATION TO GW INGESTION ( L/INDUSTRIAL	BOTH RESIDENTIAL &
CLASS I	0.06	0.06	0.01
CLASS II	0.3	0.3	0.07

Figure 2 also provides a map in which an impact boundary, of those levels exceeding Tier 1 standards, is estimated.

However, TACO additionally establishes Tier 2 and Tier 3 objectives, which are based on the development of site-specific standards/modeling. In lieu of the conservative, all encompassing parameters for use in calculating cleanup objectives as done under Tier 1, Tier 2 standards are based upon the use of site-specific parameters that are developed from the collection and geotechnical testing of the soils at the site. Tier 3 further exemplifies site specific development of standards by allowing the use of additional modeling of the contaminants present at a site, in addition to considering other conditions not allowed under Tier 1 or Tier 2.

Additionally, under TACO evaluations, the use of institutional controls and engineering barriers to limit the exposure to contaminants at a Property is allowed. Institutional controls include the use of restrictions to limit the use of the property, prohibit the installation or use of on-site wells, and facilitate the use of highway authority agreements, etc. Engineering barriers include the installation of such barriers as clean soil, concrete or asphalt caps over the impacted areas to prohibit exposure to the underlying contaminants.

In conclusion, TACO was developed by the Illinois EPA in order to address impact at industrial/commercial properties using a risk-based approach in lieu of one set of broad, conservative standards for establishing "clean" which in the past has created costly and unnecessary cleanups. The IEPA now recognizes site specific conditions for establishing cleanup objectives, as wells as the use of institutional controls and engineering barriers to minimize the risk associated with impacted properties.

With regard to the specific impact discovered at the site, there is a high likelihood that the calculation of a site specific cleanup objectives, in conjunction with the limited application of engineering barriers, may be able to demonstrate that the existing levels can be allowed to remain in-place as-is. Based upon review of the areas exceeding TACO cleanup objectives, ENMARC would like to provide the following evaluations and recommendations:

- 1. Based upon the fact that the site is currently supplied with potable water from a municipal water supply source, and that the installation of an on-site well is not necessary, and may even be prohibited at the Village level, the groundwater ingestion route of exposure to the contaminant levels is limited, therefore the exposure route with regard to groundwater ingestion is basically eliminated; and
- Collection of a sample for physical soils analysis, for purposes of calculating site specific Tier 2 cleanup objectives for the inhalation exposure route. There are four areas at which the inhalation exposure route standards under Tier 1 have been exceeded, based upon the current and continuing industrial use of the Property: S-1, B2, B4, and B6. Prior experience with similar contaminants and soils indicates that most of these locations would fall under a Tier 2 standard for inhalation, excepting for B4 where the levels of Tetrachloroethene are relatively high @ 220.8 ppm. This location also exceeds the standard established for the ingestion exposure route for Tetrachloroethene (@ 110 ppm) which cannot be changed by a Tier 2 evaluation. Therefore, the application of a concrete cap to act as a barrier to the impact would suffice. An approximate 10' x 10' concrete patio over the location of B4 would sufficiently eliminate the inhalation and ingestion exposures to the impact levels at this location.

In order to achieve the above, an additional investigation and collection of samples for both chemical and physical analysis would be necessary. The cost of the investigation (by ENMARC) would be approximately \$ 4,125.00. This would include the installation of up to 5 additional borings, the geotechnical and chemical analysis of these samples, TACO modeling to determine Tier 2 site specific objectives, and a final report. The additional sampling and analysis will take several weeks to complete due to the extensive laboratory work required. In conjunction with the use of site specific objectives, the 10' x 10' patio at the highest area of impact (B4) would act as an engineering barrier, which would in all likelihood eliminate the routes of exposure to the contamination in accordance with the protocol established under TACO.

If Tier 2 calculations do not resolve the inhalation impact areas (specifically that @ B6), we estimate that a 25' x 15' area would require capping with concrete to serve as an additional engineering barrier. The cost of the engineering barriers would thus be approximately \$ 5000. The total cost of addressing the impacted areas by means of risk management would subsequently be \$ 10,000.00.

#### **LIMITATIONS**

Conclusions and recommendations in the Phase II section of this report are based upon the data obtained from samples collected at the indicated locations and from any other information discussed in this report. Only a limited evaluation was performed and this report does not reflect any variations which may occur between sample locations. The nature and extent of such variations may not become evident until later. If variations appear evident, it will be necessary to re-evaluate the recommendations in this report.

The observations described in this report were made under the conditions state herein. The findings presented in the report were based solely upon the services described in 20-656.02 and not on tasks or procedures beyond the scope of the described and authorized services.

Certain site-specific information presented in this report was obtained from the parties herein referenced. ENMARC did not attempt to verify independently the accuracy or completeness of all information reviewed or received during the course of this subsurface site investigation.

The objective of this Phase II subsurface site investigation was to provide data for the evaluation of the site located at 2659 Wisconsin Ave., Downers Grove, Illinois. Further investigative site information which was not available to ENMARC at the time of this assessment may result in a modification of the findings stated above.

This report has been prepared in accordance with generally accepted site assessment practices. No other warranty, expressed or implied, is made.

TACO -- Tiered Approach to Cleanup Objectives -- 35 IAC Part 742.

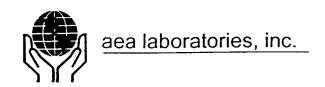

Notes Those levels exceeding Tier 1 standards are shaded.

NT => Not Tested due to lack of SVOC's at source discovered from initial sampling efforts (@ S-1).

⁽²⁾ Application of Commercial/Industrial Standards requires the use of an institutional control limited the use of the Property to Commercial/Industrial.

No objective established under TACO. Objective established by IEPA Office of Chemical Safety.

B => Acetone found in lab blank @ 0.0207ppm; => Methylene Chloride found in lab blank @ 0.0162mg/kg.

PROJECT NAME

: MOREY BLDG, DOWNERS GROVE, IL

NUMBER#

: 20.565 : N/A

TASK ORDER

: J. Virgilio

ATTN RECEIVED

: 06/02/00 : 06/14/00

REPORTED FILE ID#

: 00005360 THRU 00005368

#### **PROJECT SUMMARY:**

Analyses were performed in accordance with the methods found in the USEPA publication: <u>Test Methods for Evaluating Solid Waste, Physical/Chemical methods, SW- 846, 3rd Edition, December 1996.</u> Specific method references are listed on the analytical report.

Results have been expressed on a "wet" weight (as received) basis except where otherwise specified .

All analyses were performed within established holding times, and all Quality Control criteria as outlined in the methods have been met.

For S, circle the appropriate response for the 3 italicized options:

THIS CONTAMINATED SOIL DOES / DOES NOT CONTAIN LISTED HAZARDOUS WASTE AND DOES / DOES NOT EXHIBIT A
(CIRCLE ONE)

HOW MUST THE WASTE BE MANAGED?

CHARACTERISTIC OF HAZARDOUS WASTE AND IS SUBJECT TO / COMPLIES WITH THE SOIL TREATMENT STANDARDS (CIRCLE ONE)

AS PROVIDED BY 268.49(c) OR THE UNIVERSAL TREATMENT STANDARDS. I certify under penalty of law that I have personally examined and am familiar with the treatment technology and operation of the treatment process used to support this certification and believe that it has been maintained and operated properly so as to comply with treatment standards specified in 40 CFR 268.49 without

impermissible dilution of the prohibited wastes. I am aware that there are significant penalties for submitting a false certification, includin; the possibility of fine and imprisonment.

- 7A. THIS RESTRICTED WASTE REQUIRES TREATMENT TO THE APPLICABLE STANDARD. This waste must be treated to the applicable performance based treatment standard set forth in 40CFR Part 268 Subpart C, 268.32, Subpart D, 268.40 or RCRA Section 3004(d) prior to land disposal.
  - B. THIS HAZARDOUS DEBRIS IS SUBJECT TO THE ALTERNATIVE TREATMENT STANDARDS OF 40 CFR 268.45.
  - C. THIS RESTRICTED WASTE HAS BEEN TREATED TO THE PERFORMANCE STANDARDS. I certify under penalty of law that I have personally examined and am familiar with the treatment technology and operation of the treatment process used to support this certification and base this certification upon my inquiry of those individuals immediately responsible for obtaining this information. I believe that the treatment process has been operated and maintained properly so as to comply with the performance levels specified in 40 CFR part 268 Subpart D, and all applicable prohibitions set forth in 40 CFR 268.32 or RCRA Section 3004(d) without impermissible dilution of the prohibited waste. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment.
- D. THIS RESTRICTED WASTE, FOR WHICH THE TREATMENT STANDARD IS EXPRESSED AS A SPECIFIED TECHNOLOGY, HAS BEEN TREATED BY THE SPECIFIED TECHNOLOGY. I certify under penalty of law that the waste has been treated in accordance with the requirements of 40 CFR 268.42. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment.
- E. THIS RESTRICTED WASTE CAN BE LAND DISPOSED WITHOUT TREATMENT. I certify under penalty of law that I have personally examined and am familiar with the waste through analysis and testing or through knowledge of the waste to support this certification that the waste complies with the treatment standards specified in 40 CFR Part 268 Subpart D and all applicable prohibitions set forth in 40 CFR 268.32 or RCRA Section 3004(d). I believe that the information I submitted is true, accurate and complete. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment.
- F. THIS RESTRICTED DEBRIS HAS BEEN TREATED IN ACCORDANCE WITH 40 CFR 268.45. I certify under penalty of law that the debris has been treated in accordance with the requirements of 40 CFR 268.45. I am aware that there are significant penalties for making false certification, including the possibility of a fine and imprisonment.
- G. THIS LAB PACK DOES NOT CONTAIN ANY WASTES IDENTIFIED AT APPENDIX IV TO PART 268. I certify under penalty of law that I personally have examined and am familiar with the waste and that the statement above is true and that this lab pack will be sent to a combustion facility in compliance with the alternative treatment standards for lab packs at 40 CFR 268.42(c). I am aware that there are significant penalties for submitting a false certification including possibility of fine or imprisonment.
- H. THIS RESTRICTED WASTE HAS BEEN TREATED TO REMOYE THE HAZARDOUS CHARACTERISTIC. I certify under penalty of law that the waste has been treated in accordance with the requirements of 40 CFR 268.40 to remove the hazardous characteristic. This decharacterized waste contains underlying hazardous constituents that require further treatment to meet universal treatment standards. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment.
- I. THIS RESTRICTED WASTE HAS BEEN TREATED TO REMOVE THE HAZARDOUS CHARACTERISTIC AND BEEN TREATED FOR UNDERLYING HAZARDOUS CONSTITUENTS. I certify under penalty of law that the waste has been treated in accordance with the requirements of 40 CFR 268.40 to remove the hazardous characteristic, and that underlying hazardous constituents, as defined in 268.48 Universal Treatment Standards. I am aware that there are significant penalties for submitting false certification, including the possibility of fine and imprisonment.
- J. THIS RESTRICTED WASTE IS SUBJECT TO AN EXEMPTION FROM LAND DISPOSAL. (Please include the date the waste is subject to the prohibitions in Column 5) This waste is subject to an exemption from a prohibition on the type of land disposal method utilized for the waste (such as, but not limited to, a case-by-case extension under 40 CFR Part 268.5, an exemption under 40 CFR 268.6, or a nationwide capacity variance under 40 CFR 269 Subpart C)
- K. THIS RESTRICTED WASTE WITH TREATMENT STANDARDS EXPRESSED AS CONCENTRATIONS IN THE WASTE PURSUANT TO 268.43. IF COMPLIANCE WITH THE TREATMENT STANDARDS IN SUBPART D OF THIS PART IS BASED IN PART OR IN WHOLE ON THE ANALYTICAL DETECTION LIMIT ALTERNATIVE IN 268.439(c). I certify under penalty of law that I have personally examined and am familiar with the treatment technology and operation of the treatment process used to support this certification and that, based on my inquiry of those individuals immediately responsible for obtaining information, I believe that the nonwastewater organic constituents have been treated by incineration in units operated in accordance with 40 CFR part 264, Subpart O, or 40 CFR part 265, Subpart O, or by combustion in fuel substitution units operating in accordance with the applicable technical requirements, and I have been unable to detect that nonwastewater organic constituents despite having used best good faith efforts to analyze for such constituents. I am aware that there are significant penaltics for submitting a false certification, including the possibility of fine and imprisonment.
- L. THIS DECHARACTERIZED WASTE CONTAINS UNDERLYING HAZARDOUS CONSTITUENTS THAT REQUIRE FURTHER TREATMENT TO MEET UNIVERSAL TREATMENT STANDARDS. I certify under penalty of law that the waste has been treated in accordance with the requirements of 40 CFR 268.40 to remove the hazardous characteristics. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment.
- M. THIS WASTE HAS BEEN TREATED IN ACCORDANCE WITH THE REQUIREMENTS OF 40 CFR 268.40 TO REMOVE THE HAZARDOUS CHARACTERISTIC AND THE UNDERLYING HAZARDOUS CONSTITUENTS. AS DEFINED IN 268.2(1) HAVE BEEN TREATED ON-SITE TO MEET THE 268.48 UNIVERSAL TREATMENT STANDARDS. I certify under penalty of law that the above is true. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment.

Heraeus Inc. Cermalloy Division 24 Union Hill Industrial Park West Conshohocken, PA 19428

Office Telephone: (610)825-6050 Emergency Telephone: (800)255-3924

Date Prepared: 5/25/95 Date Revised: 6/27/96

Section 1: IDENTIFICATION

Product Name: PD944

CAS Registry Number: not applicable since product is a

mixture.

#### Section 2: COMPONENT HAZARD DATA (3)

Hazardous Components CAS No. Exposure Limits 35-45% 25068-38-6 not established epoxy thinner 10-20% 26761-45-5 not established hardener 25-35% 134091-76-2 not established 71566-54-6 pigment 1-3% not established 10mg/M3 ACGIH (1) silica, amorphous 5-15% 7631-86-9

NFPA rating: health 1, fire 1, reactivity 1

- TLV is very unlikely to be reached since material is in the paste form; hence no airborne particles. Provide adequate ventilation in the firing room to remove any evolved fumes.
- (2) Supplementary data on lead attached if applicable.
- Per 29 CFR 1910 the mixture has not been tested as a All hazardous components which comprise >=1% of the mixture (0.1% if carcinogenic) are listed. Percentages of individual components are not listed as this information is considered a Trade Secret; it is not required that it be disclosed.

#### Section 3: PHYSICAL DATA

Appearance and Odor: Physical State - thick paste

Color - red Odor -mild

Initial Boiling Point of Organic Mixture: (>400 OF)

Specific Gravity: 1

Vapor Pressure (Estimated for mixture,  $20^{\circ}$ C): N/AP Vapor Density (Air = 1): N/AP

Evaporation Rate

(Estimated for mixture, n-butyl acetate = 1,20°C): N/AP

Solubility in water: insoluble

page (1)

Section 4: FIRE, REACTIVITY, AND EXPLOSION HAZARD DATA Flash Point (Most flammable solvents): (>200 OF) Autoignition Temperature (Most Flammable Solvents):N/AV Flammable Limits in Air (Most Flammable Solvent):N/AV Extinguishing Media: Water Fog, Alcohol Foam, Dry Chemical Special Fire Fighting Procedures: Cool exposed containers with water. When fighting use NIOSH approved selfcontained breathing apparatus with full face piece operated in positive pressure mode, as evolved fumes are toxic and cause respiratory irritation. Unusual Fire and Explosion Hazards: Store at ambient temperature away from open flame or sparks. Stability: The material is stable under normal use conditions. Avoid temperatures > 40oC and moisture.

Incompatibility: Will not react with water. Avoid mixing with strong oxidizing agents, acids, and caustics.

Hazardous Decomposition Products: Combustion produces carbon monoxide, carbon dioxide, and various hydrocarbons.

Hazardous Polymerization: Will not occur. Section 5: Health Hazards of Components *

OSHA Permissible Exposure Limit: Not Established for Mixture

Components listed as carcinogenic by NTP, IARC, or OSHA: None

Primary Routes of Entry: inhalation, skin, eye, ingestion.

ROUTE AC EXPOSURE	UTE & CHRONIC SYSTEMS	MEDICAL CONDITIONS AGGRAVATED	EMERGENCY FIRST AID
Inhalation	Irritant	Unknown	Remove to fresh air. If breathing difficult give oxygen. If breathing has stopped, start artificial respiration.
Skin Contact	Irritant	Unknown	Remove contaminated clothing and launder before reuse. Wash thoroughly with soap and water.
Eye Contact	Moderate	Unknown	Flush with running water for 15 mins. lifting upper and lower lids.

page (2)

Ingestion

Irritation of the GI system

Unknown

Drink large quantities of water

Other health information:

epoxy: LD50 oral rat: >2000mg/kg

thinner: ingestion of large quantities (1% of diet) of this product produced body weight changes in experimental animals and in the liver and kidney. Levels of 0.5% and 1.0% wt in the diet also caused changes and reduced erythrocyte count and hematocrit. If ingested, do not induce vomiting. Drinke water and get medical

attention.

hardener: oral LD50 (rats) <3000 mg/Kg

dermal: LD50 (rabbits) >3000 mg/kg

- * If necessary, copies of toxicology studies provided to HICD by the manufacturers of the above hazardous components can be supplied. Synergistic or additive effects of the above chemicals are unknown, as are the effects of exposure to these chemicals in addition to others present in the workplace.
- ** In all cases keep individuals warm and quiet and get medical attention.

Section 6: PERSONAL PROTECTION AND CONTROLS

Personal Protection: Avoid prolonged skin contact.

Respiratory: Not required if local exhaust is satisfactory.

Ten (10) air changes per hour are recommended.

If overexposure occurs, use NIOSH-OSHA approved air supply respirator suitable for organic vapors. Administrative or engineering controls should be implemented to reduce exposure.

Eye: Chemical splash goggles or OSHA approved glasses. Skin: Solvent resistant glove (polyurathane, vinyl)

Engineering Controls: Recommended ventilation, provide sufficient mechanical (general or local exhaust) ventilation to maintain concentrations below TLV -10 air changes per hour

Hygienic Practices: Prevent eye contact with glasses or goggles, minimize skin contact, use with adequate ventilation to minimize inhalation of vapor. Do not smoke or eat in work areas. Wash hands thoroughly prior to smoking or eating.

Section 7: STORAGE, SPILL, AND DISPOSAL

Special storage conditions: Keep containers closed and sealed when not in use. Steps to be taken in case material is released or spilled:

Clean spill with disposable paper towels (wear rubber gloves) and wash area with soap and water.

Waste Disposal Method: Dispose in accordance with all local, state and federal regulations.

EPA Waste Class: Residual

page 3

Section 8: TRANSPORTATION

DOT ID No.: not regulated

DOT hazard class: not regulated

Proper shipping name: adhesive- not regulated

Section 9: REFERENCES

This MSDS is compilation of information supplied in the MSDS's obtained from the manufacturers of the chemicals present in this product. Also, 29 CFR.1210 was consulted for TLV information.

*** This information is for guidance, and is furnished without warranty of any kind. It is a compilation of data believed to be reliable, but Heraeus Incorporated, Cermalloy Division assumes no obligation or liability for its completeness or accuracy.

**SECTION III - HAZARDS IDENTIFICATIONS** 

EMERGENCY OVERVIEW: DANGER! Corrosive to all body tissues. Avoid contact with skin or eyes. Harmful if inhaled or swallowed.

**POTENTIAL HEALTH EFFECTS:** 

INHALATION:

Inhalation of vapor or mist is corrosive to respiratory tract. Symptoms include coughing, wheezing, laryngitis, shortness of

breath, headache, nausea, and vomiting.

EYE CONTACT:

Liquid or vapors are corrosive to eyes. Immediate irritation followed by destruction of tissue.

SKIN CONTACT:

This material is corrosive to all body tissues. Full extent of damage may not be apparent for 12 - 24 hours after exposure.

Severe burns are slow healing. Gangrene may follow damage.

INGESTION:

Corrosive, moderately toxic, causes nausea, vomiting, loss of consciousness.

CHRONIC Effects: Damage to kidneys and liver (phosphoric acid). Changes in bones or joints (hydrofluoric acid).

NOTE:

CARCINOGENICITY: LISTED IN NTP? No

IARC? No

OSHA Regulated? No

**SECTION IV - FIRST AID MEASURES** 

INHALATION:

Remove victim to fresh air and, if needed, immediately begin artificial respiration. Give oxygen if breathing is labored. Get emergency medical help. Contact a physician immediately.

EYE CONTACT:

Flush eyes with water for 15 minutes. Get medical attention.

SKIN CONTACT:

Flush with water or soap and water for 15 minutes or until all traces have been removed. Seek medical attention if symptoms develop and

INGESTION:

Do not induce vomiting. Rinse mouth out with water. Get immediate medical attention.

**AUTOIGNITION TEMPERATURE: NA** 

**GENERAL HAZARD:** 

Toxic furnes produced in fire.

**FIRE FIGHTING INSTRUCTIONS:** 

Approach fire from upwind side. Avoid breathing smoke, fumes, mist, or vapors on the downwind side. Firefighters

wear protective clothing and self contained breathing apparatus.

**EXTINGUISHING MEDIA:** 

Dry powder, carbon dioxide (CO₂), water fog or spray.

**HAZARDOUS COMBUSTION PRODUCTS:** 

Smoke, irritating vapors, toxic furnes of POx, and corrosive F furnes, CO, CO2

**SECTION VI - ACCIDENTAL RELEASE MEASURES** 

LAND SPILL:

Emergency response coordinator must have mandated training. Eliminate all Ignition sources. SMALL SPILLS: Pick up with absorbent materials and place in non-leaking containers; seal tightly for proper disposal or reuse. LARGE SPILLS: Evacuate the hazard area of unprotected personnel. Wear appropriate respirator and protective clothing. Shut off source of leak if safe to do so. Dike and contain. Remove with vacuum trucks or pump to storage/salvage vessels.

WATER SPILL: Notify proper authorities.

Clean up leaks/spills immediately to prevent soil or water contamination.

**SECTION VII - HANDLING AND STORAGE** 

HANDLING:

Avoid contact with skin, eyes, and clothing. After handling this product, wash hands before eating, drinking or smoking. If contact occurs, remove contaminated clothing. If needed, take first aid action shown in section IV. Launder contaminated clothing before reuse.

STORAGE:

Store away from food stuffs, alkaline materials.

#### ACTI-BRITE

#### SECTION VIII - EXPOSURE CONTROLS/PERSONAL PROTECTION

ENGINEERING CONTROLS: Local exhaust ventilation recommended.

PERSONAL PROTECTION: If TLV is exceeded wear NIOSH approved respirator. Use heavy rubber type gloves, full face shield and boots, aprons, drench

showers, eye wash as needed for protection against spills and/or splashes.

#### SECTION IX - PHYSICAL AND CHEMICAL PROPERTIES

VAPOR PRESSURE: ND SPECIFIC GRAVITY (H2O=1): 1.15

EVAPORATION RATE (BuAc=1): >1

VAPOR DENSITY (ALr=1): >1

VOC: 0%

**SOLUBILITY IN WATER: Complete** 

FREEZING POINT: NO

pH: <2.0

**BOILING POINT: 212 F** 

APPEARANCE & ODOR: Pink liquid, pungent odor.

#### **SECTION X - STABILITY AND REACTIVITY**

STABILITY: Stable.

CONDITIONS TO AVOID:

High temperatures.

MATERIALS TO AVOID:

Alkaline materials, may react with metals to produce hydrogen gas.

HAZARDOUS DECOMPOSITION PRODUCTS: Corrosive F fumes, toxic POx fumes, from combustion - smoke, CO, CO2.

HAZARDOUS POLYMERIZATION: Will not occur.

#### SECTION XI - TOXICOLOGICAL INFORMATION

LDLo: Phosphoric Acid 220 mg/kg (unr - man) LD50: 1530 mg/kg (oral - rat) LD50: 2740 mg/kg (skin - rat) Hydrofluoric Acid LCLo: 50 ppm / 30 M (inh - human) LC50: 966 ppm / 1 hr (inh - rat)

100 mg/m³ TCLo: (inh - human) NOSE, EYE, PUL

#### **SECTION XII - ECOLOGICAL INFORMATION**

Harmful to aquatic life in very low concentrations.

Phosphoric Acid

138 ppm / 24 hr / mosquito fish / TLm / fresh water

Hydrofluoric Acid 60 ppm / fish / lethal / fresh water

#### **SECTION XIII - DISPOSAL CONSIDERATIONS**

Dispose as hazardous waste. Classification and documentation is required before disposal. Follow all local, state and federal regulations.

#### **SECTION XIV - TRANSPORTATION INFORMATION**

PROPER SHIPPING NAME: Corrosive liquid, Acidic, Inorganic, n.o.s. (contains phosphoric acid, hydrofluoric acid), 8, UN3264, PG II

**HAZARD CLASS: IDENTIFICATION NUMBER: UN3264** 59

DOT Emergency Guide #: Reportable Quantity (RQ):

65 gallons (hydrofluoric acid)

International:

Corrosive liquid, Acidic, Inorganic, n.o.s. (contains phosphoric acid, hydrofluoric acid), 8, UN3264, PG II, IMDG 8147-1

#### **SECTION XV - REGULATORY INFORMATION**

TSCA (Toxic Substance Control Act): Components of this product are listed on the TSCA Inventory.

CERCLA (Comprehensive Environmental Response, Compensation and Liability Act): Reportable quantity is 65 gallons (hydrofluoric acid). Ccr

local authorities for other reporting requirements.

SARA TITLE III (Superfund Amendments and Reauthorization Act):

Threshold Planning Quantity is 65 gallons (hydrofluoric acid) Section 302

#### 3. HAZARDS IDENTIFICATION

May irritate eyes, skin, and gastrointestinal tract. Prolonged or repeated exposure may cause allergic skin reaction. Prolonged expoxure to silver may cause argyria which is a pigmentation of skin and other body tissue. Inhalation, ingestion, eyes, skin. Toxicity:

Primary Routes of Entry: Signs and Symptoms of Exposure:

Inhalation may produce allergic reactions in some individuals. Ingestion may cause gastrointestinal irritation, nausea, vomiting, and diarrhea. Eye contact may cause severe irritation, burning sensation, blurred vision. Skin contact may produce allergic reaction in some individuals.

Existing Conditions
Aggravated by Exposure:

None known

Explosive Limits:
(% by volume in air)Lower
(% by volume in air)Upper

ACCIDENTAL RELEASE MEASURES

Steps to be taken in case of spill or leak:

Take up with an inert absorbent. Store in a closed container until disposal.

HANDLING AND STORAGE

Safe Storage:

(Contact Loctite Customer Handling:

Store below 80°F. Refrigerated storage (-40°F) is recommended to extend shelf life Service 1-800-243-4874 for shelf life information) Avoid prolonged skin contact. Keep away from eyes. Avoid prolonged inhalation of mists or vapors.

EXPOSURE CONTROLS, PERSONAL PROTECTION

Eyes:

Ventilation:

Respiratory

Wear chemical splash goggles.
Wear solvent resistant gloves.
Provide sufficient local exhaust ventilation to maintain exposure below TLV(s).
If the TLV of the product is exceeded, a mechanical or self contained breathing appartus is advised.

See Section 2 for Exposure Limits.

RICK RANDI

#### SECTION VI HEALTH HAZARD DATA

Primary Routes of Exposure: Inhalation, eye and skin contact

Acute signs and Symptoms of Overexposure: Material is not considered an inhalation hazard as supplied, but dust generated during buffing contains silica. Irritating to the eyes, skin and mucous membranes of the respiratory tract. Contact with molten material can cause severe burns.

Chronic Signs and Symptoms of Overexposure: Prolonged inhalation of silica dust may cause Silicosia, a fibrotic progressive lung disease characterized by loss of lung capacity. Symptoms characteristic of this condition include coughing, difficulty breathing, wheezing, and repeated non-specific chest illness.

Carcinogenicity? Yes

No

No

AHC

PC2A

C

AHC=Anticipated Human Carcinogen, PC2A=Probably Carcinogenic to Humans (Group 2A), C=Known in the state of California to be a Carcinogen

Conditions That May Increase Overexposure Potential: Any condition which creates a respirable dust. When using compound for buffing, proper ventilation should be used and appropriate protective equipment wom.

Medical Conditions Generally Aggravated by Exposure: Respiratory disease, damaged skin

#### FIRST AID PROCEDURES:

Eye Contact:

Flush contaminated eye(s) with plenty of water for at least 15 minutes while holding eyelids open. Seek

medical attention immediately if irritation persists or if injury has occurred.

Skin Contact:

Wash area with soap and water. Seek medical attention if irritation develops or persists.

Inhalation:

Remove victim to fresh air. If breathing has stopped, properly trained personnel should begin artificial

respiration or cardiopulmonary resuscitation (CPR) and medical assistance should be obtained

immediately.

Ingestion:

Seek medical attention immediately. DO NOT INDUCE VOMITTNO.

#### SECTION VII PRECAUTIONS FOR SAFE HANDLING AND USE

Actions to Take for Spills: Provide adequate ventilation. Avoid breathing dust by dampening material with water, scoop or sweep up and place in approved containers. Do not flush to sewers o water ways.

Waste Disposal: Dispose of viz a licensed firm in accordance with federal, state and local regulations (see EPA 40 CFR 261).

Precautions to be Taken in Handling and Storage: Store in a cool, dry, well ventilated area away from heat, and out of the sun, as product may melt. Observe all safeguards for container residue until cleaned or destroyed. Store in area where animals cannot get access to since pets, especially dogs, like to eat tallow based compounds.

Community Right-to-Know Requirements: None Known

#### SECTION VIII EMPLOYEE PROTECTION MEASURES

Local ventilation is preferred to meet TLV requirements. General ventilation is acceptable, if exposure is maintained below Ventilation: TLY.

Respiratory Protection: When airborne concentrations exceed TLV or are unknown, use a NIOSH/MSHA approved respirator for particulates in accordance with OSHA respiratory protection requirements (29 CFR 1910.134).

Eye Protection: Face shelld is recommended.

Protective Gloves: Cotton or leather gloves are recommended. Use heat resistant gloves when handling molten material. a member of

Section VI Health Hazard Data

Primary Routes of Exposure:

None known

Acute Signs and Symptoms of Overexposure:

Chronic Signs and Symptoms of Overexposure:

None known

Carcinogenicity? No.

Listed in: Not listed

Medical Conditions Generally Aggravated by Exposure:

None known

**First-Aid Procedures** 

Hold eyelids open and flush eyes for 15 minutes with large quantities of water. Seek medical

attention immediately.

Skin: Wash area with soap and water. Remove contaminated clothing. Seek medical attention.

inhalation: Remove victim to fresh air. Restore breathing if necessary. Seek medical attention

immediately.

Ingestion:

Seek medical attention immediately.

Section VII Precautions for Safe Handling and Use

Actions to Take for Spills: Sweep up any material.

Waste Disposal: Dispose of in accordance with local, state and federal regulations.

Precautions to be Taken in Handling and Storage:

Store away from extreme heat.

Other Precautions: None known

Section VIII Employee Protection Measures

Ventilation:

Local ventilation is preferred to meet TLV requirements. General ventilation is

acceptable, if exposure is maintained below TLV.

Respiratory Protection: If irritation occurs appropriate respiratory protection should be worn.

Eye Protection: Safety goggles

Protective Gloves:

Rubber gloves

Other Protective Equipment: None known

· Work/Hygiene Practices: Eyewash station and safety shower should be available in areas of use.

Wash thoroughly after handling product.

The information herein is given in good faith, but no warranty, express or implied, is made.

SECTION 3 - PHYSICAL DATA

Polling Range: 212*

Specific Gravity: 1.02

Vapor Pressure: Same as water - Vapor Density: - Same as Water Solubility in Water: Complete -

Upper Explosive Limit:

None Mona

N/A

9.0 to 9.5 Evaporation Bale: 1.0

Melting Point: N/A

Extinguishing Media: Special Fire Fighting Procedures: Non-Combustible Elquid

Slightly viscous amber color solution,

Unusual Fire & Explosion Hazards:

Flash Point (Method Used):

None None

Physical Description: light citrus odor.-

**SECTION 5 - REACTIVITY DATA** 

SECTION 6 - STORAGE & HANDLING INFORMATION

Precautions to be Taken in Handling and Storage:

Stability: Stable

Hazardous Polymerization: Will not occur

incompatibility (Materials to Avoid): Strong exidizers, acids,

heal over 250°

Haza Jous Decomposition Products: None Known

Store tightly closed container in a dry area at temperatures between 40 - 120°F. Keep product out of eyes. Keep out of the reach of children. Clothing or shoes which become saturated with substance should not be reworn until thoroughly cleaned. Local, state, federal laws apply.

SECTION 7 - HEALTH HAZARDS AND FIRST AID

Effects of Overexposure: There are no known effects from over-

exposure to this product. However, practice of good industrial

tryglane exposure to any chemical should be kept to a minimum. Carcinogenicity: N/A

NTP: N/A

IARC Monographs: N/A

OSHA Regulated: N/A

Home of the ingredients are listed as carcinogens by IARC, NTP.

**OSHA** 

OI,

Medical Conditions: None

Generally Aggravated by Exposure: None Known

First Ald Procedures: .

Skin:

Flush with water. Seek medical attention if

Irrhation persists.

Eyes:

Flush with large quantities of water, occasionally Illing upper and lower lids. Seek medical attention

I irlialion persists.

Inhalation:

N/A

MOR 000669

Ingestion:

Drink plenty of water. Seek medical attention

Miritation persists.

SECTION 8 - SPECIAL PROTECTION INFORMATION

Respiratory Protection: No special requirements.

Protective Gloves: Recommended, but not necessary.

Ventilation: Standard, if vapors are detected, ventilate work area

by opening windows and using exhaust fans

Eye Protection: No Special Measures Required.

SECTION 9 - SPILL OR LEAK PROCEDURES

|d|

Stops to be Taken in Case Material is Released or Spilled: Absorb spill with inert absorbent material. Pick up and place residue in a suitable . whate container, or, if permitted, flush into sewer. Thoroughly rinse spill arna with water.

rotective Equipment: No special measures are required.

Waste Disposal Method: Liquid wastes are not permitted in landfills. This product is not considered a hazardous waste under RCRA. Unusable liquid may be drummed and taken to a chamical or industrial landilit or rinse into sewers. Local, state and federal faws apply

### CAT HYDRAULIC OIL (HYDO) SAE 10W

### MATERIAL SAFETY DATA BULLETIN

_____

### 1. PRODUCT AND COMPANY IDENTIFICATION

PRODUCT NAME: CAT HYDRAULIC OIL (HYDO) SAE 10W

SUPPLIER: MOBIL OIL CORP.

NORTH AMERICA MARKETING AND REFINING

3225 GALLOWS RD. FAIRFAX, VA 22037

24 - Hour Emergency (call collect): 609-737-4411

Product and MSDS Information: 800-662-4525 856-224-4644 CHEMTREC: 800-424-9300 202-483-7616

### 2. COMPOSITION/INFORMATION ON INGREDIENTS

CHEMICAL NAMES AND SYNONYMS: PET. HYDROCARBONS AND ADDITIVES

INGREDIENTS CONSIDERED HAZARDOUS TO HEALTH:

This product is not formulated to contain ingredients which have exposure limits established by U.S. agencies. It is not hazardous to health as defined by the European Union Dangerous Substances/Preparations Directives. See Section 15 for a regulatory analysis of the ingredients.

______

______

See Section 15 for European Label Information.

See Section 8 for exposure limits (if applicable).

### 3. HAZARDS IDENTIFICATION

US OSHA HAZARD COMMUNICATION STANDARD: Product assessed in accordance with OSHA 29 CFR 1910.1200 and determined not to be hazardous. EFFECTS OF OVEREXPOSURE: No significant effects expected. EMERGENCY RESPONSE DATA: Brown Liquid. Note: Pressurized mists may form a flammable mixture. DOT ERG No. - NA

______

### 4. FIRST AID MEASURES

EYE CONTACT: Flush thoroughly with water. If irritation occurs, call a physician.

SKIN CONTACT: Wash contact areas with soap and water. High pressure accidental injection through the skin requires immediate medical attention for possible incision, irrigation and/or debridement.

INHALATION: Not expected to be a problem.

INGESTION: Not expected to be a problem. However, if greater than 1/2 liter (pint) ingested, seek medical attention.

______

______

### 5. FIRE-FIGHTING MEASURES

EXTINGUISHING MEDIA: Carbon dioxide, foam, dry chemical and water fog. SPECIAL FIRE FIGHTING PROCEDURES: Water or foam may cause frothing.

Use water to keep fire exposed containers cool. Water spray may be used to flush spills away from exposure. Prevent runoff from fire control or dilution from entering streams, sewers, or drinking water supply.

SPECIAL PROTECTIVE EQUIPMENT: For fires in enclosed areas, fire fighters must use self-contained breathing apparatus.

UNUSUAL FIRE AND EXPLOSION HAZARDS: Note: Pressurized mists may form a flammable mixture. Flash Point C(F): > 200(392) (ASTM D-92). Flammable limits - LEL: NA, UEL: NA.

NFPA HAZARD ID: Health: 0, Flammability: 1, Reactivity: 0
HAZARDOUS DECOMPOSITION PRODUCTS: Carbon monoxide. Metal oxides.
Elemental oxides.

### 6. ACCIDENTAL RELEASE MEASURES

NOTIFICATION PROCEDURES: Report spills as required to appropriate authorities. U. S. Coast Guard regulations require immediate reporting of spills that could reach any waterway including intermittent dry creeks. Report spill to Coast Guard toll free number (800) 424-8802. In case of accident or road spill notify CHEMTREC (800) 424-9300.

PROCEDURES IF MATERIAL IS RELEASED OR SPILLED: Adsorb on fire retardant treated sawdust, diatomaceous earth, etc. Shovel up and dispose of at an appropriate waste disposal facility in accordance with current applicable laws and regulations, and product characteristics at time of disposal.

ENVIRONMENTAL PRECAUTIONS: Prevent spills from entering storm sewers or drains and contact with soil.

PERSONAL PRECAUTIONS: See Section 8

______

______

______

.......

PERSONAL PRECAUTIONS: See Section 8

### 7. HANDLING AND STORAGE

HANDLING: High pressure injection under the skin may occur due to the rupture of pressurized lines. Always seek medical attention.

STORAGE: Do not store in open or unlabelled containers. Store away from strong oxidizing agents or combustible material.

### 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

VENTILATION: No special requirements under ordinary conditions of use and with adequate ventilation.

RESPIRATORY PROTECTION: No special requirements under ordinary conditions of use and with adequate ventilation.

conditions of use and with adequate ventilation.

EYE PROTECTION: Normal industrial eye protection practices should be employed.

SKIN PROTECTION: No special equipment required. However, good personal hygiene practices should always be followed.

EXPOSURE LIMITS: This product does not contain any components which have recognized exposure limits. However, a exposure limit of 5.00 mg/m3 is suggested for oil mist.

### 9. PHYSICAL AND CHEMICAL PROPERTIES

Typical physical properties are given below. Consult Product Data Sheet for specific details.

### 10. STABILITY AND REACTIVITY

STABILITY (THERMAL, LIGHT, ETC.): Stable.

CONDITIONS TO AVOID: Extreme heat.

INCOMPATIBILITY (MATERIALS TO AVOID): Strong oxidizers.

HAZARDOUS DECOMPOSITION PRODUCTS: Carbon monoxide. Metal oxides.

Elemental oxides.

HAZARDOUS POLYMERIZATION: Will not occur.

### 11. TOXICOLOGICAL DATA

---ACUTE TOXICOLOGY---

______

ORAL TOXICITY (RATS): Practically non-toxic (LD50: greater than 2000 mg/kg). ---Based on testing of similar products and/or the components.

DERMAL TOXICITY (RABBITS): Practically non-toxic (LD50: greater than 2000 mg/kg). ---Based on testing of similar products and/or the components.

INHALATION TOXICITY (RATS): Not applicable ---Harmful concentrations of mists and/or vapors are unlikely to be encountered through any customary or reasonably foreseeable handling, use, or misuse of this product.

EYE IRRITATION (RABBITS): Practically non-irritating. (Draize score: greater than 6 but 15 or less). ---Based on testing of similar products and/or the components.

SKIN TRRITATION (RABBITS): Practically non-irritating. (Primary Irritation Index: greater than 0.5 but less than 3). ---Based on testing of similar products and/or the components.

OTHER ACUTE TOXICITY DATA: The acute toxicological results summarized above are based on testing of representative Mobil products.

--- SUBCHRONIC TOXICOLOGY (SUMMARY) ---

Representative Mobil formulations have been tested at the Mobil Environmental and Health Sciences Laboratory by dermal applications to rats 5 days/week for 90 days at doses significantly higher than those expected during normal industrial exposure. Extensive evaluations, including microscopic examination of internal organs and clinical chemistry of body fluids, showed no adverse effects.

--- REPRODUCTIVE TOXICOLOGY (SUMMARY) ---

Dermal exposure of pregnant rats to representative formulations did not cause adverse effects in either the mothers or their offspring.

(Section continued next page)

### ---CHRONIC TOXICOLOGY (SUMMARY) ---

The base oils in this product are severely solvent refined and/or severely hydrotreated. Chronic mouse skin painting studies of severely treated oils showed no evidence of carcinogenic effects. These results are confirmed on a continuing basis using various screening methods such as the Mobil Modified Ames Test and IP-346.

### ---SENSITIZATION (SUMMARY) ---

Representative Mobil formulations have not caused skin sensitization in guinea pigs.

### 12. ECOLOGICAL INFORMATION

ENVIRONMENTAL FATE AND EFFECTS: This product is expected to be inherently biodegradable. There is no evidence to suggest bioaccumulation will occur. It is not expected to be toxic to aquatic organisms.

Accidental spillage may lead to penetration in the soil and groundwater. However, there is no evidence that this would cause adverse ecological effects.

______

_____

______

### 13. DISPOSAL CONSIDERATIONS

WASTE DISPOSAL: Product is suitable for burning in an enclosed, controlled burner for fuel value or disposal by supervised incineration. Such burning may be limited pursuant to the Resource Conservation and Recovery Act. In addition, the product is suitable for processing by an approved recycling facility or can be disposed of at an appropriate government waste disposal facility. Use of these methods is subject to user compliance with applicable laws and regulations and consideration of product characteristics at time of disposal.

RCRA INFORMATION: The unused product, in our opinion, is not specifically listed by the EPA as a hazardous waste (40 CFR, Part 261D), nor is it formulated to contain materials which are listed hazardous wastes. It does not exhibit the hazardous characteristics of ignitability, corrosivity, or reactivity and is not formulated with contaminants as determined by the Toxicity Characteristic Leaching Procedure (TCLP). However, used product may be regulated.

### 14. TRANSPORT INFORMATION

______

USA DOT: NOT REGULATED BY USA DOT.

RID/ADR: NOT REGULATED BY RID/ADR.

IMO: NOT REGULATED BY IMO.

IATA: NOT REGULATED BY IATA.

______

### 15. REGULATORY INFORMATION

Governmental Inventory Status: All components comply with TSCA, EINECS/ELINCS, AICS, MITI, and DSL.

EU Labeling: EU labeling not required.

U.S. Superfund Amendments and Reauthorization Act (SARA) Title III: This product contains no "EXTREMELY HAZARDOUS SUBSTANCES".

SARA (311/312) REPORTABLE HAZARD CATEGORIES: None.

SECTION 4 FIRE AND EXPLOSION HAZARD DATA

Flash Point (Degree °F): >200 (PMCC)

Flammable Limits: Not Established

Extinguishing Media:

Use carbon dioxide, dry chemical, foam, water fog.

Unusual Fire or Explosion Hazard:

Decomposition and combustion products may be toxic. Closed containers may violently rupture under fire conditions.

MOR 000683

PRINTED: 10/23/95

### CATALYST 23LV

### pecial Firefighting Procedures:

Firefighters/rescue personnel should wear positive pressure self-contained breathing apparatus and full protective equipment. Cool exposed containers with water to prevent pressure buildup. If large quantities of material are involved, evacuate area and fight fire from a safe distance.

### SECTION 5 REACTIVITY DATA

### Product Stability:

Product is stable under normal handling and storage conditions. Hazardous polymerization will not occur; however, review reactivity data concerning conditions to avoid and incompatible substances.

### Incompatibility:

Incompatible with strong oxidizers, acids, bases, epoxides.

### Hazardous Decomposition Products:

Carbon monoxide, carbon dioxide, oxides of nitrogen, amines and other organic substances may be formed during combustion. The chemical nature and quantity of decomposition by-products will vary widely depending on the conditions of combustion.

#### Conditions to Avoid:

Avoid storage in open containers, exposure to open flame or uncontrolled exposure to heat, uncontrolled mixing with epoxies or exposure to incompatible substances.

### SECTION & RELEASE RESPONSE DATA

Spill response operations must be conducted in accordance with the provisions of OSHA 29 CFR 1910.120. Review the entire MSDS before proceeding with spill response.

### Small Spills:

Activate available exhaust ventilation equipment in the immediate spill area. Wipe up or absorb spilled material with vermiculite or other similar material. Wash area with soapy water to remove residue. Collect absorbed material and water rinses in appropriate containers. Dispose of in accordance with current Federal, State, and local regulations.

### Large Spills:

Limit access to the immediate spill area. Shut off source of the release if this can be done without risk of injury. Activate available exhaust ventilation systems in the area. Dike area to contain the spill and prevent releases to sewers, drains or other waterways. Collect spilled material for salvage/disposal. Apply absorbent material to soak up residue. Wash area with soapy water. Prevent runoff from entering waterways. Transfer absorbed material and water rinses to appropriate waste containers. Dispose of in accordance with current Federal, State and local regulations.

MOR 000684

PRINTED: 10/23/95

### CATALYST 23LV

### SE ION 7 HANDLING PRECAUTIONS

The recommendations described in this section are provided as general guidance for minimizing exposure when handling this product. Because usage conditions will vary depending on customer application, specific safe handling procedures should be developed by a person knowledgeable in the intended usage conditions and equipment. Employees must be properly trained in safe handling of this product prior to to use.

### Personal Protection:

This product can cause eye burns. Prevent eye contact through the use of a face shield used in conjunction with either splash-proof chemical goggles or chemical safety glasses. This product can cause skin burns and may cause allergic skin responses. Components of this product may also be absorbed through the skin. Wear appropriate protective gloves, a proper chemical-resistant apron and additional impervious clothing to prevent all skin contact, contamination of clothing and possible absorption through the skin. Normal work clothing should be washed before re-use. Wash hands and face thoroughly after handling this product and before eating, drinking or smoking. Emergency eye wash facilities and safety shower must be available.

### Ventilation Recommendations and Respiratory Protection:

Provide effective mechanical exhaust ventilation to draw vapors, mists or fumes generated during processing away from the worker and prevent routine inhalation. This is necessary especially during elevated temperature processing.

### Storage:

Store in a cool, dry location with adequate ventilation. Keep container tightly sealed when not in use. Keep away from open flames and heat sources. Consult the product Technical Bulletin for detailed storage information.

### SECTION 8 HEALTH DATA

### Routes of Exposure:

Skin and eye contact, inhalation of vapors.

### Medical Conditions Aggravated by Exposure:

Exposure may aggravate preexisting skin, eye and/or respiratory disorders.

### Eye Contact:

Contains materials corrosive to the eyes; may cause burns and possible corneal injury. Permanent impairment of vision or blindness may occur.

### Skin Contact:

Contains materials corrosive to the skin; may cause severe burns and blistering. This product may cause skin sensitization/allergic skin reactions which may be severe in certain individuals. May be harmful if absorbed through the skin.

MOR 000685

PRINTED: 10/23/95

### CATALYST 23LV

#### .nhalation:

Vapors may cause irritation, nausea, and headaches.

### Ingestion:

Harmful if swallowed. May cause burns to the mouth and upper gastro-intestinal tract.

### Chronic Health Effects:

None known

### SECTION 9 FIRST AID PROCEDURES:

### Eve Contact:

Immediately flush eyes thoroughly with water for at least 15 minutes while holding eyelids open. Get immediate medical attention.

### Skin Contact:

Immediately flush the affected area of the skin with plenty of water, while removing contaminated clothing or shoes. Follow by thoroughly washing with soap and water. Avoid scrubbing, as this action could increase skin absorption and worsen the effect of chemical contact. Get immediate medical attention. Bo not reuse contaminated clothing until properly cleaned. Contaminated leather articles, including shoes, cannot be decontaminated and should be destroyed.

### Inhalation:

Remove victim to fresh air. Provide oxygen if breathing is difficult. Give artificial respiration if not breathing. Get immediate medical attention.

### Ingestion:

DO NOT induce vomiting. If victim is conscious and alert, dilute by giving water to drink; never give anything by mouth to a drowsy, unconscious, or convulsing person. Get immediate medical attention.

### SECTION 10 ADDITIONAL INFORMATION

### TSCA Status:

All components of this product are listed in the EPA Toxic Substance Control Act Inventory.

### SARA Status:

This product does not contain any substances regulated by the SARA Section 313 amendments to RCRA.

### 3 HAZARDS IDENTIFICATION (Cont.)

### INHALATION

Can cause respiratory irritation, dizziness, weakness, fatigue, nausea, headache and possible unconsciousness.

#### INGESTION

Irritating to mouth, throat, and stomach. Can cause abdominal discomfort, nausea, vomiting and diarrhea.

POTENTIAL LONG-TERM EFFECTS FROM OVEREXPOSURE:

### CANCER INFORMATION

None of the substances have been shown to cause cancer. Not a carcinogen according to NTP, IARC or OSHA.

A4 - Not classifiable as a human carcinogen

### REPRODUCTIVE SYSTEM INFORMATION

None of the substances have been shown to cause reproductive system disorders.

ADDITIONAL HEALTH HAZARD INFORMATION

No information available.

MEDICAL CONDITIONS POTENTIALLY AGGRAVATED BY OVEREXPOSURE No data found

CHEMICAL INTERACTIONS

No information found.

### 4. FIRST AID MEASURES

### EYE CONTACT

Immediately flush eyes with plenty of water for at least 20 minutes retracting eyelids often. Get immediate medical attention.

### SKIN CONTACT

Wash with soap and water. Remove contaminated clothing and launder. Get medical attention if irritation develops or persists.

### INHALATION

Remove to fresh air. If not breathing, perform rescue breathing and, if available, have a trained person administer oxygen. Get medical attention immediately.

### INGESTION

Emergency personnel should be contacted immediately and be provided with this MSDS. For ingestion of small quantities of chemicals, the risk associated with inducing vomiting usually exceeds the poisoning risk.

Get medical attention immediately. Drink 2 glasses of water. Contact a poison information service. Stomach evacuation may be appropriate, as recommended by

### GENERAL HAZARDS

Vapors may be ignited by heat, sparks, flames or other sources of ignition giving rise to a Class B fire. Vapors are heavier than air and may travel to a source of ignition and flash back. Container may explode in heat of fire. Empty container may still contain residual material that can ignite and/or result in an explosion. Do not pressurize, cut, weld, braze, solder, drill, grind, or expose empty container to heat, flame, sparks, static electricity, or other sources of ignition.

### EXTINGUISHING MEDIA

Use alcohol foam, carbon dioxide (CO2) or dry chemical. Water may not be effective to extinguish fire. Use water spray to cool fire-exposed containers and to protect personnel.

### FIRE FIGHTING INSTRUCTIONS

Do not enter fire area without proper protection including self-contained breathing apparatus and full protective equipment. Fight fire from a safe distance and a protected location. Heat may build pressure and rupture closed containers, spreading fire and increasing risk of burns or injuries. Water may be ineffective in firefighting due to low flash point and limited miscibility with water. Flammable/combustible components of this material may be lighter than water and burn while floating on the surface. Use water spray/fog for cooling. Even if material is water soluble, it may not be practical to extinguish fire by water dilution. Notify authorities if liquid enters sewers or other public waters.

HAZARDOUS COMBUSTION PRODUCTS carbon dioxide; carbon monoxide

### 6 ACCIDENTAL RELEASE MEASURES

### SPILL CLEAN-UP PROCEDURES

Shut off ignition sources; smoking, flames or other sources of ignition must not be permitted in the area. Small Spills: Take up with sand or other noncombustible absorbent material and put into properly labeled containers for disposal. Large Spills: Dike ahead of liquid spill area to minimize migration and vapor generation. Ventilate the area. Get professional help from outside

### 6 ACCIDENTAL RELEASE MEASURES (Cont.)

contractors, the fire department or your trained spill brigade.

HEALTH CONSIDERATIONS AND PROTECTIVE EQUIPMENT

Follow personal protective equipment recommendations found in this MSDS.

### 7 HANDLING AND STORAGE

### HANDLING.

Avoid contact with material, avoid breathing vapors, use only in a well ventilated area, use bonding and grounding when transferring this material.

### STORAGE

Store in a cool dry ventilated location, away from oxidizers, heat, flame or other incompatible conditions. Keep container(s) closed if possible.

### 8 EXPOSURE CONTROLS AND PERSONAL PROTECTION

### ENGINEERING CONTROLS

Local exhaust ventilation or other engineering controls are normally required when handling or using this product to keep exposure to airborne contaminants below the TLV, PEL, or other recommended exposure limit and/or maintain operator comfort. These controls should be explosion-proof when exhausting flammable vapors.

Facilities storing or using this material should be equipped with an eyewash and safety shower.

### RESPIRATORY PROTECTION

If air monitoring indicates airborne concentrations at or above the limits, or symptoms of inhalation over-exposure occur, a respiratory protection program may be required. Engineering controls to reduce the exposure below acceptable limits are usually preferable to a respirator program.

### EYE PROTECTION

Chemically resistant safety glasses with side shields must be worn when handling this product. Further eye protection such as chemical splash goggles and/or face shield must be worn when the possibility exists for eye contact due to splashing or spraying liquid or airborne particles. Contact lenses should not be worn. An eye wash station should be available.

### SKIN PROTECTION

Depending upon conditions of use, wear protective gloves and other protective equipment. Inspect gloves for chemical break-through and replace as needed. Clean equipment thoroughly after each use.

Appropriate gloves to be used for MARKEM products that are mixtures have not been determined. Glove type(s) for ingredients present at 10% or more (if known) are:

Nitrile; Neoprene; Natural rubber

#### 12. ECOLOGICAL INFORMATION

### Ethyl acetate:

LC50 Pimephales promelas (fathead minnow) 230 mg/1/96 hr.

If released into water ethyl acetate will be lost primarily by evaporation (half-life 10 hr in a typical river) and biodegradation.

Bioconcentration in fish will be insignificant.

In the atmosphere, ethyl acetate will react with photochemically produced hydroxyl radicals (half-life 8.3 days). A few percent an hour will disappear under photochemical smog situations.

2-Propanol:

LC50 Pimephales promelas (fathead minnows) 11,830 mg/l/1 hr, 11,160 mg/l/24 hr 11,130 mg/l/48 hr, 72 hr, 96 hr,

When released into water, isopropanol will volatilize and biodegrade. In the atmosphere it will photodegrade primarily by reaction with hydroxyl radicals with a half-life of one to several days.

### 13 DISPOSAL CONSIDERATIONS

POTENTIAL EPA WASTE CODE(S): D001: F003

### DISPOSAL

Dispose of by incineration or waste water treatment following Federal, State, Local or Provincial regulations.

### 15 REGULATORY INFORMATION

Those ingredients appearing on the following list that do not appear in Section 2 are present at <0.1% for carcinogens, <1% for other hazardous substances, or are not considered hazardous in this product.

CERCLA: The following components have CERCLA reportable quantities:

CAS NUMBER CHEMICAL NAME 141-78-6 ETHYL ACETATE

SARA TITLE III: The following components are listed under Section 313:

CAS NUMBER CHEMICAL NAME

67-63-0 ISOPROPYL ALCOHOL
WHMIS: The following components are WHMIS Workplace Hazardous Materials:

CAS NUMBER CHEMICAL NAME 141-78-6 ETHYL ACETATE

67-63-0 ISOPROPYL ALCOHOL

TSCA: All chemicals in this product are on the USEPA TSCA 8(b) inventory.

TSCA: The following components are subject to TSCA 12(b) regulations:

CAS NUMBER CHEMICAL NAME
141-78-6 ETHYL ACETATE
67-63-0 ISOPROPYL ALCOHOL

RCRA: The following components are subject to RCRA land disposal restrictions:

CAS NUMBER CHEMICAL NAME 141-78-6 ETHYL ACETATE

### PA SYSTEM

2 A. Fire Hazard 0 A. Reactivity Hazard A. Health Hazard

INFORMATION CONTAINED HEREIN IS BASED ON DATA CONSIDERED ACCURATE, HOWEVER NO MANTY IS EXPRESSED OR IMPLIED REGARDING THE ACCURACY OF THESE DATA OR THE RESULTS TO BE INED FROM THE USE THEREOF. MINUTEMAN INTERNATIONAL, INC. ASSUMES NO RESPONSIBILITY FOR ROMAL INJURY OF PROPERTY DAMAGE TO VENDES, USERS OR THRD PARTIES CAUSED BY THE RIAL, SUCH VENDES OR USERS ASSUME ALL RISKS ASSOCIATED WITH THE USE OF THE MATERIAL.

### MATERIAL SAFETY DATA SHEFT

(COMPLIES WITH 29CFR 1910,1200)

SECTION 1 - CHEMICAL PRODUCT & COMPANY IDENTIFICATION Identity (As Used on Label and List): Multi-Blend #5 Neutral Cleaner Product Class: General purpose water-based cleaner Emergency Telephone Number: 800-255-3924 Telephone Number for information: 612-481-1900 Manufacturer's Name and Address: Multi-Clean®, A Division of Minuteman International, Inc. 600 Cardigan Road Shoreview, MN 55126 SECTION II - COMPOSITION/INFORMATION ON INGREDIENTS Hazardous Components (Specific Chemical Identity): Common Name(s) Chemical 10 - 30 Surfactant A (proprietary) R Water 60 - 100 CAS #7732-18-5 SECTION III - HAZARDS IDENTIFICATION **Emergency Overview** Appearance and Odor: Blue liquid, floral aroma. Primary Hazards: Non-hazardous in normal use. Potential Health Hazards Route(s) of Entry: Skin Absorption: ingestion: inhalation: Eye: May cause irritation on contact.

Skin: May cause irritation on contact. Ingestion: May be harmful if swallowed. inhalation: No hazardous vapors. Signs and Symptoms of Exposure: May cause Irritation on direct contact. Carcinogenicity: NTP? No IARC Monographs? No OSHA Regulated? No Target Organ (s): No additional data Medical Conditions Generally Aggravated by Exposure: N. Av. Health Hazards, Chronic: N. Av.

### SECTION IV - FIRST AID MEASURES

Emergency and First Aid Procedures:

If Swallowed: Drink water in large amounts and call a physician immediately. Never give anything by mouth to an unconscious person. Eye Contact: Flush eyes with running water for at least 15 minutes. If irritation persists, obtain medical attention. Skin Contact: Flush thoroughly with cool water. Remove and wash contaminated clothing before reuse.

Sources Used: Raw material data, general toxicology from the trade for similar products.

### SECTION V - FIRE FIGHTING MEASURES

Flammability: No Flash Point (method used):

Autoignition Temperature: N. Ap.

Flammable Limits: N. Ap.

LEL

UEL

Extinguishing Media N. Ap. Water? Alcohol Foam?

Foam? CO27

Water Fog? Dry Chemical?

Vaporizing Liquid? Other? Special Fire Fighting Procedures: N. Ap. Unusual Fire and Explosion Hazards: N. Av. TDG Flammability Classification: Non-flammable Sensitivity to Mechanical Impact: None Sensitivity to Static Discharge: None

### SECTION VI - ACCIDENTAL RELEASE MEASURES

Steps to be Taken in Case Material is Released or Spilled:

Dike and contain split with inert material (sand, earth, etc). Collect split with mop, absorbent material (example: floor-dri) or vacuum. Thoroughly rinse affected area with water.

### SECTION VII - HANDLING AND STORAGE

Precautions to be Taken in Handling and Storing:

Normal care in handling and storage.

Other Precautions: Keep out of reach of children. Keep from freezing.

### SECTION VIII - EXPOSURE CONTROLS/PERSONAL PROTECTION

Respiratory Protection (Specify Types): Not required

Ventilation: Local Exhaust: Not required Special: Not required Mechanical (General): Normal good ventilation sufficient.

Other: Not required

Protective Gloves: Natural rubber or synthetic.

Eye Protection: Approved safety goggles or glasses. Footwear: Not required Other Protective Clothing or Equipment: Not required

Work/Hygienic Practices: Do not contaminate food or beverages with cleaning chemicals.

SECTION IX - P	HYSICAL/CHEMICAL CHAR	ACTERISTICS
Boiling Point:	Approximately 212°F	pH: 7

Specific Gravity (H20) = 1: 1.00

Vapor Density (Air = 1): N. Av.

Evaporation Rate (Butyl Acetate = 1): N. Av.

Solubility In Water: Complete Vapor Pressure (MM HG): N. Av.

% Volatile: > 60 Odor Threshold: N. Av. OliWater Distribution Coefficient: N Av

Melting Point: N. Ap.

### SECTION X - STABILITY AND REACTIVITY

Stability: Unstable: Conditions to Avoid: N. Ab.

Incompatibility (materials to avoid): N. Av. Hazardous Decomposition or By-products: N. Av.

Hazardous Polymerization: Conditions to Avoid: N. Ap. May occur: Will not occur: X

### SECTION XI - TOXICOLOGICAL INFORMATION

١,	Chemical	OSHA PEL	ACGIH TLV	Recom.	LD50	LC50
	l A	None	None	N. Av.	N. Av.	N. Av.
	В	None	None	N. Av.	N. Av.	N. Av.

Teratogen, Mutagen, Reproductive Toxin Status: No Toxicologically Synergistic Products: N. Av.

### SECTION XII - ECOLOGICAL INFORMATION

Biodegradation Properties: Main component (A); Biodegraded to > 99% per SDA semi-continuous sludge test.

Ecotoxicological Information: Main component (A): LC50 (48 hr., daphnia magna)

6.2 mg/l

Chemical Fate Information: N. Av.

#### SECTION XIII - DISPOSAL CONSIDERATIONS

Waste Disposal Method:

Dispose of spilled material in accordance with local, state and federal regulations Waste from normal cleaning procedures may be sewered, depending on the materials and/or contaminates being cleaned as well as state, federal and local sewer commission regulations.

RCRA Hazard Class: None

### SECTION XIV - TRANSPORT INFORMATION

Shipping Classification: Compound, cleaning liquid, N.O.I.

UN Number: N. Ap. Packing Group: N. Ap.

### SECTION XV - PREPARATION DATA

Prepared By: Mark Levitt

Telephone Number: 612-481-1900

Date: 7/18/97

### SECTION XVI - REGULATORY INFORMATION

US Federal Regulations

TSCA Status: All ingredients listed. CERCLA Reportable Quality: None

CARBON DICKIDS, DRY CHRESCAL, POAR

UNGSTAL YIRE AND EXPLOSION MARADS: ISOLATE FROM MEAT, ELECTRICAL EQUIPMENT SPARES, AND OPEN FLAME. CLOSED CONTAINERS MAI EXPLODE WHEN EXPOSED TO EXTRE MEAT. APPLICATION TO NOT SURFACES SEQUIRES SPECIAL PRECACTIONS, DURING SHEEGENCY CONDITIONS OVEREXPOSURE TO DECOMPOSITION PRODUCTS MAY CAUSE A REA BAZARD, STRFTONS MAY NOT BE IMMEDIATELY APPARENT, ONTAIN MEDICAL ATTENTION.

SPECIAL FIRE FIGHTING PROCEDURES: FULL PROTECTIVE EQUIPMENT INCLUDING SELF-CONTAINED BREATHING APPARATUS SHOULD BE USED. MATER SPRAY MAY BE INTEFFECTIVE IF WATER IS USED. FOR MORILES ARE PREFERABLE. WATER MAY BE USED TO COOL CLO CONTAINERS TO PREVENT PRESSURE BUILD-UP AND POSSIBLE AUTOIGNITION OR EXPLOS WHEN EXPOSED TO EXTREME BEAT.

SECTION V - BEALTH BALARD DATA

BOUTES OF EXPOSURE: EXPOSURE MAY BE BY IMPALATION AND/OR SKIN OR ETE CONTAC DEPENDING ON COMPITIONS OF USE. TO MINIMISE EXPOSURE, POLLOW RECOMMENDATION POR PROPER USE, VENTILATION, AND PERSONAL PROTECTIVE EQUIPMENT.

_____

ACUTE MEALINE SATAROS:

REFFECTS OF OVERELPOSURE; INSUTATION OF STEE, SKIN AND RESPIRATORY STATES, H CAUSE MERVOUS SYSTEM DEPRESSION. EXTREME OVEREXPOSURE MAY RESULT IN THECOMECIOCOMINESS AND POSSIBLE DEATH.

STORE AND SYMPTOMS OF OWERSTROSURE, BRADACUR, DISTINGES, MARSEL, AND LOSS OF COORDINATION ARE INDICATIONS OF EXCESSIVE EXPOSURE TO VAPORS OR SPRAY HISTS

RESURDE AND INCRING OR ROBBING SENSATION MAY INDICATE STE OR EXCESSIVE SKIN SEPOSTER.

MEDICAL CONDITIONS ADDRAVATED BY EXPOSURE MORE GENERALLY RECOGNIZED.

MODELT AND PIRST AID PROCEDURES:

BY THEALED: IF APPECTED, REMOVE FROM EXPOSURE, RESTORE BREATHING, KEEP WARM CHIEF.

IF OR REID: WASE AFFECTED AREA THOROGODILY WITH SOAP AND WATER, REMOVE CONTANTINATED CLOTELING AND LADROSE REFORE RE-DIE.

IF IN STREE PLUSS SING MITS LANGE AMOUNTS OF MATER FOR 15 MINUTES. GRI MIDI ATTENTION.

INDOCE VOMETIMG. GIVE CONSCIOUS PATIENT SEVERAL GLASSES OF MATER, SEEK MEDI ATTENTION. CHRONIC MEALTH SALANDS: NO DEGRESSIONS IN THIS PRODUCT IS AN LARC. HTP OR ORRA LISTED CARCINOGHI. REPORTS HAVE ASSOCIATED REPEATED AND PROLONGED OVERELPOSURE TO SOLVENIN WIT PERMANENT BRAIN AND MERVOUS STETCH DAMAGE. SECTION VI - REACTIVITY DATA STABILITY: STABLE. CONDITIONS TO AVOIDA NOME KNOWN. INCOMPATIBILITY: NORE ENGINE, ERRARDOUS DECOMPOSITION PRODUCTS: BY FIRE: CARBON DIGGIDE, CARBON MONOXIDE. MAZARDONE POLINERIZATION: WILL NOT OCCUR. SECTION VII - SPILL OR LEAK PROCEDURES STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED: REMOVE ALL SOURCE OF IGNITION, VENTILATE AND REMOVE WITH INTERT ABSORBENT. WASTE DISPOSAL METHOD: WASTE FROM THIS PRODUCT HAY BE HAZARDOUS AS DEFINED SMOKE THE RESOURCE CONSERVATION AND ERCOVERY ACT (RCHA) 40 CFR 261. MASTE MUST BE TRETED FOR IGNITABILITY TO DETROMINE THE APPLICABLE EPA MAZAR WATE FORES. BO NOT INCIDENATE. DEPRESSURIES CONTAINER. DISPOSE OF IN ACCORDANCE WITH FEDERAL, STATE, AND LOCAL REGULATIONS REGARDING POLLUTION. 29757 SECTION VIII - PROTECTION IMPORNATION _____ PRECAUTIONS TO BE TAKEN IN USE: USE ONLY WITH ADEQUATE VENTILATION. AVOID BREATETHS WAFOR AND SPRAT MIST. AVOID CONTACT WITE SKIN AND STEE. WASE MAND AFTER MAINL VERTILATION: LOCAL RIBAGET PREFERABLE, GESTRAL RIBAGET ACCEPTABLE IF THE REPOSTRE TO MATERIALS IN SECTION II IS MAINTAINED SELOW APPLICABLE REPOSTRE LIMITS, REFER TO OMEA STANDARDS 1916.94, 1918.107, 1918.108.

IF STALLOWED: WEVER GIVE ANYTHING BY MOUTE TO AN UNCONSCIOUS PERSON. DO NOT

RESPIRATORY PROTECTION: IP PERSONAL REPOSTURE CAMBOT BE CONTROLLED BELOW APPLICABLE LIMITS BY VEHTLLATION, WEAR A PROPERLY PITTED ORGANIC VAPOR/ PARTICULATE RESPIRATOR APPROVED BY HIGSE/MERA FOR PROTECTION AGAINST NATERI IN SECTION IX-

PROTECTIVE GLOVER: MOME REQUIRED FOR MORMAL APPLICATION OF ARROSOL PRODUCTS
WHERE RIGHTMAL SEXIF CONTACT IS EXPECTED. FOR LONG OR REPEATED CONTACT, WEAR
CHORGICAL RESISTANT GLOVES.

SECTION IN - PRECAUTIONS

-----

DOL STORAGE CATEGORY: 1A

PRECAUTIONS TO BE TAKEN IN MANDLING AND STORING: KEEP ANAT PRON HEAT, SPARK
AND OPEN FLAME, VAPORS WILL ACCOUNTABLE READILY AND MAY IGNITE EXPLOSIVELY.

DURING USE AND UNTIL ALL VAPORS ARE GONE: KEEP AREA VERTILATED - DO NOT SHO EXTINGUISE ALL PLANES, PILOT LIGHTS, AND REATERS - TURN OFF STOVES, ELECTRI TOOLS AND APPLIANCES. AND ART OTHER SOURCES OF IGNITION.

COMMULT WITH CODE. THE APPROVED BONDING AND GROUNDING PROCEDURES.

CONTENTS WIDER PRESSURE. DO NOT PUNCTURE, INCIDENTE, OR EXPOSE TO TEMPERAT
ABOVE 128 F. EEAT FROM SUBLIGHT, RADIATORS, STOVES, BOT MATER, AND OTHER RE
SOURCES COULD CAUSE CONTAINER TO BURST. DO NOT TAKE INTERNALLY. KEEP OUT OF
REACH OF CHILDREN.

OTHER PERCAPTIONS: INTERTIONAL MISUSE BY DELIBERATELY CONCENTRATING AND IMMALING THE CONTENTS CAN BE RANKFUL OR PATAL.

# # PHYSICAL DATA

Boiling Point : 196 to 225 deg C (385 to 437 deg F)
Vapor Pressure : 0.2 mm Hg at 20 deg C (68 deg F)
Melting Point : ~-20 deg C (~-4.0 deg F)
Evaporation Rate : <0.1 (Butyl Acetate = 1.0)

Water Solubility: 5.3 WT % at 20 deg C (68 deg F)

: Sweet Form : Liquid Color : Colorless

Specific Gravity: 1.092 at 20 deg C (68 deg F)

Odor Threshold : 0.1 ppm 100% and 0.01 ppm 50% of the test

panel detected it.

#### HAZARDOUS REACTIVITY

Instability : Stable.

Incompatibility : Incompatible with strong oxidants, acids, and

alkalies.

Decomposition : Decomposes with heat.
Polymerisation : Polymerization will not occur.

#### FIRE AND EXPLOSION DATA

: 100 deg C (212 deg F) Flash Point

: TCC Method

Autoignition : 370 deg C (698 deg F)

Explosive Limits in Air, & by Volume

LEL : 0.9 : 8.0 UEL

## # FIRE AND EXPLOSION HAZARDS

Vapor forms explosive mixture with air. Hazardous gases/vapors produced in fire are carbon monoxide.

#### # EXTINGUISHING MEDIA

Water Spray. Foam. Dry Chemical.

Carbon Dioxide (CO2).

## # SPECIAL FIRE FIGHTING INSTRUCTIONS

Wear self-contained breathing apparatus. Wear full protective equipment. Cool tank/container with water spray.

Keep personnel removed and upwind of fire.

MSDS No. 6020CR

# DU PONT Material Safety Data Sheet

Page

# # HEALTH HAZARD INFORMATION

The mixture may cause skin, eye and upper respiratory tract irritation.

#### ANIMAL DATA:

Inhalation 4-hour LC50: >11 mg/L in rats
Inhalation 1-hour LC50: >10.7 mg/L in rats
Oral LD50 : 8,191 mg/kg in rats
Skin absorption LD50 : >2,250 mg/kg in rabbits

Mixed dibasic esters is a mild to severe skin irritant and a moderate eye irritant, but is not a skin sensitizer in laboratory animals. Instillation of various volumes into the eye caused transient corneal opacity and corneal anaesthesia.

Upper respiratory tract irritation and transient corneal opacity were observed in animals following a single inhalation exposure. Repeated inhalation exposures caused decreased weight gain and liver weights, and generation of olfactory epithelium (nasal tissue). A single dose to animals by skin contact, ocular instillation or inhalation exposure caused a transient increase in the distance from the cornea to the anterior surface of the lens. The material does not produce genetic damage in animals or bacterial cell cultures, but was positive in one mammalian cell culture study. Animal testing indicates that this material does not have developmental or reproductive effects.

#### HUMAN HEALTH EFFECTS:

Contact with skin may cause skin irritation with discomfort or rash. Eye contact may cause eye irritation with discomfort, tearing or blurring of vision. Some individuals who have been overexposed by inhalation or skin contact have experienced blurry vision. Inhalation overexposure may cause irritation of the upper respiratory system.

The mechanism of blurred vision in humans is unknown. It is possible that some symptoms of pre-existing eye diseases could be aggravated by overexposure to this material.

# CARCINOGENICITY

None of the components in this material is listed by IARC, NTP, OSHA, or ACGIH as a carcinogen.

# EXPOSURE LIMITS

AEL * (Du Pont): 1.5 ppm, 10 mg/m3 - 8 Hr TWA This limit is for DBE.

Page

MSDS No. 6020CR

## DU PONT Material Safety Data Sheet

(HEALTH HAZARD INFORMATION - Continued)

TLV (ACGIH) : None Established PEL (OSHA) : None Established

# OTHER APPLICABLE EXPOSURE LIMITS METHANOL

AEL * (Du Pont): 200 ppm - 8 & 12 Hr. TWA - Skin TLV (ACGIH): 200 ppm, 262 mg/m3 - 8 Hr TWA STEL 250 ppm, 328 mg/m3 - Skin PEL (OSHA): 200 ppm, 260 mg/m3 - 8 Hr TWA STEL 250 ppm, 325 mg/m3 - Skin

* AEL is Du Pont's Acceptable Exposure Limit. Where governmentally imposed occupational exposure limits which are lower than the AEL are in effect, such limits shall take precedence.

## SAFETY PRECAUTIONS

Avoid breathing vapors or mist. Avoid contact with eyes, skin, or clothing. Wash thoroughly after handling.

#### FIRST AID

#### INHALATION

If inhaled, immediately remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Call a physician.

### SKIN CONTACT

Flush skin with water after contact. Wash contaminated clothing before reuse.

# EYE CONTACT

In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Call a physician.

#### INGESTION

If swallowed, do not induce vomiting. Immediately give two glasses of water or activated charcoal slurry. Never give anything by mouth to an unconscious person. Call a physician.

#### NOTE:

To prepare activated charcoal slurry, suspend 50 grams activated charcoal in 400 mL water and mix thoroughly. Administer 5 mL/kg, or 350 mL for an average adult.

MSDS No. 6020CR

## DU PONT Material Safety Data Sheet

Page 5

## PROTECTION INFORMATION

GENERALLY APPLICABLE CONTROL MEASURES AND PRECAUTIONS

Keep container tightly closed. Do not mix with strong oxidants, acids, or alkalies.

Use with sufficient ventilation to keep employee exposure to airborne concentrations below exposure limits.

# PERSONAL PROTECTIVE EQUIPMENT EYE/FACE PROTECTION

Wear safety glasses. Wear coverall chemical splash goggles when the possibility exists for eye contact due to splashing or spraying of material.

#### RESPIRATORS

A NIOSH/MSHA approved air purifying respirator with an organic vapor cartridge or canister may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits. Protection provided by air purifying respirators is limited. Use a positive pressure air supplied respirator if there is any potential for an uncontrolled release, exposure levels are not known, or any other circumstances where air purifying respirators may not provide adequate protection.

## PROTECTIVE CLOTHING

Wear impervious clothing, such as gloves, apron, boots or whole bodysuit made from butyl rubber, as appropriate.

#### DISPOSAL INFORMATION

## AQUATIC TOXICITY

Dibasic Esters

96-hour LC50, fathead minnows: 18-24 mg/L 48-hour LC50, Daphnia magna: 112-150 mgL

Dimethyl Glutarate

96-hour LC50, bluegill sunfish: 30.9 mg/L

## SPILL, LEAK, OR RELEASE

NOTE: Review FIRE AND EXPLOSION HAZARDS and SAFETY PRECAUTIONS before proceeding with clean up. Use appropriate PERSONAL PROTECTIVE EQUIPMENT during clean up.

Remove source of heat, sparks, flame, impact, friction or electricity. Dike spill. Prevent liquid from entering sewers, waterways or low areas. Recover free liquid for reuse or reclamation. Recover undamaged and minimally contaminated material for reuse or reclamation. Soak up with sawdust, sand, oil dry or other absorbent material.

(DISPOSAL INFORMATION - Continued)

#### WASTE DISPOSAL

Treatment, storage, transportation and disposal must be in accordance with applicable Federal, State, and local regulations. Recover nonusable free liquid and dispose of in an approved and permitted incinerator or in an approved and permitted biological treatment system. Recover contaminated water and dispose of in an approved and permitted biological treatment system or in an approved and permitted deepwell. Remove nonusable solid material and/or contaminated soil, for disposal in an approved and permitted landfill. Do not flush to surface water or sanitary sewer system.

#### SHIPPING INFORMATION

Shipping Containers

Tank Car - 170,000 lbs Tank Truck - 42,000 lbs Steel Drums - 485 lbs

NOT REGULATED AS A HAZARDOUS MATERIAL BY THE DOT, IMO, OR IATA.

#### STORAGE CONDITIONS

Store in well ventilated area. Keep container tightly closed.

DU PONT
Material Safety Data Sheet

# ADDITIONAL INFORMATION AND REFERENCES

The hydrogen cyanide concentration in DBE is so low as to be toxicologically insignificant when DBE is used as a solvent. However, when DBE is chemically reacted with alcohols, and methanol is recovered from that reaction and purified for reuse by distillation, concentration of highly volatile impurities such as hydrogen cyanide to toxicologically significant levels can occur in the waste stream from this process. Processors using DBE as a raw material should be aware of this potential hazard.

# 1. IDENTIFICATION OF THE SUBSTANCE AND OF THE COMPANY

Dow Coming Corporation South Saginary Road Midland, Michigan 48686 24 Hour Emergency Telephone: (517) 496-5900 Customer Service: (517) 496-6000 Product Disposal Information: (517) 496-6315

CHEMTREC: (800) 424-9300

MSDS No.: 01015443

Revision Date: 2000/05/31

Generic Description: Silicone compound Physical Form: Paste

Color: White Odor: Odorless

NFPA Profile: Health 0 Flammability 1 Instability/Reactivity 0

Note: NFPA = National Fire Protection Association

#### 2. OSHA HAZARDOUS COMPONENTS

None present. This is not a hazardous material as defined in the OSHA Hazard Communication Standard.

#### 3. EFFECTS OF OVEREXPOSURE

**Acute Effects** 

Eye: Direct contact may cause temporary redness and discomfort.

Skin: No significant irritation expected from a single short-term exposure.

Inhalation: No significant effects expected from a single short-term exposure.

Oral: Low ingestion hazard in normal use.

Prolonged/Repeated Exposure Effects

Skin: No known applicable information.

Inhalation: No known applicable information.

Orat No known applicable information.

Signs and Symptoms of Overexposure

No known applicable information.

Medical Conditions Aggravated by Exposure

No known applicable information.

Page: 2 of 7

# DOW CORNING(R) 340 HEAT SINK COMPOUND

The above listed potential effects of overexposure are based on actual data, results of studies performed upon similar compositions, component data and/or expert review of the product. Please refer to Section 11 for the detailed toxicology information.

## 4. FIRST AID MEASURES

Eye:

Immediately flush with water.

Skin:

No first aid should be needed.

Inhalation:

No first aid should be needed.

Oral:

No first aid should be needed.

Comments:

Treat symptomatically.

# 5. FIRE FIGHTING MEASURES

Flash Point

Not applicable - Solid

Autoignition

Temperature:

Not determined.

Flammability _imits in Air. Not determined.

Extinguishing Media:

On large fires use dry chemical, foam or water spray. On small fires use carbon dioxide (CO2), dry chemical or water spray. Water can be used to cool fire exposed containers.

Fire Fighting Measures:

Self-contained breathing apparatus and protective clothing should be worn in fighting large fires involving chemicals. Determine the need to evacuate or isolate the area according to your local emergency plan. Use water spray to keep fire exposed

containers cool.

Unusual Fire Hazards:

None.

#### Hazardous Decomposition Products

Thermal breakdown of this product during fire or very high heat conditions may evolve the following hazardous decomposition products: Silicon dioxide. Carbon oxides and traces of incompletely burned carbon compounds. Formaldehyds.

# 6. ACCIDENTAL RELEASE MEASURES

Page: 3 of 7

# DOW CORNING(R) 340 HEAT SINK COMPOUND

Containment/Clean up:

Observe all personal protection equipment recommendations described in Sections 5 and 8. Wipe up or scrape up and contain for salvage or disposal. Clean area as appropriate since some silicone materials, even in small quantities, may present a slip hazard. Final cleaning may require use of steam, solvents or detergents. Dispose of saturated absorbant or cleaning materials appropriately, since spontaneous heating may occur. Local, state and federal laws and regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which federal, state and local laws and regulations are applicable. Sections 13 and 15 of this MSDS provide information regarding certain federal and state requirements.

Note: See section 8 for Personal Protective Equipment for Spills. Call Dow Corning Corporation, (517) 496-5900, if additional ir formation is required.

## 7. HANDLING AND STORAGE

Use with adequate ventilation. Avoid eye contact.

Use reasonable care and store away from oxidizing materials.

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

#### Component Exposure Limits

There are no components with workplace exposure limits.

#### **Engineering Controls**

Local Ventilation:

None should be needed.

General Ventilation:

Recommended.

#### Personal Protective Equipment for Routine Handling

Eyes:

Use proper protection - safety glasses as a minimum.

Skin:

Washing at mealtime and end of shift is adequate.

Suitable Gloves:

No special protection needed.

Inhalation:

No respiratory protection should be needed.

Suitable Respirator:

None should be needed.

#### Personal Protective Equipment for Spills

Eyes:

Use proper protection - safety glasses as a minimum.

Skin:

Washing at mealtime and end of shift is adequate.

Inhalation/Suitable

Respirator:

No respiratory protection should be needed.

Page: 4 of 7

# DOW CORNING(R) 340 HEAT SINK COMPOUND

Precautionary Measures: Avoid eye contact. Use reasonable care.

Note: These precautions are for room temperature handling. Use at elevated temperature or perosol/spray applications may require added precautions.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical Form: Paste

Color: White

Odor: Odorless

Specific Gravity @ 25°C: 2.0

Viscosity: Not determined.

Freezing/Melting Point: Not determined.

Eoiling Point: Not determined. Vapor Pressure @ 25°C: Not determined.

Vapor Density: Not determined.

Solubility in Water: 0 g/l

pH: Not determined.

Volatile Content: 0.00 %

Note: The above information is not intended for use in preparing product specifications. Contact Dow Corning before writing specifications.

# 10. STABILITY AND REACTIVITY

Chemical Stability:

Stable.

Hazardous

Hazardous polymerization will not occur.

Polymerization:

Conditions to Avoid:

None.

Materials to Avoid:

Oxidizing material can cause a reaction.

## 11. TOXICOLOGICAL INFORMATION

## **Acute Toxicology Data for Product**

Complete information is not yet available.

# Component Toxicology Information

Complete information is not yet available.

### Special Hazard Information on Components

No known applicable information.

D1475 AND D3960.

VAPOR PRESSURE: 5.79 MM/HG

MELTING POINT: NOT APPLICABLE

SOLUBILITY IN WATER: NEGLIGIBLE

APPEARANCE AND ODOR: RED LIQUID WITH PAINT ODOR

SECTION IV - FIRE AND EXPLOSION HAZARD DATA

DSHA CATEGORY: FLAMMABLE LIQUID

FLASH POINT: 72 F PENSKY MARTIN

LEL: 1.0 UEL: N/A

EXTINGUISHING MEDIA:

Carbon dioxide, dry chemical or foam

UNUSUAL FIRE AND EXPLOSION HAZARDS:

Pressure may build up in closed containers that are exposed to heat. Solvent vapors are heavier than air and may travel a considerable

Provided By Electrical Insulation Suppliers Inc.

distance along the ground to an ignition source and 'flash back'. SPECIAL FIRE FIGHTING PROCEDURES:

Water may be ineffective, however, water may be used to cool closed containers that are exposed to heat. Firefighting personnel should wear self-contained breathing apparatus.

#### SECTION V - HEALTH HAZARD DATA

THRESHOLD LIMIT VALUE: SEE SECTION II

PRIMARY ROUTE(S) OF ENTRY:

Inhalation and skin contact

EFFECTS OF OVEREXPOSURE:

Headache, nausea, dizziness, confusion, irritability.

MEDICAL CONDITIONS AGGRAVATED BY EXPOSURE:

Respiratory difficulties or preexisting skin sensitization.

CARCINOGENICITY:

None of the components of this product are reported carcinogens in A/C with  $\mbox{OSHA}$ ,  $\mbox{NTP}$ ,  $\mbox{IARC}$  and  $\mbox{NIOSH}$ .

EMERGENCY FIRST AID PROCEDURES:

INHALATION: Remove to fresh air. Administer artificial respiration or oxygen if breathing is difficult.

SKIN: Wash affected area with soap and water. Remove and launder contaminated clothing. Consult a physician if irritation persists.

EYES: Flush immediately with large amounts of water for at least 15

minutes. Take to a physician for medical treatment.

INGESTION: Call a physician immediately.

ACUTE: Skin and eye contact: Primary irritation.

CHRONIC: Xylene contained in this material has been found to cause the following effects in laboratory animals:amenia, liver abnormalities, liver and eye damage.

Pre-Exiting liver and/or kidney disorders may be aggrevated by exposure to kylene. Reports have associated repeated and prolonged occupational overexposure to kylene with permanent brain and nervous system damage.

#### SECTION VI - REACTIVITY DATA

STABILITY: NORMAL STABLE

CONDITIONS TO AVOID:

None known

INCOMPATIBILITY (Materials to avoid)

Strong acids and bases

HAZARDOUS DECOMPOSITION PRODUCTS:

BY FIRE: Normal products of incomplete combustion.

HAZARDOUS POLYMERIZATION: DOES NOT OCCUR

CONDITIONS TO AVOID:

None known

#### SECTION VII - SPILL OR LEAK PROCEDURES

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED:

Provide adequate ventilation. Remove all possible ignition sources.

Absorb and dispose using non-sparking tools.

Eliminate all sources of ignition. Evacuate unprotected personnel. Water spray may be used. To contain run-off, cover with an absorbent material and place in containers for proper disposal. Flush area with water to remove residue.

WASTE DISPOSAL METHOD:

Dispose in accordance with local applicable regulations.

Disposal of using an approved incineration process or in accordance with local, state, and federal regulations regarding health and pollution.

#### SECTION VIII - SPECIAL PROTECTION INFORMATION

#### RESPIRATORY PROTECTION:

In outdoor or open areas use Bureau of Mines approved mechanical filter respirator to remove solid airborne particulates of overspray. Indoors, where ventilation is inadequate. use Bureau of Mines

Provided By Electrical Insulation Suppliers Inc.

approved chemical-mechanical respirators designed to remove both particulate and vapor.

**VENTILATION:** 

PROTECTIVE GLOVES:

Recommended if skin contact is likely.

EYE PROTECTION:

Chemical splash goggles recommended if potential for splash or eye contact is likely.

OTHER PROTECTIVE EQUIPMENT:

Recommended as needed to avoid contact.

#### SECTION IX . SPECIAL PRECAUTIONS

- PRECAUTIONS TO BE TAKEN IN HANDLING OR STORING:

Store in a cool dry place away from heat, sparks and open flame. Keep containers closed and upright to prevent leakage. Outside or detached storage is preferred. Inside storage should be in a standard flammable liquid storeroom or cabinet. Metal containers should be grounded when transferring material from one container to another. Do not reuse product container for any purpose.

OTHER PRECAUTIONS:

PREPARED BY: TECHNICAL STAFF REFERENCE DATE: JUNE 1997

THE INFORMATION AND RECOMMENDATIONS CONTAINED HEREIN ARE BASED UPON DATA BELIEVED TO BE CORRECT. HOWEVER, NO GUARANTEE OR WARRANTY OF ANY KIND, EXPRESSED OR IMPLIED, IS MADE WITH RESPECT TO THE INFORMATION ABOVE.

TO WHOM IT MAY CONCERN: EFFECTIVE JAN 1, 1989, WE ARE REQUIRED BY SARA TIT LE III SECTION 313 OF THE RIGHT TO KNOW LEGISLATION, TO INFORM YOU OF THE PERCENTAGE OF ANY INGREDIENT IN A PRODUCT WHICH IS IN THE 313 LIST OR AS AN LISTING AS A COMPONENT OF A MATERIAL WHICH IS IN A CATEGORY OF CHEMICAL LIST.

PRODUCT: 1201 GLYPTAL

34.5% XYLENE (CAS NUMBER 1330-20-7)

IF YOU WILL MULTIPLY YOUR TOTAL PURCHASES FROM US AS WELL AS FROM OTHER SU PPLIERS BY THE PERCENTAGE OF EACH INGREDIENT FOUND IN EACH PRODUCT AND IF THE TOTAL QUANTITY EXCEEDS THE REPORTABLE QUANTITY FOR THAT INGREDIENT YOU ARE REQUIRED TO FILE FORM R REPORTS.

#### SECTION 4 FIRE AND EXPLOSION HAZARD DATA

Flash Point (Degree °F): > 200

Flammable Limits: Not Established

Extinguishing Media:

Use carbon dioxide, dry chemical, foam, water fog.

MOR 000737

#### Unusual Fire or Explosion Hazard:

Decomposition and combustion products may be toxic. Containers exposed to elevated temperatures for extended periods of time may result in spontaneous exothermic polymerization of material, possibly resulting in violent rupturing of sealed containers.

PRINTED: 10/23/95

#### ECCOBOND A-401-37

#### Special Firefighting Procedures:

Firefighters/rescue personnel should wear positive pressure self-contained breathing apparatus and full protective equipment. Cool exposed containers with water to prevent pressure buildup. If large quantities of material are involved, evacuate area and fight fire from a safe distance.

#### SECTION 5 REACTIVITY DATA

#### Product Stability:

Product is stable under normal handling and storage conditions. Hazardous polymerization will not occur; however, review reactivity data concerning conditions to avoid and incompatible substances.

#### Incompatibility:

Incompatible with strong oxidizers, acids, bases; uncontrolled mixing with amines, anhydrides, mercaptans, imidazoles may cause hazardous polymerization.

#### Hazardous Decomposition Products:

Carbon monoxide, carbon dioxide, aldehydes, acids and other organic substances may be formed during combustion. The chemical nature and quantity of decomposition by-products will vary widely depending on the conditions of combustion. Prolonged exposure to elevated temperatures may cause uncontrolled exothermic reactions resulting in decomposition and charring of the material. Fumes and vapors from the thermal and chemical decomposition may vary widely in composition and toxicity.

#### Conditions to Avoid:

Avoid storage in open containers, exposure to open flame or uncontrolled exposure to heat, uncontrolled mixing with curing agents or exposure to incompatible substances.

#### SECTION & RELEASE RESPONSE DATA

Spill response operations must be conducted in accordance with the provisions of OSHA 29 CFR 1910.120. Review the entire MSDS before proceeding with spill response.

#### Small Spills:

Activate available exhaust ventilation equipment in the immediate spill area. Wipe up or absorb spilled material with vermiculite or other similar material. Wash area with soapy water to remove residue. Collect absorbed material and water rinses in appropriate containers. Dispose of in accordance with current Federal, State, and local regulations.

MOR 000738

PRINTED: 10/23/95

#### ECCOBOND A-401-37

#### _arge Spills:

Limit access to the immediate spill area. Shut off source of the release if this can be done without risk of injury. Activate available exhaust ventilation systems in the area. Dike area to contain the spill and prevent releases to sewers, drains or other waterways. Collect spilled material for salvage/disposal. Apply absorbent material to soak up residue. Wash area with soapy water. Prevent runoff from entering waterways. Transfer absorbed material and water rinses to appropriate waste containers. Dispose of in accordance with current Federal, State and local regulations.

#### SECTION 7 HANDLING PRECAUTIONS

The recommendations described in this section are provided as general guidance for minimizing exposure when handling this product. Because usage conditions will vary depending on customer application, specific safe handling procedures should be developed by a person knowledgeable in the intended usage conditions and equipment. Employees must be properly trained in safe handling of this product prior to to use.

#### Personal Protection:

This product can cause eye irritation. Prevent eye contact through the use of chemical safety glasses, splash-proof chemical goggles, or face shield. This product can cause skin irritation and may cause allergic skin reactions. Wear appropriate protective gloves. If necessary, a proper chemical-resistant apron and additional impervious clothing should be used to prevent skin contact and contamination of clothing. Normal work clothing should be washed before re-use. Wash hands and face thoroughly after handling this product and before eating, drinking or smoking. Emergency eye wash facilities and safety shower should be available.

#### Ventilation Recommendations and Respiratory Protection:

Provide effective mechanical exhaust ventilation to draw vapors, mists or fumes generated during processing away from the worker and prevent routine inhalation. This is necessary especially during elevated temperature processing. Ventilation must be sufficient to maintain airborne levels of Section 2 ingredients below their PEL/TLV values. Use an appropriate, properly fitted respirator if exposures exceed PEL/TLV values. The type of protection selected (SCBA, air-purifying, etc.) will depend upon the conditions of use. Observe OSHA regulations for respiratory protection (29 CFR 1910.134).

#### Storage:

Store in a cool, dry location with adequate ventilation. Keep container tightly sealed when not in use. Keep away from open flames and heat sources. Consult the product Technical Bulletin for detailed storage information.

MOR 000739

#### ECCOBOND A-401-37

#### SECTION 8 HEALTH DATA

Routes of Exposure:

Skin and eye contact, inhalation of vapors.

Medical Conditions Aggravated by Exposure:

Exposure may aggravate preexisting skin and/or eye disorders.

#### Eye Contact:

Contains materials irritating to the eyes. Symptoms may include blurred vision, burning sensation and tearing.

#### Skin Contact:

Contains materials which cause moderate skin irritation. Prolonged or repeated exposure to the liquid may exert a defatting or drying action on the skin, possibly resulting in dermatitis. This product may cause skin sensitization/allergic skin reactions which may be severe in certain individuals; symptoms include rash, itching, hives, swelling of the extremities.

#### Inhalation:

Heating can generate vapors that may cause respiratory irritation, nausea and headaches. Inhalation hazard at room temperature is unlikely, due to the low volatility of this product.

#### ingestion:

Harmful if swallowed.

#### Chronic Health Effects:

Although the significance is unknown, the DGEBA epoxy resin in this product has been shown to be mutagenic in some microbial tests, but has failed to show mutagenicity in others. Chromosomal aberrations were observed in cultured rat liver cells. Two-year bioassays on mice exposed by the dermal route to DGEBA resins yielded only very limited evidence of weak carcinogenicity. Based on this and other evidence, the International Agency for Research on Cancer (IARC) concluded in 1988 that DGEBA epoxy resins are not classifiable as carcinogens.

#### SECTION 9 FIRST AID PROCEDURES:

#### Eye Contact:

Flush eyes thoroughly with water for at least 15 minutes while holding eyelids open. Get medical attention.

#### Skin Contact:

Remove any contaminated clothing and flush the affected area of the skin thoroughly with plenty of water. Follow by washing with soap and water. Get medical attention if irritation persists. Do not reuse contaminated clothing until properly cleaned.

MOR 000740

PRINTED: 10/23/95

#### ECCOBOND A-401-37

### Inhalation:

Remove victim to fresh air. Provide oxygen if breathing is difficult. Give artificial respiration if not breathing. Get immediate medical attention.

#### Ingestion:

Dilute by giving plenty of water to drink, if victim is conscious and alert. Never give anything by mouth to a drowsy, unconscious, or convulsing person. Get immediate attention.

#### SECTION 10 ADDITIONAL INFORMATION

#### TSCA Status:

All components of this product are listed in the EPA Toxic Substance Control Act Inventory.

#### SARA Status:

This product does not contain any substances regulated by the SARA Section 313 amendments to RCRA.

· · ·----- DATA----- SECTION IV-FIRE AND EXPLOSION HAZARD DATA---- -----

Flash Point (°F): 390 (Tag Closed Cup: ASTM D56)

Flammable Limits: Not Established

Extinguishing Media: Carbon dioxide, dry chemical, foam, water fog.

Unusual Fire or Explosion Hazards: Toxic vapors may be evolved upon exposure to heat or open flame.

Special Firefighting Procedures: Firefighters should wear self-contained breathing apparatus.

Product Stability: Product is stable; hazardous polymerization will not occur.

Incompatibilities: strong oxidizers, amines, amides, strong Lewis or mineral acids, thiosulfates, carboxytic acids, atcohol, mercaptans. Reaction with curing agents is exothermic; smoke or toxic fumes may be evolved if heat of reaction becomes excessive due to high curing temperature or curing of targe masses of material.

Hazardous decomposition products: Carbon monoxide, carbon dioxide, oxides of nitrogen.

Colitions to avoid: Storage in open containers, intense heat or open flame, uncontrolled mixing with (or exposure to) incompatible substances (above)

MOR 000743

PRINTED: 05/16/91 PAGE 2

------SECTION VI-SPILL OR LEAK PROCEDURES-----

Handling Precautions: See section VIII

For small spills: Wipe up, or absorb with vermiculite or other absorbent material. Collect waste in sealed containers. Scrub area with soapy water and rinse. Prevents rinses from entering drains or other waterways. Spilled material and water rinses are classified as chemical waste, and must be disposed of in accordance with current local, state, and federal regulations.

For large spills: Dike area to contain spilled material and to prevent runoff into drains, sewers, and other waterways. Shovel or pump to drum or salvage tank. Absorb residual material with sand, vermiculite, or other absorbent material. Scrape or shovel absorbed waste and absorbent into containers. Scrub area with soapy water and rinse. Prevents rinses from entering drains or other waterways. Spilled material and water rinses are classified as chemical waste, and must be disposed of in accordance with current local, state, and federal regulations.

------SECTION VII-SPECIAL PRECAUTIONS-----

Personal Protection: Avoid skin and eye contact. Wear gloves and protective clothing to prevent exposure. Protective eye goggles should be worn.

Storage: Store in coot, dry place; keep removed from any heat or open flame. Keep container of fed when not in use.

Ventilation Requirements: Good general workplace ventilation is recommended. Flexible ductwork should extend to areas of high concentration to prevent local buildup of vapor. Provide special ventilation at elevated temperatures.

Flammability/ Explosion Precautions: Keep away from intense heat, open flames.

MOR 000745

PRINTED: 05/16/91

ECCOGEL 1265 Black, Part A

Effects of Chronic Overexposure:

It is very untikely that normal work operations with this product could produce atmospheric epichlorohydrin concentrations approaching the OSHA limit. Nevertheless, you should be aware that ECH has been reported to produce cancer in laboratory animals and to produce mutagenic changes in bacteria and cultured human cells. An analysis of all the evidence to date (through 1979) in an ongoing epidemiology study of ECH workers has been reported to show "weak" evidence that exposure to ECH poses a cancer risk to humans.

>200 (PMCC)

Flammable Limits

Not Established

Extinguishing Media:

Use carbon dioxide, dry chemical, foam, water fog.

Unusual Fire or Explosion Hazard:

Decomposition and combustion products may be toxic. Closed containers may violently rupture under fire conditions.

Special Firefighting Procedures:

Firefighters/rescue personnel should wear positive pressure self-contained breathing apparatus and full protective equipment. Cool exposed containers with water to prevent pressure buildup. If large quantities of material are involved, evacuate area and fight fire from a safe distance.

**SECTION 5: REACTIVITY DATA** 

Printed: 7/25/01

#### CATALYST 23LV

#### **Product Stability:**

Product is stable under normal handling and storage conditions. Hazardous polymerization will not occur; however, review reactivity data concerning conditions to avoid and incompatible substances.

*Incompatibility:* Incompatible with strong oxidizers, acids, bases. Uncontrolled mixing with epoxides may result in hazardous exothermic polymerization, with possible evolution of smoke and toxic fumes.

#### Hazardous Decomposition Products:

Carbon monoxide, carbon dioxide, oxides of nitrogen, amines and other organic substances may be formed during combustion. The chemical nature and quantity of decomposition by-products will vary widely depending on the conditions of combustion.

#### Conditions to Avoid:

Avoid storage in open containers, exposure to open flame or uncontrolled exposure to heat, uncontrolled mixing with epoxies or exposure to incompatible substances.

#### **SECTION 6: RELEASE RESPONSE DATA**

Spill response operations must be conducted in accordance with the provisions of OSHA 29 CFR 1910.120. Review the entire MSDS before proceeding with spill response.

#### Small Spills:

Activate available exhaust ventilation equipment in the immediate spill area. Wipe up or absorb spilled material with vermiculite or other similar material. Wash area with soapy water to remove residue. Collect absorbed material and water rinses in appropriate containers. Dispose of in accordance with current Federal, State, and local regulations.

#### Large Spills:

Limit access to the immediate spill area. Shut off source of the release if this can be done without risk of injury. Activate available exhaust ventilation systems in the area. Dike area to contain the spill and prevent releases to sewers, drains or other waterways. Collect spilled material for salvage/disposal. Apply absorbent material to soak up residue. Wash area with soapy water. Prevent runoff from entering waterways. Transfer absorbed material and water rinses to appropriate waste containers. Dispose of in accordance with current Federal, State and local regulations.

#### **SECTION 7: HANDLING PRECAUTIONS**

The recommendations described in this section are provided as general guidance for minimizing exposure when handling this product. Because usage conditions will vary depending on customer application, specific safe handling procedures should be developed by a person knowledgeable in the intended usage conditions and equipment. Employees must be properly trained in safe handling of this product prior to use.

#### Personal Protection:

This product can cause eye burns. Prevent eye contact through the use of a face shield used in conjunction with either splash-proof chemical goggles or chemical safety glasses. This product can cause skin burns and may cause allergic skin responses. Components of this product may also be absorbed through the skin. Wear appropriate protective gloves, a proper chemical-resistant apron and additional impervious clothing to prevent all skin contact, contamination of clothing and possible absorption through the skin. Normal work clothing should be washed before re-use. Wash hands and face thoroughly after handling this product and before eating, drinking or smoking. Emergency eye wash facilities and safety shower must be available.

Printed: 7/25/01 Page: 2

#### CATALYST 23LV

### Ventilation Recommendations and Respiratory Protection:

Provide effective mechanical exhaust ventilation to draw vapors, mists or fumes generated during processing away from the worker and prevent routine inhalation. This is necessary especially during elevated temperature processing.

#### Storage:

Store in a cool, dry location with adequate ventilation. Keep container tightly sealed when not in use. Keep away from open flames and heat sources. Consult the product Technical Bulletin for detailed storage information.

#### **SECTION 8: HEALTH DATA**

#### Routes of Exposure:

Skin and eye contact, inhalation of vapors.

#### Medical Conditions Aggravated by Exposure:

Exposure may aggravate preexisting skin, eye and/or respiratory disorders.

#### Eye Contact:

Contains materials corrosive to the eyes; may cause burns and possible corneal injury. Permanent impairment of vision or blindness may occur.

#### Skin Contact:

Contains materials corrosive to the skin; may cause severe burns and blistering. This product may cause skin sensitization/allergic skin reactions which may be severe in certain individuals; symptoms include rash, itching, hives, swelling of the extremities. May be harmful if absorbed through the skin.

#### Inhalation:

Vapors may cause irritation, nausea, and headaches.

#### Ingestion:

Harmful if swallowed. May cause burns to the mouth and upper gastro-intestinal tract.

#### Chronic Health Effects:

None known

#### SECTION 9: FIRST AID PROCEDURES

#### Eye Contact:

Immediately flush eyes thoroughly with water for at least 15 minutes while holding eyelids open. Get immediate medical attention.

#### Skin Contact:

Immediately flush the affected area of the skin with plenty of water, while removing contaminated clothing or shoes. Follow by thoroughly washing with soap and water. Avoid scrubbing, as this action could increase skin absorption and worsen the effect of chemical contact. Get immediate medical attention. Do not reuse contaminated clothing until properly cleaned. Contaminated leather articles, including shoes, cannot be decontaminated and should be destroyed.

#### Inhalation:

Remove victim to fresh air. Provide oxygen if breathing is difficult. Give artificial respiration if not breathing. Get immediate medical attention.

Printed: 7/25/01 Page: 3

#### CATALYST 23LV

#### Ingestion:

DO NOT induce vomiting. If victim is conscious and alert, dilute by giving water to drink; never give anything by mouth to a drowsy, unconscious, or convulsing person. Get immediate medical attention.

The information given and the recommendations made herein apply to our product(s) alone and are not combined with other product(s). Such are based on our research and on data from other reliable sources and are believed to be accurate. No guaranty of accuracy is made. It is the purchaser's responsibility before using any product to verify this data under their own operating conditions and to determine whether the product is suitable for their purposes.

110.0 - 10 1 10'1 , 00011 - 01 51 51

Decomposition and combustion products may be toxic. Reaction with curing agents is exothermic; smoke or toxic fumes may be evolved if heat of reaction becomes excessive due to high curing temperatures or curing of large masses of material. See Section 5, "Hazardous Decomposition Products".

Special Firefighting Procedures:

Firefighters/rescue personnel should wear positive pressure self-contained breathing apparatus and full protective equipment. Cool exposed containers with water to prevent pressure buildup. If large quantities of material are involved, evacuate area and fight fire from a safe distance.

#### **SECTION 5: REACTIVITY DATA**

#### **Product Stability:**

Product is stable under normal handling and storage conditions. Hazardous polymerization will not occur; however, review reactivity data concerning conditions to avoid and incompatible substances.

#### Incompatibility:

Incompatible with strong oxidizers, acids, bases; uncontrolled mixing with amines, anhydrides, mercaptans, imidazoles may cause hazardous polymerization.

#### Hazardous Decomposition Products:

Carbon monoxide, carbon dioxide, nitrogen compounds, phenols, aldehydes, acids, traces of cyanides and other organic substances may be formed during combustion.

#### Conditions to Avoid:

Avoid storage in open containers, exposure to open flame or uncontrolled exposure to heat, uncontrolled mixing with curing agents or exposure to incompatible substances.

#### **SECTION 6: RELEASE RESPONSE DATA**

Spill response operations must be conducted in accordance with the provisions of OSHA 29 CFR 1910.120. Review the entire MSDS before proceeding with spill response.

#### Small Spills:

Activate available exhaust ventilation equipment in the immediate spill area. Wipe up or absorb spilled material with vermiculite or other similar material. Wash area with soapy water to remove residue. Collect absorbed material and water rinses in appropriate containers. Dispose of in accordance with current Federal, State, and local regulations.

#### Large Spills:

Limit access to the immediate spill area. Shut off source of the release if this can be done without risk of injury. Activate available exhaust ventilation systems in the area. Dike area to contain the spill and prevent releases to sewers, drains or other waterways. Collect spilled material for salvage/disposal. Apply absorbent material to soak up residue. Wash area with soapy water. Prevent runoff from entering waterways. Transfer absorbed material and water rinses to appropriate waste containers. Dispose of in accordance with current Federal, State and local regulations.

#### **SECTION 7: HANDLING PRECAUTIONS**

MOR 000760

Printed: 6/30/99

The recommendations described in this section are provided as general guidance for minimizing exposure when handling this product. Because usage conditions will vary depending on customer application, specific safe handling procedures should be developed by a person knowledgeable in the intended usage conditions and equipment. Employees must be properly trained in safe handling of this product prior to use.

#### Personal Protection:

This product can cause eye irritation. Prevent eye contact through the use of chemical safety glasses, splash-proof chemical goggles, or face shield. This product can cause skin irritation and may cause allergic skin reactions. Wear appropriate protective gloves. If necessary, a proper chemical-resistant apron and additional impervious clothing should be used to prevent skin contact and contamination of clothing. Normal work clothing should be washed before re-use. Wash hands and face thoroughly after handling this product and before eating, drinking or smoking. Emergency eye wash facilities and safety shower should be available.

#### Ventilation Recommendations and Respiratory Protection:

Provide effective mechanical exhaust ventilation to draw vapors, mists or fumes generated during processing away from the worker and prevent routine inhalation. This is necessary especially during elevated temperature processing. Ventilation must be sufficient to maintain airborne levels of Section 2 ingredients below their PEL/TLV values. Use an appropriate, properly fitted respirator if exposures exceed PEL/TLV values. The type of protection selected (SCBA, air-purifying, etc.) will depend upon the conditions of use. Observe OSHA regulations for respiratory protection (29 CFR 1910.134).

#### Storage:

Store in a cool, dry location with adequate ventilation. Keep container tightly sealed when not in use. Keep away from open flames and heat sources. Consult the product Technical Bulletin for detailed storage information.

#### **SECTION 8: HEALTH DATA**

#### Routes of Exposure:

Skin and eye contact, inhalation of vapors.

#### Medical Conditions Aggravated by Exposure:

Exposure may aggravate preexisting skin and/or eye disorders.

#### Eye Contact

Contains materials irritating to the eyes. Symptoms may include blurred vision, burning sensation and tearing.

#### Skin Contact:

Contains materials which cause moderate skin irritation. Prolonged or repeated exposure to the liquid may exert a defatting or drying action on the skin, possibly resulting in dermatitis. This product may cause skin sensitization/allergic skin reactions which may be severe in certain individuals; symptoms include rash, itching, hives, swelling of the extremities.

### Inhalation:

Heating can generate vapors that may cause respiratory irritation, nausea and headaches. Inhalation hazard at room temperature is unlikely, due to the low volatility of this product.

Ingestion:

MOR 000761

Printed: 6/30/99

Harmful if swallowed.

#### Chronic Health Effects:

Although the significance is unknown, the DGEBA epoxy resin in this product has been shown to be mutagenic in some microbial tests, but has failed to show mutagenicity in others. Chromosomal aberrations were observed in cultured rat liver cells. Two-year bioassays on mice exposed by the dermal route to DGEBA resins yielded only very limited evidence of weak carcinogenicity. Based on this and other evidence, the International Agency for Research on Cancer (IARC) concluded in 1988 that DGEBA epoxy resins are not classifiable as carcinogens.

The International Agency for Research on Cancer (IARC) has classified free carbon black as a Class 2B carcinogen, in that there is sufficient evidence for carcinogenicity in animals (based on inhalation studies), but evidence for carcinogenicty in humans is nonexistent. Exposure to free carbon black, however, is unlikely, unless the cured product is machined or ground in such a manner to evolve dusts; or in spray applications where vapors or fumes containing carbon black may become airborne, thus creating potential for inhalation exposure.

#### **SECTION 9: FIRST AID PROCEDURES**

#### Eye Contact:

Flush eyes thoroughly with water for at least 15 minutes while holding eyelids open. Get medical attention.

#### Skin Contact:

Remove any contaminated clothing and flush the affected area of the skin thoroughly with plenty of water. Follow by washing with soap and water. Get medical attention if irritation persists. Do not reuse contaminated clothing until properly cleaned.

#### Inhalation:

Remove victim to fresh air. Provide oxygen if breathing is difficult. Give artificial respiration if not breathing. Get immediate medical attention.

#### Ingestion:

Dilute by giving plenty of water to drink, if victim is conscious and alert. Never give anything by mouth to a drowsy, unconscious, or convulsing person. Get immediate medical attention.

#### **SECTION 10: ADDITIONAL INFORMATION**

Although the significance is unknown, the DGEBA epoxy resin in this product has been shown to be mutagenic in some microbial tests, but has failed to show mutagenicity in others. Chromosomal aberrations were observed in cultured rat liver cells. Two-year bioassays on mice exposed by the dermal route to DGEBA resins yielded only very limited evidence of weak carcinogenicity. Based on this and other evidence, the International Agency for Research on Cancer (IARC) concluded in 1988 that DGEBA epoxy resins are not classifiable as carcinogens.

Recent studies indicate that Butyl and Phenyl Glycidyl Ethers may induce mutagenic changes in laboratory animals. This has not been related to human exposures, however, good ventilation and industrial hygiene practices should be followed when handling compounds containing either BGE or PGE.

Products similar to the aliphatic gylcidyl ethers listed in Section II are reported to be mutagenic (causes genetic changes) in some laboratory animal tests.

Exposure to the filler material listed in Section 2 is unlikely to occur unless the product is applied in a manner which results in the generation of mists or fumes, or when machining of the cured product results in generation of dust particles.

The International Agency for Research on Cancer (IARC) has classified free carbon black as a Class 2B carcinogen, in that there is sufficient evidence for carcinogenicity in animals (based on inhalation studies), but evidence for carcinogenicity in humans is nonexistent. Exposure to free carbon black, however, is unlikely, unless the cured product is machined or ground in such a manner to evolve dusts; or in spray applications where vapors or fumes containing carbon black may become airborne, thus creating potential for inhalation exposure.

# SECTION 9 FIRST AID PROCEDURES:

#### Eye Contact:

Flush eyes thoroughly with water for at least 15 minutes while holding eyelids open. Get medical attention.

# Skin Contact:

Remove any contaminated clothing and flush the affected area of the skin thoroughly with plenty of water. Follow by washing with soap and water. Get medical attention if irritation persists. Do not reuse contaminated clothing until properly cleaned.

# Inhalation:

Remove victim to fresh air. Provide oxygem if breathing is difficult. Give artificial respiration if not breathing. Get immediate medical attention.

MOR 000773

PRINTED: 05/21/97

# STYCAST 2754, PART A

## Ingestion:

Dilute by giving plenty of water to drink, if victim is conscious and alert. Never give anything by mouth to a drowsy, unconscious, or convulsing person. Get immediate attention.

#### SECTION 10 ADDITIONAL INFORMATION

Product NPCA Hazardous Material Identification System (HMIS) Rating:

Realth: 2

Flammability: 1

Reactivity: 0

TSCA Status:

All components of this product are listed in the EPA Toxic Substance Control Act Inventory.

SARA Status:

This product does not contain any substances regulated by the SARA Section 313 amendments to RCRA.

#### SECTION 3 PHYSICAL DATA

Boiling Point (Degree °F): Vapor Pressure (mm Hg @ 25°C): < 1 'ercent Volatiles by Weight: < 3 specific Gravity (water = 1): 1.60 Solubility in Water: Insoluble Vapor Density: Heavier than air Appearance and Odor: Black liquid

# SECTION 4 FIRE AND EXPLOSION HAZARD DATA

Flash Point (Degree °F): > 200

Flammable Limits: Not Established

Extinguishing Media:

Use carbon dioxide, dry chemical, foam, water fog.

Unusual Fire or Explosion Hazard:

Decomposition and combustion products may be toxic. Closed containers may violently rupture under fire conditions.

MOR 000775

PRINTED: 10/23/95

# STYCAST 2651MM BLACK

#### Special Firefighting Procedures:

Firefighters/rescue personnel should wear positive pressure self-contained breathing apparatus and full protective equipment. Cool exposed containers with water to prevent pressure buildup. If large quantities of material are involved, evacuate area and fight fire from a safe distance.

## SECTION 5 REACTIVITY DATA

#### Product Stability:

Product is stable under normal handling and storage conditions. Hazardous polymerization will not occur; however, review reactivity data concerning conditions to avoid and incompatible substances.

#### Incompatibility:

Incompatible with strong oxidizers, acids, bases; uncontrolled mixing with amines, anhydrides, mercaptans, imidazoles may cause hazardous polymerization.

# Hazardous Decomposition Products:

Carbon monoxide, carbon dioxide, aldehydes, acids and other organic substances may be formed during combustion. The chemical nature and quantity of decomposition by-products will vary widely depending on the conditions of combustion.

#### Conditions to Avoid:

Avoid storage in open containers, exposure to open flame or uncontrolled exposure to heat, uncontrolled mixing with curing agents or exposure to incompatible substances.

# SECTION 6 RELEASE RESPONSE DATA

Spill response operations must be conducted in accordance with the provisions of OSHA 29 CFR 1910.120. Review the entire MSDS before proceeding with spill response.

#### Small Spills:

Activate available exhaust ventilation equipment in the immediate spill area. Wipe up or absorb spilled material with vermiculite or other similar material. Wash area with soapy water to remove residue. Collect absorbed material and water rinses in appropriate containers. Dispose of in accordance with current Federal, State, and local regulations.

# Large Spills:

Limit access to the immediate spill area. Shut off source of the release if this can be done without risk of injury. Activate available exhaust ventilation systems in the area. Dike area to contain the spill and prevent releases to sewers, drains or other waterways. Collect spilled material for salvage/disposal. Apply absorbent material to soak up residue. Wash area with soapy water. Prevent runoff from entering waterways. Transfer absorbed material and water rinses to appropriate waste containers. Dispose of in accordance with current Federal, State and local regulations.

MOR 000776

PRINTED: 10/23/95

## STYCAST 2651MM BLACK

## SI ION 7 HANDLING PRECAUTIONS

The recommendations described in this section are provided as general guidance for minimizing exposure when handling this product. Because usage conditions will vary depending on customer application, specific safe handling procedures should be developed by a person knowledgeable in the intended usage conditions and equipment. Employees must be properly trained in safe handling of this product prior to to use.

#### Personal Protection:

This product can cause eye irritation. Prevent eye contact through the use of chemical safety glasses, splash-proof chemical goggles, or face shield. This product can cause skin irritation and may cause allergic skin reactions. Wear appropriate protective gloves. If necessary, a proper chemical-resistant apron and additional impervious clothing should be used to prevent skin contact and contamination of clothing. Normal work clothing should be washed before re-use. Wash hands and face thoroughly after handling this product and before eating, drinking or smoking. Emergency eye wash facilities and safety shower should be available.

Ventilation Recommendations and Respiratory Protection:

Provide effective mechanical exhaust ventilation to draw vapors, mists or fumes generated during processing away from the worker and prevent routine inhalation. This is necessary especially during elevated temperature processing. Ventilation must be sufficient to maintain airborne levels of Section 2 ingredients below their PEL/TLV values. Use an appropriate, properly fitted respirator if exposures exceed PEL/TLV values. The type of protection selected (SCBA, air-purifying, etc.) will depend upon the conditions of use. Observe OSHA regulations for respiratory protection (29 CFR 1910.134).

#### Storage:

Store in a cool, dry location with adequate ventilation. Keep container tightly sealed when not in use. Keep away from open flames and heat sources. Consult the product Technical Bulletin for detailed storage information.

# SECTION 8 HEALTH DATA

Routes of Exposure:

Skin and eye contact, inhalation of vapors.

MOR 000777

#### STYCAST 2651MM BLACK

Medical Conditions Aggravated by Exposure:
Exposure may aggravate preexisting skin and/or eye disorders.

#### Eye Contact:

Contains materials irritating to the eyes. Symptoms may include blurred vision, burning sensation and tearing.

#### Skin Contact:

Contains materials which cause moderate skin irritation. Prolonged or repeated exposure to the liquid may exert a defatting or drying action on the skin, possibly resulting in dermatitis. This product may cause skin sensitization/allergic skin reactions which may be severe in certain individuals; symptoms include rash, itching, hives, swelling of the extremities.

#### Inhalation:

Heating can generate vapors that may cause respiratory irritation, nausea and headaches. Inhalation hazard at room temperature is unlikely, due to the low volatility of this product.

#### Ingestion:

Harmful if swallowed.

#### Chronic Health Effects:

Although the significance is unknown, the DGEBA epoxy resin in this product has been shown to be mutagenic in some microbial tests, but has failed to show mutagenicity in others. Chromosomal aberrations were observed in cultured rat liver cells. Two-year bioassays on mice exposed by the dermal route to DGEBA resins yielded only very limited evidence of weak carcinogenicity. Based on this and other evidence, the International Agency for Research on Cancer (IARC) concluded in 1988 that DGEBA epoxy resins are not classifiable as carcinogens.

Recent studies indicate that Butyl and Phenyl Glycidyl Ethers may induce mutagenic changes in laboratory animals. This has not been related to human exposures, however, good ventilation and industrial hygiene practices should be followed when handling compounds containing either BGE or PGE.

#### SECTION 9 FIRST AID PROCEDURES:

SECTION 4: FIRE AND EXPLOSION HAZARD DATA

Flash Point (°F):

>200

Flammable Limits

Not Established

Extinguishing Media:

Use carbon dioxide, dry chemical, foam, water fog.

Unusual Fire or Explosion Hazard:

Decomposition and combustion products may be toxic. Closed containers may violently rupture under fire conditions.

MOR 000790

Printed: 10/2/2001

# STYCAST® 1265, PART B

# Special Firefighting Procedures:

Firefighters/rescue personnel should wear positive pressure self-contained breathing apparatus and full protective equipment. Cool exposed containers with water to prevent pressure buildup. If large quantities of material are involved, evacuate area and fight fire from a safe distance.

# **SECTION 5: REACTIVITY DATA**

# **Product Stability:**

Product is stable under normal handling and storage conditions. Hazardous polymerization will not occur; however, review reactivity data concerning conditions to avoid and incompatible substances.

# Incompatibility:

Incompatible with strong oxidizers, acids, bases. Uncontrolled mixing with epoxides may cause hazardous exothermic polymerization, possibly resulting in evolution of smoke and toxic fumes

# Hazardous Decomposition Products:

Carbon monoxide, carbon dioxide, oxides of nitrogen, and other organic substances may be formed during combustion. The chemical nature and quantity of decomposition by-products will vary widely depending on the conditions of combustion.

## Conditions to Avoid:

Avoid storage in open containers, exposure to open flame or uncontrolled exposure to heat, uncontrolled mixing with epoxies or exposure to incompatible substances.

### SECTION 6: RELEASE RESPONSE DATA

Spill response operations must be conducted in accordance with the provisions of OSHA 29 CFR 1910.120. Review the entire MSDS before proceeding with spill response.

#### Small Spills:

Activate available exhaust ventilation equipment in the immediate spill area. Wipe up or absorb spilled material with vermiculite or other similar material. Wash area with soapy water to remove residue. Collect absorbed material and water rinses in appropriate containers. Dispose of in accordance with current Federal, State, and local regulations.

# Large Spills:

Limit access to the immediate spill area. Shut off source of the release if this can be done without risk of injury. Activate available exhaust ventilation systems in the area. Dike area to contain the spill and prevent releases to sewers, drains or other waterways. Collect spilled material for salvage/disposal. Apply absorbent material to soak up residue. Wash area with soapy water. Prevent runoff from entering waterways. Transfer absorbed material and water rinses to appropriate waste containers. Dispose of in accordance with current Federal, State and local regulations.

# **SECTION 7: HANDLING PRECAUTIONS**

The recommendations described in this section are provided as general guidance for minimizing exposure when handling this product. Because usage conditions will vary depending on customer application, specific safe handling procedures should be developed by a person knowledgeable in the

Printed: 10/2/2001

# STYCAST® 1265, PART B

intended usage conditions and equipment. Employees must be properly trained in safe handling of this product prior to use.

#### Personal Protection:

This product can cause eye burns. Prevent eye contact through the use of a face shield used in conjunction with either splash-proof chemical goggles or chemical safety glasses. This product can cause skin burns. Components of this product may also be absorbed through the skin. Wear appropriate protective gloves, a proper chemical resistant apron and additional impervious clothing to prevent all skin contact, contamination of clothing and possible absorption through the skin. Normal work clothing should be washed before re-use. Wash hands and face thoroughly after handling this product and before eating, drinking or smoking. Emergency eye wash facilities and safety shower must be available.

# Ventilation Recommendations and Respiratory Protection:

Provide effective mechanical exhaust ventilation to draw vapors, mists or furnes generated during processing away from the worker and prevent routine inhalation. This is necessary especially during elevated temperature processing.

#### Storage:

Store in a cool, dry location with adequate ventilation. Keep container tightly sealed when not in use. Keep away from open flames and heat sources. Consult the product Technical Bulletin for detailed storage information.

# **SECTION 8: HEALTH DATA**

# Routes of Exposure:

Skin and eye contact, inhalation of vapors.

# Medical Conditions Aggravated by Exposure:

Exposure may aggravate preexisting skin, eye and/or respiratory disorders.

# Eye Contact:

Contains materials corrosive to the eyes; may cause burns and possible corneal injury. Permanent impairment of vision or blindness may occur.

## Skin Contact:

Contains materials corrosive to the skin; may cause severe burns and blistering.

# Inhalation:

Vapors may cause irritation, nausea, and headaches.

#### Ingestion:

Harmful if swallowed. May cause burns to the mouth and upper gastro-intestinal tract.

# Chronic Health Effects:

None Established

MOR 000792

Printed: 10/2/2001

# **SECTION 9: FIRST AID PROCEDURES**

### Eye Contact:

Immediately flush eyes thoroughly with water for at least 15 minutes while holding eyelids open. Get immediate medical attention.

#### Skin Contact:

Immediately flush the affected area of the skin with plenty of water, while removing contaminated clothing or shoes. Follow by thoroughly washing with soap and water. Avoid scrubbing, as this action could increase skin absorption and worsen the effect of chemical contact. Get immediate medical attention. Do not reuse contaminated clothing until properly cleaned. Contaminated leather articles, including shoes, cannot be decontaminated and should be destroyed.

#### Inhalation:

Remove victim to fresh air. Provide oxygen if breathing is difficult. Give artificial respiration if not breathing. Get immediate medical attention.

#### Ingestion:

DO NOT induce vomiting. If victim is conscious and alert, dilute by giving water to drink; never give anything by mouth to a drowsy, unconscious, or convulsing person. Get immediate medical attention.

Extinguishing Media:

Use carbon dioxide, dry chemical, foam, water fog.

MOR 000795

Unusual Fire or Explosion Hazard:

Printed: 7/10/01

Decomposition and combustion products may be toxic. Closed containers may violently rupture under fire conditions. Reaction with curing agents is exothermic; smoke or toxic fumes may be evolved if heat of reaction becomes excessive due to high curing temperatures or curing of large masses of material. See Section 5, "Hazardous Decomposition Products".

# Special Firefighting Procedures:

Firefighters/rescue personnel should wear positive pressure self-contained breathing apparatus and full protective equipment. Cool exposed containers with water to prevent pressure buildup. If large quantities of material are involved, evacuate area and fight fire from a safe distance.

## **SECTION 5: REACTIVITY DATA**

# **Product Stability:**

Product is stable under normal handling and storage conditions. Hazardous polymerization will not occur; however, review reactivity data concerning conditions to avoid and incompatible substances.

# Incompatibility:

Incompatible with strong oxidizers, acids, bases; uncontrolled mixing with amines, anhydrides, mercaptans, imidazoles may cause hazardous polymerization.

# Hazardous Decomposition Products:

Carbon monoxide, carbon dioxide, aldehydes, acids and other organic substances may be formed during combustion. The chemical nature and quantity of decomposition by-products will vary widely depending on the conditions of combustion.

#### Conditions to Avoid:

Avoid storage in open containers, exposure to open flame or uncontrolled exposure to heat, uncontrolled mixing with curing agents or exposure to incompatible substances.

# **SECTION 6: RELEASE RESPONSE DATA**

Spill response operations must be conducted in accordance with the provisions of OSHA 29 CFR 1910.120. Review the entire MSDS before proceeding with spill response.

#### Small Spills:

Activate available exhaust ventilation equipment in the immediate spill area. Wipe up or absorb spilled material with vermiculite or other similar material. Wash area with soapy water to remove residue. Collect absorbed material and water rinses in appropriate containers. Dispose of in accordance with current Federal, State, and local regulations.

# Large Spills:

Limit access to the immediate spill area. Shut off source of the release if this can be done without risk of injury. Activate available exhaust ventilation systems in the area. Dike area to contain the spill and prevent releases to sewers, drains or other waterways. Collect spilled material for salvage/disposal. Apply absorbent material to soak up residue. Wash area with soapy water. Prevent runoff from entering waterways. Transfer absorbed material and water rinses to appropriate waste containers. Dispose of in accordance with current Federal, State and local regulations.

## **SECTION 7: HANDLING PRECAUTIONS**

The recommendations described in this section are provided as general guidance for minimizing exposure when handling this product. Because usage conditions will vary depending on customer application,

Printed: 7/10/01 Page: 2

The information given and the recommendations made herein apply to our product(s) alone and are not combined with other product(s). Such are based on our research and on data from other reliable sources and are believed to be accurate. No guaranty of accuracy is made. It is the purchaser's responsibility before using any product to werify this data under their own operating conditions and to determine whether the product is suitable for their purposes.

specific safe handling procedures should be developed by a person knowledgeable in the intended usage conditions and equipment. Employees must be properly trained in safe handling of this product prior to use.

#### Personal Protection:

This product can cause eye irritation. Prevent eye contact through the use of chemical safety glasses, splash-proof chemical goggles, or face shield. This product can cause skin irritation and may cause allergic skin reactions. Wear appropriate protective gloves. If necessary, a proper chemical-resistant apron and additional impervious clothing should be used to prevent skin contact and contamination of clothing. Normal work clothing should be washed before re-use. Wash hands and face thoroughly after handling this product and before eating, drinking or smoking. Emergency eye wash facilities and safety shower should be available.

# Ventilation Recommendations and Respiratory Protection:

Provide effective mechanical exhaust ventilation to draw vapors, mists or fumes generated during processing away from the worker and prevent routine inhalation. This is necessary especially during elevated temperature processing. Ventilation must be sufficient to maintain airborne levels of Section 2 ingredients below their PEL/TLV values. Use an appropriate, properly fitted respirator if exposures exceed PEL/TLV values. The type of protection selected (SCBA, air-purifying, etc.) will depend upon the conditions of use. Observe OSHA regulations for respiratory protection (29 CFR 1910.134).

#### Storage:

Store in a cool, dry location with adequate ventilation. Keep container tightly sealed when not in use. Keep away from open flames and heat sources. Consult the product Technical Bulletin for detailed storage information.

#### SECTION 8: HEALTH DATA

#### Routes of Exposure:

Skin and eye contact, inhalation of vapors.

## Medical Conditions Aggravated by Exposure:

Exposure may aggravate preexisting skin and/or eye disorders.

#### Eve Contact:

Contains materials irritating to the eyes. Symptoms may include blurred vision, burning sensation and tearing.

# Skin Contact:

Contains materials which cause moderate skin irritation. Prolonged or repeated exposure to the liquid may exert a defatting or drying action on the skin, possibly resulting in dermatitis. This product may cause skin sensitization/allergic skin reactions which may be severe in certain individuals; symptoms include rash, itching, hives, swelling of the extremities.

## Inhalation:

Heating can generate vapors that may cause respiratory irritation, nausea and headaches. Inhalation hazard at room temperature is unlikely, due to the low volatility of this product.

#### Ingestion:

Harmful if swallowed.

#### Chronic Health Effects:

Although the significance is unknown, the DGEBA epoxy resin in this product has been shown to be mutagenic in some microbial tests, but has failed to show mutagenicity in others. Chromosomal aberrations were observed in cultured rat liver cells. Two-year bioassays on mice exposed by the dermal

Printed: 7/10/01 Page: 3

The information given and the recommendations made herein apply to our product(s) alone and are not combined with other product(s). Such are based on our research and on data from other reliable sources and are believed to be accurate. No guaranty of accuracy is made. It is the purchaser's responsibility before using any product to verify this data under their own operating conditions and to determine whether the product is suitable for their purposes.

route to DGEBA resins yielded only very limited evidence of weak carcinogenicity. Based on this and other evidence, the International Agency for Research on Cancer (IARC) concluded in 1988 that DGEBA epoxy resins are not classifiable as carcinogens.

Recent laboratory studies on Salmonella bacterium (i.e. - Ames Test) indicated that Butyl Glycidyl Ether (BGE) may induce mutagenic changes, a possible precursor to cancer; However, subsequent laboratory cancer studies have shown no increase in carcinogenic potential resulting from BGE exposure.

The International Agency for Research on Cancer (IARC) has classified free carbon black as a Class 2B carcinogen, in that there is sufficient evidence for carcinogenicity in animals (based on inhalation studies), but evidence for carcinogenicty in humans is nonexistent. Exposure to free carbon black, however, is unlikely, unless the cured product is machined or ground in such a manner to evolve dusts; or in spray applications where vapors or fumes containing carbon black may become airborne, thus creating potential for inhalation exposure.

# **SECTION 9: FIRST AID PROCEDURES**

# Eye Contact:

Flush eyes thoroughly with water for at least 15 minutes while holding eyelids open. Get medical attention.

#### Skin Contact:

Remove any contaminated clothing and flush the affected area of the skin thoroughly with plenty of water. Follow by washing with soap and water. Get medical attention if irritation persists. Do not reuse contaminated clothing until properly cleaned.

#### Inhalation:

Remove victim to fresh air. Provide oxygen if breathing is difficult. Give artificial respiration if not breathing. Get immediate medical attention.

# Ingestion:

Dilute by giving plenty of water to drink, if victim is conscious and alert. Never give anything by mouth to a drowsy, unconscious, or convulsing person. Get immediate medical attention.

#### SECTION 3 - HAZARDS IDENTIFICATION

*** EMERGENCY OVERVIEW ***: Amber Liquid, with Amine odor. May cause skin and eye irritation. May cause allergic skin reaction. May cause respiratory tract irritation.

EFFECTS OF OVEREXPOSURE - EYE CONTACT: May cause eye irritation.

EFFECTS OF OVEREXPOSURE - SKIN CONTACT: May cause skin irritation. May cause skin sensitization. May cause dermatitis.

EFFECTS OF OVEREXPOSURE - INHALATION: May cause respiratory tract irritation.

EFFECTS OF OVEREXPOSURE - INGESTION: Harmful if swallowed. Indestion is not an expected route of entry in industrial or commercial uses.

EFFECTS OF OVEREXPOSURE - CHRONIC HAZARDS: Chronic skin contact may cause dermatitis.

(Continued on Page 2)

99016T00001

# SECTION 3 - HAZARDS IDENTIFICATION

PRIMARY KOUTE(S) OF ENTRY: SKIN CONTACT INHALATION INGESTION EYE CONTACT

# SECTION 4 - FIRST AID MEASURES

FIRST AID - EYE CONTACT: Flush eyes immediately with large amount of water for at least 15 minutes holding eyelids open while flushing. Get prompt medical attention.

FIRST AID - SKIN CONTACT: Flush contaminated skin with large amounts of water while removing contaminated clothing. Wash affected skin areas with soap and water. Get medical attention if symptoms occur.

FIRST AID - INHALATION: Move person to fresh air. Restore and support continued breathing. If breathing is difficult, give oxygen. Get immediate medical attention.

FIRST AID - INGESTION: If swallowed, do not induce vomiting. Give victim one or two glasses of water or milk. Call a physician or poison control center immediately for further instructions. Never give anything by mouth to an unconscious person.

#### SECTION 5 - FIRE FIGHTING MEASURES

PLASH POINT: >200F, >93C (SETAFLASH CLOSED CUP)

LOWER EXPLOSIVE LIMIT: N.A. UPPER EXPLOSIVE LIMIT: N.A.

AUTOIGNITION TEMPERATURE: N.D.

OSHA PLAMMABILITY CLASSIFICATION: COMBUSTIBLE LIQUID - CLASS IIIB

EXTINGUISHING MEDIA: CO2 DRY CHEMICAL FOAM WATER FOG

UNUSUAL FIRE AND EXPLOSION HAZARDS: Keep containers tightly closed. Closed containers may rupture when exposed to extreme heat. Use water spray to keep fire exposed containers cool.

SPECIAL FIREFIGHTING PROCEDURES: Wear full firefighting protective clothing, including self-contained breathing apparatus (SCRA). If water is used, fog nozzles are preferable. During a fire, irritating and/or toxic gases and particulate may be generated by thermal decomposition or combustion.

(Continued on Page 3)

Product: RT-1, Prepare Date: 07/22/96

Page 3

#### SECTION 6 - ACCIDENTAL RELEASE MEASURES

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED: Keep non-ossential personnel a safe distance away from the spill area. Avoid breathing vapors. Use self-contained breathing equipment. Notify appropriate authorities if necessary. Avoid contact. Before attempting cleanup, refer to hazard caution information in other sections of the MSDS form. Scoop spilled material into an appropriate container for proper disposal. (If necessary, use inert absorbent material to aid in containing the spill).

## SECTION 7 - HANDLING AND STURAGE

HANDLING: Keep closure hight and container upright to prevent leakage. Avoid skin and eye contact. Wash thoroughly after handling. Avoid breathing of vapor or spray mists. Do not handle until all safety precautions have been read and understood. Empty containers should not be re-used. Use with adequate ventilation.

STORAGE: Store only in well-ventilated areas. Keep container closed when not in use.

# SECTION 8 - EXPOSURE CONTROLS/PERSONAL PROTECTION

ENGINEERING CONTROLS: Sufficient ventilation in pattern and volume should be provided in order to maintain air contaminant levels below recommended exposure limits.

RESPIRATORY PROTECTION: Use a NIOSH/MSHA approved air-puritying Organic vapor respirator it occupational limits are exceeded. For emergency situations, confined space use, or other conditions where exposure limits may be greatly exceeded, use an approved air-supplied respirator. Observe OSHA regulations (29CFR 1910.134) for respirator use.

SKIN PROTECTION: Use neoprene, nitrile, or rubber gloves to prevent skin contact.

EYE PROTECTION: Use safety eyewear including safety glasses with Side shields and chemical goggles where splashing may occur.

OTHER PROTECTIVE EQUIPMENT: Remove and wash contaminated clothing before reuse.

HYGIENIC PRACTICES: Wash hands before eating, smoking, or using toilet facility. Food or beverages should not be consumed anywhere this product is handled or stored. Wash thoroughly after handling.

#### **SECTION 4 - FIRE AND EXPLOSION HAZARD DATA**

Flash Point (Degree °F): Flammable Limits:

>200 NE

Extinguishing Media:

Use carbon dioxide, dry chemical, foam.

water fog.

Unusual Fire or Explosion Hazard:

Decomposition and combustion products may

be toxic. Closed containers may violently rupture under fire conditions.

Special Firefighting Procedures: Firefighters/rescue personnel should wear positive pressure self-contained breathing apparatus and full protective equipment. Cool exposed containers with water to prevent pressure buildup. If large quantities of material are involved, evacuate area and fight fire from a safe distance.

#### **SECTION 5 - REACTIVITY DATA**

Product Stability: Product is stable under normal handling and storage conditions. Hazardous polymerization will not occur; however, review reactivity data concerning conditions to avoid any incompatible substances.

incompatibility: Incompatible with strong oxidizers, acids, bases; uncontrolled mixing with amines, anhydrides, mercaptans, imidazoles may cause hazardous polymerization.

Hazardous Decomposition Products: Carbon monoxide, carbon dioxide, aldehydes, acids and other organic substances may be formed during combustion. The chemical nature and quantity of decomposition by-products will vary widely depending on the conditions of combustion.

Conditions to Avoid: Avoid storage in open containers, exposure to open flame or uncontrolled exposure to heat, uncontrolled mixing with curing agents or exposure to incompatible substances.

#### **SECTION 6 - RELEASE RESPONSE DATA**

Spill response operations must be conducted in accordance with the provisions of OSHA 29 CFR 1910.120. Review the entire MSDS before proceeding with spill response.

Small Spills: Activate available exhaust ventilation equipment in the immediate spill area. Wipe up or absorb spilled material with vermiculite or other similar material. Wash area with soapy water to remove residue. Collect absorbed material and water rinses in appropriate containers. Dispose of in accordance with current Federal, State, and local regulations.

Large Spills: Limit access to the immediate spill area. Shut off source of the release if this can be done without risk of injury. Activate available exhaust ventilation systems in the area. Dike area to contain the spill and prevent releases to sewers, drains or other waterways. Collect spilled material for salvage/disposal. Apply absorbent material to soak up residue. Wash area with soapy water. Prevent runoff from entering waterways. Transfer absorbed material and

#### **MATERIAL SAFETY DATA SHEET**

water rinses to appropriate waste containers. Dispose of in accordance with current Federal, State and local regulations.

#### **SECTION 7 - HANDLING PRECAUTIONS**

The recommendations described in this section are provided as general guidance for minimizing exposure when handling this product. Because usage conditions will vary depending on customer applications, specific safe handling procedures should be developed by a person knowledgeable in the intended usage conditions and equipment. Employees must be properly trained in safe handling of this product prior to use.

Personal Protection: This product can cause eye irritation. Prevent eye contact through the use of chemical safety glasses, splash-proof chemical goggles, or face shield. This product can cause skin irritation and may cause allergic skin reactions. Wear appropriate protective gloves. If necessary, a proper chemical-resistant apron and additional impervious clothing should be used to prevent skin contact and contamination of clothing. Normal work clothing should be washed before re-use. Wash hands and face thoroughly after handling this product and before eating, drinking or smoking. Emergency eye wash facilities and safety shower should be available.

Ventilation Recommendations and Respiratory Protection: Provide effective mechanical exhaust ventilation to draw vapors, mists, or fumes generated during processing away from the worker and prevent routine inhalation. This is necessary especially during elevated temperature processing. Ventilation must be sufficient to maintain airborne levels of Section 2 Ingredients below their PEL/TLV values. Use an appropriate, properly fitted respirator if exposures exceed PEL/TLV values. The type of protection selected (SCBA, air-purifying, etc.) will depend upon the conditions of use. Observe OSHA regulations for respiratory protection (29 CFR 1910.134).

**Storage:** Store in a cool, dry location with adequate ventilation. Keep container tightly sealed when not in use. Keep away from open flames and heat sources. Consult the product Technical Bulletin for detailed storage information.

#### **SECTION 8 - HEALTH DATA**

Routes of Exposure: Skin and eye contact, inhalation of vapors.

Medical Conditions Aggravated by Exposure: Exposure may aggravate preexisting skin and/or eye disorders.

**Eye Contact:** Contains materials irritating to the eyes. Symptoms may include blurred vision, burning sensation and tearing.

Skin Contact: Contains materials which cause moderate skin Irritation. Prolonged or repeated exposure to the liquid may exert a defatting or drying action on the skin, possibly resulting in dermatitis. This product may cause skin sensitization/allergic skin reactions which may be severe in certain individuals; symptoms include rash, itching, hives, swelling of the extremities.

**Inhelation:** Heating can generate vapors that may cause respiratory irritation, nausea and headaches. Inhalation hazard at room temperature is unlikely, due to the low volatility of this product.

Ingestion: Harmful if swallowed.

Chronic Health Effects: Although the significance is unknown, the DGEBA epoxy resin in this product has been shown to be mutagenic in some microbial tests, but has failed to show mutagenicity in others. Chromosomal abberations were observed in cultured rat liver cells. Two-year bloassays on mice exposed by the dermal route to DGEBA resins yielded only very limited evidence of weak carcinogenicity. Based on this and other evidence, the International Agency for Research on Cancer (IARC) concluded in 1988 that DGEBA epoxy resins are not classifiable as carcinogens.

#### **SECTION 9 - FIRST AID PROCEDURES**

Eye Contact: Flush eyes thoroughly with water for at least 15 minutes while holding eyelids open. Get medical attention.

Skin Contact: Remove any contaminated clothing and flush the affected area of the skin thoroughly with plenty of water. Follow by washing with soap and water. Get immediate medical attention if irritation persists. Do not reuse contaminated clothing until properly cleaned.

**Inhalation:** Remove victim to fresh air. Provide oxygen if breathing is difficult. Give artificial respiration if not breathing. Get immediate medical attention.

**Ingestion:** Dilute by giving plenty of water to drink, if victim is conscious and alert. Never give anything by mouth to a drowsy, unconscious, or convulsing person. Get immediate attention.

#### **SECTION 10 - ADDITIONAL INFORMATION**

ISCA Status: All components of this product are listed in the EPA Toxic Substance Control Act Inventory.

SARA Status: This product does not contain any substances regulated by the SARA Section 313 amendments to RCRA.

The information contained herein is based upon data considered true and accurate. **SECTION 7 - HANDLING PRECAUTIONS** 

The recommendations described in this section are provided as general guidance for minimizing exposure when handling this product. Because usage conditions will vary depending on customer application, specific safe handling procedures should be developed by a person knowledgeable in the intended usage conditions and equipment. Employees must be properly trained in safe handling of this product prior to use.

Personal Protection: This product can cause severe eye irritation. Prevent eye contact through the use of a face shield used in conjunction with either splash-proof chemical goggles or chemical safety glasses. This product can cause severe skin irritation and may cause allergic skin responses. Components of this product may also be absorbed through the skin. Wear appropriate protective gloves, a proper chemical resistant apron and additional impervious clothing to prevent all skin contact, contamination of clothing and possible absorption through the skin. Normal work clothing should be washed before re-use. Wash hands and face thoroughly after handling this product and before eating, drinking or smoking. Emergency eye wash facilities and safety shower must be available.

Ventilation Recommendations and Respiratory Protection: Provide effective mechanical exhaust ventilation to draw vapors, mists or fumes generated during processing away from the worker and prevent routine inhalation. This is necessary especially during elevated temperature processing. Ventilation must be sufficient to maintain airborne levels of Section 2 ingredients below their PEL/TLV values. Use an appropriate, properly fitted respirator if exposures exceed PEL/TLV values. The type of protection selected (SCBA, air-purifying, etc.) will depend upon the conditions of use. Observe OSHA regulations for respiratory protection (29 CFR 1910.134).

**Storage:** Store in a cool, dry location with adequate ventilation. Keep container tightly sealed when not in use. Keep away from open flames and heat sources. Consult the product Technical Bulletin for detailed storage information.

#### **SECTION 8 - HEALTH DATA**

Routes of Exposure: Skin and eye contact, inhalation of vapors.

Medical Conditions Aggravated by Exposure: Exposure may aggravate preexisting skin, eye and/or respiratory disorders.

Eye Contact: Contains materials severely irritating to the eyes; may cause burns.

Skin Contact: Contains materials corrosive to the skin; may cause severe burns and blistering. This product may cause skin sensitization/allergic skin reactions which may be severe in certain individuals. May be absorbed through the skin; however, this product as a whole has not been tested for dermal toxicity.

Inhalation: Vapors may cause irritation, nausea, and headaches.

Ingestion: Harmful is swallowed.

Chronic Health Effects: None known.

#### **SECTION 9 - FIRST AID PROCEDURES**

Eye Contact: Immediately flush eyes thoroughly with water for at least 15 minutes while holding eyelids open. Get immediate medical attention.

Skin Contact: Immediately flush the affected area of the skin with plenty of water, while removing contaminated clothing or shoes. Follow by thoroughly washing with soap and water. Avoid scrubbing, as this action could increase skin absorption and worsen the effect of chemical contact. Get immediate medical attention. Do not reuse contaminated clothing until properly cleaned. Contaminated leather articles, including shoes, cannot be decontaminated and should be destroyed.

Inhalation: Remove victim to fresh air. Provide oxygen if breathing is difficult. Give artificial respiration if not breathing. Get immediate medical attention.

Ingestion: Dilute by giving plenty of water to drink, if victim is conscious and alert. Never give anything by mouth to a drowsy, unconscious, or convulsing person. Get immediate attention.

#### **SECTION 10 - ADDITIONAL INFORMATION**

TSCA Status: All components of this product are listed in the EPA Toxic Substance Control Act Inventory.

**SARA Status:** This product does not contain any substances regulated by the SARA Section 313 amendments to RCRA.

#### SECTION 3 - HAZARDS IDENTIFICATION

PRIMARY ROUTE(S) OF ENTRY: INHALATION INGESTION EYE CONTACT SKIN CONTACT

#### SECTION 4 - FIRST AID MEASURES

FIRST AID - EYE CONTACT: Flush eyes immediately with large amount of water for at least 15 minutes holding eyelids open while flushing. Get prompt medical attention.

FIRST AID - SKIN CONTACT: Flush contaminated skin with large amounts of water while removing contaminated clothing. Wash affected skin areas with soap and water. Get medical attention if symptoms occur.

FIRST AID - INHALATION: Move person to fresh air. Restore and support continued breathing. If breathing is difficult, give oxygen. Get immediate medical attention.

FIRST AID - INGESTION: If swallowed, do not induce vomiting. Give victim one or two glasses of water or milk. Call a physician or poison control center immediately for further instructions. Never give anything by mouth to an unconscious person.

#### SECTION 5 - FIRE FIGHTING MEASURES

FLASH POINT: >200F, >93C (SETAFLASH CLOSED CUP)

LOWER EXPLOSIVE LIMIT: N.A. UPPER EXPLOSIVE LIMIT: N.A.

AUTOIGNITION TEMPERATURE: N.D.

OSHA FLAMMABILITY CLASSIFICATION: COMBUSTIBLE LIQUID - CLASS IIIB

EXTINGUISHING MEDIA: CO2 DRY CHEMICAL FOAM WATER FOG

UNUSUAL FIRE AND EXPLOSION HAZARDS: Keep containers tightly closed. Closed containers may rupture when exposed to extreme heat. Use water spray to keep fire exposed containers cool.

SPECIAL FIREFIGHTING PROCEDURES: Wear full firefighting protective clothing, including self-contained breathing apparatus (SCBA). If water is used, fog nozzles are preferable. During a fire, irritating and/or toxic gases and particulate may be generated by thermal decomposition or combustion.

(Continued on Page 3)

Page 3

#### SECTION 6 - ACCIDENTAL RELEASE MEASURES

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED: Avoid breathing vapors. Notify appropriate authorities if necessary. Avoid contact. Use appropriate respiratory protection for large spills or spills in confined area. Keep non-essential personnel away from spill area. Scoop spilled material into an appropriate container for proper disposal. (If necessary, use lineral absorbent material to aid in containing the spill).

#### SECTION 7 - HANDLING AND STORAGE

HANDLING: Keep closure tight and container upright to prevent leakage. Avoid skin and eye contact. Wash thoroughly after handling. Do not handle until all safety precautions have been read and understood. Empty containers should not be re-used. Use with adequate ventilation.

STORAGE: Store only in well-ventilated arcas. Keep container closed when not in use.

#### SECTION 8 - EXPOSURE CONTROLS/PERSONAL PROTECTION

ENGINEERING CONTROLS: Sufficient ventilation in pattern and volume should be provided in order to maintain air contaminant levels below recommended exposure limits.

RESPIRATORY PROTECTION: Use a NIOSH/MSHA approved air-pprifying organic vapor respirator if occupational limits are exceeded. For emergency situations, confined space use, or other conditions where exposure limits may be greatly exceeded, use an approved air-supplied respirator. Observe OSHA regulations (29CFR 1910.134) for respirator use.

SKIN PROTECTION: Use neoprene, nitrile, or rubber gloves to prevent skin contact.

EYE PROTECTION: Use safety eyewear including safety glasses with side shields and chemical goggles where splashing may occur.

OTHER PROTECTIVE EQUIPMENT: Use disposable or impervious clothing if work clothing contamination is likely. Remove and wash contaminated clothing before reuse.

HYGIENIC PRACTICES: Wash hands before eating, smoking, or using toilet facility. Food or beverages should not be consumed anywhere this product is handled or stored. Wash thoroughly after handling.

(Continued on Page 4)

#### SECTION 3: HAZARD IDENTIFICATION

Clear, colorless liquid with mild hydrocarbon solvent. This product is extremely flammable. Liquid will irritate eyes and skin under Entergency Overview: repeated or prolonged exposure. Breathing high concentrations of product may produce drowsiness and a headache

Potential Health Effects:

Eyes: Liquid, aerosols and vapors of this product are irritating and can cause pain, tearing, reddening and swelling accompanied by a stinging sensation.

Skin: Contact causes skin irritation

Ingestion: Harmful if swallowed. Irritating to the mouth, throat and stomach. May cause vomiting. Inhalation: Harmful if inhaled. High concentrations in immediate area can displace oxygen and cause dizziness, unconsciousness and even death with longer exposure. Keep people away from such vapors without selfcontained breathing apparatus. Pre-Existing Medical Conditions Aggravated by Exposure: Heart, lung, skin, eye.

#### **SECTION 4: FIRST AID MEASURES**

Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. Have eyes examined and tested by medical personnel if irritation develops or persists.

Skin: Wash skin with soap and water. Remove contaminated clothing. Get medical attention if irritation develops or persists. Wash clothing separately before reuse. Ingestion: If swallowed, do not induce vomiting. Keep head below knees to minimize chance of aspirating material into the lungs. Never give anything by mouth to an unconscious person. Get medical attention immediately.

Inhalation. Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention.

#### SECTION 5: FIRE FIGHTING MEASURES

Flash Point: -200 (isohexane) LEL/UEL: 1.2/7.7 (% by volume in air) Extinguishing Media: Use alcohol foam, carbon dioxide or water spray when fighting tires involving this material. Fire Fighting Instructions: As in any fire, wear self-contained breathing apparatus (pressure demand, MSHA/NIOSH approved or equivalent) and full protective gear.

#### SECTION 6: ACCIDENTAL RELEASE MEASURES

Large Spills: Shut off leak if possible and safe to do so. Wear self-contained breathing apparatus and appropriate personal protective equipment. Absorb spill with inert material (i.e. dry sand or earth), then place in a chemical waste container for proper disposal. Do not flush to sewer. Avoid runoff into storm sewers and ditches that lead to waterways. Small Spills: Absorb spill with inert material (i.e. dry sand or earth), then place in a chemical waste container for proper disposal.

#### SECTION 7: HANDLING AND STORAGE

Avoid prolonged or repeated contact with skin, eyes or clothing. Wash hands before eating. Use with adequate ventilation. Avoid breathing product vapor. Do not reuse this container. Store in a cool dry place, away from heat, sparks or flames. Keep container tightly closed when not in use. Do not store in direct sunlight. KEEP OUT OF REACH OF CHILDREN.

#### SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION Exposure Guidelines: **OSHA PEL OSHA STEL** CHEMICAL NAME **ACGIH TWA** n-Hexane 50 ppm 500 ppm NA 2-methylpentane NA NA NA NA 3-methylpentane NA NA NA 2.3-Dimethylbutane NA NA NA 2.2-Dimethylbutane NA NA Denatured alcohol, a mixture of: 1000 ppm Ethanol 1000 ppm NA Methanol 200ppm 200ppm 250ppm 400 ppm NA Ethyl acetate 400 ppm Isopropanol 400 ppm 400 ppm 500 ppm 30,000ppm Carbon dioxide 5000 ppm 5,000 ppm

Work/Hygienic Practices: Good general ventilation should be sufficient to control airborne levels. Local exhaust ventilation may be necessary to control any air contaminants to within their TLVs during the use of this product. Wear safety glasses with side shields, goggles and rubber or other chemically resistant gloves when handling this material.

#### SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

Physical State: Clear, colorless liquid Odor: Mild hydrocarbon solvent

pH: NA
Vapor Pressure: 198 mm Hg @ 68 F (liquid)
Vapor Density: 3 (isohexanes) (Air 1)

Solubility in Water: Negligible
Specific Gravity: 0.70 @ 68F
Evaporation Rate: <1 (Butyl acetate=1)

<u>Viscosity:</u> Not established (Water = 1)

Percent Volatile: 100

#### SECTION 10: STABILITY AND REACTIVITY

Stability: This product is stable. Conditions to Avoid: Do not spray near open flames, red hot surfaces or other sources of ignition.

Incompatibility, Do not mix powdered alkali and alkaline earth metals or strong oxidizing agents.

<u>Products of Decomposition:</u> Thermal decomposition may release carbon monoxide, carbon dioxide and incompletely burned hydrocarbons.

Hazardous Polymerization: Will not occur. Conditions to avoid: NA

#### SECTION 15: REGULATORY INFORMATION

#### SECTION 313 SUPPLIER NOTIFICATION

This product contains the following toxic chemicals subject to the reporting requirements of Section 313 of the Emergency Planning and Community Right-To-Know Act of 1986 (40CFR372). This information should be included on all MSDSs copied and distributed for this material.

Chemical Name

CAS No.

Methanol 67-56-1 1.0-3.8

TOXIC SUBSTANCES CONTROL ACT (TSCA). All ingredients of this product are listed on the TSCA Inventory.

#### SECTION 16: OTHER INFORMATION

Product is a Level 3 aerosol. Do not puncture or incinerate containers. Normal ventilation for standard manufacturing practices is usually adequate. Local exhaust should be used when large amounts are released. NOTE: This MSDS is applicable to all product containers with date codes of 01175 or later.

Guide to Occupational Exposure Values 1996

To the best of our knowledge, the information contained herein is accurate. However, all materials may present unknown hazards and should be used with caution. In particular, improper use of our products and their inappropriate combination with other products and substances may produce harmful results which cannot be anticipated. Final determination of the suitability of any material is the sole responsibility of the user. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that may exist.

ESTIMATED FLAMMABLE LIMITS (% By Volume in Air)

LEL: 2.0

UEL: 12.7

FLASH POINT Deg F.

53 closed cup.

EXTINGUISHING MEDIA

Alcohol type or all-purpose-type foam for large fires. Carbon dioxide or dry chemical media for small fires. Use NIOSH approved self-contained breathing apparatus and protective clothing. Cool fire exposed containers

with water.

UNUSUAL FIRE AND EXPLOSION HAZARD

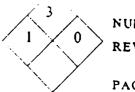

SPECIAL FIRE

FIGHTING PROCEDURES

Vapors are heavier than air and may travel along ground. Never use welding torch on or near containers (even empty). May produce a floating fire hazard.

### SECTION V.(A) HEALTH HAZARD DATA (Symptoms/Ellects Of Overexposure)

INHALATION: Can cause irritation of the respiratory tract with coughing and

chest discomfort. High concentrations of vapor may cause

headache and drowsiness.

Slightly toxic. May cause abdominal discomfort, nausea, INGESTION:

vomiting and diarrhea. Drowsiness and/or loss of consciousness

may occur.

SKIN: May cause minor irritation with itching and possible slight local redness. Prolonged or repeated contact may cause defatting and drying. Absorption; exposure to small quantities are not anticipated to cause adverse health effects. Widespread and prolonged exposure may result in the absorption of harmful amounts of material, leading to signs and symptoms as described for ingestion.

EYES: Causes irritation, may cause corneal injury.

LISTED CARCINOGENS: None of the materials in this product are listed in NTP, IARC, or OSHA as carcinogens.

# SECTION V.(B) HEALTH HAZARD DATA Emergency and First Aid Procedures)

Remove to fresh air. If not breathing give artificial respira-INHALATION

tion. If breathing is difficult administer oxygen. Obtain

medical attention.

If fully conscious give two glasses of water, INDUCE vomiting. INGESTION

Never give anything by mouth to an unconscious person.

SKIN

Remove contaminated clothing. Wash with soap and water. If irritation persists or if contact has been prolonged obtain CONTACT

medical attention.

EYE

Immediately flush with water for several minutes. Obtain

CONTACT medical attention.

Lonco SLS 65 Flux

# SPHEL OR INFARENCED UNES

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED

Ventilate if in enclosed area. Eliminate all ignition sources. SMALL SPILL: Absorb liquid on paper, vermiculite, floor absorbent, or other absorbent material and transfer to hood.

LARGE SPILL: See Section X. Destroy by approved incineration or deposit in approved landfill. WASTE DISPOSAL

> Must be in accordance with Federal, State and Local Laws and Regulations

## SECTIONSVIII SPECIAL PROTECTION WITH THE SPECIAL PROTECTION

No special requirements with adequate ventilation present, RESPIRATORY

approved respiratory protective equipment used when vapor or

mist concentrations exceed applicable standards.

Chemical type protective goggles. EYEWEAR

Provide eye bath near work site.

Wear resistant gloves such as rubber, neoprene or plastic. CLOTHING/

**GLOVES** 

Provide sufficient mechanical (general and/or local exhaust) **VENTUATION** 

ventilation to maintain exposure below TLVs.

## SECTION IX SPECIAL PRECAUTIONS

PRECAUTIONS TO BE TAKEN IN HANDLING AND STORING

Observe precautions for a flammable liquid. Keep container closed when not in use. Store away from ignition sources in cool dry area. Use adequate ventilation. Read all container labeling.

Avoid the use of metal drum spigots. Use Polyethylene, Polypropylene or Teflon.

#### OTHER PRECAUTIONS:

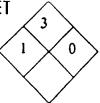

Containers: Since empty containers may retain product residues (vapor, liquid, or solid) all labeled hazard precautions must be observed. FOR INDUSTRIAL USE ONLY.
KEEP OUT OF REACH OF CHILDREN. DO NOT
TAKE INTERNALLY.

### SECTION X ADDITIONS INFORMATION

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED: (continued) LARGE SPILL:

Persons not wearing protective equipment should be excluded from area. Dike area of spill to prevent spreading. Pump liquid to salvage tank. Take up remaining liquid with absorbent material. Shovel into containers.

NOTES TO PHYSICIAN:

There is no specific antidote. Treatment of overexposure should be directed at the control of symptoms and the clinical condition of the patient.

#### 3.0 HAZARDS IDENTIFICATION

EMERGENCY OVERVIEW: Danger! Extremely flammable. Inhalation of vapor/aerosol concentrations above the recommended exposure limits causes headaches, drowsiness, and nausea, and may lead to unconsciousness or death. Harmful if swallowed and/or aspirated into the lungs. Prolonged or repeated contact may cause irritation and/or dermatitis. Use as motor fuel only. Long-term exposure to vapors has caused cancer in laboratory animals. POTENTIAL HEALTH EFFECTS:

EYE CONTACT: High concentrations of vapor/mist may cause eye discomfort.

SKIN CONTACT: Prolonged or repeated contact can defat the skin and lead to irritation and/or dermatitis.

Inhalation of vapor/aerosol concentrations above the recommended exposure limits causes headaches, drowsiness, and nausea, and may lead to unconsciousness or death. See "Toxicological Information" section (Section 11.0).

Harmful or fatal if liquid is aspirated into lungs. Ingestion causes gastrointestinal irritation and diarrhea. See "Toxicological Information" section (Section 11.0).

HMIS CODE: (Health:1) (Flammability:3) (Reactivity:0) CHRONIC HEALTH

HAZARD.

NFPA CODE: [Health:1] (Flammability:3) (Instability:0)

#### 4.0 FIRST AID MEASURES

EYE: Flush eyes with plenty of water. Get medical attention if irritation persists.

IN: Wash exposed skin with soap and water. Remove contaminated clothing, including shoes, and thoroughly clean and dry before reuse. Get medical attention if irritation develops.

INHALATION: If adverse effects occur, remove to uncontaminated area. Give artificial respiration if not breathing. Get medical attention.

INGESTION: If swallowed, do NOT induce vomiting. Get immediate medical attention.

Issued: July 16, 1999

8-17-99 8:52am

p. 4 of 15

٠...

GASOLINES (LEAD-FREE) MSDS No. 09748000

Page 3 of 13

#### 5.0 FIRE FIGHTING MEASURES

FLASHPOINT: -45'

UEL: 7.6% 1EL: 1.3%

AUTOIGNITION TEMPERATURE: 495.0'

FLAMMABILITY CLASSIFICATION: Extremely Flammable Liquid.

EXTINGUISHING MEDIA: FINGUISHING MEDIA: Agents approved for Class B hazards (e.g., dry chemical, carbon dioxide, foam, steam) or water fog. Water may be ineffective but should be used to cool-fire exposed containers, structures and to protect personnel.

UNUSUAL FIRE AND EXPLOSION HAZARDS: Extremely flammable vapor/air mixtures form. Extinguishment of fire before source of vapor is shut off can create an explosive mixture in air. Product gives off vapors that are heavier than air which can travel considerable distances to a source of ignition and flashback. Runoff to sever may cause a fire or explosion hazard.

FIRE-FIGHTING EQUIPMENT: Firefighters should wear full bunker gear, including a positive pressure self-contained breathing apparatus.

ECAUTIONS: Keep away from sources of ignition (e.g., heat and open flames). Keep container closed. Use with adequate venti-

HAZARDOUS COMBUSTION PRODUCTS: Combustion of this product in an area without adequate ventilation may result in hazardous levels of combustion products (e.g., carbon monoxide, carbon dioxide) and inadequate oxygen levels.

#### 

#### 6.0 ACCIDENTAL RELEASE MEASURES

Remove or shut off all sources of ignition. Wear respirator and spray with water to disperse vapors. Increase ventilation if possible. Prevent spreading by diking, ditching, or absorbing on inert materials. Keep out of sewers and waterways.

CIUMIA DE MENCE

GASOLINES (LEAD-FREE) MSDS No. 09748000

#### Page 4 of 13

### 7.0 HANDLING AND STORAGE

HANDLING: Use with adequate ventilation. Keep away from ignition sources (e.g., heat, sparks, or open flames). Ground and bond containers when transferring materials. Wash thoroughly after handling.

STORAGE: Store in flammable liquids storage area. Keep container closed. Store away from heat, ignition sources, and open flame in accordance with applicable regulations.

SPECIAL PRECAUTIONS: Keep out of sewers and waterways. Avoid strong oxidizers. Report spills to appropriate authorities. USE AS MOTOR FUEL ONLY.

#### 8.0 EXPOSURE CONTROLS / PERSONAL PROTECTION

EYE: None required; however, use of eye protection is good industrial practice.

SKIN: Avoid prolonged or repeated skin contact. Wear protective clothing and gloves if prolonged or repeated contact is likely.

INHALATION: Use with adequate ventilation. Avoid breathing vapor and/or mist. If ventilation is inadequate, use NIOSH certified respirator that will protect against organic vapor and dust/mist.

ENGINEERING CONTROLS: Control airborne concentrations below the exposure guidelines.

### 9.0 CHEMICAL AND PHYSICAL PROPERTIES

APPEARANCE AND ODOR: Clear. Liquid. Hydrocarbon odor.

pH: Not determined.

VAPOR PRESSURE: 7-15 1b RVP (ASTM D323)

VAPOR DENSITY: 3.0-4.0

BOILING POINT: 80.0-430.0'F (range)

MELTING POINT: Not determined.

SOLUBILITY IN WATER: Negligible, below 0.1%

SPECIFIC GRAVITY (WATER=1): 0.75

#### TARGET TO BE CONTROL TO AND DESCRIPTIVE

10.0 STABILITY AND REACTIVITY

STABILITY: Burning can be started easily.

CONDITIONS TO AVOID: Keep away from ignition sources (e.g. heat, sparks, and open flames).

MATERIALS TO AVOID: Avoid chlorine, fluorine, and other strong oxidizers.

HAZARDOUS DECOMPOSITION: None identified.

HAZARDOUS POLYMERIZATION: Will not occur.

### 11.0 TOXICOLOGICAL INFORMATION

### ACUTE TOXICITY DATA:

EYE IRRITATION: This product had a primary eye irritation score (PEIS) of 0/110.0 (rabbit)

SKIN IRRITATION: This product had a primary skin irritation score (PDIS) of 1.1/0.0 (rabbit)

DERMAL LD50: greater than 5 ml/kg (rabbit).

ORAL LD50: 18.8 ml/kg (rat).

INHALATION LC50: 20.7 mg/l (rat)

Issued: July 16, 1999

U 1. JU U.J 70H P. J UI 1J

DUGGINI DUGELN

Page 8 of 13

#### OTHER TOXICITY DATA:

Excess exposure to vapors may produce headaches, dizziness, nausea, drowsiness, irritation of eyes, nose and throat and central nervous system depression. Aspiration of this material into the lungs can cause chemical pneumonia and can be fatal. Aspiration into the lungs can occur while vomiting after ingestion of this product. Inhalation of unleaded gasoline vapors did not produce birth defects in laboratory animals. Ingestion of this material can cause gastrointestinal irritation and diarrhea.

In a long-term inhalation study of whole unleaded gasoline vapors, exposure-related kidney damage and kidney tumors were observed in male rats. Similar kidney effects were not seen in female rats or in mice. At the highest exposure level (2056 ppm), female mice had an increased incidence of liver tumors. Results from subsequent scientific studies have shown that a broad variety of chemicals cause these kidney effects only in the male rat. Further studies have discovered the means by which the physiology of the male rat uniquely predispose it to these effects. Consequently, the Risk Assessment forum of the Environmental Protection Agency has recognized that these responses are not predictive of a human health hazard. The liver tumors that were increased in the high-dose female mice are likewise of questionable significance because of their high spontaneous occurrence even without chemical exposure and because the rate of their occurrence is accelerated by a broad spectrum of chemicals not commonly considered to be carcinogens (e.g., phenobarbital). Thus, the significance of the mouse liver tumor response in terms of human health is questionable.

Gasoline is a complex mixture of hydrocarbons and contains benzene (typically no more than 2 volume%), toluene, and xylene. Chronic exposure to high levels of benzene has been shown to cause cancer (leukemia) in humans and other adverse blood effects (anemia). Benzene is considered a human carcinogen by IARC, NTP and OSHA. Over exposure to xylene and toluene can cause irritation to the upper respiratory tract, headache and narcosis. Some liver damage and lung inflammation were seen in chronic studies on xylene in guinea pigs but not in rats.

Solvent "sniffing" (abuse) or intentional overexposure to vapors can produce serious central nervous system effects, including unconsciousness, and possibly death.

This product contains/may contain methyl tertiary-butyl ether (MTBE). In a long-term inhalation study with laboratory rodents, very high exposures (>3000 ppm) to MTBE produced liver and kidney tumors. Both IARC and NTP do not consider these data sufficient for classification of MTBE as a probable human carcinogen. MTBE has produced developmental toxicity to the offspring of mice, but only at maternally toxic concentrations (>4000 ppm). Similar studies in rats and rabbits were negative.

#### Page 9 of 13

This product contains/may contain ethyl tertiary-butyl ether (ETBE). In rats exposed by inhalation to ETBE, testicular degeneration was observed in males and bone marrow degeneration was observed in females that were exposed to 1750 and 5000 ppm for 90 days. Neither effect was seen at 500 ppm. Slight blood and organ weight changes have been observed in rats following 20-day inhalation exposure to ETBE at 2000 ppm and higher.

This product contains/may contain tertiary-amyl methyl ether (TAME). Chronic inhalation exposure of rats and mice to high levels of TAME (250-3500 ppm) for 90 days resulted in slight blood and organ weight effects. However, these were either transient during the exposure period, or reversible after exposure ceased.

### 12.0 ECOLOGICAL INFORMATION

Ecological testing has not been conducted on this material by 8P Amoco.

#### 13.0 DISPOSAL INFORMATION

Residues and spilled material are hazardous waste due to ignitability. Disposal must be in accordance with applicable federal, state, or local regulations. Enclosed-controlled incineration is recommended unless directed otherwise by applicable ordinances.

The container for this product can present explosion or fire hazards, even when emptied! To avoid risk of injury, do not cut, puncture, or weld on or near this container. Since the emptied containers retain product residue, follow label warnings even after container is emptied.

## 15.0 REGULATORY INFORMATION

CERCLA SECTIONS 102A/103 HAZARDOUS SUBSTANCES (40 CFR PART 302.4): This product is exempt from the CERCLA reporting requirements under 40 CFR Part 302.4. However, if spilled into waters of the United States, it may be reportable under 33 CFR Part 153 if it produces a sheen.

SARA TITLE III SECTION 302 EXTREMELY HAZARDOUS SUBSTANCES (40 CFR PART 355): This product is not regulated under Section 302 of SARA and 40 CFR Part 355.

SARA TITLE III SECTIONS 311/312 HAZARDOUS CATEGORIZATION (40 CFR PART 370): This product is defined as hazardous by OSHA under 29 CFR Part 1910.1200(d). Hazardous categories for this product are: Acute = yes; Chronic = yes; Fire = yes; Pressure = no; Reactive = no.

SARA TITLE III SECTION 313 (40 CFR PART 372): This product contains the following substance(s), which is on the Toxic Chemicals List in 48 CFR Part 372:

! Component/CAS Number	! Weight Percent
Component/CAS Number	Weight Percent
! Benzene 71-43-2	! 4
! Trimethylbenzene 95-63-6	! 7
: Cyclohexane 110-82-7	! 5
! Ethylbenzene 100-41-4	! 2
! Xylene 1330-20-7	! 10
! Methyl tertiary butyl ether (MTBE) 1634-84-4	: 18
! Hexane 110-54-3	! 5
! Naphthalene 91-20-3	: 1.1
: Toluene 108-88-3	! 22

#### U.S. INVENTORY (TSCA): Listed on inventory.

This product may contain methyl tertiary-butyl ether (CAS #1634-04-4) or tert-amyl methyl ether (CAS #994-05-0), both of which are currently undergoing review and testing under TSCA Section 4. Notification to the U.S. EPA Office of Toxic Substances is required prior to export of this material from the United States.

OSHA HAZARD COMMUNICATION STANDARD: Flammable liquid. Irritant. Contains components listed by ACGIH. Contains components listed by OSHA. Contains a carcinogenic component.

PLASH POINT: 72 P PERSKY MARTIN LEL: 1.0 UEL: N/A

EXTINGUISHING MEDIA:

Carbon dioxide, dry chemical or foam

UNUSUAL FIRE AND EXPLOSION HAZARDS:

Pressure may build up in closed containers that are exposed to heat. Solvent vapors are heavier than air and may travel a considerable distance along the ground to an ignition source and "flash back".

SPECIAL SIRE FIGHTING PROCEDURES:

Water may be ineffective, however, water may be used to cool closed containers that are expused to heat. Firefighting personnel should wear self-contained breathing apparatus.

SECTION V - HEALTH HAZARD DATA

THRESHOLD LIMIT VALUE: SEE SECTION II PRIMARY ROUTE(S) OF ENTRY:

ichalation and skin contact

ETFECTS OF OVEREXPOSURE:

Readache, nausea, dizziness, confusion, irritability.

MEDICAL CONDITIONS AGGRAVATED BY EXPOSURE:

Respiratory difficulties or preexisting skin sensitization.

CARCINOGENICITY:

None of the components of this product are reported cardinogens in A/C with OSHA, MTP, IAKC and NIOSH.

ENERGENCY FIRST AID PROCEDURES:

INHALATION: kemove to fresh air. Administer artificial respiration or oxygen if breathing is difficult.

SKIN: Wash affected area with soap and water. Remove and launder contaminated clothing. Consult a physician if irritation persists.

EYES: Flush immediately with large amounts of water for at least 15 minutes. Take to a physician for medical treatment.

INSESTION: Call a physician immediately.

ACUTE: Skin and eye contact: Primary irritation. CHROMIC: Xylene contained in this material has been found to cause the follo wing effects in laboratory animals:amenia, liver abnormalities, liver and eye damage. Pre-Exiting liver and/or kidney disorders may be aggrevated by exposure to xylene. Reports have associated repeated and prolonged occupational overexpo sure to xylene with permanent brain and nervous system damage.

RECTION VI - REACTIVITY DATA

STABILITY: NORMAL STABLE CONDITIONS TO AVOID: None known INCOMPATIBILITY (Materials to avoid) Strong acids and bases HAZARDOUS DECOMPOSITION PRODUCTS: BY FIRE: Normal products of incomplete combustion. HAZARDOUS POLYMERIZATION: DOBS NOT OCCUR CONDITIONS TO AVOID: None known

SECTION VII - SPILL OR LEAK PROCEDURES

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED: Provide adequate ventilation. Remove all possible ignition sources. Absorb and dispose using non-sparking tools. Eliminate all sources of ignition. Evacuate unprotected personnel. Water RECEIVED

spray may be used. To contain run-off, cover with an absorbent material and place in containers for proper disposal. Flush area with water to remove residue.

WASTE DISPOSAL METHOD:

Dispose in accordance with local applicable regulations. Disposal of using an approved incineration process or in accordance with local, state, and federal regulations regarding health and pollution.

SECTION VIII - SPECIAL PROTECTION INFORMATION

RESPIRATORY PROTECTION:

In outdoor or open areas use Bureau of Mines approved mechanical filter respirator to remove solid airborne particulates of overspray. Indoors, where ventilation is inadequate, use Bureau of Mines approved chemical-mechanical respirators designed to remove both particulate and vapor.

: KOITALITHEV

PROTECTIVE GLOVES:

Recommended if skin contact is likely.

EYE PROTECTION:

Chemical aplant goggles recommended if potential for splash or eye contact is likely.

THER PROTECTIVE EQUIPMENT:

Recommended as needed to avoid contact.

#### SECTION 1X - SPECIAL PRECAUTIONS

PRECAUTIONS TO BE TAKEN IN HANDLING OR STORING:

Store in a cool dry place away from heat, sparks and open flame. Keep containers closed and upright to prevent leakage. Outside or detached storage is preferred. Inside storage should be in a standard flammable liquid storeroom or cabinet. Metal containers should be grounded when transferring material from one container to another. Do not reuse product container for any purpose.

OTHER PRECAUTIONS:

PREPARED BY: TECHNICAL STAFF REFERENCE DATE: JUNE 1997

THE INFORKATION AND RECORMENDATIONS CONTAINED HEREIX ARE BASED UPON DATA BELIEVED TO BE CORRECT. HOWEVER, NO GUARANTEE OR WARKANTY OF ANY KIND, EXPRESSED OR INPLIED, IS MADE WITH RESPECT TO THE INFORMATION ABOVE.

MATERIAL SAFETY DATA SHEET INFORMATION:

PLEASE FIND ENCLOSED MATERIAL SAFETY DATA SHEETS (MSDS) COVERING ITEMS PURCHASED FROM ELECTRICAL INSULATION SUPPLIERS (EIS). OSHA REGULATIONS REQUIRE MSDS INFORMATION BE MADE AVAILABLE TO ALL PERSONNEL WHO MAY BE EXPOSED TO HAZARDOUS MATERIALS IN THE WORK PLACE.

UNDER THE "EMERGENCY PLANNING COMMUNITY RIGHT-TO-KNOW ACT OF 1986" INVENTORY AND LOCATION INFORMATION, CONCERNING HAZARDOUS MATERIALS MFG JOB SITE, MAY NEED TO BE REPORTED TO THE LOCAL FIRE DEPARTMENT, THE LOCAL EMERGENCY PLANNING COMMITTEE AND THE STANDARD RESPONSE COMMISSION. YOU MAY WANT TO REFERENCE 40 CFR PART 372 FOR ADDITIONAL INFORMATION. MANUFACTURERS MUST REPORT ANNUAL RELEASES OF LISTED TOXIC CHEMICALS INTO THE ENVIRONMENT, ACCORDING TO SARA TITLE III.

ACCORDING TO 29 CFR PART 1910.1200 PARAGRAPH (g)(6) OF THE HAZARD COMMUNICATION STANDARD, A MSDS IS TO BE PROVIDED THE FIRST TIME THE CUSTOMER BUYS AN ITEM REQUIRING A MSDS. IF AT ANY TIME THE MSDS IS UPDATED OR CHANGED, THE UPDATED MSDS MUST BE SUPPLIED WITH THE FIRST SHIPMENT AFTER THE MSDS UPDATE HAS OCCURRED.

IF YOU NEED FURTHER INFORMATION CONCERNING YOUR SITUATION, YOU MAY CONTACT THE EPA IN WASHINGTON, D.C. THEIR TOLL FREE NO. IS (800)535-0202; THE RCRA/SUPERFUND HOT LINE IS (800)424-9346 OR (703)920-9810; THE TSCA HOT LINE IS (202)554-1404.

BY PROVIDING THIS DOCUMENTATION, EIS IS COMPLYING WITH FEDERAL LAWS GOVERNING MSDS INFORMATION, AS IS KNOWN TO US. THIS IS A SERVICE AIMED AT HELPING YOUR BUSINESS TO ALSO COMPLY WITH GOVERNMENT REGULATIONS.

SECTION III - PHYSICAL DATA

BOILING RANGE: 283.0 TO 285.0 F

VAPOR DENSITY: HEAVIER THAN

EVAPORATION RATE: SLOWER THAN ETHER

PERCENT VOLATILE BY VOLUME: 57.5

VOC (LESS WATER): 4.15 LBS/GAL

WEIGHT PER GALLON: 8.31 POUNDS

VOC is determined per EPA Reference Method 24 using ASTM procedures D2369, D1475, D3960

VAPOR PRESSURE: 9.5 MELTING POINT:

SOLUBILITY IN WATER: NEGLIGIBLE APPEARANCE AND ODOR: CLEAR

SECTION IV - FIRE AND EXPLOSION HAZARD DATA

OSHA CATEGORY: FLAMMABLE LIQUID

FLASH POINT: 79F CC-PM

LEL: 1 UEL: N/A

EXTINGUISHING MEDIA:

Carbon dioxide, dry chemical or foam

UNUSUAL FIRE AND EXPLOSION HAZARDS:

Pressure may build up in closed containers that are exposed to heat Solvent vapors are heavier than air and may travel a considerable distance along the ground to an ignition source and "flash back".

SPECIAL FIRE FIGHTING PROCEDURES:

Water may be ineffective, however, water may be used to cool closed containers that are exposed to heat. Firefighting personnel should wear self-contained breathing apparatus.

SECTION V - HEALTH HAZARD DATA

THRESHOLD LIMIT VALUE: SEE SECTION II

PRIMARY ROUTE(S) OF ENTRY:

Inhalation and skin contact

EFFECTS OF OVEREXPOSURE:

Headache, nausea, dizziness, confusion, irritability.

MEDICAL CONDITIONS AGGRAVATED BY EXPOSURE:

Respiratory difficulties or preexisting skin sensitization.

CARCINOGENICITY:

None of the components of this product are reported carcinogens.

EMERGENCY FIRST AID PROCEDURES:

INHALATION: Remove to fresh air. Administer artificial respiration

or oxygen if breathing is difficult.

SKIN: Wash affected area with soap and water. Remove and launder contaminated clothing. Consult a physician if irritation

persists.

EYES: Flush immeditately with large amounts of water for at least 15

minutes. Take to a physician for medical treatment.

INGESTION: Call a physicain immediately.

ACUTE: Skin and eye contact: Primary irritation

CHRONIC: Xylene contained in this material has been found to cause the

following effects in laboratory animals: amenia, liver abnormalities, liver

and eye damage.

SECTION VI - REACTIVITY DATA

STABILITY: NORMALLY STABLE

CONDITIONS TO AVOID:

None known

INCOMPATABILITY (Materials to avoid)

Strong acids and bases

HAZARDOUS DECOMPOSITION PRODUCTS:

BY FIRE: Normal products of incomplete combustion.

HAZARDOUS POLYMERIZATION: WILL NOT OCCUR

CONDITIONS TO AVOID:

None known

SECTION VII - SPILL OR LEAK PROCEDURES

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED:

Provide adequate ventilation. Remove all possible ignition sources.

Absorb and dispose using non-sparking tools.

Eliminate all sources of ignition. Evacuate unprotected personnel. Water spray may be used. To contain run-off, cover with an absorbent material and place in containers for proper disposal. Flush area with wate remove residue.

WASTE DISPOSAL MEHTOD:

Dispose in accordance with local applicable regulations.

Dispose of using an approved incineration process or in accordance with local, state, and federal regulations regarding health and pollution.

SECTION VIII - SPECIAL PROTECTION INFORMATION

RESPIRATORY PROTECTION:

In outdoor or open areas use Bureau of Mines approved mechanical tilter respirator to remove soild airborne particulated of overspray. Indoors, where bentilation is inadequate. Use Bureau of Mines approved chemical-mechanical respirators designed to remove both particulater and vapor.

VENTILATION:

PROTECTIVE GLOVES:

Recommended if skin contact is likely.

EYE PROTECTION:

Chemical splash goggles recommended if potential for splash or eye contact is likely.

OTHER PROTECTIVE EQUIPMENT:

Recommended as needed to avoid contact.

SECTION IX - SPECIAL PRECAUTIONS

PRECAUTIONS TO BE TAKEN IN HANDLING OR STORING:

Store in a cool dry place away from heat, sparks and open flame. Keep containers closed and upright to prevent leakage. Outside or detached storage is preferred. Inside storage should be in a standard flammable liquid storeroom or cabinet. Metal containers should be grounded when transferring material from one container to another.

Do not reuse product container for any purpose.

OTHER PRECAUTIONS:

PREPARED BY: TECHNICAL STAFF

REFERENCE DATE: 2/09/98

THE INFORMATION AND RECOMMENDATIONS CONTAINED HEREIN ARE BASED UPON DATA BELIEVED TO BE CORRECT. HOWEVER, NO GUARANTEE OR WARRANTY OF ANY KIND, EXPRESSED OR IMPLIED, IS MADE WITH RESPECT TO THE INFORMATION

ABOVE.

TO WHOM IT MAY CONCERN: EFFECTIVE JAN 1, 1989, WE ARE REQUIRED BY SARA TITLE III SECTION 313 OF THE RIGHT TO KNOW LEGISLATION, TO INFORM YOU OF THE PERCENTAGE OF ANY INGREDIENT IN A PRODUCT WHICH IS IN THE 313 LIST OR AS ANY LISTING AS A COMPONENT OF A MATERIAL WHICH IS IN A CATEGORY OF CHEMICAL LIST.

PRODUCT: 1202

GLYPTAL

49.9% XYLENE (CAS NUMBER 1330-20-7)

IF YOU WILL MULTIPLY YOUR TOTAL PURCHASES FROM US AS WELL AS FROM OTHER SUPPLIERS BY THE PERCENTAGE OF EACH INGREDIENT FOUND IN EACH PRODUCT AND IF THE TOTAL QUANTITY EXCEEDS THE REPORTABLE QUANTITY FOR THAT INGREDIENT YOU ARE REQUIRED TO FILE FORM R REPORTS.

INHALATION: REMOVE FROM FURTHER EXPOSURE. IF RESPIRATORY IRRITATION, DIZZIN NAUSEA, OR UNCONSCIOUSNESS OCCURS, SEEK IMMEDIATE MEDICAL ASSISTANCE AND CAPHYSICIAN. IF BREATHING HAS STOPPED, USE MOUTH TO MOUTH RESUSCITATION.

WW UNTITULIN

INGESTION: NOT EXPECTED TO BE A PROBLEM WHEN INGESTED. IF UNCOMFORTABLE SEE MEDICAL ASSISTANCE.

_______

#### 5. FIRE-FIGHTING MEASURES

EXTINGUISHING MEDIA: CARBON DIOXIDE, FOAM, DRY CHEMICAL AND WATER FOG.

SPECIAL FIRE FIGHTING PROCEDURES: WATER OR FOAM MAY CAUSE FROTHING. USE WAT TO KEEP FIRE EXPOSED CONTAINERS COOL. WATER SPRAY MAY BE USED TO FLUSH SPIL AWAY FROM EXPOSURE. PREVENT RUNOFF FROM FIRE CONTROL OR DILUTION FROM ENTER STREAMS, SEWERS, OR DRINKING WATER SUPPLY.

SPECIAL PROTECTIVE EQUIPMENT: FOR FIRES IN ENCLOSED AREAS, FIRE FIGHTERS MU USE SELF-CONTAINED BREATHING APPARATUS.

UNUSUAL FIRE AND EXPLOSION HAZARDS: NONE.

FLASH POINT C(F): GT 204 (399) (ASTM D-92).

.FLAMMABLE LIMITS - LEL: NA UEL: NA.

NPPA HAZARD ID: HEALTH: 1 FLAMMABILITY: 1 REACTIVITY: 0

HAZARDOUS DECOMPOSITION PRODUCTS: PHOSPHORUS OXIDES. SULFUR OXIDES. CARBON MONOXIDE.

## 6. ACCIDENTAL RELEASE MEASURES

NOTIFICATION PROCEDURES: REPORT SPILLS AS REQUIRED TO APPROPRIATE AUTHORITI U.S. COAST GUARD REGULATIONS REQUIRE IMMEDIATE REPORTING OF SPILLS THAT COU REACH ANY WATERWAY INCLUDING INTERMITTENT DRY CREEKS. REPORT SPILL TO COAST GUARD TOLL FREE NUMBER (800) 424-8802. IN CASE OF ACCIDENT OR ROAD SPILL NO CHEMTREC (800) 424-9300.

PROCEDURES IF MATERIAL IS RELEASED OR SPILLED: ADSORB ON FIRE RETARDANT TRE SAWDUST, DIATOMACEOUS EARTH, ETC. SHOVEL UP AND DISPOSE OF AT AN APPROPRIAT WASTE DISPOSAL FACILITY IN ACCORDANCE WITH CURRENT APPLICABLE LAWS AND REGULATIONS, AND PRODUCT CHARACTERISTICS AT TIME OF DISPOSAL.

ENVIRONMENTAL PRECAUTIONS: PREVENT SPILLS FROM ENTERING STORM SEWERS OR DRA AND CONTACT WITH SOIL.

PERSONAL PRECAUTIONS: SEE SECTION 8.

MOR 000865

#### Page 2

#### 7. HANDLING AND STORAGE

HANDLING: NO SPECIAL PRECAUTIONS ARE NECESSARY BEYOND NORMAL GOOD HYGIENE PRACTICES. SEE SECTION 8 FOR ADDITIONAL PERSONAL PROTECTION ADVICE WHEN HANDLING THIS PRODUCT.

STORAGE: DO NOT STORE IN OPEN OR UNLABELLED CONTAINERS. STORE AWAY FROM STR OXIDIZING AGENTS OR COMBUSTIBLE MATERIAL.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

VENTILATION: USE IN WELL VENTILATED AREA.

RESPIRATORY PROTECTION: NO SPECIAL REQUIREMENTS UNDER ORDINARY CONDITIONS OUSE AND WITH ADEQUATE VENTILATION.

EYE PROTECTION: NORMAL INDUSTRIAL EYE PROTECTION PRACTICES SHOULD BE EMPLOY

SKIN PROTECTION: NO SPECIAL EQUIPMENT REQUIRED. HOWEVER, GOOD PERSONAL HYGI PRACTICES SHOULD ALWAYS BE FOLLOWED.

EXPOSURE LIMITS: THIS PRODUCT DOES NOT CONTAIN ANY COMPONENTS WHICH HAVE RECOGNIZED EXPOSURE LIMITS. HOWEVER, AN EXPOSURE LIMIT OF 5.00 MG/M3 IS SUGGESTED FOR OIL MIST.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

TYPICAL PHYSICAL PROPERTIES ARE GIVEN BELOW. CONSULT PRODUCT DATA SHEET FOR SPECIFIC DETAILS.

APPEARANCE: LIQUID

COLOR: BROWN ODOR: MILD

#### Page 3

#### 10. STABILITY AND REACTIVITY

STABILITY (THERMAL, LIGHT, ETC.): STABLE.

CONDITIONS TO AVOID: EXTREME HEAT.

INCOMPATIBILITY (MATERIALS TO AVOID): STRONG OXIDIZERS.

HAZARDOUS DECOMPOSITION PRODUCTS: PHOSPHORUS OXIDES. SULFUR OXIDES. CARBON MONOXIDE.

HAZARDOUS POLYMERIZATION: WILL NOT OCCUR.

#### 11. TOXICOLOGICAL DATA

ACTION MONTGOLOGY

ACUTE TOXICOLOGY:

ORAL TOXICITY (RATS): PRACTICALLY NON-TOXIC (LD50: GREATER THAN 2000 MG/KG)
---BASED ON TESTING OF SIMILAR PRODUCTS AND/OR THE COMPONENTS.

DERMAL TOXICITY (RABBITS): PRACTICALLY NON-TOXIC (LD50: GREATER THAN 2000 MG/KG). ---BASED ON TESTING OF SIMILAR PRODUCTS AND/OR THE COMPONENTS.

INHALATION TOXICITY (RATS): NOT ESTABLISHED

EYE IRRITATION (RABBITS): PRACTICALLY NON-IRRITATING. (DRAIZE SCORE: 0 OR GREATER BUT 6 OR LESS). --- BASED ON TESTING OF SIMILAR PRODUCTS AND/OR THE COMPONENTS.

SKIN IRRITATION (RABBITS): PRACTICALLY NON-IRRITATING. (PRIMARY IRRITATION INDEX: GREATER THAN 0.5 BUT LESS THAN 3). ---BASED ON TESTING OF SIMILAR PRODUCTS AND/OR THE COMPONENTS.

SUBCHRONIC TOXICOLOGY (SUMMARY):

SEVERBLY SOLVENT REFINED AND SEVERELY HYDROTREATED MINERAL BASE OILS HAVE B TESTED AT MOBIL ENVIRONMENTAL AND HEALTH SCIENCES LABORATORY BY DERMAL APPLICATION TO RATS 5 DAYS/WEEK FOR 90 DAYS AT DOSES SIGNIFICANTLY HIGHER T THOSE EXPECTED DURING NORMAL INDUSTRIAL EXPOSURE. EXTENSIVE EVALUATIONS INCLUDING MICROSCOPIC EXAMINATION OF INTERNAL ORGANS AND CLINICAL CHEMISTRY BODY FLUIDS, SHOWED NO ADVERSE EFFECTS.

CHRONIC TOXICOLOGY (SUMMARY):

THE BASE OILS IN THIS PRODUCT ARE SEVERELY SOLVENT REFINED AND/OR SEVERELY HYDROTREATED. CHRONIC MOUSE SKIN PAINTING STUDIES OF SEVERELY TREATED OILS SHOWED NO EVIDENCE OF CARCINOGENIC EFFECTS.

~~~~~

ENVIRONMENTAL FATE AND EFFECTS: NOT ESTABLISHED.

MOR 000867

#### 13. DISPOSAL CONSIDERATIONS

WASTE DISPOSAL: PRODUCT IS SUITABLE FOR BURNING IN AN ENCLOSED, CONTROLLED BURNER FOR FUEL VALUE OR DISPOSAL BY SUPERVISED INCINERATION. SUCH BURNING BE LIMITED PURSUANT TO THE RESOURCE CONSERVATION AND RECOVERY ACT. IN ADDIT

THE PRODUCT IS SUITABLE FOR PROCESSING BY AN APPROVED RECYCLING FACILITY OR BE DISPOSED OF AT AN APPROPRIATE GOVERNMENT WASTE DISPOSAL FACILITY. USE OF THESE METHODS IS SUBJECT TO USER COMPLIANCE WITH APPLICABLE LAWS AND REGULATIONS AND CONSIDERATION OF PRODUCT CHARACTERISTICS AT TIME OF DISPOSA

---

#### Page 4

RCRA INFORMATION: THE UNUSED PRODUCT, IN OUR OPINION, IS NOT SPECIFICALLY LISTED BY THE EPA AS A HAZARDOUS WASTE (40 CFR, PART 261D), NOR IS IT FORMULATED TO CONTAIN MATERIALS WHICH ARE LISTED HAZARDOUS WASTES. IT DOES EXHIBIT THE HAZARDOUS CHARACTERISTICS OF IGNITABILITY, CORROSIVITY, OR REACTIVITY AND IS NOT FORMULATED WITH CONTAMINANTS AS DETERMINED BY THE TOXICITY CHARACTERISTIC LEACHING PROCEDURE (TCLP). HOWEVER, USED PRODUCT MA REGULATED.

#### 14. TRANSPORT INFORMATION

-----

USA DOT: NOT REGULATED BY USA DOT.

IMO: NOT REGULATED BY IMO.

IATA: NOT REGULATED BY IATA.

15. REGULATORY INFORMATION

GOVERNMENTAL INVENTORY STATUS: ALL COMPONENTS COMPLY WITH TSCA AND DSL.

EU LABELING: EU LABELING NOT REQUIRED.

U.S. SUPERFUND AMENDMENTS AND REAUTHORIZATION ACT (SARA) TITLE III: THIS PRODUCT CONTAINS NO "EXTREMELY HAZARDOUS SUBSTANCES".

SARA (311/312) REPORTABLE HAZARD CATEGORIES: NONE.

THIS PRODUCT CONTAINS NO CHEMICALS REPORTABLE UNDER SARA (313) TOXIC RELEAS PROGRAM.

THE FOLLOWING PRODUCT INGREDIENTS ARE CITED ON THE LISTS BELOW:

Heraeus Inc. Cermalloy Division 24 Union Hill Industrial Park West Conshohocken, PA 19428

Office Telephone: (215)825-6050 Emergency Telephone: (800)255-3924

Date Prepared: 1/92 Date Revised: 4/26/95

Section 1: IDENTIFICATION

Product Name: PD860002SP, PD860002SA and PD860002S surface

mount non-conductive adhesive. Also Pd 911 .

CAS Registry Number: not applicable since product is a

mixture.

## Section 2: COMPONENT HAZARD DATA (3)

Hazardous Components CAS No. Exposure Limits 25068-38-6 not established epoxy resin 7631-86-9 10mg/M3 ACGIH (1) silica, amorphous

- TLV is very unlikely to be reached since material is in the paste form; hence no airborne particles. Provide adequate ventilation in the firing room to remove any evolved fumes.
- Supplementary data on lead attached if applicable.
- (3) Per 29 CFR 1910 the mixture has not been tested as a whole. All hazardous components which comprise >=1% of the mixture (0.1% if carcinogenic) are listed. Percentages of individual components are not listed as this information is considered a Trade Secret; it is not required that it be disclosed.

#### Section 3: PHYSICAL DATA

Appearance and Odor: Physical State - thick paste

Color - red Odor -mild

Initial Boiling Point of Organic Mixture:

Specific Gravity: 1

Vapor Pressure (Estimated for mixture, 20°C): N/AP

Vapor Density (Air = 1): N/AP

Evaporation Rate (Estimated for mixture, n-butyl acetate = 1,  $20^{\circ}C): N/AP$ 

Solubility in water: insoluble

page (1)

Section 4: FIRE, REACTIVITY, AND EXPLOSION HAZARD DATA Flash Point (Most flammable solvents): (>200 OF) Autoignition Temperature (Most Flammable Solvents): N/AV Flammable Limits in Air (Most Flammable Solvent): N/AV Extinguishing Media: Water Fog, Alcohol Foam, Dry Chemical Special Fire Fighting Procedures: Cool exposed containers with water. When fighting use NIOSH approved selfcontained breathing apparatus with full face piece operated in positive pressure mode, as evolved fumes are toxic and cause respiratory irritation.

Unusual Fire and Explosion Hazards: Store below flash point

away from open flame or sparks.

The material is stable under normal use Stability: conditions. Avoid temperatures > 40oC and moisture.

Incompatibility: Will not react with water. Avoid mixing with strong oxidizing agents, acids, and caustics.

Hazardous Decomposition Products: Combustion produces carbon monoxide, carbon dioxide, and various hydrocarbons. Hazardous Polymerization: Will not occur in masses in

syringe or jar.

Section 5: Health Hazards of Components \* OSHA Permissible Exposure Limit: Not Established for Mixture

Components listed as carcinogenic by NTP, IARC, or OSHA: None

Primary Routes of Entry: Organic Components - Inhalation, Skin Absorption Inorganic Components - Ingestion

| ROUTE AC<br>EXPOSURE | UTE & CHRONIC<br>SYSTEMS | MEDICAL<br>CONDITIONS<br>AGGRAVATED | EMERGENCY<br>FIRST<br>AID                                                                                        |
|----------------------|--------------------------|-------------------------------------|------------------------------------------------------------------------------------------------------------------|
| Inhalation           | Irritant                 | Unknown                             | Remove to fresh air. If breathing difficult give oxygen. If breathing has stopped, start artificial respiration. |
| Skin Contact         | Irritant                 | Unknown                             | Remove contaminated clothing and launder before reuse. Wash thoroughly with soap and water.                      |
| Eye Contact          | Moderate                 | Unknown                             | Flush with running water for 15 mins. lifting upper and lower lids.                                              |

page (2)

Ingestion Irritation of Unknown Drink large the GI system quantities of water

- \* If necessary, copies of toxicology studies provided to HICD by the manufacturers of the above hazardous components can be supplied. Synergistic or additive effects of the above chemicals are unknown, as are the effects of exposure to these chemicals in addition to others present in the workplace.
- \*\* In all cases keep individuals warm and quiet and get medical attention.

## Section 6: PERSONAL PROTECTION AND CONTROLS

Personal Protection: Avoid prolonged skin contact.
Respiratory: Not required if local exhaust is satisfactory.
Ten (10) air changes per hour are recommended.
If overexposure occurs, use NIOSH-OSHA approved air supply respirator suitable for organic vapors. Administrative or engineering controls should be implemented to reduce exposure.

Eye: Chemical splash goggles or OSHA approved glasses. Skin: Solvent resistant gloves

Engineering Controls: Recommended ventilation, provide sufficient mechanical (general or local exhaust) ventilation to maintain concentrations below TLV -10 air changes per hour.

Hygienic Practices: Prevent eye contact with glasses or goggles, minimize skin contact, use with adequate ventilation to minimize inhalation of vapor. Do not smoke or eat in work areas. Wash hands thoroughly prior to smoking or eating.

## Section 7: STORAGE, SPILL, AND DISPOSAL

Special storage conditions: Keep containers closed and sealed when not in use. Steps to be taken in case material is released or spilled:

Clean spill with disposable paper towels (wear rubber gloves) and wash area with soap and water.

Waste Disposal Method: Dispose in accordance with all local, state and federal regulations.

EPA Waste Class:

Section 8: TRANSPORTATION

DOT ID No.

Section 9: REFERENCES

This MSDS is compilation of information supplied in the MSDS's obtained from the manufacturers of the chemicals present in this product. Also, 29 CFR.1210 was consulted for TLV information.

\*\*\* This information is for guidance, and is furnished without warranty of any kind. It is a compilation of data believed to be reliable, but Heraeus Incorporated, Cermalloy Division assumes no obligation or liability for its completeness or accuracy. page (3)

## MATERIAL SAFETY DATA SHEET

Page: 2-F

#### REACTIVITY DATA

STABLE.

HAZARDOUS POLYMERIZATION WON'T OCCUR.

Conditions to avoid:

DIRECT HEAT, OPEN FLAMES, STORAGE IN ALUMINUM.

Incompatability:

ANHYDRIDES, HALOGENS, PHOSPHORUS, TRICHLORIDES, MONOMERS,

ALDEHYDES.

Hazardous decomposition products:

CARBON DIOXIDE/CARBON MONOXIDE, UNIDENTIFIED ORGANICS DURING COMBUSTION.

## ACUTE & CHRONIC EFFECTS OF OVEREXPOSURE

inhalation:

VAPORS MAY CAUSE HEADACHES, DIZZINESS.

Skin contact:

PROLONGED CONTACT MAY CAUSE IRRITATION AND DERMATITIS.

Skin absorption:

PROLONGED CONTACT MAY CAUSE IRRITATION AND DERMATITIS.

Eye contact:

VAPORS MAY BE IRRITATING, LIQUID MAY DAMAGE EYE TISSUE.

Ingestion :

MAY CAUSE PERSISTENT NAUSEA, VOMITING, ABDOMINAL PAIN.

## EMERGENCY & FIRST AID PROCEDURES

Eyes:

IMMEDIATELY FLUSH WITH WATER FOR AT LEAST 15 MINUTES.

GET PROMPT MEDICAL ATTENTION.

Skin:

WASH AFFECTED AREAS WITH SOAP & WATER.

REMOVE CONTAMINATED CLOTHING.

IF IRRITATION PERSISTS GET MEDICAL ATTENTION.

Inhalation:

REMOVE FROM EXPOSURE.

IF BREATHING IS STOPPED, ADMINISTER ARTIFICIAL RESPIRATION

GET PROMPT MEDICAL ATTENTION.

Ingestion:

DO NOT INDUCE VOMITING.

GIVE LUKEWARM WATER.

GET EMERGENCY MEDICAL ATTENTION.

Decontamination procedures:

NO SPECIAL PROCEDURES KNOWN TO US.

## MPLOYEE PROTECTION INFORMATION

Ventilation requirements:

FACE VELOCITY > 2.1 CUBIC FEET/MINUTE IN CONFINED AREAS.

Recommended personal protection equipment

Respirators:

NIOSH/MSHA APPROVED ORGANIC VAPOR CARTRIDGE.

Eyes :

SPLASH GOGGLES OR FACE SHIELD.

Gloves:

CHEMICALLY RESISTANT GLOVES.

Special clothing & equipment:

EYE WASH & SAFETY SHOWER SHOULD BE AVAILABLE AT ALL TIMES.

LONG SLEEVE CLOTHING SHOULD BE WORN.

#### PRECAUTIONARY STATEMENT

As conditions and methods of use are beyond our control, we DO NOT assume any responsibility and expressly disclaim any liability for any use of the material. Information contained here in is believed to be true but all suggestions are made without any warranty.

GROUND ALL HANDLING EQUIPMENT; AVOID ALL POTENTIAL IGNITION SOURCES

## DISPOSAL, SPILL OR LEAK PROCEDURES

Aquatic toxicity classification:

NOT ESTABLISHED

Procedure for release or spill:

ELIMINATE SOURCES OF IGNITION. STOP DISCHARGE SOURCE.

USE ABSORBENTS OR PUMP INTO STORAGE CONTAINER.

Regulatory Information:

ALL COMPONENTS IN THIS PRODUCT ARE LISTED ON THE TSCA INVENTORY. IF SPILLED, NO REPORTING UNDER CERCLA IS REQUIRED. SARA TITLE III, SECTIONS 311/312 CLASSIFIES THIS PRODUCT UNDER IMMEDIATE HEALTH, DELAYED HEALTH, FIRE CATAGORIES. CARCINOGENICITY CLASSIFICATION: NOT LISTED UNDER IARC, ACGIH, OR NTP.

THIS MSDS IS BEING PROVIDED TO YOUR COMPANY FOR THE PURPOSE OF PROVIDING CURRENT HEALTH AND SAFETY INFORMATION TO YOUR MANAGEMENT AND FOR YOUR EMPLOYEES WHO WORK WITH THIS MATERIAL.

PLEASE READ THE INFORMATION ON THESE SHEETS, AND THEN PROVIDE THIS INFORMATION TO THOSE PEOPLE AT YOUR COMPANY WHOSE RESPONSIBILITY IT IS TO COMPLY WITH FEDERAL AND STATE RIGHT TO KNOW REGULATIONS. ALSO MAKE THIS INFORMATION AVAILABLE TO ANY EMPLOYEE WHO REQUESTS IT.

Acrylic Polymer 29-35 N/B Prop.
t butyl acetate 45-55 N/B 540-88-5
hexyl acetates 15-25 N/B 88230-35-7

BOILING POINT: 2089

VAPOR PRESSURE: 34mm @ 25C

VAPOR DEMSITY: NE SPECIFIC GRAVITY: .92

PERCENT VOLATILE BY VOLUME (1): 60-80%

EVAPORATION RATE: 2.4

SOLUBILITY IN WATER: Hegligible - less than 0.1 percent.

APPRARANCE AND ODOR: Water clear, low viscosity liquid, fruity odor.

FLASH POINT (METHOD USED): (Tag Closed Cup): 62F

PLANMABLE LIMITS: LBL: NB UBL: NE

EXTINGUISHING MEDIA: Form, carbon dioxide and dry chemical.

SPECIAL FIRE FIGHTING PROCEDURES: Fight as a flammable liquid fire; wear self contained breathing apparatus. UNUSUAL FIRE AND EXPLOSION HAZARDS: Vapor is flammable and heavier than air and may travel to source

of ignition and flashback.

ROUTES OF ENTRY: SKIN: Yes. INTALATION: Yes. INGESTION: Yes.

RPPRCTS OF RIPOSURE:

Byes: Short term contact may result in slight eye irritation and conjunctivitis. Prolonged contact with liquid can result in corneal burns. High vapor concentrations > approx. 1000PPM are irritating to the eyes.

**EUNISPAL TYPE: 1831LSE** 

Skin: Prolonged and repeated liquid contact can cause defatting and drying of the skin, which may result in skin irritation and dermatitis. Dermal LD(50) (Rabbits):>2000mg/Kg.Skin absorption may add significantly to exposure. Inhalation: Causes central nervous system depression. Mild exposure causes

->

dizziness, weakness, headache, nausea, etc.. More severe exposures, greater than approx. 1000PPM, may cause respirator depression, convulsions and death. Cardiac arrhythmias, including fatal ventricular fibrillation, may occur. 1h1-rat LCLo: 4000PPM/4 brs. Olfactory detection level is 50 PPM. However, sense of smell is dulled by continuous exposure, so unsatisfactory as a means of detection. Ingestion: Moderately toxic, LD(50) (rats):5g/kg. LD(Lo) (Buman):50mg/kg. Causes burning sensation in mouth and stomach and is likely to produce symptoms similar to those described for inhalation. More serious hazard posed by vomiting after swelling resulting in aspiration(breathing) of vomitus into lungs-which may resulting chemical pheumonitis and pulmonary edema/hemorrhage, and may be fatal

CARCINOGRNICITY: This product is not listed by the Mational Toxicology Program the International Agency for Research on Cancer or the Occupational Safety and Health Administration.

EMERGENCY AND FIRST AID PROCEDURES: Eyes: Flush with water for 15 minutes while holding eyelids open. Get medical attention.

Skin: Plush with water while removing contaminated clothing and shoes, follow by washing with soap and water. Do not reuse clothing or shoes until properly cleaned. If irritation persists, get medical attention.

Inhalation: Remove victim to fresh air and provide oxygen if breathing is difficult. Give artificial respiration if not breathing. Get medical attention. Ingestion:

DO NOT INDUCE VONITING. If voniting occurs spontaneously, keep head below hips to prevent aspiration of liquid into lungs. Get medical attention

immediately.

NOTE TO PHISICIAN: If more than 2 ml/kg has been ingested, and vomiting has not occurred, emesis should be induced with supervision. Keep victim's head below hips to prevent aspiration. If symptoms such as loss of gag reflex, convulsions or unconsciousness occur before emesis, gastric

lavarge using a cuffed endotracheal tube should be considered.

ACTION LEVEL: 4g/L Hippuric Acid level in urine(sampled at end of workday).

STABILITY (choose one): ( ) UNSTABLE (I) STABLE.

COMDITIONS TO AVOID: Not Applicable

INCOMPATIBILITY (MATERIALS TO AVOID): Avoid contact with strong oxidizing agents.

HAZARDOUS DECOMPOSITION PRODUCTS: Carbon Monoxide, Carbon Dioxide.

HAZARDOUS POLYMERIZATION (choose one): () MAY OCCUR (I) WILL NOT OCCUR.

CONDITIONS TO AVOID: Not Applicable

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED: Absorb with inert material (sand, vermiculite, etc.) Large spills may be scooped up with non-sparking tools. Remove sources of ignition. Provide ventilation and/or respiratory protection.

WASTE DISPOSAL METHOD: Disposal of HumiSeal products requires strict compliance with local, state and federal regulations pertaining to disposing bazardous waste materials. Contact the appropriate environmental agencies. RESPIRATORY PROTECTION (SPECIFY TYPE): Respirator-organic wapor type if TLV is exceeded(NIOSH approved).

VENTILATION: LOCAL BIHAUST: Yes.

MECHANICAL (GREERAL): Explosion proof.

SPECIAL: Designed and maintained to provide volume and patterned to prevent vapor. OTHER: Concentration in excess of TLV or PBL.

PROTECTIVE GLOVES: Impervious to chemical and petroleum(BUNA-W, Solvex etc.).

EYE PROTECTION: Chemical type goggles must be worn.

OTHER PROTECTIVE EQUIPMENT: Prevent contact to workers as required.

PRECAUTIONS TO BE TAKEN IN HANDLING AND STORING: Keep away from heat, sparks and open flames. Store at ambient temperature. Ground to protect from static charge. Keep container closed. Use adequate ventilation.

THE MOREY CORP.

### System Description

HumiSeal 1B31LOC is a very low VOC - under 250 grams per liter\* - non ODC solvent based conformal coating that complies with all current air quality regulations. 1B31LOC is a fast air drying, single component, acrylic coating providing excellent moisture and environmental protection for printed circuit assembles. The final film demonstrates excellent flexibility, is easily repairable and retains all of the film properties of the standard 1B31. Qualification to MIL-I-46058C, Type AR. Fluoresces under UV light for ease of inspection.. (Federal EPA VOC exemption for the primary solvent).

**Properties of Liquid HumiSeal**

# RECEIVED

MAR 3 0 2000

### **APPLICATION**

->

THE MOREY CORP.

Cleanliness of the substrate is of extreme importance for the successful application of a conformal coating. Surfaces must be free of moisture, dirt, wax, grease and all other contaminants. Contamination under the coating will cause problems which may lead to assembly failures.

### HumiSeal coatings may be applied by brush, dip or spray.

### Dipping

Depending on the complexity, density and configuration of components on the assembly, it may be necessary to reduce the viscosity of HumiSeal 1B31LOC with HumiSeal Thinner 701 in order to obtain a uniform film. Once optimum viscosity is determined, a controlled rate of immersion and withdrawal (2 to 6" per minute) will further insure even deposition of the coating and ultimately a uniform film. During the application, evaporation of solvent causes an increase in viscosity which should be adjusted by adding small amounts of Thinner 503. Viscosity in the dip tank should be regularly checked by the use of a simple measuring device such as a Zahn or Ford viscosity cup.

### Spraying

HumiSeal Type 1831LOC can be sprayed using conventional spraying equipment. As a rule, the addition of Thinner 701 is necessary to assure a uniform spray pattern resulting in pinhole free film. The amount of thinner and spray pressure will depend on the specific type of spray equipment used. The spraying should be done under an exhaust hood so that the vapor and mist are carried away from the operator.

### **Brushing**

HumiSeal Type 1831LOC may be brushed with a small addition of HumiSeal Thinner 701. Uniformity of the film depends on component density and operator's technique.

### Storage

HumiSeal Type 1B31LOC should be stored at room temperature, away from excessive heat, in tightly closed containers. HumiSeal products may be stored at temperatures of 0-100°F. Avoid direct sunlight. Prior to use, allow the product to equilibrate for 24 hours at 65-90°F.

### Caution

Liquid HumiSeal coatings are flammable. Do not use in presence of open flame or sparks. Avoid inhalation of vapors or spray. Use only in well-ventilated areas. Avoid contact with skin and eyes. If contact occurs, wash with soap and water. If swallowed, call physician immediately.

All technical data in this butletin is based on test results and is believed to be correct. However, since the end use of HumiSeat materials (and the manner of storing and handling them) is beyond our control, we make no warranty-expressed or implied as to the fitness of use, results to be obtained from or effects of use with respect to these materials. Their use shall be solely by the judgment of and at the risk of the user notwithstanding any statement in this butletin. © Copyright 1992 CHASE CORPORATION.

THE MOREY CORP.

FLASH POINT (METHOD USED): 71 F (Tag Closed Cup).

FLAMMABLE LIMITS: LEL: 1.5 UEL: 10.0.

EXTINGUISHING MEDIA: Foam, Carbon dioxide and dry chemical .

SPECIAL FIRE FIGHTING PROCEDURES: Fight as a flammable liquid fire; wear self contained breathing apparatus.

UNUSUAL FIRE AND EXPLOSION HAZARDS: Vapor is flammable and heavier than air and may travel to source of ignition and flashback.

ROUTES OF ENTRY: SKIN: No INHALATION: Yes INGESTION: No

EFFECTS OF OVEREXPOSURE: Skin irritation, redness, blurred vision, edema, dizziness, fatigue, nausea, vomiting, unconsciousness. Moderately irritating to the eyes. Frequent or prolonged contact may irritate the skin and cause dermatitis. High vapor concentrations are irritating to the respiratory tract. Can cause nausea, headache and dizziness, and anesthetic effects. If ingested, the material has a low order of toxicity, however, small amounts of the liquid aspirated into the lungs, or from vomiting, can cause bronchopneumonia or pulmonary edema which can be fatal-

DO NOT INDUCE VOMITING. CARCINOGENICITY: This product is not listed by the National Toxicology Program the International Agency for Research on Cancer or the Occupational Safety and Health Administration.

EMERGENCY AND FIRST AID PROCEDURES: Consult a physician immediately; wash skin with soap and water. Flush eyes with water for at least 15 minutes and see a physician.

INGESTION: DO NOT INDUCE VOMITING. Keep at rest and GET MEDICAL HELP IMMEDIATELY. Keep head lower than hips to prevent aspiration into lungs. Provide oxygen if breathing is difficult. NOTE TO THE PHYSICIAN: If symptoms such as loss of gag reflex, convulsions, or unconsciousness occur before emesis, gastric lavage using a cuffed endotracheal tube should be considered.

FLASH POINT (NETHOD USED): 30 F (Tag Closed Cup).

FLAMMABLE LIMITS: LEL:1.0 UEL: 7.0.

EXTINGUISHING MEDIA: Form,

Carbon dioxide and dry chemical.

SPECIAL FIRE FIGHTING PROCEDURES: Fight as a flammable liquid fire; wear self contained breathing apparatus. UNUSUAL FIRE AND EXPLOSION MAZARDS: Vapor is flammable and heavier than air and may travel to source of ignition and flashback.

**->** 

ROUTES OF ENTRY: \$KIN: Yes INHALATION: Yes INGESTION: Yes EFFECTS OF OVEREXPOSURE: Eyes: Liquid is minimally irritating to the eyes. High vapor concentration may also be irritating. SKIN: Contact with liquid is mildly irritating. Prolonged or repeated contact can result in defatting and drying of the skin, resulting in dermatitis.

INHALATION: Vepors may be irritating to the nose, throat and respiratory tract. High vapor concentrations may cause CNS depression.

INGESTION: Liquid is moderately toxic and can be harmful if swallowed.

May produce CNS depression, may result in vomiting. Aspiration of vomitus must be avoided as even small quantities may result in Aspiration Pneumonitis. Early to moderate CNS depression may be evidenced by giddiness, headache, dizziness and nauses.

EXTREME CASES: Unconsciousness and death may occur. Aspiration Pheumonitis may be evidenced by coughing, labored breathing and cymnosis(bluish skin), in severe cases death may occur. Preexisting eye skin and respiratory conditions may be aggravated by exposure to this product. Near fatal exposures may result in congestive effects to a wide variety of organs. Lab animals exposed by various routes to high doses showed evidence in the liver, kidneys, lungs, spieen, heart and adrenal. Rats exposed to vapor during pregnancy showed embryo/fetotoxic effects. Nice exposed orally to doses producing maternal toxicity also showed embryo/fetotoxic effects.

CARCINCOENICITY: This product is not listed by the National Toxicalogy Program the International Agency for Research on Cancer or the Occupational Safety and Health Administration.

EMERGENCY AND FIRST AID PROCEDURES: EYE CONTACT: Flush with water for 15 minutes while holding syelids open.Get medical attention.

SKIN CONTACT: Wash with soap and water, remove contaminated clothing, do not use until cleaned. If persistent irritation occurs, get medical attention.

INHALATION: Remove victim to fresh air and provide oxygen if breathing is difficult. Give artificial respiration if not breathing.

GET MEDICAL ATTENTION. INGESTION: DO NOT INDUCE VOMITING. If vomiting occurs spontaneously, keep head below hips to prevent aspiration of liquid into tungs.

GET HEDICAL ATTENTION: NOTE TO THE PHYSICIAN: If more than 2mt/kg has been ingested and vomiting has not occurred, emesis should be induced with supervision. Keep victim's head below hips to prevent aspiration. If symptoms such as loss of gag reflex, convulsions, or unconsciousness occur before emesis, gastric lavage using a cuffed endotracheal tube should be considered.

STABILITY (choose one): ( )UNSTABLE (X)STABLE.

CONDITIONS TO AVOID: Not Applicable.

INCOMPATIBILITY (MATERIALS TO AVOID): Avoid contact with strong exidizing agents.

MAZARDOUS DECOMPOSITION PRODUCTS: Carbon monoxide, Carbon dioxide.

HAZARDOUS POLYMERIZATION (choose one): ( )MAY OCCUR (X)WILL NOT OCCUR.

CONDITIONS TO AVOID: Not Applicable.

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED: Absorb with inert material (sand, vermiculite, etc.). Large spills may be accoped up with non-sparking tools. Remove sources of ignition. Provide ventilation and/or respiratory protection.

WASTE DISPOSAL METHOD: Disposal of Humiseal products requires strict compliance with local, state and federal regulations perteining to disposing hazardous waste materials. Vapor is flammable and heavier than air and may travel to source of ignition and flashback.

ROUTES OF ENTRY: SKIN: Yes. INHALATION: Yes. INGESTION: Yes.

### EFFECTS OF EXPOSURE:

term contact may result in slight eye irritation and Short conjunctivitis. Prolonged contact with liquid can result in corneal burns. High vapor concentrations > approx. 1000PPM are irritating to the eyes. Skin: Prolonged and repeated liquid contact can cause defatting and drying of the skin, which may result in skin irritation and dermatitis. Dermal LD(50) (Rabbits):>2000mg/Kg.Skin absorption may add significantly exposure.

Inhalation: Causes central nervous system depression. Mild exposure causes dizziness, weakness, headache, nausea, etc.. More severe exposures, greater than approx. 1000PPM, may cause respirator depression, convulsions and death. Cardiac arrhythmias, including fatal ventricular fibrillation, may occur.1h1-rat LCLo: 4000PPM/4 hrs. Olfactory detection level is 50 PPM. However, sense of smell is dulled by continuous exposure, so unsatisfactory as a means of detection. Ingestion: Moderately toxic, LD(50)(rats):5g/kg. LD(Lo) (Human):50mg/kg. Causes burning sensation in mouth and stomach and is likely to produce symptoms similar to those described for inhalation. More after serious hazard posed by vomiting swelling resulting aspiration (breathing) of vomitus into lungs-which may resulting chemical pneumonitis and pulmonary edema/hemorrhage, and may be fatal

CARCINOGENICITY: This product is not listed by the National Toxicology Program the International Agency for Research on Cancer or the Occupational Safety and Health Administration.

EMERGENCY AND FIRST AID PROCEDURES: Eyes: Flush with water for 15 minutes while holding eyelids open. Get medical attention.

Skin: Flush with water while removing contaminated clothing and shoes, follow by washing with soap and water. Do not reuse clothing or shoes until properly cleaned. If irritation persists, get medical attention.

Inhalation: Remove victim to fresh air and provide oxygen if breathing is difficult. Give artificial respiration if not breathing.Get attention.Ingestion:

DO NOT INDUCE VOMITING. If vomiting occurs spontaneously, keep head below hips to prevent aspiration of liquid into lungs. Get medical attention immediately.

### ENGINEERING ADHESIVES

### **BULLETIN HM7804**

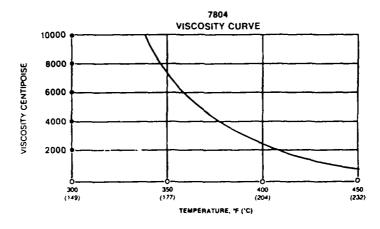

### **HYSOL 7804**

Polyamide Hot Melt Adhesive

### DESCRIPTION

Hysol 7804 is a tough, elastomeric, high performance polyamide hot melt with excellent impact resistance at low temperatures. It is recommended for demanding applications where substrates may be exposed to temperature extremes. 7804 bonds to many difficult substrates including: metals, plastics, wood, leather, fabric, non-woven fabric, films, and foils.

### **APPLICATION**

Hysol offers a complete line of reliable, portable, hand held applicators specifically designed to accurately dispense all shaped hot melt formulations. There are many excellent bulk hot melt applicators available. Your local Hysol salesman will be happy to help you with your selection.

### AVAILABILITY

Available forms include pellets in poly-lined 40 lb. cartons and shaped forms for hand held applicators.

4/93 - 500

<sup>\*</sup>Tests run @ 77°F (25°C)

DESCRIPTION: 7804 -10"

REVISION 05/03/96

\* N.A. = NOT APPLICABLE

N.E. = NOT ESTABLISHED

SECTION I - NOMENCLATURE

CHEMICAL NAME AND SYNONYMS Adhesive

TRADE NAME AND SYNONYMS

7804

CHEMICAL FAMILY Thermoplastic polyamide resin

Diacids polymerized with diamines

SECTION II - HAZARDOUS INGREDIENTS & SECTION 313 SUPPLIER NOTIFICATION

If a hazardous ingredient is identified as being a toxic chemical via hazard code "A", that chemical is subject to the reporting requirements of Section 313 of the Emergency Planning and Community Right-To-Know Act of 1986 and of 40CFR372.

HAZARD CODES(HAZD):
 C=Carcinogen (OSHA, NTP, IARC)
 H=Hazardous(OSHA)
 P=California Prop 65(carcinogen)
 A=Superfund Amendments and Reauthorization Act(SARA)

PEL MEAS. CAS NBR HAZD HAZARDOUS MATERIAL % by Wt. TLV MEAS.

Not Applicable

SECTION III - PHYSICAL DATA

BOILING PT (DEG. F) SPECIFIC GRAVITY 0.99 N.A.

VAPOR PRESSURE (MM HC) PCT VOLATILE BY VOL N.A. N.A.

VAPOR DENSITY (AIR=1) N.A. EVAPORATION RATE N.A.

SOLUBILITY IN WATER Nil. MELT POINT 28C F

APPEARANCE AND ODOR-Amber/No noticeable odor

SECTION IV - FIRE AND EXPLOSION HAZARD DATA

FLASH POINT (DEG. F) METHOD USED N.A. Above 450F

UPPER EXPLO. LEVEL UNKNOWN LOWER EXPLO. LEVEL UNKNOWN

EXTINGUISHING MEDIA-Water, CO2, foam, dry chemical

PAGE 1

### SECTION IV - FIRE AND EXPLOSION HAZARD DATA

JM7804 CONTINUED...

SPECIAL FIRE FIGHTING PROCEDURES-

UNUSUAL FIRE AND EXPLOSION HAZARDS-None

### SECTION V - HEALTH HAZARD DATA

THRESHOLD LIMIT VALUE-Not Applicable

EFFECTS OF OVEREXPOSURE-Unknown

EMERGENCY AND FIRST AID PROCEDURES-Skin: Wash with soap and water Eyes: Flush with water

WARNING!

Molten hot melt adhesive can cause severe burns upon contact with skin.

### SECTION VI - REACTIVITY DATA

STABILITY

STABLE

CONDITIONS TO AVOID-

INCOMPATIBILITY (MATERIALS TO AVOID)-Not Applicable

HAZARDOUS DECOMPOSITION PRODUCTS-Carbon monoxide(from partial combustion as for most organic materials)

HAZARDOUS POLYMERIZATION-Will not occur

CONDITIONS TO AVOID-

### SECTION VII - SPILL OR LEAK PROCEDURES

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED-Sweep up to avoid any slipping hazard

WASTE DISPOSAL METHOD-Dispose of according to all local, state and federal laws.

### SECTION VIII - SPECIAL PROTECTION INFORMATION

RESPIRATORY PROTECTION (SPECIFY TYPE) - None when using adequate ventilation

YENTILATION-Recommended when heating

PROTECTIVE GLOVES-Heat protective gloves

EYE PROTECTION-Goggles

OTHER PROTECTIVE EQUIPMENT-Not required

### SECTION IX - SPECIAL PRECAUTIONS

PRECAUTIONS TO BE TAKEN IN STORAGE AND HANDLING-None known

OTHER PRECAUTIONS-

WARNING!

PAGE 2

Molten hot melt adhesive can cause severe burns upon contact with skin.

PRODUCT NAME: ISOPROPANOL, ANHYDROUS VAPOR DENSITY (AIR = 1): 2.07 **EVAPORATION RATE (Butyl Acetate = 1):** 2.88 SOLUBILITY IN WATER by wt: Complete at 20 C APPEARANCE: Transparent colorless ODOR: Characteristic PHYSICAL STATE: Liquid PERCENT VOLATILES (by weight): 100 III. INGREDIENTS <u>%</u> MATERIAL CAS# **EXPOSURE LIMIT** ~100 isopropanol 67-63-0 See Section V IV. FIRE AND EXPLOSION HAZARD DATA FLASH POINT: 53 F (12 C) Tag Closed Cup ASTM D 56 (17 C) Tag Open Cup ASTM D 1310 i FLAMMABLE LIMITS IN AIR LOWER: **UPPER:** 12.7 @ 200 F % by volume: **EXTINGUISHING MEDIA:** Apply alcohol-type or all-purpose-type foam by manufacturer's recommended techniques for large fires. Use carbon dioxide or dry chemical media for small fires. SPECIAL FIRE FIGHTING PROCEDURES: Use water spray to cool fire-exposed containers and structures.

Use water spray to disperse vapors; re-ignition is possible. Use self-contained breathing apparatus and protective clothing.

MOR 000903

### UNUSUAL FIRE AND **EXPLOSION HAZARDS:**

Vapors form from this product and may travel or be moved by air currents and ignited by pilot lights, other flames, smoking, sparks, heaters, electrical equipment, static discharges or other ignition sources at locations distant from product handling point.

Vapors from this material may settle in low or confined areas or travel a long

distance to an ignition source and flash back explosively.

This material may produce a floating fire hazard.

See "Other Precautions" in Section IX.

### V. HEALTH HAZARD DATA

**EXPOSURE LIMIT(S):** 

Isopropanol: 400 ppm TWA, OSHA & ACGIH 500 ppm STEL, OSHA & ACGIH

### EFFECTS OF ACUTE OVEREXPOSURE:

SWALLOWING:

Slightly toxic. May cause abdominal discomfort, nausea, vomiting and diarrhea.

Loss of consciousness may occur.

Drowsiness may occur.

SKIN ABSORPTION:

Exposure to small quantities is not expected to cause adverse health effects. Widespread or prolonged exposure may result in the absorption of harmful amounts of material, particularly in infants, leading to signs and symptoms

as described for swallowing.

INHALATION:

Vapor causes irritation of the respiratory tract, with coughing and chest

discomfort.

High concentrations of vapor may cause headache and drowsiness.

SKIN CONTACT:

May cause minor irritation with itching and possible slight local redness. Prolonged or repeated contact may cause defatting and drying of the skin.

**EYE CONTACT:** 

Causes irritation, experienced as stinging and discomfort or pain.

Corneal injury may occur.

### **EFFECTS OF REPEATED OVEREXPOSURE:**

No adverse effects anticipated from available information.

OTHER HEALTH HAZARDS:

None currently known.

### MEDICAL CONDITIONS AGGRAVATED BY OVEREXPOSURE:

Skin contact may aggravate an existing dermetitis.

### ADDITIONAL TOXICITY INFORMATION:

The following is a summary of TSCA Section 4 Test Rule results: Large doses (>800 mg/kg/day) of isopropanol given orally to pregnant rats during the critical period of gestation produced slight decreases in fetal weight. These doses also caused evidence of toxicity in the mothers. Oral doses as high as 480 mg/kg/day caused evidence of toxicity in pregnant rabbits but did not produce evidence of embryo or fetal toxicity. Isopropanol did not produce an increased incidence of malformations (teratogenicity) in either species. An indication of reduced mating performance in 2nd generation male rats was noted at oral doses of 1000 mg/kg/day in a two generation reproductive study. Increased neonatal mortality was also seen at doses of 500 mg/kg/day and greater in this study.

No evidence of neurotoxic effects was observed in studies specifically designed to assess neurobehaviorial functions in neonatal rats after oral dosing of mothers during gestation and lactation. In an acute vapor inhalation study, high concentrations of isopropanol (1500 ppm and greater) caused a spectrum of transient effects indicative of narcosis. In repeated inhalation exposure studies, high vapor concentrations (5000 ppm) produced an increase in motor activity in rats first noted after 4 weeks of exposure. The effect was reversible completely resolving within 14 days after 13 weeks of exposure. No evidence of damage to nerve tissue was seen in this study. Repeated exposure to isopropanol vapor produced hyaline droplet nephropathy in male rats, an effect considered not to have relevance to human health hazard assessment. No other target organ effects were seen in either rats or mice after 3 months of exposure to vapor concentrations up to 5000 ppm. No evidence suggestive of carcinogenic activity was noted in chronic vapor inhalation studies with isopropanol in rate and mice.

### **EMERGENCY AND FIRST AID PROCEDURES:**

SWALLOWING:

If patient is fully conscious, give two glasses of water. Induce vomiting.

Obtain medical attention.

SKIN:

Remove contaminated clothing. Wash skin with soap and water. If irritation persists or if contact has been prolonged, obtain medical attention.

INHALATION:

Remove to fresh air. Give artificial respiration if not breathing. If breathing is difficult, oxygen may be given by qualified personnel. Obtain

medical attention.

EYES:

Immediately flush eyes with water and continue washing for several minutes.

Remove contact lenses, if worn. Obtain medical attention.

NOTES TO PHYSICIAN:

There is no specific antidote. Treatment of overexposure should be directed at the control of symptoms and the clinical condition of the patient.

### VI. REACTIVITY DATA

STABILITY: Stable

CONDITIONS TO AVOID:

None known.

INCOMPATIBILITY (materials to avoid):

Strong oxidizing agents.

Helogens.

Strong inorganic acids.

Aldehvdes.

Halogen compounds.

### **HAZARDOUS COMBUSTION OR DECOMPOSITION PRODUCTS:**

Burning can produce the following products: Carbon monoxide and/or carbon dioxide.

Carbon monoxide is highly toxic if inhaled; carbon dioxide in sufficient

concentrations can act as an asphyxiant.

HAZARDOUS POLYMERIZATION: Will Not Occur

**CONDITIONS TO AVOID:** 

None known.

### VII. SPILL OR LEAK PROCEDURES

### STEPS TO BE TAKEN IF MATERIAL IS RELEASED OR SPILLED:

Extinguish and do not turn on any ignition source until the area is determined

to be free from fire or explosion hazard. Wear suitable protective equipment.

Avoid contact with eyes.

Small spills can be flushed with large amounts of water; larger spills should

be collected for disposal.

### WASTE DISPOSAL METHOD:

Incinerate in a furnace where permitted under Federal, State, and local

regulations.

At very low concentrations in water, this product is biodegradable in a

biological wastewater treatment plant.

### VIII. SPECIAL PROTECTION INFORMATION

### RESPIRATORY PROTECTION:

Use self-contained breathing apparatus in high vapor concentrations.

**VENTILATION:** 

General (mechanical) room ventilation is expected to be satisfactory where

this product is stored and handled in closed equipment.

Special, local ventilation is needed at points where vapors can be expected to

escape to the workplace air.

PROTECTIVE GLOVES:

**Plastic** 

Rubber

EYE PROTECTION:

Monogoggles

### OTHER PROTECTIVE EQUIPMENT:

Eye Bath, Safety Shower

### IX. SPECIAL PRECAUTIONS

### PRECAUTIONS TO BE TAKEN IN HANDLING AND STORAGE:

**WARNING!** FLAMMABLE.

CAUSES EYE IRRITATION.

Keep away from heat, sparks and flame.

Avoid contact with eyes.

Keep container closed.

Use with adequate ventilation.

Vapors form from this product and may travel or be moved by air currents and ignited by pilot lights, other

flames, smoking, sparks, heaters, electrical equipment, static discharges or other ignition sources at locations distant from product handling point.

Wash thoroughly after handling.

### FOR INDUSTRY USE ONLY

### **OTHER PRECAUTIONS:**

PROCESS HAZARD: Sudden release of hot organic chemical vapors or mists from process equipment operating at elevated temperature and pressure, or sudden ingress of air into vacuum equipment, may result in ignitions without the presence of obvious ignition sources. Published "autoignition" or "ignition" temperature values cannot be treated as safe operating temperatures in chemical processes without analysis of the actual process conditions.

Any use of this product in elevated-temperature processes should be thoroughly evaluated to establish and maintain safe operating conditions. Further information is available in a technical bulletin entitled "Ignition Hazards of Organic Chemical Vapors."

TRANSFER HAZARD: Vapors of this product may be ignited by static sparks. Use proper bonding and grounding during liquid transfer as described in National Fire Protection Association document NFPA 77.

### X. REGULATORY INFORMATION

### STATUS ON SUBSTANCE LISTS:

The concentrations shown are maximum or ceiling levels (weight %) to be used for calculations for regulations. Trade Secrets are indicated by "TS".

### **FEDERAL EPA**

Comprehensive Environmental Response Compensation, and Liability Act of 1980 (CERCLA) requires notification of the National Response Center of release of quantities of Hazardous Substances equal to or greater than the reportable quantities (RQs) in 40 CFR 302.4.

Components present in this product at a level which could require reporting under the statute are:

""" NONE """

Superfund Amendments and Reauthorization Act of 1986 (SARA) Title III requires emergency planning based on Threshold Planning Quantities (TPQs) and release reporting based on Reportable Quantities (RQs) in 40 CFR 355 (used for SARA 302, 304, 311 and 312).

Components present in this product at a level which could require reporting under the statute are:

••• NONE •••

Superfund Amendments and Reauthorization Act of 1986 (SARA) Title III requires submission of annual reports of release of toxic chemicals that appear in 40 CFR 372 (for SARA 313). This information must be included in all MSDSs that are copied and distributed for this material.

Components present in this product at a level which could require reporting under the statute are:

" " NONE " " "

Toxic Substances Control Act (TSCA) STATUS:

The ingredients of this product are on the TSCA inventory.

### **STATE RIGHT-TO-KNOW**

### **CALIFORNIA Proposition 65**

This product does not contain materials which the State of California has found to cause cancer, birth defects, or other reproductive harm.

MASSACHUSETTS Right-To-Know, Substance List (MSL) Hazardous Substances and Extraordinarily Hazardous Substances on the MSL must be identified when present in products.

\* CUBJECT TO REPORTING REQUIREMENT OF SECTION 313 OF TITLE III OF SARA (40 CFR PART 372)

SECTION 3 -- PHYSICAL DATA

BULLING RANGE: 174-410 DEG. F

VAPOR DENSITY: HEAVIER THAN AIR

EVAPORATION RATE: SLOWER THAN ETHER

SEE SECTION 1 FOR VOC DATA. SEE SECTION 1 FOR WEIGHT PER GAL. DATA

SECTION 4 -- FIRE AND EXPLOSION HAZARD DATA

FLAMMABILITY CLASSIFICATION:

QSHA CLASSIFICATION: Class II Combustible Liquid; DOT CLASSIFICATION: Combustible Liquid

OTHER COMMENTS:

NFPA RATING: H-2 F-2 R-0

FLASH FOINT: 125F - 135F (SETA FLASH)

LOWER EXPLOSIVE LEVEL: 0.8 % Vol. in Air

EXTINGUISHING MEDIA:

Foam- CO2- Dry Chemical- Water Spray.

UNUSUAL FIRE AND EXPLOSION HAZARDS:
Isolate from heat, electrical equipment, sparks, and open flame. Closed containers may explode when exposed to extreme heat.

SPECIAL FIREFIGHTING PROCEDURES:
Water may be ineffective but may be used to cool containers. The use of self-contained breathing apparatus is recommended for fire fighters.

### SECTION 5 -- HEALTH HAZARD DATA

EFFECTS OF OVEREXPOSURE:
Eye contact with the liquid, its vapors or mists may cause burning, tearing, redness and eye damage. Repeated and prolonged skin contact may cause slight irritation or mild dermatitis characterized by dryness, chapping and redness. This material may be absorbed through the skin. Overexposure by inhalation may cause respiratory tract irritation or nervous system disorders such as headaches, dizziness, weakness and fatigue. Ingestion may cause gastrointestinal tract irritation and signs of nervous system depression. Reports have associated repeated and prolonged occupational overexposure to solvents with permanent brain and nervous system damage. Intentional misuse by deliberately concentrating and inhaling the contents may be harmful or fatal. Repeated and prolonged overexposure to lead by ingestion may cause a metallic taste in the mouth, nausea, digestive disorders, abdominal cramps & insommia as well as blood, nervous, urinary and reproductive disorders and birth defects. "Inorganic Lead and Lead Compounds" is classified as a Group 2B carcinogen by IARC. "Chromium and certain chromium compounds" is included in the NTP and IARC. "Chromium and certain chromium compounds" is included in the NTP and IARC lists of carcinogens. Cadmium and its compounds are listed as suspect carcinogens by NTP and IARC. There is no conclusive evidence that cadmium pigments are occupational carcinogens. N-Butanol has apparently been found to cause anemia, liver abnormalities, kidney, eye, lung, spleen, brain & nervous system damage in lab animals. Dipropylene Glycol Methyl Ether has apparently been found to cause liver abnormalities & kidney and Inver injury and blood disorders in lab animals. CALIFORNIA PROPOSITION 65: The following statement is made in order to comply with the California Safe Drinking Water and Toxic Enforcemnet Act of 1986: This product contains a chemical(s) known to the State of California as a carcinogen and/or reproductive toxicant.

DICAL CONDITIONS PRONE TO AGGRAVATE BY EXPOSURE:
Fersons with pre-existing skin or lung disorders may be more susceptible to the effects of this material. Repeated and prolonged overexposure and/or individual sensitivity may increase the potential for and degree of adverse health effects.

FIRM O UP &

RIMARY ROUTE(S) OF ENTRY:

Dermal (Contact/Absorption) - Inhalation - Ingestion

EMERGENCY AND FIRST AID PROCEDURES:
 SKIN CONTACT: Wash with soap and water, contact physician if irritation persists EYE CONTACT: Flush well with running water for a minimum of 15 minutes, contact physician if irritation persists. INHALATION: Remove to fresh air, restore breathing, contact physician. INGESTION: Contact physician or Poison Control Center immediately.

OTHER COMMENTS:

The potential health effects of this product are based on the hazards of

OTHER COMMENTS:

its components. TSCA Inventory: All ingredients listed.

### SECTION 6 -- REACITIVITY DATA

STABILITY:

Stable.

CONDITIONS TO AVOID:

Heat, sparks and open flame.

INCOMPATIBILITY (WITH MATERIALS):

Strong oxidizing agents, alkalis, and reactive chemicals.

**MAZARDOUS DECOMPOSITION PRODUCTS:** 

Carbon Monoxide, Carbon Dioxide and other noxious gases.

HAZARDOUS FOLYMERIZATION:

Will not occur.

### SECTION 7 -- SPILL OR LEAK PROCEDURES

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED:
Remove all sources of ignition. Ventilate area. Avoid breathing vapors.
Contain release and remove with inert absorbent. Avoid contact. Use non-sparking tools to place material in appropriate container for disposal.

WASTE DISPOSAL METHOD:
Dispose of in accordance with applicable local, county, state, and federal regulations.

### SECTION 8 -- SPECIAL PROTECTION INFORMATION

RESPIRATORY PROTECTION:

If vapor concentration exceeds the TLV listed in Section II, use NIOSH approved respirator with organic chemical cartridge. Contact a reputable safety supply company for the appropriate respirator.

**VENTILATION:** 

Use applicable engineering controls, work practices, and personal protective equipment to keep the vapor concentration below the TLV listed in Section II.

PROTECTIVE GLOVES:

Use neoprene, nitrile or other gloves resistant to solvents listed in Section II. Contact a reputable safety supply company for appropriate gloves.

EYE PROTECTION:

Use splash-proof goggles or safety glasses. Contact a reputable safety supply company for appropriate eye protection.

OTHER PROTECTION:

Solvent resistant aprons and availability of an eye wash are recommended. Smoke in designated areas only.

-MGIENIC PRACTICES:
Wash with soap and water before eating, smoking or using toilet facilities.
Remove contaminated clothing to prevent prolonged skin contact.

### SECTION 9 -- SPECIAL PRECAUTIONS

PRECAUTIONS TO BE TAKEN IN HANDLING AND STORING:
Store in closed containers in cool, dry, well ventilated area away from sources of ignition. Keep containers closed when not in use.

OTHER PRECAUTIONS:

( )

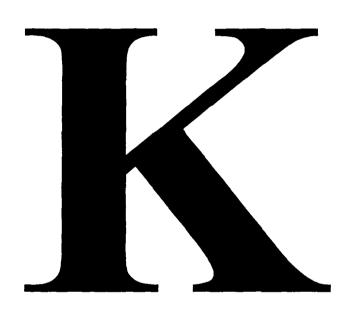

Avoid prolonged or repeated overexposure to this product. Empty containers should be disposed of in an environmentally safe manner in accordance with applicable regulations.

### SECTION 10 -- DISCLOSURE

DISCLOSURE INFORMATION:

The information and recommendations contained herein are based upon data believed to be correct. However, no guarantee or warranty of any kind express or implied is made with respect to the information contained

#### SECTION 3 --EMERGENCY AND FIRST AID PROCEDURES

Eye Contact:

Flush eyes with plenty of water for 15 minutes while holding eyelids open. Get medical attention.

Skin Contact:

Remove contaminated clothing/shoes. Flush skin with water. Follow by washing with soap and water. If irritation occurs, get medical attention. Do not reuse clothing until cleaned,

Inhalation:

Remove victim to fresh air and provide oxygen if breathing is difficult. Give artificial respiration if not breathing.

Ingestion:

Do not induce vomiting. If vomiting occurs spontaneously, keep head below hips to prevent aspiration of liquid into

the lungs. Get medical attention.

### SECTION 4 -- PHYSICAL DATA

The following data represent approximate or typical values. They do not constitute product specifications.

**Boiling Range: Evaporation Rate:**  350-572° (F) Slower than ether

Weight Per Gallon: Solubility in Water: 6.75 lbs. Negligible Vapor Density: % Volatile By Volume: Heavier than air

100%

### SECTION 5 -- FIRE AND EXPLOSION DATA:

Flammability Classification:

Combustible Liquid-Class II

Flash Point:

125° (F) Minimum (Tag. Closed Cup)

**Autoignition Temperature:** 

450°(F)

Lower Explosive Limit:

0.7 Vol. %

Extinguishing Media:

Carbon Dioxide, foam, dry chemical, water spray. Do not use direct water stream; it will spread

Unusual Fire and Explosion Hazards:

Do not store or mix with strong oxidents.

Special Fire Fighting Procedures:

Use air-supplied rescue equipment for enclosed areas. Cool exposed containers with water.

### SECTION 6 -- HEALTH HAZARD DATA

THRESHOLD LIMIT VALUE EFFECTS OF OVEREXPOSURE See Section 2.

Acute

Eye Contact:

Contact may cause mild eye irritation, including stinging, watering and redness.

Skin Contact: .

Skin irritant. Contact may cause redness and burning. Prolonged or repeated contact may cause drying and cracking of the skin and severe skin damage. No harmful effects to humans from skin absorption have been reported. Prolonged and repeated dermal exposures of rabbits to kerosene produced multi-focal necrosis of

the liver.

Inhalation:

Vapors may cause irritation to nose, throat and respiratory tract. Petroleum hydrocarbons of similar composition have been shown to cause kidney damage and tumors in male rats following prolonged inhalation

exposures. This effect appears to be unique to the male rat.

Ingestion:

Ingestion may result in vomiting, aspiration (breathing) of vomitus into the lungs must be avoided as even

small quantities may result in aspiration pneumonitis.

Chronic:

Repeated skin contact may aggravate an existing dermatitis (skin condition).

Target Organs:

Potential hazard to kidney and liver.

Carcinogenicity:

Application to mouse skin twice a week for 12 months, resulted in an increased incidence of skin tumors. Kerosene has not been identified as a carcinogen by NTP, IARC or OSHA. Female mice exposed via inhalation to Naphthalene developed alveolar adenomas. This effect was not seen in male mice. Naphthalene has not been identified as a carcinogen by NTP, IARC or OSHA.

Medical Conditions Aggravated by Exposure: Conditions aggravated by exposure may include skin disorders, respiratory (asthma-like) disorders at liver disorders.

# SECTION 7 -- REACTIVITY DATA

Stability:

Stable

Conditions to Avoid:

Heat, sparks and flame.

Incompatibility (Materials to Avoid):

Strong oxidizing agents like liquid chlorine, concentrated oxygen, strong acids, selected amines and

**Hazardous Decomposition Products:** 

Thermal decomposition may yield carbon dioxide and carbon monoxide.

Hazardous Polymerization:

Will not occur.

# SECTION 8 -- SPILL OR LEAK PROCEDURES

Steps to be taken in case material is spilled or released: Remove ignition sources, evacuate area, avoid breathing vapor or contact with liquid. Recover free liquid or stop leak if possible. Dike large spills and use absorbent material for small spills. Keep spilled material out of sewers, ditches

Waste disposal method: Incinerate under safe conditions; dispose of in accordance with local, state and federal regulations.

# SECTION 9 - SAFE HANDLING AND USE INFORMATION

Respiratory Protection:

Appropriate vapor canister, self-contained breathing apparatus or supplied-air hose mask, if needed.

Ventilation:

Sufficient, in volume and pattern, to keep workroom concentration below current applicable OSHA safety and health requirements. See Section 2. Use explosion-proof equipment. No smoking.

Protective Gloves: Eye Protection:

Rubber or neoprene. Chemical safety goggles.

Other Protective Equipment:

Impervious clothing or boots, if needed.

### SECTION 10 -- SPECIAL PRECAUTIONS

Dept. of Labor Storage Category:

Combustible Liquid - Class II

Hygienic Practices:

Keep away from heat, sparks and open flame. Keep containers closed when not in use. Avoid eye contact. Avoid prolonged or repeated contact with skin. Wash skin with soap and water after

contac

Additional Precautions:

Ground containers when transferring liquid to prevent static accumulation and discharge. Additional information regarding safe handling of products with static accumulation potential can be ordered by contacting the American Petroleum Institute (API) for API Recommended Practice 2003, entitled "Protection Against Ignitions Arising Out of Static, Lighting, and Stray Currents" (American Petroleum Institute, 1720 L Street Northwest, Washington, DC 20005), or the National Fire Protection Association (NFPA) for NFPA 77 entitled "Static Electricity" (National Fire Protection Association, 1 Batterymarch Park, P.O. Box 9101, Quincy, MA 02269-9101).

**Empty Container Warning:** 

"Empty" containers retain residue (liquid and/or vapor) and can be dangerous. Do not pressurize, cut, weld, braze, solder, drill, grind or expose such containers to heat, flame, sparks or other sources of ignition; they may explode and cause injury or death. Do not attempt to clean since residue is difficult to remove. "Empty" drums should be completely drained, properly bunged and promptly returned to supplier or disposed of in an environmentally safe manner and in accordance with governmental regulations.

### SECTION 11 -- ADDITIONAL INFORMATION

This product contains the following toxic chemical(s) which are subject to the reporting requirements of Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372:

APPROXIMATE

and possibly lung damage, wheezing, with breathing, headache, nausea, vomiting.

INGESTION: Swallowing may cause corrosion of mouth, throat and digestive

tract. Systemic effects similar to those resulting from in-

halation.

SKIN: Will cause chemical burns. Absorption may be a significant

route for exposure. Contact may have systemic effects similar

to those resulting from inhalation.

EYES: Dust will cause severe conjunctival irritation and corneal

damage.

CARCINOGENICITY: None known.

REPRODUCTIVE/DEVELOPMENTAL TOXICITY: None known.

# **SECTION V(b) - HEALTH HAZARD DATA**

(Emergency & First Aid Procedures)

INHALATION Remove from exposure. Keep warm and at rest. If breathing stops

or shows signs of failing, give artificial respiration. If loss of consciousness occurs, place in recovery position. Obtain

medical attention urgently.

INGESTION Wash out mouth with water. Contact Poison Control Center Immed-

lately. IF CONSCIOUS, give 1-3 glasses of water. DO NOT induce

vomiting. If breathing stops or shows signs of failing, apply

artificial respiration. Obtain medical attention urgently.

SKIN CONTACT immediately flood the skin with large quantities of water,

preferably under a shower. Remove contaminated clothing as

washing proceeds. Obtain medical attention urgently.

EYE CONTACT Immediately flood the eye(s) with plenty of water for at least

15 minutes, holding the eye lids open. Obtain medical attention

urgently.

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED

Wear respiratory protection and appropriate protective clothing. Sweep or preferably vacuum up and collect in suitable containers for recovery or disposal. Avoid creating dust. Environmental Precautions: See Section X.

WASTE DISPOSAL

Must be in accordance with Federal, State, and Local Laws and Regulation

# SECTION VIII - SPECIAL PROTECTION

RESPIRATORY If threshold limit value is exceeded, use MSHA/NIOSH approved

dust respirator for corrosive fumes.

EYEWEAR Chemical goggles or face shield in compliance with OSHA

regulations are advised. DO NOT wear contact lenses.

Provide eye bath near work site.

CLOTHING/GLOVES Wear butyl, natural rubber or neoprene gloves and rubber

apron.

Provide safety shower near work site.

VENTILATION Provide process or personnel enclosure, mechanical ventilation

(dilution and local exhaust), and control of process conditions

to maintain exposure levels below TLVs.

### SECTION IX - SPECIAL PRECAUTIONS

PRECAUTIONS TO BE TAKEN IN HANDLING AND STORING

Store in a cool dry area, under cover. Store in original containers. Avoid creating a dust. Avoid inhaling dust. Avoid contact with eyes, skin and clothing. Keep containers tightly closed when not in use.

### **OTHER PRECAUTIONS:**

CONTAINERS: Since empty containers may retain product residues (vapor, liquid, or solid) all labeled hazard precautions must be observed. FOR INDUSTRIAL USE ONLY. KEEP OUT OF REACH OF CHILDREN. DO NOT TAKE INTERNALLY.

surveillance for 48 hours.

SPILL OR LEAK PROCEDURES: (continued)

Try to prevent the material from entering drains or water courses.

Advise authorities if spillage has entered water course or sewer or has contaminated soil or vegetation.

### TOXICOLOGICAL INFORMATION:

ACUTE TOXICITY: The product contains components that are harmful by the following route of exposure; ingestion, inhalation and skin contact.

IRRITANCY-EYES: Data for a closely related material suggests that the product will produce severe conjunctival initiation and comeal damage.

IRRITANCY-SKIN: Data for a closely related material suggests that this product will produce burns.

SKIN SENSITIZATION: None known. ECOLOGICAL INFORMATION:

MOBILITY: The product will dissolve rapidly in water.

PERSISTANCE/DEGRADABILITY: The product is readily biodegradable.

BIO-ACCUMULATION: Product is not expected to bioaccumulate.

ECOTOXICITY: The product is rated as slightly toxic to aquatic species.

Toxic Substance Control Act (TSCA) Status:

All ingredients of this product are listed on the TSCA inventory.

SARA TITLE III (Section 313):
Components present in this product at a level which could require reporting under the statute are:

None

California State Proposition 65:
This product does not contain chemicals which the State of California has found to cause cancer, birth defects or other reproductive harm.

\_\_\_\_\_\_

PRODUCT WEIGHT: 5.53 LB./GAL.

EVAPORATION RATE: PASTER THAN ETHER

SPECIFIC GRAVITY: 0.67

VAPOR DEMSITY: MEAVIER TEAM AIR

HOILING POINT: LT 0 -212 F.

MELTING POINT: N.A.

VOLATILE VOLUME: 99%

SOLUBILITY IN WATER: N.A.

VOLATILE WEIGHT: 98.05% (LESS FEDERALLY EXEMPT SOLVENTS)

mas: 2 4 0

SECTION IV - FIRE AND EXPLOSION RAZARD DATA

PLASH POINT

UEL

PROPELLANT LT 8 F.

1.1

12.7

EXTINGUISHING MEDIA:

CARBON DIOXIDE, DRY CHEMICAL, FOAM

UNUSUAL FIRE AND EXPLOSION BAZARDS: ISOLATE FROM REAT, ELECTRICAL EQUIPMENT
SPARES, AND OPEN FLAME. CLOSED CONTAINERS MAY EXPLODE WHEN EXPOSED TO EXTRE
REAT. APPLICATION TO BOT SURFACES REQUIRES SPECIAL PRECAUTIONS. DURING
EMERGENCY CONDITIONS OVEREXPOSURE TO DECOMPOSITION PRODUCTS MAY CAUSE A REA
RAZARD. SYMPTOMS MAY NOT BE INMEDIATELY APPARENT. OBTAIN MEDICAL ATTENTION.

SPECIAL FIRE FIGHTING PROCEDURES: FULL PROTECTIVE EQUIPMENT INCLUDING SELF-CONTAINED BREATHING APPARATUS SHOULD BE USED. WATER SPRAY MAY BE IMEPPECTIV IF MATER IS USED, FOG MOZZLES ARE PREFERABLE. MATER MAY BE USED TO COOL CLO CONTAINERS TO PREVENT PRESSURE BUILD-UP AND POSSIBLE AUTOIGNITION OR EXPLOS NAMES EXPOSED TO EXTREME HEAT.

SECTION V - MEALTH MAZARD DATA

ROUTES OF EXPOSURE, EXPOSURE MAY BE BY INHALATION AND/OR SKIN OR EYE CONTAC DEPENDING ON CONDITIONS OF USE. TO MINIMISE EXPOSURE, POLLOW RECOMMENDATION FOR PROPER USE, VENTILATION, AND PERSONAL PROTECTIVE EQUIPMENT.

ACUTE MEALTE MAZARDS:

EFFECTS OF OVEREXPOSURE: IRRITATION OF EYES, SKIH AND RESPIRATORY SYSTEM. M
CAUSE MERVOUS SYSTEM DEPRESSION. EXTREME OVEREXPOSURE MAY RESULT IN
INNOMISCIOUSMESS AND POSSIBLY DEATH.

SIGNS AND STRPTOMS OF OVEREXPOSURE: MEADACHE, DIZZINESS, NAUSEA, AND LOSS O COORDINATION ARE INDICATIONS OF EXCESSIVE EXPOSURE TO VAPORS OR SPRAY HISTS

REDNESS AND ITCHING OR BURNING SEMBATION MAY INDICATE EYE OR EXCESSIVE SKIN EXPOSURE.

MEDICAL CONDITIONS AGGRAVATED BY EXPOSURE: NOWE GENERALLY RECOGNIZED.

2W757

INERGENCY AND FIRST AID PROCEDURES:

IF IMEALED: IF AFFECTED, REMOVE FROM EXPOSURE, RESTORE BREATEING, KEEP WARM COLET.

IF ON SKIN: WASH AFFECTED AREA THOROUGHLY WITH SOAP AND NATHE. REMOVE CONTAMINATED CLOTKING AND LAUNDER BEFORE RE-USE.

IF IN EYES: PLUSH EYES WITH LARGE ANOUNTS OF MATER FOR 15 MINUTES. GET MEDIATERION.

MOR 000927

IF SWALLOWED: NEVER GIVE ANYTHING BY MOUTE TO AN UNCONSCIOUS PERSON. DO NOT INDUCE VOMITING, GIVE CONSCIOUS PATIENT SEVERAL GLASSES OF MATER, SEEK MEDI ATTEMTION. CHRONIC REALTH BAZARDS: NO INCREDIENT IN THIS PRODUCT IS AN IARC, MYP OR OSEA LISTED CARCINOGEN. REPORTS HAVE ASSOCIATED REPEATED AND PROLONGED OVEREXPOSURE TO SOLVENTS WIT PERMANENT ARATM AND MERUPHS SYSTEM DANAGE. SECTION VI - REACTIVITY DATA \*----STABILITY, STABLE. COMPITIONS TO AVOID: MONE ENOUGH. INCOMPATIBILITY: NONE ENOWN. MAZARDOUS DECOMPOSITION PRODUCTS: BY FIRE: CARBON DIGITIE. CARBON MONOIDE. MAZARDOUS POLYMERIZATION: WILL NOT OCCUR. SECTION VII - SPILL OR LEAK PROCEDURES ..... STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED: REMOVE ALL SOURCE OF IGNITION, VENTILATE AND REMOVE WITE INTERT ABSORBERT. MASTE DISPOSAL METROD: MASTE FROM THIS PRODUCT MAY BE HAZARDOUS AS DEFINED UNDER THE RESOURCE CONSERVATION AND RECOVERY ACT (RCRA) 40 CFR 361. WASTE MUST BE TESTED FOR IGNITABILITY TO DETERMINE THE APPLICABLE EPA RAZAR MASTE MUMBERS. DO NOT INCINERATE. DEPRESSURIZE CONTAINER, DISPOSE OF IN ACCORDANCE WITH PEDERAL, STATE, AND LOCAL REGULATIONS REGARDING POLLUTION. 28757

SECTION VIII - PROTECTION INFORMATION

PRECAUTIONS TO BE TAREN IN USE: USE ONLY WITE ADEQUATE VENTILATION, AVOID BREATEING VAPOR AND SPRAY MIST. AVOID CONTACT WITE SKIN AND STEEL WASR SAND APTER USING.

VENTILATION: LOCAL EXHAUST PREFERABLE. GENERAL EXHAUST ACCEPTABLE IF THE EXPOSURE TO MATERIALS IN SECTION II IS MAINTAINED BELOW APPLICABLE EXPOSURE LIMITS, REFER TO OSEA STANDARDS 1910.94, 1910.107, 1910.108.

RESPIRATORY PROTECTION: IF PERSCHAL EXPOSURE CARNOT BE CONTROLLED BELOW APPLICABLE LIMITS BY VENTILATION, WEAR A PROPERLY FITTED ORGANIC VAPOR/ PARTICULATE RESPIRATOR APPROVED BY WIOSE/MSEA FOR PROTECTION AGAINST MATERI

PROTECTIVE GLOVES: MONE REQUIRED FOR MORNAL APPLICATION OF AEROSOL PRODUCTS WHERE MINIMAL SKIN CONTACT IS EXPECTED. FOR LONG OR REPEATED CONTACT, WEAR CHEMICAL RESISTANT GLOVES.

SECTION IX - PRECAUTIONS

·<del>····</del>

DOL STORAGE CATEGORY: 1A

PRECAUTIONS TO BE TAKEN IN HANDLING AND STORING; KEEP ANAT FROM HEAT, SPARK AND OPEN FLAME, VAPORS WILL ACCUMULATE READILY AND MAY IGNITE EXPLOSIVELY.

DURING USE AND UNTIL ALL VAPORS ARE GOME: KEEP AREA VENTILATED - DO NOT SMO EXTINGUISE ALL FLAMES, PILOT LIGHTS, AND HEATERS - TURN OFF STOVES, ELECTRI TOOLS AND APPLIANCES, AND ANY OTHER SOURCES OF IGNITION.

CONSULT MYPA CODE. USE APPROVED BONDING AND GROUNDING PROCEDURES.

CONTENTS UNDER PRESSURE. DO NOT FUNCTURE, INCINERATE, OR EXPOSE TO TEMPERAT
ABOVE 120 F. HEAT FROM SUNLIGHT, RADIATORS, STOVES, BOT MATER, AND OTHER HE
SOURCES COULD CAUSE CONTAINER TO BURST. DO NOT TAKE INTERMALLY, KEEP OUT OF
REACH OF CHILDREN.

OTHER PRECAUTIONS: INTENTIONAL HISUSE BY DELIBERATELY CONCENTRATING AND IMBALING THE CONTENTS CAN BE BARMFUL OR FATAL.

SECTION I - OTHER REGULATORY INPORMATION:

.....

SARA 313 (40 CFR 372.65C) SUPPLIER NOTIFICATION:

CAS NO. CREMICAL/COMPOUND % BY MT % ELEMENT

NO INGREDIENTS IN THIS PRODUCT ARE SUBJECT TO SARA 313 (40 CFR 372.45C) SUPPLIER NOTIFICATION.

Only those ingredients listed in this section have been determinded to be hazardous as defined in 29CFR 1910.1200. An ingredient marked with an asterisk(\*) is also listed in 29CFR 1910.1200(D) #4 as a known or suspected cancer hazard.

+ Denotes a chemical regulated as toxic by the Environmental Protection Agency (EPA) as outlined in 40CFR Part 372 (Section 313).

# Section III: Physical/Chemical Characteristics

Boiling Point: 212°F

Vapor Pressure (mm Hg): = Water

Vapor Density: = Water

Solubility in water: (10.0 - 99.9%)

Specific Gravity: 1.0

Melting Point: NE Evaporation Rate

(butyl acetate=1): <1.0

Appearance and odor: Milky liquid, slight ammonia odor.

# Section IV: Fire and Explosion Hazard Data

Flash Point: NE

Flammable limits lel NE uel NE

Extinguishing media: Dry chemical, water, CO<sup>2</sup>

Special fire fighting procedures: Use self contained breathing apparatus.

Unusual Fire and Explosion Hazards: NONE

### Section V: Reactivity Data

Stability: STABLE

Conditions to avoid: none

Incompatability (materials to avoid): NE

Hazardous Decomposition or Byproducts: CO, CO2

Hazardous Polymerization: WILL NOT OCCUR Conditions to avoid: none

Product name: TC 533

Revised: 1/4/94

Section VI: Health Hazard Data

Routes of entry: Inhalation Yes Skin No Ingestion No

Health Hazards (acute and chronic)

Contact may cause irritation. Prolonged or repeated contact may cause allergic dermatitis. Carcinogenicity: not determined NTP? no IARC Monographs? no OSHA Regulated? no

Signs and symptoms of exposure: Inhalation-Headache, dizziness, difficulty breathing. Ingestion-nausea, vomiting. Skin-redness, burning, rash, dryness.

Eye-redness, burning, tearing, blurred vision.

Medical Conditions Aggravated by exposure: Skin allergies and respiratory conditions.

### **EMERGENCY FIRST AID PROCEDURES:**

Skin: Flush with water immediately - Seek medical attention if irritation

persists

Eyes: Flush with water for 15 minutes - Seek medical attention if irritation

persists

Ingestion: Drink large amounts of water - seek medical attention.

Never give liquids to an unconscious person.

Inhalation: Remove to fresh air. Support respiration.

If required - Seek medical attention.

## Section VII: Precautions for Safe Handling and Use

Steps to be taken if material is released or spilled: Flush into a chemical sewer or soak up with a suitable absorbant.

Waste Disposal Method: dispose of in accordance with all local state and federal regulations. Other Precautions: Avoid contact as much as possible.

### Section VIII: Control Measures

Respiratory Protection (type): Organic vapor mask for fumes over TLV.

Ventilation Local Exhaust preferred

Special NE Other NE

Mechanical OK

Protective Gloves: plastic or rubber Eye Protection: Goggles or face shield

Other Protective Clothing or Equipment: as required to avoid contact.

Work/Hygienic Practices: Wash after use. Follow good Industrial hygienic practices.

### Section IX: Additional Information

DOT Hazard Classification: None

NFPA Hazard Class:(NFPA 325M, 8th Edition)(Health, Flammability, Reactivity):1-0-0

Other: None

The information and recommendations contained within this publication have been compiled from sources believed to reliable and to represent the best information available to TECHFORM LABORATORIES at the time of latte. No warranty, guarantee or representation is made by TECHFORM LABORATORIES nor does TECHFORM LABORATORIES assume any responsibility in connection therewithin; nor can it be assumed that all acceptable safety measures or toher safety measures may not be required under particular or ecceptional conditions or circumstances.

### 3. HAZARDS IDENTIFICATION

(continued)

formaldehyde vapors. Formaldehyde is a potential cancer hazard and a known skin and respiratory sensitizer. Vapors irritate eyes, nose and throat. Safe handling conditions may be maintained by keeping vapor concentrations below the OSHA permissible limit for formaldehyde.

Primary Routes of Entry:

Skin, ingestion, inhalation.

Signs and Symptoms

of Exposure:

Methyl ethyl ketoxime produced during cure is toxic and irritates eyes, nose and throat.

Existing Conditions

Aggravated by Exposure: None known

### 4. FIRST AID MEASURES

Ingestion:

Do not induce vomiting. Keep individual calm.

Obtain medical attention

Inhalation:

Remove to fresh air. If symptoms persist, obtain

medical attention.

Skin Contact:

Wipe off paste with paper towel or cloth.

Wash thoroughly with soap and water

Eye Contact:

Flush at least 15 minutes with water. Obtain

medical attention.

### 5. FIRE FIGHTING MEASURES

Flash Point:

More than 200°F

Method: Tag Closed Cup

Recommended

Extinguishing Agents:

Carbon dioxide, foam, dry chemical

Special Firefighting

Procedures:

Not available

Hazardous Products formed

by Fire or Thermal Decomp Formaldehyde, silica fume, oxides of carbon. Unusual Fire or

Explosion Hazards: None

Explosive Limits:

(% by volume in air) Lower Not available (% by volume in air) Upper Not available

### 6. ACCIDENTAL RELEASE MEASURES

Steps to be taken in case

of spill or leak: Wipe or scrape up spilled material. Maintain good

ventilation for large spills. Place scrap material in a well ventilated area and allow to

cure to rubber.

7. HANDLING AND STORAGE

Store in a dry area below 90°F. Keep Safe Storage:

containers closed when not in use.

(Contact Loctite Customer Service 1-800-243-4874 for shelf life information) Avoid skin and eye contact. Avoid breathing vapor.

Handling:

8. EXPOSURE CONTROLS, PERSONAL PROTECTION

Safety glasses or goggles. Avoid contact lenses.

Skin: Rubber or plastic gloves.

Ventilation: Provide local ventilation for prolonged use in a

confined area.

Respiratory Not available

See Section 2 for Exposure Limits.

9. PHYSICAL AND CHEMICAL PROPERTIES

Base: Black paste. Appearance:

Odor: Mild.

Not Applicable, Polymeric Boiling Point:

pH: 7-8

Solubility in Water: Polymerized

Specific Gravity 1.31

### HAZARDS IDENTIFICATION

Toxicity:

May irritate eyes, skin, and gastrointestinal tract. Prolonged or repeated exposure may cause allergic skin reaction. Prolonged expoxure to silver may cause argyria which is a pigmentation of skin and other body tissue. Inhalation, ingestion, eyes, skin.

Primary Routes of Entry: Signs and Symptoms of Exposure:

Inhalation may produce allergic reactions in some individuals. Ingestion may cause gastrointestinal irritation, nausea, vomiting, and diarrhea. Eye contact may cause severe irritation, burning sensation, blurred vision. Skin contact may produce allergic reaction in some individuals.

Existing Conditions

Aggravated by Exposure:

None known

with soap and water. Wash contaminated clothing thoroughly before reuse. If irritation persists, obtain medical attention. Flush thoroughly with water. If irritation

Eye Contact:

persists, obtain medical attention.

### FIRE FIGHTING MEASURES

Flash Point: Recommended More than 200°F Method: Pensky-Martens Closed Cup

Recommended
Extinguishing Agents: Carbon dioxide, foam, dry
Special Firefighting
Procedures: Use self-contained breath:
Hazardous Products formed
by Fire or Thermal Decomp Irritating organic vapors
Unusual Fire or
Explosion Hazards: None Carbon dioxide, foam, dry chemical Use self-contained breathing supply.

Explosive Limits:
(% by volume in air)Lower
(% by volume in air)Upper Not available Not available

### ACCIDENTAL RELEASE MEASURES

Steps to be taken in case of spill or leak:

Take up with an inert absorbent. Store in a closed container until disposal.

### 7. HANDLING AND STORAGE

Safe Storage:

Store below 80°F. Refrigerated storage (-40°F) is recommended to extend shelf life Service 1-800-243-4874 for shelf life information) Avoid prolonged skin contact. Keep away from eyes. Avoid prolonged inhalation of mists or vapors. (Contact Loctite Customer Handling:

### EXPOSURE CONTROLS, PERSONAL PROTECTION

Eyes: Skin:

Wear chemical splash goggles.
Wear solvent resistant gloves.
Provide sufficient local exhaust ventilation to maintain exposure below TLY(s).
If the TLV of the product is exceeded, a mechanical or self contained breathing appartus is Ventilation:

Respiratory

advised.

See Section 2 for Exposure Limits.

### 9. PHYSICAL AND CHEMICAL PROPERTIES

## HAZARDS IDENTIFICATION

Toxicity:

Skin and eye irritant. Moderately toxic

ingestion. When heated to temperatures above 300°F (150°C) in the presence of air, this product can form formaldehyde vapors. Formaldehyde is a potential cancer hazard and a known skin and respiratory sensitizer. Vapors irritate eyes, nose and throat. Safe handling conditions may be maintained by keeping vapor concentrations below the OSHA permissible limit for formaldehyde. Skin, ingestion, inhalation. ingestion.

Primary Routes of Entry: Signs and Symptoms of Exposure:

Methyl ethyl ketoxime produced during cure is toxic and irritates eyes, nose and throat.

Existing Conditions Aggravated by Exposure: None known

### HAZARDS IDENTIFICATION

Toxicity:

Liquid is an eye and skin irritant. Vapors may irritate eye, nose and throat. Estimated oral LD50 more than 5000 mg/kg. Estimated dermal LD50 more than 2000 mg/kg. None known

Primary Routes of Entry: Signs and Symptoms of Exposure:

Irritation of eyes, skin , nose or throat. May cause dermatitis on, prolonged contact in sensitive individuals.

Existing Conditions
Aggravated by Exposure:

Acrylic acid: Upper respiratory and lung diseases, dermatitis

| Ingredients                                                                                                       | Literature Referenced<br>Target Organ and Other Health Effects | Car<br>NTP                 | Cinog                         | en<br>OSHA                 |

3. HAZARDS IDENTIFICATION

Toxicity:

High concentrations of vapors may be mildly irritating to lungs and mucous membranes of the

nose and throat.

Vapors will irritate and may harm eyes.

Contact may defat skin.

Ingestion causes irritation and effects similar to inhalation. If swallowed, may be aspirated into the lungs resulting in inflamation and possible

fluid accumulation.

Primary Routes of Entry:

Signs and Symptoms

of Exposure:

Inhalation, eye and skin contact.

Inhalation: dizziness, excitation, headache, drowsiness, incoordination, and anesthesia. Eye contact: tearing, swelling, irritation. Skin contact: irritation, reddening, swelling,

rash.

Ingestion: irritation, dizziness, excitation, drowsiness, incoordination, anesthesia, and

headache.

Hydrotreated heavy naphtha NTO NO NO NO d-Limonene IRR NO N/A NO

Abbreviations

N/A Not Applicable IRR Irritant

NTO No Target Organs

4. FIRST AID MEASURES

Ingestion: Do not induce vomiting or give anything by mouth

because this material can enter the lungs and cause severe lung damage. Get medical attention

immediately.

Inhalation: Remove to fresh air. If victim experiences

continued breathing difficulties, administer oxygen until medical assistance can be rendered. If breathing stops, begin artificial respiration

and obtain immediate medical attention.

Skin Contact: Wash with soap and water. Remove contaminated

clothing Obtain medical attention if irritation

persists.

Eye Contact: Immediately flush at least 15 minutes with water.

Obtain medical attention.

5. FIRE FIGHTING MEASURES

Flash Point: 120°F Method: Tag Closed Cup

Recommended

Item No.:

Unusual Fire or

Extinguishing Agents: Carbon dioxide, foam, dry chemical (B-C)

Special Firefighting

Trocedures: The use of self contained breathing apparatus is

recommended for fire fighters. Water may be unsuitable as an extingushing media, but helpful in keeping adjacent containers cool. Avoid spreading burning liquid with water used for cooling

purposes.

20260

Hazardous Products formed

by Fire or Thermal Decomp Oxides of carbon.

ROCKY HILL, CONNECTICUT 06067 EMERGENCY PHONE: (860) 571-5100

MATERIAL SAFETY DATA SHEET Page 03 of 06

5. FIRE FIGHTING MEASURES (continued)

Explosion Hazards: Vapors are heavier than air and may travel along

the ground or be moved by ventilation and ignited by heat, pilot lights, other flames and ignition

sources at locations distant from material

handling point. Never use welding or cutting torch on or near drums (even empty) because product or residues can ignite explosively. Keep work areas free of hot metal surfaces and other sources of ignition.

Explosive Limits:

(% by volume in air)Lower 0.7% (% by volume in air)Upper 4.4%

#### 6. ACCIDENTAL RELEASE MEASURES

Steps to be taken in case of spill or leak:

Spilled liquid is combustible and can be ignited by heat, sparks, flames, or other sources of ignition. REmove all sources of ignition. Vapors are heavier than air and may travel along the ground or be moved by ventilation and ignited by heat, pilot lights, other flames and ignition sources at locations distant from material

handling point.

Keep sources of ignition and hot metal surfaces isolated from the spill. Maintain adequate ventilation. Do not allow liquid to enter sewers, storm drains, other unauthorized treatment facilities, and natural waterways. Use explosion-proof equipment. Absorb spilled liquid with inert material and place in a closed chemical waste container until disposal.

#### 7. HANDLING AND STORAGE

Safe Storage:

Do not store near fire, sparks, or flame. Do not

puncture or incinerate container.

(Contact Loctite Customer

Handling:

Service 1-800-243-4874 for shelf life information)

Use with adequate ventilation.

Avoid prolonged skin contact. Keep away from eyes. Avoid breathing vapors. Do not use near heat, sparks, open flame or other sources of ignition.

Keep out of the reach of children.

#### 8. EXPOSURE CONTROLS, PERSONAL PROTECTION

Eyes:

Safety glasses, chemical goggles, and/or face

shields.

Skin:

Impermeable nitrile gloves and aprons.

Ventilation:

General mechanical ventilation may be sufficient to keep vapor/mist concentrations within specified time-weighted TLV ranges. If general ventilation proves inadequate to maintain safe vapor/mist concentrations, supplemental local exhaust may be

required.

Respiratory

NIOSH approved respirator if ventilation is

inadequate.

See Section 2 for Exposure Limits.

#### 9. PHYSICAL AND CHEMICAL PROPERTIES

#### 3. HAZARDS IDENTIFICATION

Toxicity:

May be harmful if swallowed. Eye, skin, and inhalation irritant. Possible sensitizer.

Primary Routes of Entry:

Dermai, eye contact, skin absorbtion.

Signs and symptoms of Exposure:

Irritation of eyes, skin, or respiratory tract. This irritation may be delayed up to two days. Ingestion may cause nauses, abdominal discomfort, vomiting, or disrrhes.

Existing Conditions Aggravated by Exposure:

Eczema and other skin allergies, asthma and other respiratory disorders; systemic diseases.

#### \_ FIRST AID MEASURES

Ingestion:

Do not induce vomiting. Keep individual calm. Obtain medical attention.

Inhalation:

Remove to fresh air. If symptoms persist, obtain medical attention.

Skin Contact: Eye Contact:

Wash with spap and water. Flush at least 15 minutes with water.

medical attention.

## FIRE FIGHTING MEASURES

Flash Point: Recommended

More than 200 F Method:

Extinguishing Agents: Carbon dioxide, foam, dry chem Hazardous Products formed by Fire or Thermal Decomp Oxides of carbon and nitrogen. Unusual Fire or

Carbon dioxide, foam, dry chemical

Explosion Hazards:

Uncontrolled polymerization may occur at high temperatures resulting in explosions or rupturing of storage containers.

Explosive Limits: (% by volume in air}Lower

Not available (% by volume in air)Upper Not available

## ACCIDENTAL RELEASE MEASURES

Steps to be taken in case of spill or leak:

Spontaneous hazardous polymerization may occur. Eliminate sources of ignition. Use eye and skin protection. Maintain adequate ventilation. Soak up with an inert absorbent. Store in a half filled, closed container until disposal.

#### 7. HANDLING AND STORAGE

Safe Storage:

(Contact Loctite Customer

Handling:

Store between 50°F and 90°F.
Service 1-800-243-4874 for shelf Life information)
Avoid eye and skin contact. Avoid breathing vapors. Do not use near sources of ignition.

## 8. EXPOSURE CONTROLS, PERSONAL PROTECTION

Eyes:

Chemical splash safety goggles conforming to ANSI 287.1 - 1990.

Skin: Ventilation: Neoprene gloves. Sufficient to maintain vapor concentration

See Section 2 for Exposure Limits.

## 3. HAZARDS IDENTIFICATION

Toxicity:

Severe eye irritant. Skin, inhalation, and ingestion irritant. Possible sensitizer. Toxio by ingestion and inhalation. N-Vinyl-2-pyrrolidinone: Absorbtion or contact.

Primary Routes of Entry: Signs and Symptoms of Exposure:

Skin contact: May cause allergenic response in sensitive individuals; nausea, vomiting,

convulsions.
Inhalation of high concentrations: Headache, nausea, dizziness, narcosis, pallor, lack of

coordination, stupor. Ingestion: Nausea, vomiting, diarrhea. Eye contact: Burning, stinging, watering, inflammation.

**Existing Conditions** Aggravated by Exposure:

None known

#### HAZARDS IDENTIFICATION

Toxicity:

Contact may injure eyes, skin or respiratory tract Eye, skin, and inhalation irritant. Possible sensitizer. Moderately toxic by ingestion. Tests have indicated that the triacrylate ester may cause lymphoma in mice. Breathing heated vapors may cause nausea, dizziness, or respiratory irritation resulting in severe or permanent allergic respiratory reaction. Eves. skin.

Eyes, skin.

Primary Routes of Entry: Signs and Symptoms of Exposure:

Existing Conditions

Irritation of eyes, skin, or respiratory tract.

Aggravated by Exposure: Skin, eye, lung, and systemic diseases.

INFORMATION FOR FIRST AID AND CASUALTY ON TREATMENT FOR ADHESION OF HUMAN SKIN TO ITSELF IF CAUSED BY CYANOACRYLATE ADHESIVES

Cyanoacrylate adhesive is a very fast setting and strong adhesive. It ponds numan tissue including skin in seconds, Experience has snown that accidents due to cyanoacrylates are handled best by passive, nonsurgical first aid. Treatment of specific types of accidents are given below.

SKIN CONTACT
Remove excess adhesive. Soak in warm, soapy water. The adhesive will come loose from the skin in several hours. Cured adhesive does not present a health hazard even when bonded to the skin.

Avoid contact with clothes, fabrics, rags, or tissue. Contact with these materials may cause polymerization. The polymerization of large amounts of adhesive will generate heat causing smoke, skin burns, and strong, irritating vapors. Wear nitrile or polyethylene gloves and apron when handling large amounts of adhesive.

SKIN ADHESION
First immerse the bonded surfaces in warm, soapy water. Peel or roll
the surfaces apart with the aid of a blunt edge, e.g. a spatula or a
teaspoon handle; then remove adhesive from the skin with soap and
water. Do not try to pull surfaces apart with a direct opposing
action.

EYELID TO EYELID OR EYEBALL ADHESION
In the event that eyelids are stuck together or bonded to the eyeball, ish thoroughly with warm water and apply a gauze patch. The eye will pen without further action, typically in 1-4 days. There will be no residual damage. Do not try to open the eyes by manipulation.

ADHESIVE ON THE EYEBALL Cyanoacrylate introduced into the eyes will attach itself to the eye protein and will disassociate from it over intermittent periods, generally covering several hours. This will cause periods of weeping until clearance is achieved. During the period of contamination, double vision may be experienced together with a lachrymatory effect, and it is important to understand the cause and realize that disassociation will normally occur within a matter of hours, even with gross contamination.

MOUTH
If lips are accidentally stuck together, apply lots of warm water to the lips and encourage maximum welling and pressure from saliva inside the mouth. Peel or roll lips apart. Do not try to pull the lips with direct opposing action.

It is almost impossible to swallow cyanoacrylate. The adhesive 00 17 1995 solidifies and adheres in the mouth. Saliva will lift the adhesive in one half to two days. In case a lump forms in the mouth, possible patient to prevent ingestion of the lump when it detaches.

Cyanoacrylates give off heat on solidification. In rare cases a large drop will increase in temperature enough to cause a burn. Burns should be treated normally after the lump of cyanoacrylate is released from the tissue as described above.

SURGERY
It should never be necessary to use such a drastic method to separate accidentally bonded skin

#### 4. FIRST AID MEASURES

Ingestion: Ingestion is not likely. See supplemental page for emergency procedures.

Inhalation: Remove to fresh air. If symptoms persist, obtain medical attention.

Skin Contact: Soak in warm water. See supplemental page for emergency procedures.

Eye Contact: Flush with water. See supplemental page for emergency procedures.

```
5. FIRE FIGHTING MEASURES
Flash Point: 150 - 200 F
 Method: Tag Closed Cup
Recommended Extinguishing Agents: Carbon dioxide, foam, dry chemical
Special Firefighting Procedures: Not available
Hazardous Products formed by Fire or Thermal Decomp Irritating organic
Unusual Fire or Explosion Hazards: None
Explosive Limits:
(% by volume in air)Lower Not available
(% by volume in air)Upper Not available
6. ACCIDENTAL RELEASE MEASURES
Steps to be taken in case of spill or leak: Flood with water to
 polymerize. Soak up with an inert absorbent.
7. HANDLING AND STORAGE
Safe Storage: Store at or below 75 deg. F
(Contact Loctite Customer Service 1-800-243-4874 for shelf life information)
Handling: Avoid contact with eyes and skin. Avoid breathing of vapors
8. EXPOSURE CONTROLS, PERSONAL PROTECTION
Eyes: Safety glasses or goggles.
Skin: Nitrile or polyethylene gloves and aprons. Do not use cotton. See
 supplemental page for additional information.
Ventilation: Positive down-draft exhaust ventilation should be provided to
 maintain vapor concentration below TLV
Respiratory: Not available
 See Section 2 for Exposure Limits.

### 17. Supplement

INFORMATION FOR FIRST AID AND CASUALTY ON TREATMENT FOR ADHESION OF HUMAN SKIN TO ITSELF IF CAUSED BY CYANOACRYLATE ADHESIVES

Cyanoacrylate adhesive is a very fast setting and strong adhesive. It bonds human tissue including skin in seconds. Experience has shown that accidents due to cyanoacrylates are handled best by passive, nonsurgical first aid. Treatment of specific types of accidents are given below.

SKIN CONTACT: Remove excess adhesive. Soak in warm, soapy water. The adhesive will come loose from the skin in several hours. Cured adhesive does not present a health hazard even when bonded to the skin. Avoid contact with clothes, fabrics, rags, or tissue. Contact with these materials may cause polymerization. The polymerization of large amounts of

Provided By Electrical Insulation Suppliers Inc.

adhesive will generate heat causing smoke, skin burns, and strong, irritating vapors. Wear nitrile or polyethylene gloves and apron when handling large amounts of adhesive.

SKIN ADHESION: First immerse the bonded surfaces in warm, soapy water. Peel or roll the surfaces apart with the aid of a blunt edge, e.g. a spatula or a teaspoon handle; then remove adhesive from the skin with soap and water. Do not try to pull surfaces apart with a direct opposing action.

EYELID TO EYELID OR EYEBALL ADHESION: In the event that eyelids are stuck together or bonded to the eyeball, wash thoroughly with warm water and apply a gauze patch. The eye will open without further action, typically in 1-4 days. There will be no residual damage. Do not try to open the eyes by manipulation.

ADHESIVE ON THE EYEBALL: Cyanoacrylate introduced into the eyes will attach itself to the eye protein and will disassociate from it over intermittent periods, generally covering several hours. This will cause periods of weeping until clearance is achieved. During the period of contamination, double vision may be experienced together with a lachrymatory effect, and it is important to understand the cause and realize that disassociation will normally occur within a matter of hours, even with gross contamination.

MOUTH: If lips are accidentally stuck together, apply lots of warm water to the lips and encourage maximum wetting and pressure from saliva inside the mouth. Peel or roll lips apart. Do not try to pull the lips with direct opposing action.

It is almost impossible to swallow cyanoacrylate. The adhesive solidifies and adheres in the mouth. Saliva will lift the adhesive in one half to two days. In case a lump forms in the mouth, position the patient to prevent ingestion of the lump when it detaches.

BURNS: Cyanoacrylates give off heat on solidification. In rare cases a large drop will increase in temperature enough to cause a burn. Burns should be treated normally after the lump of cyanoacrylate is released from the tissue as described above.

SURGERY: It should never be necessary to use such a drastic method to separate accidentally bonded skin.

Product Name: Item No.:

Loctite(R) 509 Gasket Eliminator(R) Flange Sealant 21525

#### FIRE FIGHTING MEASURES

Flash Point: Recommended

More than 200°F

Method: Tag Closed Cup

Extinguishing Agents: Special Firefighting Procedures:

Carbon dioxide, foam, dry chemical

Not available

Hazardous Products formed by Fire or Thermal Decomp Irritating organic vapors Unusual Fire or Explosion Hazards: None

Explosive Limits:
(% by volume in air)Lower
(% by volume in air)Upper Not available Not available

#### ACCIDENTAL RELEASE MEASURES

Steps to be taken in case

of spill or leak:

Soak up with an inert absorbent. Store filled, closed container until disposal. Store in partly

# HANDLING AND STORAGE

Safe Storage: (Contact Loctite Customer Handling:

Store below  $100^{\circ}F$  Service 1-800-243-4874 for shelf life information) Avoid prolonged skin contact. Keep away from eyes.

#### EXPOSURE CONTROLS, PERSONAL PROTECTION 8.

Safety glasses or goggles. Rubber or plastic gloves. Does not apply Not available

Eyes: Skin: Ventilation:

See Section 2 for Exposure Limits.

# PHYSICAL AND CHEMICAL PROPERTIES

Blue liquid Mild

Appearance: Odor: Boiling Point:

More than 300°F Does not apply Slight 1.12

pH: Solubility in Water: Specific Gravity Volatile Organic Compound (EPA Method 24)

12.88%; 131.4 grams per liter Less than 5mm Not available

Vapor Pressure: Vapor Density: Evaporation Rate (Ether = 1)

Not available

# 10. STABILITY AND REACTIVITY

Stable

Stability:
Hazardous Polymerization:
Incompatibility:
Conditions\_to Avoid:

Will not occur None

Not available

Hazardous Decomposition Products (non-thermal):

None

#### 11. TOXICOLOGICAL INFORMATION

Estimated oral LD50 more than 5000 mg/kg. Estimated dermal LD50 more than 2000 mg/kg.

#### ECOLOGICAL INFORMATION 12.

No data available

#### DISPOSAL CONSIDERATIONS

Recommended methods of

disposal: EPA Hazardous Waste

Incinerate following EPA and local regulations.

Number

NH - Not a RCRA Hazardous Waste Material

1001 TROUT BROOK CROSSING ROCKY HILL, CT 06067-3910 LOCTITE CORPORATION ISSUED 11/24/99 1 1 1 1 18:46:55 EMERGENCY PHONE: (860) 571-5100 FAX: (860) 571-5465 ; 1. MATERIAL SAFETY DATA SHEET Page 3 of 5 Product Name: Output(TM) 3151 Thermally Conductive Adh. 1 11 Item No.: 18843 4. FIRST AID MEASURES Do not induce vomiting. Keep individual calm. Ingestion: 1 1. Obtain medical attention. 1 1: Inhalation: Remove to fresh air. If symptoms persist, 1 obtain medical attention. 1 51 Skin Contact: Wash with soap and water. Flush with water at least 15 minutes. Obtain Eye Contact: medical attention. 5. FIRE FIGHTING MEASURES Flash Point: More than 200°F Method: Tag Closed Cup Recommended . Extinguishing Agents: Carbon dioxide, foam, dry chemical Special Firefighting Procedures: Not available Hazardous Products formed by Fire or Thermal Decomp Irritating organic vapors Unusual Fire or Explosion Hazards: None Explosive Limits: 1 1 2 ... (% by volume in air)Lower 2.0% Acrylic acid (% by volume in air)Upper 8.0% Acrylic acid 6. ACCIDENTAL RELEASE MEASURES 1.14 Steps to be taken in case 1 x 1 of spill or leak: Maintain adequate ventilation. 1 1 Soak up in an inert absorbent. Store in a partly 1 14 filled, closed container until disposal. 1 116 7. HANDLING AND STORAGE . 11 Store below 90°F. Avoid exposure to light. 1 1 Safe Storage: (Contact Loctite Customer Service 1-800-243-4874 for shelf life information) 1 14 Avoid prolonged skin contact. Keep away from 1.1 Handling: eyes. Avoid prolonged breathing of vapors. 1 1.1 8. EXPOSURE CONTROLS, PERSONAL PROTECTION 1 1 Eyes: Safety glasses or goggles. Skin: Rubber or plastic gloves. 1 1: 1 1 Ventilation: Sufficient to maintain vapor concentration below ł Respiratory NIOSH/MSHA approved respirator if ventilation is inadequate. 1 1

See Section 2 for Exposure Limits.

### 3. HAZARDS IDENTIFICATION

Toxicity:

Eye, skin, and inhalation irritant. May irritate throat and stomach if swallowed. None known

Primary Routes of Entry: Signs and Symptoms of Exposure:

Irritation of eyes, skin, or respiratory system. Irritation of throat or stomach if swallowed.

Existing Conditions
Aggravated by Exposure: None known

Product Name: Item No.:

3870 Thermally Conductive Adhesive --High Modulus 23978

### FIRE FIGHTING MEASURES

Flash Point:

Recommended
Extinguishing Agents:
Special Firefighting
Procedures:
Hazardous Products formed
by Fire or Thermal Decomp
Not available
Irritating organic vapors; oxides of carbon, silicon. Tag Closed Cup

Unusual Fire or Explosion Hazards:

None

Explosive Limits:
(% by volume in air)Lower
(% by volume in air)Upper Not available Not available

### 6. ACCIDENTAL RELEASE MEASURES

Steps to be taken in case of spill or leak:

Scrape up as much as possible. Store in a half-filled, closed container until disposal.

### HANDLING AND STORAGE

Safe Storage:
 (Contact Loctite Customer
Handling:

Store below  $40^{\circ}F$ . Service 1-800-243-4874 for shelf life information) Avoid skin or eye contact. Do not breathe vapors.

### EXPOSURE CONTROLS, PERSONAL PROTECTION

Eyes: Skin:

Ventilation:

Safety glasses or goggles. Rubber or plastic gloves. Sufficeint to maintain vapor concentration below TLV.

Respiratory

Not available

See Section 2 for Exposure Limits.

### PHYSICAL AND CHEMICAL PROPERTIES

Appearance:

Light gray paste Mild

Odor: Boiling Point:

Not available Does not apply

Boiling Form:
pH:
Solubility in Water:
Specific Gravity
Volatile Organic Compound
(EPA Method 24)
Vapor Pressure:
Vapor Density:
Evaporation Rate
(Ether = 1)

Slight Approximately 2.5

11.24%; 556 grams per liter Less than 5 mm

Not available

Not available

#### STABILITY AND REACTIVITY

Stability:
Hazardous Polymerization:
Incompatibility:
Conditions to Avoid:
Hazardous Decomposition
Products (non-thermal):

Stable Will not occur None

Not available

Methacrylic acid, phenol.

### 11. TOXICOLOGICAL INFORMATION

See Section 3.

#### 12. ECOLOGICAL INFORMATION

No data available

#### 13. DISPOSAL CONSIDERATIONS

Recommended methods of

Incinerate following EPA and local regulations.

disposal: EPA Hazardous Waste Number

NH - Not a RCRA Hazardous Waste Material

SECTION 3: ILAZARD IDENTIFICATION

Emergency Overview: Opaque, off-white cream. Nontoxic and nonhazardous. This product is not flammable.

Potential Health Effects

May cause slight irritation with prolonged contact. Eves: No acute or chronic effects from contact expected. Skin:

Ingestion: Man cause slight stomach upset if ingested in large quantities. Inhalation: No scute or chronic effects expected from prolonged contact.

Pre-Existing Medical Conditions Aggravated by Exposure: None known.

SECTION 4: FIRST AID MEASURES

Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 13 minutes. Have eyes examined Eves: and tested by medical personnel if irritation develops or persists.

No acute chronic effects expected from prolonged contact. Skin:

Ingestion: Swallowing less than an ounce will not cause significant harm. For larger amounts, DO NOT induce vomiting, but give one or two glasses of water to drink and get medical attention.

Inhalation: No acute or chronic effects expected from prolonged contact.

SECTION 5: FIRE FIGITING MEASURES

Flash Point: None

LELJUEL: Not established (% by volume in air)

Extinguishing Media: Alcohol foam, carbon dioxide, or water spray are compatible when fighting fires in proximity to this material.

Fire Fighting Instructions: As in any fire, wear self-contained breathing apparatus (pressure-demand, (MSHA/NIOSH approved or equivalent) and full protective gear.

SECTION 6: ACCIDENTAL RELEASE MEASURES

Scrape up spilled product and place in waste container for proper disposal.

SECTION 7: HANDLING AND STORAGE INFORMATION

Special precautions are usually not required. Protect from freezing.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

No published data are available on the exposure guidelines for the ingredients of this product.

Work/Hygienic Practices: Special precautions are usually not required.

NFPA and HMIS Codes: **NFPA** HMIS Health 0 0 Flammability 0 O Reactivity 0 0 Personal Protection

SECTION 9; PHYSICAL AND CHEMICAL PROPERTIES

Physical State: Opaque cream

SECTION 10: STABILITY AND REACTIVITY

Stability: This product is stable.

Conditions to Avoid: None known.

Incompatibility: Strong oxidizing agents, acids or bases.

Products of Decomposition: Thermal decomposition may release carbon monoxide, carbon dioxide and incompletely burned hydrocarbons.

Hazardous Polymerization: Will not occur.

Conditions to Avoid: NA

SECTION 11: TOXICOLOGICAL INFORMATION

Inhalation:

No signs or symptoms indicative of an adverse health effect are

with this product.

Ingestion:

No signs or symptoms indicative of toxicity expected on contact

are expected.

Skin: No irritation expected.

Cancer Information: No ingredients listed as human carcinogens by NTP or IARC

SECTION 12: ECOLOGICAL INFORMATION Environmental Impact Information **Environmental Impact Data** Percent by weight No other information is available. CFC 0.0% VOC 0.0% HFC 0.0% HFC 0.0% CI. Solv. 0.0% ODP 0.0%

SECTION 13: DISPOSAL CONSIDERATIONS

Dispose of in accordance with all federal, state and local regulations.

SECTION 14: TRANSPORTATION INFORMATION - This product is not currently regulated under IATA or DOT.

SECTION 15: REGULATORY INFORMATION

SECTION 313 SUPPLIER NOTIFICATION

Product does not contain any Section 313 listed chemicals.

SECTION 16: OTHER INFORMATION

Do not puncture or incinerate containers. Normal ventilation for standard manufacturing practices is usually adequate.

To the best of our knowledge, the information contained herein is accurate. However, all materials may present unknown hazards and should be used with caution. In particular, improper use of our products and their inappropriate combination with other products and substances may produce harmful results which cannot be anticipated. Final determination of the suitability of any material is the sole responsibility of the user. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that may exist.

ACGIH TLV

Other Limits Recommended

% (optional)

Non-hazardous

Hazardous Material Identification System (HMTS): Not a Controlled Product under (WHMIS) - Canada Health - 1.

Flammability - 1,

Reactivity 0

Special Protection: See Section 9

### Section 3 - Health Hazard Data

Threshold Limit Value

5 mg/m<sup>3</sup> for oil mist in air. OSHA Regulation 29 CFR 1910.1000

Effects of Overexposure Prolonged or repeated skin contact may cause skin irritation. Product contacting the eyes may cause eye irritation. Human health risks vary from person to person. As a precaution, exposure to liquids, vapors, mists and fumes should be minimized. This product has a low order of acute oral toxicity, but minute amounts aspirated into the lungs during ingestion may cause alld to severe pulmonary injury.

Carcinogenicity:

NTP? No

IARC Monographs? No

OSHA Regulated? No

### Section 4 - Emergency and First Aid Procedures

EYE CONTACT: Flush with clear water for 15 minutes or until irritation subsides. If irritation persists, consult a physician.

SKIN CONTACT: Remove any contaminated clothing and wash with soap and warm water. If injected by high pressure under skin, regardless of the appearance or its size, contact a physician IMMEDIATELY. Delay may cause loss of affected part of the body.

INHALATION: Vapor pressure is very low and inhalation at room temperature is not a problem. If overcome by vapor from hot product, immediately remove from exposure and call a physician.

INGESTION: If ingested, call a physician immediately. Do not induce vomiting.

### Section 5 - Fire and Explosion Hazard Data

Flash Point (Method Used)

COC - 425°F

Flammable Limits

LEL 0.9%

**UEL 7.0%** 

Extinguishing Media

Foam, Dry Chemical, Carbon Dioxide or Water Spray (Fog)

Special Fire Fighting Procedures

Cool exposed containers with water. Use air-supplied breathing equipment for

enclosed or confined spaces.

Unusual Fire and Explosion Hazards

Do not store or mix with strong oxidants. Empty containers retain residue.

Do not cut, drill, grind, or weld, as they may explode.

### LUBRIPLATE DS-ES LUBRICANT

LUBRIPLATE DS-ES Lubricant is developed specifically for the electrical and electronics industry. LUBRIPLATE DS-ES Lubricant is being used extensively in automotive switches and contact units where performance is exceeding all of the new safety standards set for this equipment.

LUBRIPLATE DS-ES Lubricant is also highly recommended as a bearing lubricant for electrical motors, spindles and other mechanical devices where low torque, high speeds and long life are essential. Due to the aniline point of this product, seal compatibility is excellent.

LUBRIPLATE DS-ES Lubricant is recommended in the Automotive Industry by these specifications or part numbers:

MS-3701 Chrysler/AMC MS-8677 ESB-MIC-158-A Ford Motor Company 5384-011 Delco-Remy Div., General Motors 1502-20007-D116 ITT Automotive Electrical Products Saginaw Steering Gear Div. General Motors 7809311 7813685 7826313 16109-5002 White Truck Group

LUBRIPLATE DS-ES Lubricant is recommended for:

Battery Posts - Head Lamps - Tail Lamps
Electrical Harness Plug Assemblies
Backup Lamp Connector Sockets
Electrical Switch Contacts - Radio Antenna Assemblies
Aircraft Switch Assemblies
High Voltage Breaker Assemblies
Connectors in the Primary Circuit of Solid-State Ign tion

### Advantages

- Exceptional oxidation resistance for extended operating life.

- Low Torque start-up capabilities especially in cold weather conditions.

- Excellent metal, rubber, and plastic compatibility.

# SECTION V(a) - HEALTH HAZARD DATA

(Symptoms/Effects of Overexposure)

INHALATION: Can cause irritation of the respiratory tract with coughing and

chest discomfort. High concentrations of vapor may cause

headache and drowsiness.

INGESTION: Slightly toxic. May cause abdominal discomfort, nausea,

vomiting and diarrhea. Drowsiness and/or loss of consciousness

may occur.

May cause minor irritation with itching and possible slight local SKIN: redness. Prolonged or repeated contact may cause defatting and

drying. Absorption; exposure to small quantities are not anticipated to cause adverse health effects. Widespread and prolonged exposure may result in the absorption of harmful amounts of material, leading to signs and symptoms as described for ingestion.

Causes irritation, may cause corneal injury.

LISTED CARCINOGENS: None of the materials in this product are listed in

NTP, IARC, or OSHA as carcinogens.

### SECTION V(b) - HEALTH HAZARD DATA

(Emergency & First Aid Procedures)

INHALATION Remove to fresh air. If not breathing give artificial respira-

tion. If breathing is difficult administer oxygen. Obtain

medical attention.

INGESTION If fully conscious give two glasses of water, INDUCE vomiting.

Never give anything by mouth to an unconscious person.

SKIN CONTACT Remove contaminated clothing. Wash with soap and water. If

irritation persists or if contact has been prolonged obtain

medical attention.

Immediately flush with water for several minutes. Obtain EYE CONTACT

medical attention.

SPECIAL FIRE FIGHTING PROCEDURES UNUSUAL FIRE AND EXPLOSION HAZARD

٠,

Use NIOSH approved self-contained breathing apparatus and protective clothing. Cool fire exposed containers with water.

Vapors are heavier than air and may travel along ground. Never use welding torch on or near containers (even empty). May produce a floating fire hazard.

### SECTION VII - SPILL or LEAK PROCEDURES

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED

Ventilate if in enclosed area. Eliminate all ignition sources.

SMALL SPILL: Absorb liquid on paper, vermiculite, floor absorbent, or

other absorbent material and transfer to hood.

LARGE SPILL: See Section X.

٠,

WASTE DISPOSAL Destroy by approved incineration or deposit in approved landfill.

Must be in accordance with Federal, State, and Local Laws and Regulation

### **SECTION VIII - SPECIAL PROTECTION**

RESPIRATORY No special requirements with adequate ventilation present,

approved respiratory protective equipment used when vapor or

mist concentrations exceed applicable standards.

EYEWEAR Chemical type protective goggles.

Provide eye bath near work site.

CLOTHING/GLOVES Wear resistant gloves such as rubber, neoprene or plastic.

VENTILATION Provide sufficient mechanical (general and/or local exhaust)

ventilation to maintain exposure below TLVs.

### **SECTION IX - SPECIAL PRECAUTIONS**

PRECAUTIONS TO BE TAKEN IN HANDLING AND STORING

Observe precautions for a flammable liquid. Keep container closed when not in use. Store away from ignition sources in cool dry area. Use adequate ventilation. Read all container labeling.

Avoid the use of metal drum spigots. Use Polyethylene, Polypropylene or Teflon.

### **OTHER PRECAUTIONS:**

CONTAINERS: Since empty containers may retain product residues (vapor, liquid, or solid) all labeled hazard precautions must be observed. FOR INDUSTRIAL USE ONLY. KEEP OUT OF REACH OF CHILDREN. DO NOT TAKE INTERNALLY.

### **SECTION X - ADDITIONAL INFORMATION**

١.

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED: (continued) LARGE SPILL:

Persons not wearing protective equipment should be excluded from area. Dike area of spill to prevent spreading. Pump liquid to salvage tank. Take up remaining liquid with absorbent material. Shovel into containers.

### NOTES TO PHYSICIAN:

There is no specific antidote. Treatment of overexposure should be directed at the control of symptoms and the clinical condition of the patient.

---- REGULATORY INFORMATION ---

Toxic Substance Control Act (TSCA) Status: All ingredients of this product are listed on the TSCA inventory.

SARA TITLE III (Section 313):
Components present in this product at a level which could require reporting under the statute are:

None

SECTION 3: HAZARD IDENTIFICATION

Emergency Overview: Viscous, opaque white liquid. This product is not flammable. Liquid may irritate eyes and skin under repeated or prolonged exposure Potential Health Effects.

Eves: Liquid and vapors of this product are irritating and can cause pain, tearing, reddening and swelling accompanied by a stinging sensation.

Skin: Contact causes skin irritation. Sensitizer - may cause allegic skin reaction

Ingestion: Harmful if swallowed. Irritating to mouth, throat and stomach. May cause nausea, vomiting, and diarrhea.

Inhalation: High concentrations of vapors may cause headaches, nausea, dizziness, and respiratory irritation if inhaled.

Pre-Existing Medical Conditions Aggravated by Exposure: Lung, eye, skin

SECTION 4: FIRST AID MEASURES

<u>Eves</u>: Immediately flush with large amounts of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. Have eyes examined and tested by medical personnel if irritation develops or persists.

Skin. Wash skin with soap and water. Remove contaminated clothing. Get medical attention if irritation develops or persists. Wash clothing separately before reuse.

Ingestion. If swallowed, seek medical attention immediately.

Inhalation. In case of exposure to high concentrations of vapor, remove to fresh air. If breathing is difficult, give oxygen and get medical attention.

TECTION 5: FIRE FIGHTING MEASURES

tash Point: None to boiling (TCC)

LEL/UEL NA (86 by volume in air)

Estinguishing Media: Use alcohol foam, carbon dioxide, or water spray when fighting fires involving this material.

Fire Fighting Instructions: As in any fire, wear self-contained breathing apparatus (pressure-demand, MSHA/NIOSH approved or equivalent) and full protective gear.

### SECTION 6: ACCIDENTAL RELEASE MEASURES

Large Spills: Shut off leak if possible and safe to do so. Wear self-contained breathing apparatus and appropriate personal protective equipment. Absorb spill with inert absorbant material, then place in a chemical waste container for proper disposal. Do not flush to sewer. Avoid runoff into storm sewers and ditches which lead to waterways.

Small Spills: Absorb spill with absorbent material, then place in a chemical waste container for proper disposal.

### SECTION 7: HANDLING AND STORAGE

Avoid prolonged or repeated contact with eyes, skin, and clothing. Wash hands before eating. Use with adequate ventilation. Avoid breathing product vapor Do not reuse this container. Store in a cool dry place away from heat, sparks and flame. Keep container closed when not in use. Do not store in direct suitlight.

KEEP OUT OF REACH OF CHILDREN.

Page 1 of 2

MSDS #0716

### SECTION 10: STABILITY AND CHEMICAL PROPERTIES

Stability - Stable.

Conditions to Avoid: Storage above 120° F, exposure to light, loss of polymerization inhibitor, contamination with incompatible materials.

Incompatibility: Do not mix with powdered alkali and alkaline earth metals or strong oxidizing agents.

Products of Decomposition: Thermal decomposition may release carbon monoxide, carbon dioxide, HCN, and hydrocarbons

Hazardous Polymerization: Will not occur

### SECTION 11: TOXICOLOGICAL INFORMATION

Inhalation: NA Ingestion: NA Skin: NA

Cancer Information: No ingredients listed as human carcinogens by NTP or IARC

### SECTION 12: ECOLOGICAL INFORMATION

**Environmental Impact Information** 

Avoid runoff into storm sewers and ditches which lead to waterways. Water runoff can cause environmental damage.

REPORTING

US regulations require reporting spills of this material that could reach any surface waters. The toll free number for

the US Coast Guard National Response Center is:

1-800-424-8802

#### SECTION 13: DISPOSAL CONSIDERATIONS

Dispose of in accordance with all federal, state and local regulations. Water runoff can cause environmental damage.

### SECTION 14: TRANSPORTATION INFORMATION

Air: Coating Compound. Not Regulated Ground: Coating Compound. Not Regulated

#### SECTION 15: REGULATORY INFORMATION

#### SECTION 313 SUPPLIER NOTIFICATION

This product contains the following toxic chemicals subject to the reporting requirements of Section 313 of the Emergency Planning and Community Right-To-Know Act of 1986 (40 CFR 372).

This product contains no reportable chemicals listed under Section 313

This information should be included on all MSDSs copied and distributed for this material.

TOXIC SUBSTANCES CONTROL ACT (TSCA).

All ingredients of this product are listed on the TSCA Inventory.

#### SECTION 16: OTHER INFORMATION

Normal ventilation for standard manufacturing practices is usually adequate. Local exhaust should be used when large amounts are released

WHMIS Ingredient Disclosure list: None

Status: Noncontrolled

To the best of our knowledge, the information contained herein is accurate. However, all materials may present unknown hazards and should be used with caution. In particular, improper use of our products and their inappropriate combination with other products and substances may produce harmful results which cannot be anticipated. Final determination of the suitability of any material is the sole responsibility of the user. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that may exist.

McLube 1775X

### ROUTES OF EXPOSURE AND EFFECTS

Inhalation: 220 ppm for prolonged periods may cause headache, dizziness, loss of balance;

higher levels can lead to unconsciousness or even death.

Skin Contact: Irritation; prolonged contact may cause dermatitis.

Eye Contact: Imitation.

Ingestion: Harmful if swallowed.

Carcinogenicity: None of the components in this product is listed by IARC, NTP, or OSHA

as a carrinogen.

### EMERGENCY AND FIRST AID PROCEDURES

Eyes: Flush with water. Call a physician.

Skin: Wash off in flowing water.

Inhalation: Remove to fresh air. Call a physician.

Ingestion: Do not induce vomiting. Call a physician.

### PROTECTION INFORMATION

Ventilation: Control vapor to standard, OSHA standard 100 ppm.

Personal Protective Equipment

Respiratory: In absence of environmental control, approved organic vapor-type

respirator.

Eye: Salety glasses.

Gloves: Impermeable gloves recommended.

Other: Boots and apron may be necessary depending on extent and severity of exposure.

### DISPOSAL PROCEDURES

Spill or Leak: Eliminate ignition sources. Soak up with inert absorbent such as sand,

earth or vermiculite and put in closed container for prompt disposal.

Waste Disposal: Incinerate in compliance with local, state and

federal regulations.

### PRECAUTIONARY STATEMENTS AND ADDITIONAL INFORMATION

Keep containers closed.

Contents may be under pressure; open containers slowly to release pressure.

When transferring product, follow proper grounding procedures.

Avoid breathing of vapor, use with adequate ventilation especially in enclosed areas.

Flammable liquid and vapor - keep away from flames and other ignition sources.

Avoid contact with eyes or skin; wash hands thoroughly after handling.

Empty containers retain product residue; follow label warnings even after container is emptied; residual vapors may explode on ignition; do not cut, drill or weld on or near container

2-Butanone and toluene are toxic chemicals subject to the reporting requirements of Section 313 of Title III of the Superfund Amendments and Reauthorization Act (SARA) of 1986 and 40 CFR 372.

Toluene contains traces of between and the restn tulxture is reported to contain traces of formaldehyde, chemicals which are on the California Proposition 65 list of chemicals classed as carcinogens.

This information relates on the specific material designated and may not be valid for such material used in combination with any other materials or in only process. Such information is to the boot of our knowledge and helich accurate and reliable or of the date compiled. However, no representation, watering of guarantee is made on to the naturally, reliability or completeness. It is the next a responsibility to easily himself on to the cutchildity and completeness of such information for the own particular use. We do not approximately for any loss or damage that may come from the use of this information nor do we other waterity against patent infringement.

EXTINGUISHING MEDIA: CARBON DIOXIDE, FOAM, DRI CHEMICAL AND MATER FOG.

SPECIAL FIRE FIGHTING PROCEDURES: MATER OR FOAM MAY CAUSE FROTEING,

USE MATER TO KREP FIRE EXPOSED CONTAINERS COOL. MATER SPRAY MAY

BE USED TO FLUSH SPILLS AMAY FROM EXPOSURE. PREVENT RUNOFF FROM

FIRE CONTROL OR DILUTION FROM ENTERING STREAMS, SEWERS, OR

DRIBKING MATER SUPPLY.

SPECIAL PROTECTIVE EQUIPMENT: FOR FIRES IN ENCLOSED AREAS, FIRE FIGHTERS MUST USE SELF-CONTAINED BREATHING APPARATUS.

UNUSUAL FIRE AND EXPLOSION HAZARDS: NOWE. FLASE FOINT C(F): >

204(400) (ABTE D-93). FLAMMABLE LIMITS - LEL: NA, UNL: NA.

NFFA HAZARD ID: REALTH: 0, FLAMMABILITY: 1, REACTIVITY: 0

HAZARDOUS DECOMPOSITION PRODUCTS: CARBON MONORIDE. NETAL OXIDES.

ELEMENTAL OXIDES.

#### 6. ACCIDENTAL RELEASE MEASURES

MOTIFICATION PROCEDURES: REPORT SPILLS AS REQUIRED TO APPROPRIATE
AUTHORITIES. U. S. COAST GUARD REGULATIONS REQUIRE INGEDIATE
REPORTING OF SPILLS THAT COULD REACH ANY MATERNAY INCLUDING
INTERMITTENT DAY CREEKS. REPORT SPILL TO COAST GUARD TOLL FREE
MURGER (800) 424-8802. IN CASE OF ACCIDENT OR ROAD SPILL MOTIFY
CHEMITREC (800) 424-9300.

PROCEDURES IF MATERIAL IS RELEASED ON SPILLED; SHOVEL UP AND DISPOSE
OF AT AN APPROPRIATE WASTE DISPOSAL FACILITY IN ACCORDANCE WITH
CURRENT APPLICABLE LAWS AND REGULATIONS, AND PRODUCT
CHARACTERISTICS AT TIME OF DISPOSAL.

ENVIRONMENTAL PRECAUTIONS: PREVENT SPILLS FROM ENTERING STORM SEWERS OR DRAINS AND CONTACT WITE SOIL.

-----

\*-----

PERSONAL PRECAUTIONS: SEE SECTION 8

#### 7. HANDLING AND STORAGE

HANDLING: HIGH PRESSURE INJECTION UNDER THE SKIM MAY OCCUR DUE TO THE RUPTURE OF PRESSURIZED LINES. ALMAYS SHEE MEDICAL ATTENTION. STORAGE: DO NOT STORE IN OPEN OR UNLABELLED CONTAINERS. STORE ANAY FROM STRONG OLIDIZING AGENTS OR COMBUSTIBLE MATERIAL.

#### 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

VENTILATION: NO SPECIAL REQUIREMENTS UNDER ORDINARY CONDITIONS OF USE AND WITH ADBOUATE VENTILATION.

RESPIRATORY PROTECTION: NO SPECIAL REQUIREMENTS UNDER ORDINARY CONDITIONS OF USE AND WITE ADEQUATE VENTILATION.

EYE PROTECTION: GENERALLY EYE CONTACT IS UNLIKELY WITH THIS TYPE MATERIAL. IF ETE CONTACT IS LIKELY, SAFETY GLASSES WITH SIDE SKIELDS OR CHEMICAL TYPE GOOGLES SHOULD BE WORK.

SKIN PROTECTION: IF PROLONGED OR REPRATED SKIN CONTACT IS LIKELT, OIL INSTRUTORS GLOVES SHOULD BE MORE. GOOD PERSONAL BYGINGE PRACTICES SHOULD ALMAYS BE POLICIED.

EXPOSURE LIMITS: THIS PRODUCT DOES NOT CONTAIN ANY COMPONENTS WHICH HAVE RECOGNIZED EXPOSURE LIMITS.

### 9. PETSICAL AND CHEMICAL PROPERTIES

TYPICAL PETSICAL PROPERTIES ARE GIVEN BELOW. CONSULT PRODUCT DATA SEEST

MAZARDOUS POLTMERIZATION: WILL NOT OCCUR. 11. TOXICOLOGICAL DATA --- ACTITE TOXICOLOGY ---ORAL TOXICITY (RATS): PRACTICALLY NOW-TOXIC (LD50: GREATER TEAM 2000 MG/RGI. --- BASED ON TESTING OF SINILAR PRODUCTS AND/OR THE DERHAL TOXICITY (RABBITS): PRACTICALLY NOW-TOXIC (LDSG: GREATER TEAM 2000 MG/KG). --- BARED OF TESTING OF SINCILAR PRODUCTS AND/OR THE IMBALATION TOXICITY (RATS): NOT APPLICABLE --- MARKOUL CONCENTRATIONS OF MISTS AND/OR VAPORS ARE UNLIKELY TO BE ENCOUNTERED TEROUGE ANY CUSTOMARY OR REASONABLY FORESTEABLE EARDLISG, USE, OR MISUSE OF THIS PRODUCT. THE INDITATION (MARBITS): PRACTICALLY NON-INDITATING. (DRAIGE SCORE: GREATER TEAM 6 BUT 15 OR LESS). --- BASED ON TESTING OF SINGLAR PRODUCTS AND/OR THE COMPORENTS. SKIN IRRITATION (RABBITS): PRACTICALLY NON-IRRITATING, (PRIMARY TERITATION INDEX: GREATER THAN 0.5 NOT LESS THAN 3). --- BASED ON TESTING OF SINILAR PRODUCTS AND/OR THE COMPONENTS. OTHER ACUTE TOXICITY DATA: THE ACUTE TOXICOLOGICAL RESULTS SUMMARIZED ABOVE ARE BASED ON TESTING OF REPRESENTATIVE MOBIL PRODUCTS. --- SUBCEROWIC TOXICOLOGY (SUBBLET) ---DEPRESENTATIVE MORIL POSMULATIONS HAVE REEN TESTED AT THE MORIL ENVIRONMENTAL AND MEALTH SCIENCES LABORATORY BY DERMAL APPLICATIONS TO RATS 5 DAYS/WEEK FOR 90 DAYS AT DOSES SIGNIFICANTLY EIGHER THAN TROSE REPECTED DURING HORMAL INDUSTRIAL EXPOSURE. EXTENSIVE EVALUATIONS, INCLUDING MICROSCOPIC

EXAMINATION OF INTERNAL ORGANS AND CLINICAL CHRISTRY OF BODY

FLUIDS, SHOWED BO ADVENSE EFFECTS.

--- REPRODUCTIVE TOXICOLOGY (SUNGARY)---

DERMAL EXPOSURE OF PREGMANT RATS TO REPRESENTATIVE FORMULATIONS DID NOT CAUSE ALVERSE EFFECTS IN EITHER THE MOTHERS OR THEIR OFFSPRIME.

--- SENSITIZATION (SURGARY)---

REPRESENTATIVE MOBIL PORMULATIONS HAVE NOT CAUSED SKIN SENSITIZATION IN GUINNEA PIGN.

--- OTHER TOXICOLOGY DATA---

THIS PRODUCT IS PORMULATED WITH A SYPTEMTIC HYDROCARBON AS THE BASE STOCK. THE MOBIL ENVIRONMENTAL AND HEALTH SCIENCES LABORATORY HAS TESTED REPRESENTATIVE SYNTHETIC BASE STOCKS TO ASSESS THEIR POTENTIAL ADVERSE HYPECTS ON HUMAN HEALTH. ASSESSMENT OF RUMAN HEALTH EPFECTS WAS BASED ON ACUTE ORAL, DERMAL, AND INHALATION TOLICITY; HIE AND SKIN IRRITATION; SUBCERONIC DERMAL TOXICITY AND REPRODUCTIVE STUDIES; QUINEA PIG SENSITIZATION; AND MUTAGENICITY AND CHROMOSOMAL DAMAGE ASSATS. MONE OF THESE BASE STOCKS APPEARS TO POSE A HEALTH BALARD TO HUMANS UNDER CONDITIONS OF EXPECTED

\_\_\_\_\_\_

12. ECOLOGICAL IMPORMATION

ENVIRONMENTAL PATE AND EFFECTS: THIS PRODUCT IS EXPECTED TO BE INKERENTLY BIODECRADABLE. THERE IS NO EVIDENCE TO SUGGEST BIOACCUMULATION WILL OCCUR.

ACUTE LC/EC56: JUVENILE RAIMBON TROUT: PRACTICALLY MON-TOXIC
---BASED ON TESTING OF SIMILAR PRODUCTS.

ACCIDENTAL SPILLAGE MAY LEAD TO PENETRATION IN THE SOIL AND
GROUNDMATER. HOWEVER, THERE IS NO EVIDENCE THAT THIS WOULD CAUSE
ADVERSE ECOLOGICAL REPECTS.

#### 13. DISPOSAL CONSIDERATIONS

MASTE DISPOSAL: PRODUCT IS SUITABLE FOR BURNING IN AN ENCLOSED,
CONTROLLED BURNER FOR FUEL VALUE OR DISPOSAL BY SUPERVISED
INCINERATION. SUCE BURNING BAY BE LIMITED PURSUANT TO THE
RESOURCE CONSERVATION AND RECOVERY ACT. IN ADDITION, THE PRODUCT
IS SUITABLE FOR PROCESSING BY AN APPROVED RECYCLING FACILITY OR
CAN BE DISPOSED OF AT AN APPROPRIATE GOVERNMENT MASTE DISPOSAL
FACILITY. USE OF THESE METHODS IS SUBJECT TO USER COMPLIANCE
WITH APPLICABLE LAMS AND REGULATIONS AND CONSIDERATION OF PRODUCT
CHARACTERISTICS AT TIME OF DISPOSAL.

RCRA INFORMATION: THE GNOSED PRODUCT, IN OUR OPINION, IS NOT SPECIFICALLY LISTED BY THE EPA AS A BASARDOUS WASTE (40 CVR, PART 261D). HOR IS IT FORMULATED TO CONTAIN MATERIALS WEICE ARE LISTED BASARDOUS WASTES. IT DOES NOT EXHIBIT THE BASARDOUS CHARACTERISTICS OF IGNITIABILITY, CORROSIVITY, OR REACTIVITY AND IS NOT FORMULATED WITH CONTAMINANTS AS DETERMINED BY THE TOXICITY CHARACTERISTIC LEACHING PROCEDURE (TCLF). HOWEVER, USED PRODUCT NAT BE REGULATED.

SECTION IV HEALTH INFORMATION

#### EYE CONTACT

PRODUCT IS PRESUMED TO BE MODERATELY IRRITATING TO THE EYES. EXPOSURE MAY CAUSE CORNEAL INJURY. PRODUCT VAPORS AND/OR MISTS MAY ALSO BE IRRITATING TO THE EYES.

#### SKIN CONTACT

BASED ON THE PRESENCE OF COMPONENT 10 PRODUCT IS PRESUMED TO BE MODERATELY IRRITATING TO THE SKIN. PROLONGED CONTACT MAY CAUSE DAMAGE TO THE SKIN. BASED ON THE PRESENCE OF COMPONENTS 6. 10 AND 14 ABSORPTION THROUGH THE SKIN MAY RESULT IN SYMPTOMS OF EXPOSURE AS THOSE DESCRIBED FOR INHALATION AND INGESTION. PROLONGED OR REPEATED CONTACT MAY RESULT IN DEFATTING AND DRYING OF THE SKIN WHICH MAY RESULT IN DERNATITIS.

### INHALATION

EXPOSURE MAY PRODUCE IRRITATION TO THE NOSE. THROAT, RESPIRATORY TRACT, AND OTHER NUCOUS MEMBRANES. EXPOSURE TO HIGH CONCENTRATIONS OF VAPOR MAY PRODUCE CENTRAL NERVOUS SYSTEM DEPRESSION. REPORTS HAVE ASSOCIATED REPEATED AND PROLONGED OCCUPATIONAL OVEREXPOSURE TO SOLVENTS WITH PERMANENT BRAIN AND NERVOUS SYSTEM DANAGE. INTENTIONAL MISUSE BY DELIBERATELY CONCENTRATING AND INHALING THE CONTENTS MAY BE HARNFUL OR FATAL.

### INGESTION

NODERATELY TOXIC. BASED ON THE PRESENCE OF CONFONENT 10 INCESTION MAY CAUSE RED BLOOD CELL HENDLYSIS LEADING TO KIDNEY AND LIVER DAMAGE. SMALL ANGUNTS OF THE LIQUID ASPIRATED INTO THE LUNGS DURING INGESTION OR FROM VONITING MAY RESULT IN SEVERE LUNG DAMAGE. INGESTION MAY CAUSE CENTRAL MERVOUS SYSTEM DEPRESSION.

11-N103A (page 3)

#### SICHS AND SYMPTOMS

SYMPTOMS OF EYE IRRITATION INCLUDE PAIN, TEARING, REDDENING AND SWELLING, SYMPTOMS OF SKIN IRRITATION INCLUDE REDDENING, SWELLING, RASH AND REDNESS. SYMPTOMS OF RESPIRATORY IRRITATION INCLUDE RUNNY MOSE, SORE THROAT, COUGHING, CHEST DISCOMPORT, SHORTNESS OF BREATH AND REDUCED LUNG FUNCTION. SYMPTOMS OF GASTROINTESTIONAL IRRITATION INCLUDE SORE THROAT, ABDOMINAL PAIN, NAUSEA, VOMITING AND DIARRHEA, CENTRAL NERVOUS SYSTEM DEPRESSION MAY BE EVIDENCED BY HEADACHE, DIZZINESS, NAUSEA AND SYMPTOMS OF INTUXICATION: IN EXTREME CASES. UNCONSCIOUSNESS AND DEATH MAY OCCUR. SYMPTOMS OF CHRONIC OVEREXPOSURE INCLUDE LOSS OF MEMORY. LOSS OF INTELLECTUAL ABILITY AND LOSS OF COORDINATION.

#### AGGRAVATED MEDICAL CONDITIONS

PREEXISTING SKIN. EYE AND RESPIRATORY DISORDERS MAY BE AGGRAVATED BY EXPOSURE TO THIS PRODUCT. IMPAIRED KIDNEY, LIVER, BLOOD, CENTRAL NERVOUS SYSTEM FUNCTIONS FROM PREEXISTING DISORDERS MAY BE ACCRAVATED BY EXPOSURE TO THIS PRODUCT.

#### OTHER HEALTH EFFECTS

BASED ON THE PRESENCE OF COMPONENTS 6. 10 AND 14 CHRONIC OVEREXPOSURE MAY CAUSE INJURY TO THE KIDNEYS AND LIVER. BASED ON THE PRESENCE OF COMPONENT 10 CHRONIC OVEREXPOSURE MAY CAUSE DAMAGE TO THE RED BLOOD CELLS. BASED ON THE PRESENCE OF COMPONENTS 6 AND 10 CHRONIC OVEREXPOSURE MAY CAUSE DAMAGE TO THE LUNGS. BASED ON THE PRESENCE OF COMPONENT 8 CHRONIC OVEREXPOSURE TO TIO2 DUST MAY CAUSE SLIGHT LUNG FIBROSIS. BASED ON THE PRESENCE OF COMPONENT 7 CHRONIC OVEREXPOSURE TO TALC DUST MAY CAUSE SCARRING OF THE LUNGS. BASED ON THE PRESENCE OF COMPONENT 4 CHRONIC OVEREXPOSURE TO PRODUCT DUST MAY PRODUCE A BENIGN PNEUMOCONIOSIS TERMED 'SIDEROSIS'.

SECTION V

EMERGENCY AND FIRST AID PROCEDURES

EVE CONTACT

IMMEDIATELY FLUSH EYES WITH COPIOUS AMOUNTS OF WATER FOR AT LEAST 15 MINUTES HOLDING EYELIDS OPEN. SEEK PROMPT MEDICAL ATTENTION.

#### SKIN CONTACT

REHOVE CONTANTINATED CLOTHING AND SHOES. WIPE EXCESS FROM SKIN AND FLUSH WITH WATER USING SOAP IF AVAILABLE. SEEK MEDICAL ATTENTION TE IRRITATION OCCURS. DO NOT REUSE CLOTHING UNTIL THOROUGHLY DECONTANINATED.

#### INHALATION

REMOVE VICTIM TO FRESH AIR AND TREAT SYMPTOMATICALLY. PROVIDE OXYGEN IF BREATHING IS DIFFICULT. GIVE ARTIFICIAL RESPIRATION IF THE VICTIM IS NOT BREATHING. SEEK PROMPT MEDICAL ATTENTION.

### INGESTION

DO NOT INDUCE VONITING. IF VONITING SPONTANEOUSLY OCCURS. KEEP THE VICTIM'S HEAD BELOW THE HIPS TO PREVENT ASPIRATION INTO THE LUNGS. SINCE ASPIRATION INTO THE LUNGS CAN CAUSE VERY SERIOUS, PERMANENT DAMAGE. THE DECISION OF WHETHER TO INDUCE VOMITING OR NOT SHOULD BE MADE BY A PHYSICIAN. DANGER FROM LUNG ASPIRATION MUST BE WEIGHED AGAINST TOXICITY WHEN CONSIDERING EMPTYING THE STOMACH. CONSULT A PHYSICIAN, HOSPITAL OR POISON CONTROL CENTER AND/OR TRANSPORT TO AN EMERGENCY FACILITY IMMEDIATELY.

>> COMMITTEE 1. 2. 3 AND 12 MAY CAUSE SEVERE. PERMANENT DAMAGE IF ASPIRATED AND VONITING SHOULD NOT BE INDUCED.

FIRE AND EXPLOSION HAZARDS

OSHA FLAMMABILITY CLASSIFICATION

DOT PROPER SHIPPING NAME

FLANHABLE LIQUID - CLASS IB

PAINT

FLASH POINT: 68 degrees F. (Theoretical)

UN1263 PGII

EXTINGUISHING KEDIA

USE VATER FOG. FOAM. DRY CHEMICAL OR CARBON DIOXIDE.

### SPECIAL FIRE FIGHTING PROCEDURES AND PRECAUTIONS

MARNING, FLAMMABLE, CLEAR FIRE AREA OF UNPROTECTED PERSONNEL. DO NOT ENTER CONFINED FIRE SPACE MITHOUT HELMET, FACE SHIFLD, BUNKER COAT. GLOVES. RUBBER BOOTS. AND A POSITIVE PRESSURE NIOSH-APPROVED SELF-CONTAINED BREATHING APPARATUS.

### UNUSUAL FIRE AND EXPLOSION HAZARDS

CONTAINERS EXPOSED TO INTENSE HEAT FROM FIRES SHOULD BE COOLED WITH WATER TO PREVENT VAPOR PRESSURE BUILDUP WHICH COULD RESULT IN CONTAINER RUPTURE. CONTAINER AREAS EXPOSED TO DIRECT FLAKE CONTACT SHOULD BE COOLED WITH LARGE QUANTITIES OF WATER AS NEEDED TO a there are the first PREVENT YEAKENING OF CONTAINER STRUCTURE.

\*\*\* MATERIAL SAFETY DATA SHEET \*\*\*

11-N103A (page 4)

SECTION VII

REACTIVITY

STABILITY : STABLE

HAZARDOUS POLYMERIZATION : WILL NOT OCCUR

CONDITIONS AND MATERIALS TO AVOID

AVOID OXIDIZING MATERIALS. BASED ON THE PRESENCE OF COMPONENT 10 AVOID STRONG ALKALIES.

HAZARDOUS DECOMPOSITION PRODUCTS

CARBON DIOXIDE, CARBON MONOXIDE, AND UNIDENTIFIED ORGANIC COMPOUNDS MAY BE FORMED DURING COMBUSTION.

SECTION VIII

EMPLOYEE PROTECTION

RESPIRATORY PROTECTION

USE VENTILATION AS REQUIRED TO CONTROL VAPOR, MIST, AND/OR DUST CONCENTRATIONS - AT LEAST 10 AIR CHANGES PER HOUR ARE RECONNENDED FOR GOOD GENERAL ROOM VENTILATION. IF EXPOSURE EXCEEDS THE PEL/TLY. USE THE APPROPRIATE NIGSH-APPROVED RESPIRATOR.

PROTECTIVE CLOTHING

WEAR SAFETY GLASSES, GOGGLES, OR A SPLASH SHIELD TO PREVENT EYE CONTACT, CONTACT LENSES SHOULD NOT BE WORN. WEAR APPROPRIATE GLOVES AND PROTECTIVE CLOTHING TO PREVENT CONTACT WITH SKIN AND CLOTHING.

ADDITIONAL PROTECTIVE HEASURES

EYE WASH FOUNTAINS AND SAFETY SHOWERS SHOULD BE AVAILABLE FOR USE IN AN EMFRGENCY.

ENVIRONMENTAL PROTECTION

SPILL OR LEAK PROCEDURES

LARGE SPILLS >> EVACUATE THE HAZARD AREA OF UNPROTECTED PERSONNEL. WEAR APPROPRIATE RESPIRATOR AND PROTECTIVE CLOTHING. SHUT OFF SOURCE OF LEAK ONLY IF SAFE TO DO SO. DIKE AND CONTAIN. IF VAPOR CLOUD FORMS. WATER FOG MAY BE USED TO SUPPRESS; CONTAIN RUN-OFF. REMOVE WITH VACUUM TRUCKS OR PUMP TO STORAGE/SALVAGE VESSELS. SOAK UP RESIDUE WITH AN ABSORBENT SUCH AS CLAY. SAND OR OTHER SUITABLE MATERIAL: PLACE IN NON-LEAKING CONTAINERS FOR PROPER DISPOSAL. FLUSH AREA WITH WATER TO REMOVE TRACE RESIDUE: DISPOSE OF FLUSH SOLUTIONS AS ABOVE. SMALL SPILLS >> TAKE UP WITH AN ABSORBENT MATERIAL AND PLACE IN NON LEAKING CONTAINERS.

WASTE DISPOSAL

OBSERVE ALL FEDERAL. STATE. AND LOCAL REGULATIONS REGARDING PROPER DISPOSAL.

ADDITIONAL PRECAUTIONS

KEEP LIQUID AND VAPOR AWAY FROM HEAT. SPARKS. AND FLAME. EXTINGUISH PILOT LIGHTS. CIGARETTES AND TURN OFF OTHER POSSIBLE SOURCES OF IGNITION PRIOR TO USE AND UNTIL VAPORS ARE GONE. SURFACES THAT ARE SUFFICIENTLY HOT MAY IGNITE PRODUCT IN THE ABSENCE OF SPARKS OR FLAME. VAPORS MAY ACCUMULATE AND TRAVEL TO IGNITION SOURCES DISTANT FROM HANDLING SITE. KEEP CONTAINERS CLOSED WHEN NOT IN USE. USE WITH ADEQUATE VENTILATION, CONTAINERS, EVEN IF EMPTY, CAN CONTAIN EXPLOSIVE VAPORS, DO NOT CUT.DRILL, GRIND, OR WELD HEAR CONTAINERS.

CONTAINERS CAN CONTAIN HAZARDOUS PRODUCT RESIDUES EVEN WHEN EMPTY. WASH WITH SOAP AND WATER BEFORE EATING. DRINKING. SMOKING. OR USING TOILET FACILITIES.

THE INFORMATION CONTAINED HEREIN IS BASED ON THE DATA AVAILABLE TO US AND IS BELIEVED TO BE CORRECT. HOWEVER, WE MAKE NO VARRANTY. EXPRESSED OR IMPLIED. REGARDING THE ACCURACY OF THIS DATA OR THE RESULTS TO BE OBTAINED FROM THE USE THEREOF. WE ASSUME NO RESPONSIBILITY FOR INJURY FROM THE USE OF THE PRODUCT DESCRIBED HEREIN.
